II.	Health information	II.a.	Certificate number	reference	II.b.	
II.1.	Animal health attestation					
	I, the undersigned official veterinarian, hereby certify that the hatching eggs <sup>(1)</sup> described in this certificate:					
TT 1 1	most the mayisians of Directive 00/520/EEC.					

II.1.1 meet the provisions of Directive 90/539/EEC;

II.1.2 come from flocks which have remained on:

(2)(3) either [the territory of code....;]

(3)(4) or [compartment(s).....;]

for at least three months. Where the flocks from which the hatching eggs come were imported into the country, territory, zone or compartment of origin, this took place in accordance with veterinary conditions at least as strict as the relevant requirements of Directive 90/539/EEC and any subsidiary Decisions;

II.1.3 come from:

 $^{(2)(3)}$ either [the territory of code.....;]  $^{(3)(4)}$ or [compartment(s)....;]

- (a) which, at the date of issue of this certificate, was (were) free from Newcastle disease as defined in Regulation(EC) No 798/2008;
- (b) where a surveillance programme for avian influenza according to Regulation (EC) No 798/2008 is carried out;
- II.1.4 come from:

(2)(3) either [the territory of code....;]

(2)(3)(10) or [the territory of code....., excluding any area under official restrictions for low pathogenic avian influenza as defined in Regulation (EC) No 798/2008;]

 $^{(3)(4)}$  or [compartment(s)......]

(3) either [II.1.4.1 which, at the date of issue of this certificate was (were) free from highly pathogenic and low pathogenic avian influenza as defined in Regulation (EC) No 798/2008:]

(3) or [II.1.4.1 which, at the date of issue of this certificate was (were) free from highly pathogenic avian influenza as defined in Regulation (EC) No 798/2008, and

 $^{(3)}$ either

- [(a) were derived from parent flocks which have been kept in an establishment in which avian influenza surveillance has been carried out with negative results within 21 days prior to the time of collection of eggs;]
- (3) or [(a) were derived from parent flocks which have been kept in an establishment in which during the past 21 days prior to the collection of the eggs a virus detection test with negative testing results for avian influenza has been carried out on a random sample of cloacal and tracheal/or oropharyngeal swabs taken from at least 60 poultry in the establishment or from all poultry if less than 60 are present in the establishment;]
  - (b) the hatching eggs come from an establishment:
    - around which within a 1 km radius low pathogenic avian influenza has not been present within the last 30 days on any establishment;
    - where there has been no epidemiological link to an establishment where avian influenza has been detected within the last 30 days;]
- II.1.5 were derived from parent flocks which:

(3) either [have not been vaccinated against avian influenza;]

II.	Health	n information	II.a.	Certificate number	reference	II.b.	
	Date	of last sampling of	the paren	t flock from	which the	testing result is known:	
	Result of all testing in the parent flock:						
	(3)(6) either[positive;] (3)(6) or [negative;]						
<sup>(5)</sup> [II.2.2	Neither <i>Salmonella</i> Enteritidis nor <i>Salmonella</i> Typhimurium were detected within the control programme referred to in point II.2.1.]						
II.3.	Animal health additional guarantees						
	I, the undersigned official veterinarian, further certify that:						
<sup>(7)</sup> [II.3.1	where the consignment is intended for a Member State the status of which has been established in accordance with Article 12(2) of Directive 90/539/EEC, the hatching eggs described in this certificate are derived from poultry which:						
(3)either	[have 1	not been vaccinated ag	ainst Newca	stle disease;]			
(3) or		been vaccinated agains		_			
<sup>(3)</sup> or	-	been vaccinated agains te the eggs were collect		disease using a	a live vaccine	at the latest 60 days before	
<sup>(8)</sup> [II.3.2		lowing additional guar articles 13 and/or 14 of				of destination in accordance	
(7)						;]	
<sup>(7)</sup> [II.3.3	if the Member State of destination is Finland or Sweden, the hatching eggs come from flocks which have tested negative in accordance with the rules laid down in Commission Decision 2003/644/EC.]						
II.4.	Additi	onal health requirem	ents				
(0)		indersigned official ve		-			
<sup>(8)</sup> [II.4.1	although the use of vaccines against Newcastle disease which do not fulfil the specific requirements of Annex VI (II) to Regulation (EC) No 798/2008 is not prohibited in:						
		rritory of code					
(3)(4)or		artment(s)					
		ultry from which the ha					
	(a) has not been vaccinated for at least the previous 12 months with such vaccines;						
(b) comes from a flock or flocks that underwent a virus isolation test for Newcastl carried out in an official laboratory not earlier than 14 days preceding consigning random sample of cloacal swabs from at least 60 birds in each flock concern which no avian paramyxoviruses with an Intracerebral Pathogenicity Index more than 0,4 have been found;					receding consignment on a ach flock concerned and in		
	(c) has not been in contact during the last 60 days before consignment with poultry the not fulfil the conditions in (a) and (b);						
	(d) has been kept in isolation under official surveillance on the establishment of origin in 14-day period mentioned in (b).]						
II.5.	Animal transport attestation						
	I, the undersigned official veterinarian, further certify that:						
II.5.1	the hatching eggs are transported in perfectly clean disposable boxes used for the first time and which:						
	<ul> <li>(a) contain only hatching eggs of the same species, category and type coming from the same establishment;</li> </ul>						
	(b) bear the following indications:						
	- the word "hatching",						
	<ul> <li>the name of the country, territory, zone or compartment of consignment,</li> </ul>						
	<ul> <li>the species of poultry concerned,</li> </ul>						

### HEP (hatching eggs of poultry other than ratites)

II.	Health information	II.a.	Certificate number	reference	II.b.	
	<ul> <li>the number of eggs,</li> </ul>					
	<ul> <li>the category and type of production for which they are intended,</li> </ul>					

- the name, address and approval number of the production establishment,
- the approval number of the establishment of origin,
- the Member State of destination;
- are closed in accordance with the instructions of the competent authority to avoid any (c) possibility of substitution of the contents;
- II.5.2 the containers and vehicles in which the boxes mentioned above have been transported have been cleansed and disinfected before loading in accordance with the instructions of the competent authority.

#### Notes

#### Part I:

- Box I.8: provide the code for the zone or the compartment of origin, if necessary, as defined under code in column 2 of Part 1 of Annex I to Regulation (EC) No 798/2008.
- Box I.11: Name, address and approval number of the breeding establishment.
- Box I.15: Indicate the registration number(s) of railway wagons and lorries, the names of ships and, if known, the flight numbers of aircraft. In the case of transport in containers or boxes, the total number of these and their registration and where there is a serial number of the seal it has to be indicated in box I.23.
- Box I.28 (Category): select one of the following: Pure line/grandparents/parents/laying pullets/eggs of turkeys for consumption/others; (Identification system & Identification number): introduce the egg mark.

#### Part II:

- For hatching eggs of poultry as defined in Regulation (EC) No 798/2008 with the exception of (1)
- Code of the territory as it appears in column 2 of Part 1 of Annex I to Regulation (EC) No (2) 798/2008.
- Keep as appropriate. (3)
- Insert the name of compartment(s). (4)
- Apply to the poultry which belongs to the species Gallus gallus. (5)
- If any of the results were positive for the following serotypes during the life of the parent flock, (6) indicate as positive: Salmonella Infantis, Salmonella Virchow and Salmonella Hadar.
- (7) To delete if consignment is not intended for Finland and Sweden.
- (8)Keep if appropriate.
- At the time of consignment the eggs must be individually marked in accordance with (9)Commission Regulation (EEC) No 1868/77, including the approval number of the breeding establishment, in indelible black ink; such markings must be in legible writing and in at least one Community language.
- (10)This option only applies for Canada.

This certificate is valid for 10 days.
