Addendum to accompany the FSIS Letterhead Certificate for the Export of Frozen or Chilled Poultry Meat to Chile

Protocol attached to the Sanitary Certificate Nº_____[1]
Protocolo anexo al certificado sanitario número _____[1]

The Official Veterinary Officer (OVO) certifies that,
El Médico Veterinario Oficial certifica que,

1) The birds from which the meat derives were vaccinated with a killed virus vaccine against a low pathogenic avian influenza virus subtype that is not notifiable to the OIE.
   Las aves que dieron origen a la carne fueron vacunadas con una vacuna inactivada de un virus de la influenza aviar de baja patogenicidad no notificable a la OIE.

Or[2] / *O[2]*

2) The birds from which the meat derives were vaccinated with a killed virus vaccine against a low pathogenic avian influenza virus subtype H5 or H7, and a surveillance strategy permitting differentiation of infected and vaccinated animals was used to rule out H5 and H7 viral circulation.
   Las aves que dieron origen a la carne fueron vacunados con una vacuna inactivada de un virus de la influenza aviar de baja patogenicidad del subtipo H5 o H7, y se les aplicó una estrategia de vigilancia DIVA (differentiation of infected and vaccinated animals) que permitió descartar circulación viral de los subtipos H5 o H7.
