

1st Infantry Division C4 Skills Training Facility

The 1st Infantry Division C4 (Command and Control, Communications and Computers) Skills Training Facility has the flexibility to offer courses for on-site training, pre-deployment training, as well as formal classroom training. The facility offers a curriculum that supports the Warfighter in both garrison and deployment.

Department of Defense Directorate 8570.1 states that IASOs will soon be required to be certified in A+, Network+ or Security+. We offer these courses at 1ID C4STF to ensure 1ID units meet their IASO requirement, as well as assist with certification testing.

1ID C4STF offers a wide range of courses. Each course offered is directed by the DOA to be worth promotion points for advancement.

Partnership with Barton County Community College allow Soldiers attending classes at 1ID C4STF to receive college credit for most courses taken.

No Mission too Difficult...

No Sacrifice too Great...

DUTY FIRST!

Training Solutions

The 1ID C4 Skills Training Facility provides 1ID Soldiers with a training opportunity to become more proficient in executing their mission. The facility provides unit leaders with a valuable tool to enhance Soldier and unit readiness. The goals of the facility are as follows:

- Provide specific duty related training on current and future equipment and methodologies.
- Reinforce classroom instruction with hands on training that sets the example for field execution.
- Cover material not taught in MOS institutional courses, giving Soldiers the additional knowledge to succeed.
- Assists in compliance of Information Assurance DoD Directive 8570.1
- Pearson Vue Testing Site, allowing on-site testing of most certifications.
- College credit given for most courses offered at the 1ID C4STF through Barton County Community College.
