

Kevin M. Crofton, Ph.D.

Dr. Kevin Crofton is the Acting Deputy Director with EPA's National Center for Computational Toxicology. He received his Ph.D. in Toxicology from the University of North Carolina at Chapel Hill in 1986. He has been working for the over 20 years as a neurotoxicologist at the US Environmental Protection Agency's Office of Research and Development in Research Triangle Park, North Carolina. His research interests include developmental neurotoxicity, with an emphasis on the use of mode-of-action models to improve chemical mixtures risk assessments. He is an Adjunct Assistant Professor in the Department of Toxicology at North Carolina State University and the Curriculum in Toxicology, University of North Carolina at Chapel Hill. Dr. Crofton's professional activities include membership in numerous scientific societies and participation on many professional review boards. He has presented invited lectures for a variety of government agencies in Europe, Canada, and the U.S., and for numerous professional societies and universities. In addition, he has authored or coauthored at least nine book chapters or reviews and over 125 peer reviewed publications.
