APPENDIX 1 CASE STUDIES

Appendix 1: Case Studies 57
Purpose 57
Organization 57
Case 1: Withdrawal and Use by a Single User (MSS1) 57
Case 2: Withdrawal and Use by an Aggregate of Users (Aggregate Use-MCD) 65
Case 3: Withdrawal and Distribution by a Simple Community-Water System (CWS1) 71
Case 4: Use and Return by a Single User (MSS2) 88
Case 5: Use and Return by an Aggregate of Users (Aggregate User-HUC) 95
Case 6: Collection and Return by a Simple Community-Wastewater System (WTP1) 101
Case 7: Withdrawal, Use, and Return by a Simple User (MSS1) 114
Case 8: Withdrawal, Distribution from a Community-Water System, Use, Collection to a Community-Wastewater System, and Return by a Complex User (MCU1) 122
Case 9: Withdrawal and Regional and Local Distribution by a Complex Community-Water System (CWS1, CWS2) 132
Case 10: Regional and Local Collection and Return by a Complex Community-Wastewater System (WTP1, WTP2) 163

APPENDIX 1 FIGURES

Appendix 1_Figure 34a. Form showing data for Case Study 1 on NEWUDS Single User Input Form 1 58
Appendix 1_Figure 34b. Form showing data for Case Study 1 on NEWUDS Transaction/Rate Data Input Form 9 59
Appendix 1_Figure 35. Diagram showing Network 1: Diagram for Case Study 1: Withdrawal and use by a single user (MSS1) 60
Appendix 1_Figure 36. Diagram showing link of Site and Conveyance tables to Transaction and Rate tables for Case Study 1: Withdrawal and use by a single user (MSS1) 61
Appendix 1_Figure 37. Form showing data for Case Study 2 on NEWUDS Aggregate of Users Input Form 3 66
Appendix 1_Figure 38. Diagram showing Network 2: Diagram for Case Study 2: Withdrawal and use by an aggregate of users (Aggregate user-MCD) 67
Appendix 1_Figure 39. Diagram showing link of Site and Conveyance tables to Transaction and Rate tables for Case Study 2: Withdrawal and use by an aggregate of users (Aggregate user-MCD) 68
Appendix 1_Figure 40a. Form showing data for Case Study 3 on NEWUDS Community-Water System Input Form 6 72
Appendix 1_Figure 40b. Form showing data for Case Study 3 on NEWUDS Transaction/Rate Data Input Form 9 74
Appendix 1_Figure 41. Diagram showing Network 3: Diagram for Case Study 3: Withdrawal and distribution by a simple community-water system (CWS1) with aggregates of users and unaccounted-for water 75
Appendix 1_Figure 42. Diagram showing link of Site and Conveyance tables to Transaction and Rate tables for Case Study 3: Withdrawal and distribution by a simple community-water system (CWS1) with aggregates of users and unaccounted-for water 76
Appendix 1_Figure 43a. Form showing data for Case Study 4 on NEWUDS Single User Input Form 1 89
Appendix 1_Figure 43b. Form showing data for Case Study 4 on NEWUDS Transaction/Rate Data Input Form 9 90
Appendix 1_Figure 44. Diagram showing Network 4: Diagram for Case Study 4: Use, consumptive use, and return by a single user (MSS2) 91
Appendix 1_Figure 45. Diagram showing link of Site and Conveyance tables to Transaction and Rate tables for Case Study 4: Use, consumptive use, and return by a single user (MSS2) .. 91
Appendix 1_Figure 46. Form showing data for Case Study 5 on NEWUDS Aggregate Users Input Form 3 ... 96
Appendix 1_Figure 47. Diagram showing Network 5: Diagram for Case Study 5: Use and return by an aggregate of users (Aggregate user-HUC) 97
Appendix 1_Figure 48. Diagram showing link of Site and Conveyance tables to Transaction and Rate tables for Case Study 5: Use and return by an aggregate of users (Aggregate User-HUC) 98
Appendix 1_Figure 49a. Form showing data for Case Study 6 on NEWUDS Community-Wastewater System Input Form 8 102
Appendix 1_Figure 49b. Form showing data for Case Study 6 on NEWUDS Transaction/Rate Data Input Form 9 103
Appendix 1_Figure 50. Diagram showing Network 6: Diagram for Case Study 6: Collection and return by a simple community-wastewater system (WTP1) with aggregates of users and inflow and infiltration 105

Appendix 1_Figure 51. Diagram showing link of Site and Conveyance tables to Transaction and Rate tables for Case Study 6: Collection and return by a simple community-wastewater system (WTP1) with aggregates of users and inflow and infiltration 106
Appendix 1_Figure 52a. Form showing data for Case Study 7 on NEWUDS Single user Input Form 1 115
Appendix 1_Figure 52b. Form showing data for Case Study 7 on NEWUDS Transaction/Rate Data Input Form 9 116
Appendix 1_Figure 53. Diagram showing Network 7: Diagram for Case Study 7: Withdrawal, use, consumptive use, and return by a simple single user (MSS1) 116
Appendix 1_Figure 54. Diagram showing link of Site and Conveyance tables to Transaction and Rate tables for Case Study 7: Withdrawal, use, consumptive use, and return by a simple single user (MSS1) 117
Appendix 1_Figure 55a. Form showing data for Case Study 8 on NEWUDS Single User Input Form 1 123
Appendix 1_Figure 55b. Form showing data for Case Study 8 on NEWUDS Transaction/Rate Data Input Form 9 124
Appendix 1_Figure 56. Diagram showing Network 8: Diagram for Case Study 8: Withdrawal, distribution from a community-water system, use, consumptive use, collection to a community-wastewater system, and return by a complex single user (MCU1) 125
Appendix 1_Figure 57. Diagram showing link of Site and Conveyance tables to Transaction and Rate tables for Case Study 8: Withdrawal, distribution from a community-water system, use, consumptive use, collection to a community-wastewater system, and return by a complex single user (MCU1) 126
Appendix 1_Figure 58a. Form showing data for Case Study 9 on NEWUDS Community-Water System Input Form 6 133
Appendix 1_Figure 58b. Form showing data for Case Study 9 on NEWUDS Transaction/Rate Data Input Form 9 135
Appendix 1_Figure 59. Diagram showing Network 9a: Diagram for Case Study 9: Modeling transfer between reservoirs used by a complex community-water system (CWS1) 136
Appendix 1_Figure 60. Diagram showing Network 9: Diagram for Case Study 9: Withdrawal and regional and local distribution by a complex community-water system (CWS1, CWS2) with aggregates of users and unaccounted-for water 137
Appendix 1_Figure 61a. Form showing data for Case Study 10 on NEWUDS Community-Wastewater System Input Form 8 164
Appendix 1_Figure 61b. Form showing data for Case Study 10 on NEWUDS Transaction/Rate Data Input Form 9 166
Appendix 1_Figure 62. Diagram showing Network 10: Diagram for Case Study 10: Regional and local collection and return by a complex community-wastewater system (WTP1, WTP2) with aggregates of users and inflow and infiltration 167

APPENDIX 1 TABLES

Appendix 1_Table 12. Data entry into NEWUDS tables for Case Study 1: Withdrawal and use by a single user (MSS1) 62

Appendix 1_Table 13. Data entry into NEWUDS tables for Case Study 2: Withdrawal and Use by an aggregate of users (Aggregate User-MCD) 69

Appendix 1_Table 14. Data entry into NEWUDS tables for Case Study 3: Withdrawal and distribution by a simple community-water system (CWS1) with aggregates of users and unaccounted-for water 77

Appendix 1_Table 15. Data entry into NEWUDS tables for Case Study 4: Use and return by a Single User (MSS2) 92

Appendix 1_Table 16. Data entry into NEWUDS tables for Case Study 5: Use and Return by an Aggregate of Users (Aggregate User-HUC) 99

Appendix 1_Table 17. Data entry into NEWUDS tables for Case Study 6: Collection and return by a simple community-wastewater system (WTP1) with aggregates of users and inflow and infiltration 107

Appendix 1_Table 18. Data entry into NEWUDS tables for Case Study 7: Withdrawal, Use, Consumptive Use, and Return by a Simple Single User (MSS1) 118

Appendix 1_Table 19. Data entry into NEWUDS tables for Case Study 8: Withdrawal and distribution from a community-water system, use, consumptive use, collection to a community-wastewater system, and return by a complex single user (MCU1) 127

Appendix 1_Table 20. Data entry into NEWUDS tables for Case Study 9: Withdrawal and regional and local distribution by a complex community-water system (CWS1, CWS2) with aggregates of users and unaccounted-for water 138

Appendix 1_Table 21. Data entry into NEWUDS tables for Case Study 10: Regional and local collection and return by a complex community-wastewater system (WTP1, WTP2) with aggregates of users and inflow and infiltration 168
