## Preface

## Introduction

This Noise Guidebook has been prepared to serve as the basic reference document for all HUD field staff who are responsible for implementing the Department's noise policy. It brings together in one place all the various reports, informational papers and other items that have been put out by the Department over the past several years. It also contains several new items designed to make your job easier.

This Guidebook is designed to serve not only the experienced HUD staff member but also the new employee or the old employee who is new to the noise field. Because of this, the Guidebook contains some fairly basic background material as well as quizzes and other material specifically geared for the "learner."
