

Public CR ROW Wind Energy Projects

Menu Option: CR ROW Wind Energy Projects

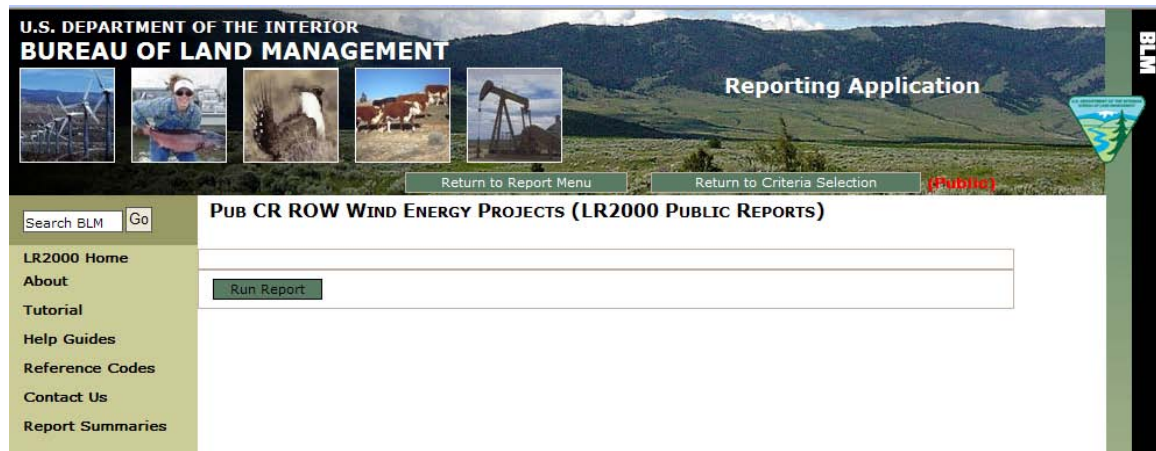

Purpose:

This report will be used by WO lands and budget offices to track the number of pending wind energy development projects, testing and development applications and existing wind energy development projects on public lands.

This report is used to provide information to the Department and others seeking information on the BLM renewable workload.

Procedure:

1. Select **CR Wind Energy Projects** from the reporting menu.

Process Report:

2. Click **Run Report**.

When the processing has completed, the cursor will change from an hourglass back to an arrow and the **Pending Wind Energy Development Projects** report will be displayed.

There are additional report formats available. To see the additional reports click on the down arrow next to the report name on the top left of the screen as shown below.

Pending Wind Energy Development Projects

This report lists by admin state the project name, megawatt and serial number of all Pending Wind Energy Development Projects at the time the report is run.
