

Trucks and Terrorism ~ Seminar / Workshop

Rapid Risk Recognition, Assessment, and Response

Description

The 6- to 8-hour Situational Awareness Seminar is free of charge. There are no registration fees or tuition charges. This seminar is hosted by law enforcement agencies, transportation security, or other CMV industry officials, and is presented by representatives of the U.S. Department of Transportation's Federal Motor Carrier Safety Administration.

Seminar emphasis is on the identification and interdiction of a "threat" **before** an incident or a suspect truck enters a workplace or community. Attendees will receive an introduction to simple and time-proven techniques that support the development of a *totality of the circumstance* assessment of everyday scenarios. Using the techniques demonstrated in this seminar has enabled countless officials to successfully identify and interdict in-transit criminals **while** a crime was being committed, or **before** a crime or act of violence.

The workshop provides attendees an opportunity to formulate, review, or improve their security plan, while learning techniques to enhance risk recognition skills.

Target Audience - The seminar/workshop is designed for attendance and participation by:

- Government Officials
- Law Enforcement Personnel
- Motor Carrier Officials
- CMV Industry Managers
- Military Personnel
- Transportation Security Managers

Topics and Presentations	<i>Objectives include providing:</i>
Use of CMV's by Terrorists	<i>a brief history</i>
