CRP ENROLLMENT ACTIVITY AND NEWS –August 2010

- There are now 96,994 acres of signup 38 contracts approved for FY 2011 enrollment (p. 3). This complicates the tables because some of these acres represent double counting if they are a re-enrollment of a FY 2010-expiring contract. Table and chart footnotes explain whether the FY 2011 contracts are included or not.
- Overall, acreage under contract remained virtually unchanged from July. The table on page 14 shows an increase in enrollment during August because this table includes contracts that do not start until FY 2011.
- Signup 38 (FY 2010 continuous signup) increased 16,741 acres in July to 313,356 acres. Last year signup 37 had enrolled 304,638 acres through August.
- FY 2009 enrollment ended at 33.72 million acres. Following the expiration of 2.79 million acres, FY 2010 began with 30.93 million acres under contract. Adding 367,000 acres under FY 2010 contracts approved since October 2009 left enrollment at the end of August at 31.30 million acres, a net decline of 2.42 million acres from September 2009 (p. 17).
- Contracts approved during the recently concluded general signup (#39) will begin in FY 2011 and are expected to be loaded into the active contract file sometime during FY 2011.

General Signup. Producers with eligible lands compete nationally for acceptance based on an environmental benefits index (EBI) during specified enrollment periods. Producers may submit offers below soil-specific maximum rental rates and select wildlife-enhancing vegetative covers to increase EBI ranking.

Continuous (Non-CREP) Sign-up. Producers with eligible lands may enroll certain high priority conservation practices, such as filter strips, riparian buffers, and wetlands at any time during the year without competition. In addition to annual soil rental payment and cost-share assistance, many practices are eligible for additional annual and one-time up-front financial incentives. Land enrolled under various initiatives are included in this category.

Conservation Reserve Enhancement Program (CREP). Under CREP agreements, Federal/State partnerships, implement projects designed to address specific environmental objectives through targeted CRP enrollments. Sign-up is held on a continuous basis, general sign-up practices may be included, and additional financial incentives are generally provided. Currently, there are 44 agreements in 33 States.

Farmable Wetland Program (FWP). Producers enroll small non-flood plain wetlands, and new practices added by the 2008 Farm Bill, under modified continuous sign-up provisions.

The accompanying tables are based on contract data developed and maintained in CRP data files by USDA Service Centers through August 31, 2010, and are based on the physical location of the CRP contracted land. Some adjustments have been made to correct miscoded data in the active contract files.

Note: Contracts re-enrolled under 2006's re-enrollment and extension offer (REX) are not considered to expire when the current contracts expire, because new contracts will begin immediately after expiration.
