CRP ENROLLMENT ACTIVITY AND NEWS –June 2010

- There are now 67,901 acres of signup 38 contracts that are approved for FY 2011 enrollment (p. 3). This complicates the tables because some of these acres represent double counting if they are a re-enrollment of a FY 2010 expiring contract. Table and chart footnotes explain whether the FY 2011 contracts are included or not.
- Early enrollments of the three new FWP practices have been recorded. There are 4,139 acres of aquaculture wetlands (CP40) mostly in Louisiana and Mississippi, and 13,000 acres of flooded prairie wetlands (CP41), primarily in the Dakotas (p. 22).
- Sign-up 38 (FY 2010 continuous sign-up) increased 30,450 acres in June to 273,695 acres. Last year signup 37 had enrolled 258,283 acres through June.
- Overall continuous signup enrollment increased 29,480 acres and general signup decreased 9,053 during June, a net increase of 20,427 acres (p. 14).
- FY 2009 enrollment ended at 33.72 million acres. Following the expiration of 2.79 million acres, FY 2010 began with 30.93 million acres under contract. Adding 368,000 acres under FY 2010 contracts approved since October 2009 left enrollment at the end of June at 31.30 million acres, a net decline of 2.42 million acres from September 2009 (p. 17).

Note: Does not include cost-share and technical assistance payments.

General Signup. Producers with eligible lands compete nationally for acceptance based on an environmental benefits index (EBI) during specified enrollment periods. Producers may submit offers below soil-specific maximum rental rates and select wildlife-enhancing vegetative covers to increase EBI ranking.

Continuous (Non-CREP) Sign-up. Producers with eligible lands may enroll certain high priority conservation practices, such as filter strips, riparian buffers, and wetlands at any time during the year without competition. In addition to annual soil rental payment and cost-share assistance, many practices are eligible for additional annual and one-time up-front financial incentives. Land enrolled under various initiatives are included in this category.

Conservation Reserve Enhancement Program (CREP). Under CREP agreements, Federal/State partnerships, implement projects designed to address specific environmental objectives through targeted CRP enrollments. Sign-up is held on a continuous basis, general sign-up practices may be included, and additional financial incentives are generally provided. Currently, there are 44 agreements in 33 States.

Farmable Wetland Program (FWP). Producers enroll small non-flood plain wetlands, and the new practices added by the 2008 Farm Bill, under modified continuous sign-up provisions.

The accompanying tables are based on contract data developed and maintained in CRP data files by USDA Service Centers through June 30, 2010, and are based on the physical location of the CRP contracted land. Some adjustments have been made to correct mis-coded data in the active contract files.

Note: Contracts re-enrolled under 2006's re-enrollment and extension offer (REX) are not considered to expire when the current contracts expire, because new contracts will begin immediately after expiration.
