NextGen

Next Generation Air Transportation System

Let Aviation's Challenge Become Your Opportunity

Let Your Ideas Take Flight

It's a Great Time To Be at the FAA

BE AN INNOVATOR

The FAA is working on one of the most challenging and exciting technological advances in aviation since the Wright brothers' first flight. And you can be part of it!

The second century of aviation will see a total change in how air traffic operates—in the United States and around the globe. We need you and your fresh ideas to re-shape the air transportation system and the way America flies. The Next Generation Air Transportation System, or NextGen, is a history-making initiative of a magnitude and complexity never before accomplished. This is a pivotal moment for the nation. Come aboard!

THE NEXT GENERATION OF FLIGHT IS UNDER WAY

NextGen is a fundamental transformation for aviation, changing the way we communicate, navigate and conduct surveillance in the air and on the ground. It uses satellite-based technologies to accommodate more aircraft. New procedures and direct routes avoid gridlock on runways and in the sky. Our new ways to fly will improve aviation safety and protect the environment.

THE NEXT GENERATION CAREER CHOICE

At the FAA we develop new technologies and procedures so that we can continue to provide the safest, most efficient aviation system in the world—a system that is critical to the nation's economy and security. To move NextGen forward, we need a workforce that can keep pace with technological innovation, rapidly changing customer and supplier market environments, and the stringent safety and reliability demands of aviation. We need you to continue the mission that has made American aviation the standard the world follows.

EMPLOYEE BENEFITS

At the FAA, we recognize that your life is much more than your job. That is why we offer our employees a robust benefits package, including competitive salaries, to make life a little easier. Some of these excellent benefits include:

PAID TIME OFF

- Federal Holidays—10 paid holidays each year
- Vacation/Personal Leave—13-26 paid days each year (accrual based on years of service)
- Sick Leave—13 paid days each year

HEALTH AND LIFE INSURANCE

- Federal Employees Health Benefits (FEHB) Program
- Flexible Spending Accounts (FSAs)
- Federal Employees' Group Life Insurance (FGLI)

QUALITY OF WORK/LIFE

- Flexible Hours/Alternate Work Schedules
- Diversity Training, Education and Special Emphasis Programs
- Domestic and International Travel Opportunities
- Relocation Assistance
- Child Care Resources

RETIREMENT

- Federal Employees Retirement System (FERS)
- Thrift Savings Plan (TSP) – the Government's version of 401(k)

TRAINING AND DEVELOPMENT PROGRAMS

The FAA has a strong commitment to provide the highest quality training to our employees. This commitment has helped our employees ensure that the United States has the safest airspace system in the world.

To achieve the NextGen vision, we deliver a wide array of professional training and development opportunities to our workforce. Each training engagement is an opportunity for employees to learn, grow and develop throughout their careers. As an FAA employee you will have access to an exceptional suite of learning opportunities. Some training opportunities include:

- Acquisition Workforce Program: Systems Engineering, Enterprise Architecture, Acquisition Management, Cost Estimating, Project and Program Management, Contracting
- Business Acumen Program: Financial Management, Business Analytics
- Stevens Institute of Technology: Graduate Certificate Program in Systems Engineering
- Program for Emerging Leaders and Executive Leadership Program
- Web-based Electronic Learning Management System: More than 2,200 e-learning opportunities
