

August 19, 2002

APPLICANT: Exelon Generation Company, LLC

FACILITY: Peach Bottom Atomic Power Station, Unit Nos. 2 and 3

SUBJECT: SUMMARY OF PUBLIC MEETING HELD TO DISCUSS THE DRAFT SUPPLEMENTAL ENVIRONMENTAL IMPACT STATEMENT REGARDING LICENSE RENEWAL FOR THE PEACH BOTTOM ATOMIC POWER STATION, UNIT NOS. 2 AND 3

On Wednesday, July 31, 2002, members of the U.S. Nuclear Regulatory Commission (NRC) staff held public meetings in Delta, Pennsylvania, to discuss the staff's draft Supplemental Environmental Impact Statement (SEIS) regarding license renewal for the Peach Bottom Atomic Power Station (Peach Bottom), Unit Nos. 2 and 3. The staff prepared the draft SEIS in response to the application submitted by Exelon Generation Company, LLC (Exelon) for renewal of the operating licenses for Peach Bottom, Unit Nos. 2 and 3. Afternoon and evening sessions were held to allow maximum public participation. Formal presentations were made by John Tappert, Raj Anand, and Louis Wheeler of the NRC staff, and Bruce McDowell of Lawrence Livermore National Laboratory, working under contract to the NRC.

Enclosure 1 is the corrected transcript for the afternoon meeting and Enclosure 2 is a corrected transcript for the evening meeting. Enclosure 3 is a copy of the NRC staff's presentation slides. Enclosure 4 is the combined List of Attendees for both the afternoon and evening sessions.

The purpose of the meetings was to provide the public with a summary of the NRC staff's findings in the draft SEIS and give them an opportunity to provide comments on the draft. The SEIS is a Peach Bottom plant-specific supplement to the "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (NUREG-1437). Each meeting was preceded by a 1-hour "open house" hosted by the NRC to allow members of the public to talk to the staff in a less formal setting.

The staff presentations in the meetings outlined the overall license renewal process, provided a description of the National Environmental Policy Act review process, summarized the results of the staff's review (as documented in the SEIS), and gave information concerning the means available to the public to submit comments. The comment period on the draft SEIS ends on September 17, 2002.

After the formal presentations, given by the NRC staff, members of the public were invited to provide comments. Approximately 80 people attended the two sessions and 17 persons made comments. Attendees included representatives of the NRC; Exelon and the nuclear industry; State government officials; the press; and members of the public at large.

The NRC staff will review the comments made at the meetings, along with any other comments submitted to the NRC during the comment period. The staff will then revise the SEIS, as appropriate, and issue the final version by February 2003.
