GOP Budget Bill: Members passed, 247-181, a GOP bill to fund the military through Sept. 30 while funding the rest of the government through April 15 with \$12 billion in budget cuts and a ban on locally funded abortions in the District of Columbia. A yes vote backed HR 1363 over Democratic assertions it will never become law.

Democratic Budget Bill: Voting 236-187, members tabled (killed) a Democratic bid to bring an alternative to HR 1363 (above) to a vote. A yes vote was to block consideration of a bill to keep the government open through April 15 but without the Republicans' budget cuts or policy changes.

Military Pay: Members defeated, 191-236, a Democratic bid to ensure no loss of military pay in a government shutdown. The underlying GOP bill (HR 1363) contains the same guarantee. Both sides appear to agree military pay could be interrupted but never reduced as a result of a shutdown. A yes vote backed the Democratic motion.

Greenhouse Gases: Members passed, 255-172, a bill denying the Environmental Protection Agency (EPA) power to regulate greenhouse-gas emissions linked to climate-change and challenging the science upon which those regulations are based. A yes vote was to pass HR 910.

Climate Science: Members defeated, 184-240, a measure stating Congress accepts EPA's "scientific findings...that climate change is occurring, is caused largely by human activities, and poses significant risks for public health and welfare." A yes vote backed the amendment to HR 910.

Child and Senior Health: Members defeated, 175-251, a Democratic bid to add language ensuring that under HR 910 (above) the EPA would still protect children and seniors from the effects of carbon pollution. A yes vote backed the bid over GOP arguments it was a tactic intended to sidetrack the bill.
