ASSIGNMENTS FROM 1/5-6/99
SLICE MEETING

BPA

Inventory Solution – Provide further detail on (1) what is included in the Inventory Solution and (2) what customers will be responsible for paying the costs

Transmission Surcharge – Consider PGP's transmission surcharge issue; discuss at 1/26 meeting when TBL is present

Buy Back – Give some more thought to what load is included in Native Firm Load; consider concerns expressed regarding (1) 6-hour sustained peak (including application in other subscription products) and (2) possible influence on customers' ability to observe nonpower requirements on their system; consider suggestion that if peak numbers have to be used, 24-hour sustained is more appropriate; consider suggestion that BPA use methodology from current computed requirements contracts

Renewal Rights – Consider putting in placeholder that the parties will consider putting a renewal provision in the contract

Treatment of Participants within BPA's Control Area – Consider adding language saying it may be possible to treat as nested control area

Forecast and Data Information – Compile exhibit of forecast and data information to be sent to Participants

Rate of Change for Storage – Consider whether there should be a maximum rate of change for storage

Load Following – Revise language in Straw Proposal regarding load following

Market Displacement of WNP 2 – Write up proposal

Customers

Inventory Solution – Prepare proposal regarding treatment of post-2006 Inventory Solution

Capital Investment – Prepare proposal

Transmission Surcharge – Prepare proposal

Buy Back – Prepare proposal

Replacements – Further consideration of whether current treatment of FBS replacements is acceptable (it is to most of the representatives present)

Market Displacement of WNP 2 – Double check treatment of fuel costs (Terry Mundorf); consider BPA proposal

Renewal Rights – Prepare proposal

Converting to other Subscription Products if Contract Invalidated – BPA agrees with principle, customers will prepare proposal (Ray)

Slice System Storage Account – Work through whether there is an issue
