

Department of Veterans Affairs (VA) Executive Order 13520 – Reducing Improper Payments FY 2010 Fourth Quarter High-Dollar Overpayments Report

The President signed Executive Order 13520, “Reducing Improper Payments” on November 20, 2009. On March 22, 2010, the Office of Management and Budget (OMB) issued government-wide guidance on the implementation of the Executive Order. The guidance is under Part III, Appendix C of OMB Circular A-123. This guidance requires agencies with programs susceptible to significant improper payments to submit to the agency’s Inspector General and the Council of Inspectors General on Integrity and Efficiency, and make available to the public, a quarterly report on any high-dollar overpayments identified by the agency.

In its 2009 Performance and Accountability Report, VA reported three programs under the Veterans Benefits Administration (VBA), and two programs under the Veterans Health Administration (VHA) that meet the Improper Payments Information Act of 2002 (IPIA) thresholds for susceptibility to significant improper payments. These programs are Compensation, Pension, Education, Non-VA Care Fee, and Non-VA Care Civilian Health and Medical Program of the Department of Veterans Affairs (CHAMPVA).

In accordance with OMB Circular A-123, Appendix C, Part III, VBA and VHA reviewed the five programs that were susceptible to significant improper payments. The OMB guidelines define a high-dollar improper payment as any payment in excess of 50 percent of the correct amount of the intended payment under the following circumstances:

1. Where the total payment to an individual exceeds \$5,000 as a single payment or in cumulative payments for the quarter; or
2. Where a payment to an entity exceeds \$25,000 as a single payment or in cumulative payments for the quarter.

The OMB guidelines require that agencies submit, on a quarterly basis, a report to:

1. List all high-dollar overpayments identified by the agency during the quarter;
2. Describe whether each high-dollar overpayment was made to an entity or individual, and the city/county and state where that entity or individual was located;
3. List the program responsible for each high-dollar overpayment error;
4. Describe any actions the agency has taken or plans to take to recover high-dollar overpayments; and
5. Describe any actions the agency will take to prevent overpayments from occurring in the future.

The report is divided into five parts for each program area and the high-dollar overpayments are identified from the highest to lowest overpayments within each program area. In addition to OMB’s guidelines, our report includes two additional categories: the cause of overpayment and the status of overpayment. The status of an overpayment will be “collection in progress,” “collection in full,” or “collection terminated” for a deceased beneficiary. Collection in progress is defined as actions taken by VA to recover from future benefit awards or payments, referral to the Treasury Offset Program, or request to return money that was paid after the death of a beneficiary through reclamation procedures. Veterans also have dispute and waiver request rights during the collection processes.

1. Compensation Program

The Compensation and Pension Service identified 220 high-dollar compensation overpayments.

Fifty-nine overpayments (27 percent) were created due to the death of the beneficiary. Entitlement to benefits ceases effective the first day of the month in which death occurs. These overpayments are caused when a beneficiary dies too late in a month to stop the release of the payment for the month of death, or when VA is not timely notified of the death of a beneficiary.

Thirty-seven overpayments (17 percent) were caused by retroactive adjustments due to incarceration of the beneficiary. Notification of incarceration is a function of agreements made with States, the Bureau of Prisons, and other law enforcement agencies. Once notified of a beneficiary's incarceration, VA must provide due process notice to the beneficiary before any adjustment may occur.

Thirty-five overpayments (16 percent) were caused when Veterans returned to active duty status. The Department of Defense runs a quarterly match of the active duty and VA disability files to identify persons who are receiving active duty pay and VA disability benefits concurrently. Once notified of active duty status, VA must provide due process notice to the beneficiary before any adjustment may occur.

Twenty-five overpayments (11 percent) were due to administrative errors where VBA paid a higher compensation rate than the entitlement amount. These errors were attributed to various reasons, to include insufficient examination results resulting in increased benefits, incorrect evaluations, dependency issues, erroneous effective dates, death of beneficiary, and duplicate payments.

Twenty-one overpayments (10 percent) were caused by retroactive adjustments due to the beneficiary's status as a fugitive felon. Law enforcement agencies notify VA when a beneficiary has been identified as a fugitive felon. Once notified, VA must provide due process notice to the beneficiary before any adjustment may occur.

An additional 18 (8 percent) potential high-dollar overpayments were identified, but there was insufficient information available electronically to determine the period covered by the overpayment and/or the propriety or cause of the overpayment.

The remaining 25 accounted for 11 percent of the compensation records identified as high dollar overpayments. Ten overpayments were due to income changes; 6 overpayments were due to hospitalization at VA expense requiring an adjustment; 7 overpayments were due to military retired pay adjustments; and 2 overpayments were due to apportionments. Appropriate regional office staff may authorize apportionments to a Veteran's dependents who do not live in the Veteran's household, unless it would cause the Veteran undue hardship. Apportionment of disability benefits payable to Veterans is governed by 38 CFR 3.450 through 3.458. To consider an apportionment of a competent Veteran's benefits, VA must receive a claim, and the evidence submitted by the claimant must meet the requirements of 38 CFR 3.451.

Some VA overpayments are inherent based on the requirements of 38 CFR § 3.103, Procedural Due Process and Appellate Rights, which does not allow VA to take adverse action regarding the payment of benefits without providing the beneficiary 60 days advance notice, unless the beneficiary requests that VA take the adverse action immediately. This "due process" period extends an overpayment period by two additional months. The only exception to providing procedural due process is when VA is notified of a beneficiary's death. Following are some examples.

Beneficiaries who are incarcerated or are fugitive felons are subject to a reduction or termination of benefits. Through matching programs, such as the fugitive felon program, the Bureau of Prisons, and other law enforcement agencies, VA receives information regarding incarcerated and fugitive felon beneficiaries after the beneficiary has been incarcerated or deemed a fugitive felon. By law, VA must provide a 60-day "due process" period prior to reducing or terminating benefits. As such, overpayments in these cases most frequently cannot be avoided.

When a beneficiary dies during the latter days of a month, a recurring benefit payment is often made before VA is notified that the death occurred. While VA has a death match program with the Social Security Administration (SSA), the match is received once per month from SSA, and usually after a benefit payment has been released. The number of overpayments following death has been reduced as a result of VA's VETSNET "real time" processing technology.

While the Defense Finance and Accounting Service notifies VA of Veterans who return to active duty, VA must provide a 60-day "due process" period prior to discontinuing benefits, thereby extending the overpayment by two months.

Electronic notice is received when Veterans are hospitalized at VA expense and subject to a reduction in benefits. Again, Veterans must be provided with a 60-day "due process" before any reduction in benefits can occur.

Total Compensation Payments made this quarter: \$7,286,311,932.30

Total High-Dollar Overpayments identified in this quarter: \$2,176,490.45

Percent of Overpayments: 0.0299%

Amount of Overpayment	Entity or Individual	City/County	State	Cause of Overpayment	Actions/Plans to Recover Overpayment	Status of Overpayment	Overall Action Plans

2. Pension Program

Compensation and Pension Service identified 79 high-dollar pension overpayments.

Sixty-seven overpayments (85 percent) were created due to a change in countable income.

Four overpayments (5 percent) were created due to incarceration or fugitive felon status.

Three overpayments (4 percent) were created due to death of the beneficiary.

One overpayment (1 percent) was created due to hospitalization at VA expense requiring an adjustment.

One overpayment (1 percent) was created due to an apportionment.

One overpayment (1 percent) was created due to return to active duty.

Two (3 percent) were unknown overpayments created where there was insufficient information available electronically to determine the period covered by the overpayment and/or the propriety or cause of the overpayment.

Beneficiaries that are in receipt of pension before the end of the month of August and who are not exempt from reporting their income under Public Law 103-271, will receive eligibility verification review (EVR) forms in January of the following year. These forms will be used to report income for the prior calendar year, and claimants will have 60 days to return this information. If the information received within this time frame is insufficient, an additional 60 days will be given to submit the required information.

Increases in countable income may result in high dollar overpayments when there are not enough medical expenses to reduce the countable income. The VA receives information on a regular basis from several Federal agencies and compares it to information used to determine the status of VA beneficiaries. The matches identify cases where there are apparent contradictions between information contained in VA records and information furnished by other Federal agencies that affect entitlement. Some matching data, such as that received from the Social Security Administration (SSA) and the Internal Revenue Service (IRS), is usually received after the increase in countable income has already occurred. The EVR process and the data matching agreements with other Federal agencies ensure that necessary adjustments in countable income are appropriately processed when notification is received showing a change in countable income.

Total Pension Payments made this quarter: \$1,122,352,074.81

Total High-Dollar Overpayments identified in this quarter: \$651,115.07

Percent of Overpayments: 0.0580%

Note:

Remind the field offices of the provisions of FL 08-05, Controls to Minimize Compensation Benefit Overpayments, wherein the field is required to establish an end product (EP) 690 in addition to the control EP. This EP 690 is to help monitor timeliness in completing action on pending issues with potential overpayments.

Remind the field offices of the current procedures for monitoring notice of exception reports per FL 08-09, Prioritization and Processing of System-Generated Messages (Writeouts). The FL provides guidance for prioritization and processing of system-generated messages (write-outs).

Provide reminder guidance under M21-1MR, Part I, Chapter 2.B.7.a that requires field personnel to take immediate action to resolve claims involving due process when their associated controls mature. Information derived from the Federal matches may be used to adjust VA benefits. Since matching program information is third-party information due process provisions must be followed before action is taken to reduce or terminate benefits. When predetermination notice is sent, an end product is established to control the due process period. The "associated control" refers to the pending end product control. When the control matures, action is taken to adjust the payments.

Provide feedback to the field on the findings from the review of the Quarterly High Dollar Overpayment Reports.

OIG performed a review on the FY 2010 First Quarter High-Dollar Overpayment Reports. Based on the review findings, VBA has prepared an action plan to implement the IG recommendations.

3. Education Program

Education Service identified 2,027 high-dollar overpayments.

The refinement of criteria for the report to include smaller overpayments resulted in an increase in reportable overpayments for the 4th Quarter of FY 2010, primarily in overpayments to individuals, which constituted 92 percent of the reported overpayments. Because we remain in the initial implementation period for the Post 9/11 GI Bill, we are subject to a number of factors, each of which materially increases the potential for reportable overpayments.

1. Overpayments to entities (i.e., schools) are included in this report as well as those to individuals. There may therefore be two overpayments (individual and entity) resulting from a single cause in some instances. These school overpayments constituted 8 percent of the reported overpayments. These payments to schools for tuition and fees are made in large lump-sum amounts at the beginning of the term. They are based on certifications from the schools which may be made before the beginning of the term, and which may be affected by subsequent enrollment changes.
2. Interim manual processing procedures for Post 9/11 GI Bill claims, including authorization of multiple payments per claim, present increased opportunity for operator entry errors.
3. The complexity of Post 9/11 GI Bill claims, including separate determinations of basic eligibility and eligibility for a housing allowance, can result in increased errors.
4. The vast increase of workload during the initial year of implementation generated pressures to work claims as quickly as possible, and also required a doubling of claims processing staff, resulting in a workforce which currently is largely inexperienced. Both these factors contributed to increased errors in other programs in addition to the Post 9/11 GI Bill (Montgomery GI Bill-Active Duty (Chapter 30), Montgomery GI Bill –Selected Reserve (Chapter 1606), Reserve Educational Assistance Program (Chapter 1607), Veterans Educational Assistance Program (Chapter 32), Dependents Educational Assistance (Chapter 35)).

Seventy percent of overpayments were caused by provisions of law which require retroactive reduction or termination of benefits after payment has been properly made; this includes requirements to pay some benefits in advance of the student's attendance.

Fourteen percent of overpayments were caused by errors or delays in reporting enrollment information by schools.

Sixteen percent of overpayments were caused by errors or delays in processing by VA.

Total Education Payments made this quarter: \$2,423,653,190.49

Total High-Dollar Overpayments identified in this quarter: \$8,651,587.99

Percent of Overpayments: 0.3570%

NOTE:

Many Education overpayments result from provisions of law which can cause payments to be improper which were proper at the time they were made. These include payments made in advance of an enrollment period, particularly tuition and other benefits under the Post-9/11 GI Bill. If the student does not attend, reduces his/her course load, or stops attending, some or all of the amounts paid become improper and subject to collection. In addition, provisions applying to Education benefit programs in general forbid the payment of benefits for any course which is not counted toward the beneficiary's graduation requirements. If a student receives a grade in such a course (whether the course has been completed or not), benefits must be adjusted retroactive to the beginning of the term. To minimize the effects of such statutory provisions, VA provides cautionary information in print publications and electronic media, and also includes this information in letters to students each time they are awarded benefits.

Delays or errors by school officials in reporting information often result in improper payments, particularly if reductions in course load or terminations are involved. The complexity of Post 9/11 GI Bill reporting requirements also can lead to errors on the part of school officials. VA maintains regular contact with school officials to remind them of requirements for timely and accurate reporting. VA also frequently disseminates informational materials, and provides specific training when indicated, such as for the implementation of the Post-9/11 GI Bill.

Delays or errors by VA in the processing of claims also produce improper payments. The complexity of Post 9/11 GI Bill claims, interim manual processing procedures for those claims, the vast increase of workload during the initial year of implementation, and an inexperienced workforce contributed to increased delays and errors, which affected other programs in addition to the Post 9/11 GI Bill. In the short term, VA has hired additional personnel, taken steps to expedite processing procedures, and provided continual refresher training. In the long term, continued development of automated processing systems is expected to improve both accuracy and speed of processing.

4. Non-VA Care Fee Program

The VA Management Quality Assurance Service (MQAS), Financial Services Center (FSC) and Office of Inspector General (OIG) identified eleven Non-VA Care Fee high-dollar overpayments totaling \$976,091. MQAS identified a total of \$789,613 in high-dollar overpayments during its FY 2010 Fee reviews. During those reviews, MQAS found \$281,902 in cumulative high-dollar overpayments in the second quarter, \$379,008 in the third quarter, and \$128,703 in the fourth quarter. FSC identified a total of \$100,951 in high-dollar overpayments during its FY 2010 payment reviews. During those reviews, FSC found \$72,694 in cumulative high-dollar overpayments in the first quarter and \$28,257 in the second quarter. OIG identified a total of \$85,527 in high-dollar overpayments during the Audit of Non-VA Inpatient Fee Care Program conducted in FY 2010. During that audit, OIG found \$44,342 in cumulative high-dollar overpayments in the first quarter and \$41,185 in the second quarter. In a recent effort to increase the accuracy of this report, VHA identified MQAS, FSC and OIG as new sources for high-dollar overpayments information. The overpayments found by MQAS, FSC and OIG were not reported in prior quarters, and therefore are included in this report.

Total Fee Payments made this quarter: \$1,135,499,597

Total High-Dollar Overpayments identified in this quarter¹: \$976,091

Percentage of Overpayments²: 0.09%

Amount of Overpayment	Entity or Individual	City/County	State	Cause of Overpayment	Actions/Plans to Recover Overpayment	Status of Overpayment	Overall Action Plans

¹ High-dollar overpayments identified in the Non-VA Care Fee Program were initially processed during the period, FY 2008 to FY 2010.

² The "Percentage of Overpayments" compares high-dollar overpayments processed in prior quarters with the total payments processed in the fourth quarter.

Amount of Overpayment	Entity or Individual	City/County	State	Cause of Overpayment	Actions/Plans to Recover Overpayment	Status of Overpayment	Overall Action Plans
\$28,257.17	Entity	Los Angeles	CA	Duplicate payments	Collection actions initiated and completed	Collected in full	See Note below
\$24,346.79	Entity	New Haven	CT	Incorrect payment methodology used to calculate payment	Data provided to medical facility for collection	Collection in progress	

Note:

1. Purchased Care recently awarded the Diagnostic Related Group recovery audit contract to recover overpayments from FY 2007 to present. That contract is under protest, so no collection activity occurred in the fourth quarter. Purchased Care has also awarded a separate contract intended to conduct a similar audit for outpatient services. It is projected that the recovery outpatient audit will begin in the second quarter of FY 2011. Purchased Care has also awarded a contract for more robust audits of FY 2010 and FY 2011 Non-VA Care Fee payments.
2. Purchased Care currently reports monthly identified outliers, which are payments that fall outside of the normal payment curve. These outliers are provided to the local medical facilities for review.
3. The Chief Business Office (CBO) has developed automated tools to identify potential duplicate payments and to audit various payments. The audit tool was released to the local medical facilities in the second quarter of FY 2010.
4. CBO has completed installation of the Fee Basis Claims System (FBCS), allowing integrated claims scrubbing, automated identification of duplicate payments, reduced data entry errors, and system-wide use of electronic claims processing. CBO is working with the software vendor to enhance FBCS.
5. CBO created a Field Assistance Unit to improve operations and management controls at field sites.

5. Non-VA Care CHAMPVA Program

The Health Administration Center (HAC) identified nine Non-VA Care CHAMPVA high-dollar overpayments totaling \$206,419 for the fourth quarter of FY 2010. To identify high-dollar overpayments, HAC reviewed (1) a quarterly possible duplicate payment audit, (2) a quarterly claims audit, (3) an ongoing weekly high-dollar audit for all claims over \$100,000, (4) an annual high-dollar audit of claims between \$10,000 and \$99,000, and (5) fourth quarter bills of collection. The HAC conducts a 100 percent multi-division in-depth prepayment review of all claims over \$100,000 and the Claims Processing Division conducts a prepayment review of all claims over \$10,000 to reduce the likelihood of a high-dollar improper payment being made.

Non-VA Care CHAMPVA payments consists of over nine million claims annually where 99 percent of payments are under \$1,000 and only .02 percent of claims exceed \$25,000. Due to that small percentage, high-dollar overpayments were not identified in prior quarters. However, the HAC developed new audit methodologies for fourth quarter to monitor cumulative high-dollar overpayments for entities and individuals based on established bills of collection. This resulted in the identification of the following set of payments that met OMB's guidelines for reporting high-dollar overpayments.

Total CHAMPVA Payments made this quarter: \$251,100,000
 Total High-Dollar Overpayments identified in this quarter³: \$206,419
 Percentage of Overpayments⁴: 0.08%

Amount of Overpayment	Entity or Individual	City/County	State	Cause of Overpayment	Actions/Plans to Recover Overpayment	Status of Overpayment	Overall Action Plans
\$35,133.95	Entity	Houston	TX	Provider Billing Error	HAC's Standard Recoupment Process where bills of collection are created, issued to the debtor, and tracked. Unpaid bills are then forwarded to the Treasury Offset Program after 180 days	Collection in progress	See Note below
\$33,872.65	Entity	Webster	TX	Incorrect Other Health Insurance (OHI)		Collection in progress	
\$33,241.08	Individual	Tishomingo	OK	Ineligible Beneficiary		Collection in progress	
\$31,269.59	Entity	Urbana	IL	Ineligible Beneficiary		Collected in full	
\$27,225.25	Entity	Mt. Prospect	IL	Missing OHI		Collection in progress	
\$16,793.35	Individual	Hernando	FL	Ineligible Beneficiary		Collection in progress	
\$11,427.88	Individual	Winfield	AL	Ineligible Beneficiary		Collection in progress	
\$8,995.52	Individual	Charleston	WV	Ineligible Beneficiary		Collection in progress	
\$8,460.11	Individual	Manitowoc	WI	Ineligible Beneficiary		Collection in progress	

Note:

1. The HAC continues to enhance internal controls; provider education and communication; beneficiary communication and outreach; and the Other Health Insurance (OHI) validation process.
2. The HAC has implemented continuous monitors, audits and reviews of CHAMPVA claims processing as well as development of a statement of work that captures real-time OHI information; ongoing training on data input; and routine data matches with VBA and Centers for Medicare & Medicaid Services.

³ High-dollar overpayments identified in the Non-VA CHAMPVA Program were initially processed during the period, FY 1997 to FY 2010.

⁴ The "Percentage of Overpayments" compares high-dollar overpayments processed in prior quarters with the total payments processed in the fourth quarter.
