Who We Are

The Census Bureau serves as the leading source of quality data about the nation's people and economy. We honor privacy, protect confidentiality, share our expertise globally, and conduct our work openly. We are guided on this mission by our strong and capable workforce, our readiness to innovate, and our abiding commitment to our customers.

The Denver Regional Census is a permanent office serving 13 states; Arizona, Colorado, Kansas, Montana, Nebraska, New Mexico, Nevada, North Dakota, Oklahoma, South Dakota, Texas, Utah, Wyoming.

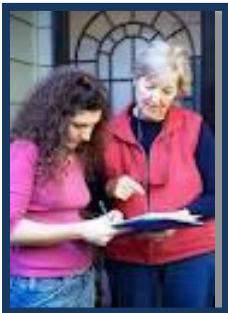

A survey is a method of collecting and analyzing social, economic, and geographic data. It provides information about the conditions of the United States, at a number of geographic levels. Throughout the decade between censuses we are continually conducting surveys to produce a general view and comprehensive study of the United States' social and economic conditions. The results of the surveys are used by local & national government officials, businesses, community organizations, schools & planners to determine needs for programs & services.

Denver Partnership & Data Services is a division of the Denver Regional Census Office that disseminates the findings of those surveys.

Our goal is to make the Census Data available to all. We do this by providing the following:

- *Information Sessions & Presentations*
- *Data Workshops*
- *Hands on computer trainings*
- *Specific data inquiries*

All of these are provided to traditional & non-traditional data users.

How Can the Data Help YOU

Whether you are a:

- *Business owner that wants to increase YOUR market share*
- *A non-profit organization wanting to develop appropriate programs YOUR community*
- *A community member interested in helping YOUR community*
- *A community leader needing to know the makeup of YOUR community to expand your reach*
- *A school official planning for the future of YOUR students*
- *A church that wants to grow YOUR membership*

We Can Help YOU!

Our services are provided at no cost and our trainings are customized to fit your needs. If YOUR organization could benefit from our services please contact us.
