Scholarships for Doctoral Students in Cyber Security

UNT and Cyber Security

The University of North Texas Interdisciplinary Cyber Security PhD Program responds to the varied and changing needs of the information age. This four-year program's graduates will be prepared to contribute to the advancement and evolution of the information society through a variety of roles and settings as administrators, cyber security architects, scientists and educators. Most of the courses taken will focus in Cyber Security, and students will have the freedom to choose any topic in Cyber Security as their research focus.

More about Information Security at UNT:

- UNT has been designated as a National Center for Academic Excellence in Information Assurance Research by the National Security Agency and the Department of Homeland Security
- The Center for Information and Computer Security works to coordinate joint research projects which advance the knowledge of computer security.
- Three certificates are available in cyber security
- Internship opportunities are available at various federal agencies

NSF Scholarship for Service Opportunity

The NSF has awarded funding to UNT that will fully fund several U.S. citizens to choose to pursue a PhD with a concentration in Cyber Security on a full-time basis. The Ph.D. programs included in this opportunity include Computer Science and Engineering, Information Technology and Decision Science and Library Information Systems.

Funding Provided:

- \$30,000 stipend, paid over 9 months
- Summer internships/research will provide funding for the remaining 3 months.
- Tuition scholarship of up to \$8,100/year
- \$4,000/year for travel
- \$1,200/year for books
- \$1,500/year for health insurance

UNIVERSITY OF NORTH TEXAS
A green light to greatness.
