Understanding Journal Citations	
A citation is a standardized description of a publication. Citations are designed to allow the user to find the source item. Among the information usually found in a citation are the author, title, and publication data, volume and issue number, and page numbers. This is a brief citation from the Medline database.	
Author(s) Names – Last name, Initials	Article Title
Ransom SB. Studdert DM. Dombrowski MP. Mello MM. Brennan by compliance with obstetric clinical pathways: a casecontrol study. 101(4):751-5, 2003 Apr.	
	↓ Journal Name
	Journal Name
