FROM: Chris McCaskill – Senior Buyer

DATE: April 15, 2013

SUBJECT: RFP72_13_142967_CM Bruce Hall Ceiling & Door Renovation (Question)

Please see below for the questions and answers from a potential bidder for the subject RFP:

1. I need to determine the cost and process for obtaining parking permits and how/where are workmen with trucks and trailers going to be able to park with respect to the location of the building? **UNT parking polices, vendors are required parking permit for each vehicle brought on campus. Adequate parking should be available. There is no cost for permits. They are easily obtained. “Where” will be determined when award is made and we know how many trucks/equipment that vendor has/need to complete the project.**
