INFORMATION TECHNOLOGY MANAGEMENT SERVICES

Tigua Technologies Services provides total solutions for current and future network needs in information technology and information management services. A combination of strategy, process and technology will give a network that is more reliable and requires less investment. Other services include:

- ✦ Install, maintain, and update information management needs, which includes inside and outside plant, and telecommunications; server maintenance, and helpdesk operations.
- ✦ Support ranging from small office network and computing environments to large enterprise-level IT LAN/WAN (terrestrial as well as wireless) and communications environments supporting mission critical customers.
- ✦ An experienced and certified team supporting Information Technology Infrastructure Library (ITIL) processes and operational implementation, which will ultimately improve operational performance and lifecycle support costs.

INSTALLATION SUPPORT SERVICES

Tigua Enterprises, Inc., will provide logistical services including facilities maintenance and management; transportation, supply chain support management, and distribution. Other services include:

Facility/Grounds Maintenance

Asphalt repair and maintenance, mowing and trimming, and snow removal
Install, service, and maintain geothermal generators
Janitorial/custodial, plumbing, and general construction

Security/Force Protection

Security services, force protection, armed security roving patrols
Video surveillance services for the Department of Homeland Security and Border Patrol in the southwest

Emergency Management

Emergency management for disaster response, natural events and terrorism

Fleet Management/Petroleum

Operation and maintenance of big-rig transports and multi-purpose vehicles
Petroleum transportation including diesel, dyed diesel, unleaded gasoline, and JP jet fuels

YSLETA DEL SUR PUEBLO SPOTLIGHT:

The Ysleta del Sur Pueblo of El Paso, TX, also known as the Tigua Indians, strives to establish a business-friendly environment while addressing the unique needs and culture of the Pueblo. We are pleased to present this overview of businesses.

Tigua, Inc. was formed to help the Ysleta del Sur Pueblo achieve economic prosperity through better management of opportunities. Tigua, Inc., established by the tribal council, is composed of business executives with a strong background in business and economic development. Working together as a team, management and the board of directors are committed to exploring new ways to leverage the Pueblo's resources, talents and tribal advantages for the economic betterment of the Ysleta del Sur Pueblo community.

COMMUNITY

The Ysleta del Sur Pueblo is situated within the city of El Paso and the city of Socorro, TX, just north of Mexico along the Rio Grande. The land configuration is referred to as "checkerboard" or pieced together with non-contiguous boundaries. The primary reservation community is one mile northeast of the Zaragoza International border between the United States and Mexico.

Much of tribal trust land supports tribal government offices and the tribal housing communities as well as property for tribal businesses and future development.
