-  ISO 9001: 2008 and ITAR Certified
-  Innovative Training--Wells Academy
-  SDB, 8a, HUB Zone & Native American
-  DOD Indian Incentive Program--
-  5% Rebate Opportunity for Customers

Wells Technology is a modern manufacturing business producing over 14,000 industrial products and also an authorized FASTENAL distribution channel. Working with FASTENAL, Wells Technology serves customers from over 2,300 FASTENAL stores and 13 distribution centers across the U.S. by supplying over 645,000 FASTENAL MRO and OEM industrial and construction products.

- Investing in the Future -

Wells Technology has averaged 18 percent annual growth with profits being invested in equipment and technology for continual quality improvement and cost reductions for customers. We also use our funds to support Wells Academy, a successful non-profit industrial training program for economically disadvantaged Native Americans from impoverished communities.

- Precision Machining -

Wells Technology manufactures custom hardware to exceed your expectations. We use production records and computer software to analyze costs for your RFQs. In production, we assure conformity with your specifications from material selection to machining, finishing, inspections, and shipping.
