county or territory of the public agency other than the county, unless the county or other public agency chooses to participate in the plan by resolution of its governing body.

(b) On approval by the commission, an emergency communication district may choose to participate in the regional plan applicable to the regional planning commission region in which the district is located. An emergency communication district described by Section 771.001(3)(A) may choose to participate in the regional plan by resolution of its governing body or by adoption of an ordinance. An emergency communication district described by Section 771.001(3)(B) may choose to participate in the regional plan by order of the district's board after a public hearing held in the manner required for a public hearing on the continuation of the district under the law governing the district. Following the adoption of the resolution, ordinance, or order and approval by the commission, the regional planning commission shall amend the regional plan to take into account the participation of the emergency communication district.

(c) Participation in the regional plan by an emergency communication district does not affect the organization or operation of the district, except that the district may not collect an emergency communication fee or other special fee for 9-1-1 service not permitted by this chapter. Participation by the district in the plan does not affect the district's authority to set its own fees in the territory under its jurisdiction on January 1, 1988. Participation in the regional plan by a public agency or group of public agencies operating as an emergency communication district as provided by Subsection (d) does not affect the authority of the public agency or group of public agencies to set its own fees in territory:

(1) under its jurisdiction at the time of recognition;

or

(2) added to the district after the recognition.

(d) In a county with a population of 120,000 or less, a public agency or group of public agencies acting jointly that contracted with a service provider before September 1, 1987, to provide 9-1-1 service by resolution of its governing body may

withdraw from a regional plan in which it chooses to participate. A public agency or group of public agencies that withdraws from a regional plan under this subsection shall be recognized and operate as an emergency communication district in the agency's or group's geographic jurisdiction. As an emergency communication district, the public agency or group of agencies:

(1) is governed by Subchapter D, Chapter 772; and

(2) may collect all fees authorized by that subchapter or other applicable law.

A business service user that provides residential facilities and owns or leases a private telephone switch used to provide telephone service to facility residents shall provide to those residential end users the same level of 9-1-1 service that a service supplier is providing to other residential end users in the area participating in the regional plan under Section 771.051(2).

Added by Acts 1993, 73rd Leg., ch. 936, Sec. 3, eff. Aug. 30, 1993.

Sec. 771.062. LOCAL ADOPTION OF STATE RULE. (a) An emergency communication district may adopt any provision of this chapter or any commission rule. The commission may enforce a provision or rule adopted by an emergency communication district under this section.

(b) The commission shall maintain and update at least annually a list of provisions or rules that have been adopted by emergency communication districts under this section.

(c) An emergency communication district or home-rule municipality that operates a 9-1-1 system independent of the state system may voluntarily submit strategic planning information to the commission for use in preparing the strategic plan for statewide 9-1-1 service. This information as determined by the commission, if reported, may:

(1) include a survey of the current performance, efficiency, and degree of implementation of emergency communications services;

(2) detail the progress made toward meeting the goals and objectives of the previous strategic plan;

(3) describe the strategic direction, goals, and objectives for emergency communications services;

(4) identify major issues, long-range policy guidelines, and priorities relating to improving emergency

communications services; and

(5) detail the financial performance of each district in implementing emergency communications services.

(d) The commission shall establish reasonable guidelines for use by districts and home-rule municipalities in preparing information for the strategic plan for statewide 9-1-1 services. These guidelines shall include the time frames of information and instructions for submission.

Sec. 771.063. DEFINITION OF LOCAL EXCHANGE ACCESS LINE AND EQUIVALENT LOCAL EXCHANGE ACCESS LINE. (a) The advisory commission shall determine by rulemaking what constitutes a local exchange access line and an equivalent local exchange access line for all 9-1-1 emergency services fees imposed statewide.

(b) By October 1, 1999, the advisory commission shall adopt definitions of a local exchange access line and an equivalent local exchange access line that exclude a line from a telecommunications service provider to an Internet service provider for the Internet service provider's data modem lines used only to provide its Internet access service and that are not capable of transmitting voice messages.

(c) The advisory commission shall annually review the definitions of a local exchange access line and an equivalent local exchange access line to address technical and structural changes in the provision of telecommunications and data services. In that annual review, the advisory commission may include previously excluded Internet service provider data modem lines if it determines that circumstances have changed sufficiently enough that 9-1-1 emergency calls through those lines are done on a regular basis or that the data lines are voice-capable or that the lines are functionally equivalent.

(d) An emergency communication district described by Section 771.001(3)(A) or (B) that has not participated in a regional plan shall use the advisory commission's definitions of a

local exchange access line and an equivalent local exchange access line for purposes of imposing its emergency service fees and may not impose an emergency service fee on any line excluded from the advisory commission's definitions.

(e) A service provider shall collect and remit the emergency service fees to the advisory commission or the appropriate emergency communication district, as applicable, in accordance with the advisory commission's definition of a local exchange access line and an equivalent local exchange access line.

SUBCHAPTER D. FINANCING STATE EMERGENCY COMMUNICATIONS

Sec. 771.071. EMERGENCY SERVICE FEE. (a) Except as otherwise provided by this subchapter, the commission may impose a 9-1-1 emergency service fee on each local exchange access line or equivalent local exchange access line, including lines of customers in an area served by an emergency communication district participating in the applicable regional plan. If a business service user provides residential facilities, each line that terminates at a residential unit, and that is a communication link equivalent to a residential local exchange access line, shall be charged the 9-1-1 emergency service fee. The fee may not be imposed on a line to coin-operated public telephone equipment or to public telephone equipment operated by coin or by card reader. The fee may also not be imposed on any line that the commission excluded from the definition of a local exchange access line or an equivalent local exchange access line pursuant to Section 771.063.

(b) The amount of the fee may not exceed 50 cents a month for each line.

(c) The commission may set the fee in a different amount in each regional planning commission region based on the cost of providing 9-1-1 service to each region.

(d) The fee does not apply to an emergency communication district not participating in the applicable regional plan. A customer in an area served by an emergency communication district not participating in the regional plan may not be charged a fee under this section. Money collected under this section may not be

allocated to an emergency communication district not participating in the applicable regional plan.

(e) A local exchange service provider shall collect the fees imposed on its customers under this section. Not later than the 30th day after the last day of the month in which the fees are collected, the local exchange service provider shall deliver the fees to the comptroller. The comptroller shall deposit money from the fees to the credit of the 9-1-1 services fee account in the general revenue fund. The comptroller may establish alternative dates for payment of fees under this section, provided that the required payment date be no earlier than the 30th day after the last day of the reporting period in which the fees are collected.

(f) The commission shall distribute money appropriated to the commission from the 9-1-1 services fee fund to regional planning commissions for use in providing 9-1-1 services as provided by contracts executed under Section 771.078. The regional planning commissions shall distribute the money to public agencies for use in providing those services.

(g) Repealed by Acts 1999, 76th Leg., ch. 1045, Sec. 18, eff. June 18, 1999.

Sec. 771.0711. EMERGENCY SERVICE FEE FOR WIRELESS TELECOMMUNICATIONS CONNECTIONS. (a) To provide for automatic number identification and automatic location identification of wireless 9-1-1 calls, the commission shall impose on each wireless telecommunications connection a 9-1-1 emergency service fee. A political subdivision may not impose another fee on a wireless service provider or subscriber for 9-1-1 emergency service.

(b) A wireless service provider shall collect the fee in an amount equal to 50 cents a month for each wireless

telecommunications connection from its subscribers and shall pay the money collected to the comptroller not later than the 30th day after the last day of the month during which the fees were collected. The comptroller may establish alternative dates for payment of fees under this section. The wireless service provider may retain an administrative fee of one percent of the amount collected. The comptroller shall deposit the money from the fees to the credit of the 9-1-1 services fee account. Until deposited to the credit of the 9-1-1 services fee account as required by Subsection (c), money the comptroller collects under this subsection remains in a trust fund with the state treasury.

(c) Money collected under Subsection (b) may be used only for services related to 9-1-1 services, including automatic number identification and automatic location information services. Not later than the 15th day after the end of the month in which the money is collected, the commission shall distribute to each emergency communication district that does not participate in the state system a portion of the money that bears the same proportion to the total amount collected that the population of the area served by the district bears to the population of the state. The remaining money collected under Subsection (b) shall be deposited to the 9-1-1 services fee account.

(d) A service provider of telecommunications service involved in providing wireless 9-1-1 service is not liable for any claim, damage, or loss arising from the provision of wireless 9-1-1 service unless the act or omission proximately causing the claim, damage, or loss constitutes gross negligence, recklessness, or intentional misconduct.

(e) A member of the commission, the governing body of a public agency, or the Department of Information Resources is not liable for any claim, damage, or loss arising from the provision of wireless 9-1-1 service unless the act or omission causing the claim, damage, or loss violates a statute or ordinance applicable to the action.

(f) A wireless service provider is not required to take legal action to enforce the collection of any wireless 9-1-1 service fee. The comptroller may establish collection procedures

and recover the cost of collection from the subscriber liable for the fee. The comptroller may institute legal proceedings to collect a fee and in those proceedings is entitled to recover from the subscriber court costs, attorney's fees, and interest on the amount delinquent.

(g) On receipt of an invoice from a wireless service provider for reasonable expenses for network facilities, including equipment, installation, maintenance, and associated implementation costs, the commission or an emergency services district of a home-rule municipality or an emergency communication district created under Chapter 772 shall reimburse the wireless service provider in accordance with state law for all expenses related to 9-1-1 service.

(h) Information that a wireless service provider is required to furnish to a governmental entity in providing 9-1-1 service is confidential and exempt from disclosure under Chapter 552, Government Code. The wireless service provider is not liable to any person who uses a 9-1-1 service created under this subchapter for the release of information furnished by the wireless service provider in providing 9-1-1 service. Information that is confidential under this section may be released only for budgetary calculation purposes and only in aggregate form so that no provider-specific information may be extrapolated.

(i) Nothing in this section may be construed to apply to wireline 9-1-1 service.

(j) Nothing in this section precludes funds collected under Section 771.072 (Equalization Surcharge) from being used to cover costs under Subsection (g), as necessary and appropriate, including for rural areas that may need additional funds for wireless 9-1-1. Added by Acts 1997, 75th Leg., ch. 1246, Sec. 2, eff. Sept. 1, 1997. Amended by Acts 1999, 76th Leg., ch. 1405, Sec. 23, eff. Sept. 1, 1999; Acts 2001, 77th Leg., ch. 1158, Sec. 81, eff. Jan. 1, 2002. Amended by:

Acts 2007, 80th Leg., R.S., Ch. 937, Sec. 2.07, eff. September 1, 2007.

Sec. 771.072. EQUALIZATION SURCHARGE. (a) In addition to

the fee imposed under Section 771.071, the commission shall impose a 9-1-1 equalization surcharge on each customer receiving intrastate long-distance service, including customers in an area served by an emergency communication district, even if the district is not participating in the regional plan.

(b) The amount of the surcharge may not exceed one and three-tenths of one percent of the charges for intrastate long-distance service, as defined by the commission.

(c) Except as provided by Section 771.073(f), an intrastate long-distance service provider shall collect the surcharge imposed on its customers under this section and shall deliver the surcharges to the comptroller not later than the date specified by the comptroller, provided that the required payment date be no earlier than the 30th day after the last day of the reporting period in which the surcharge is collected. If the comptroller does not specify a date, the provider shall deliver the surcharges to the comptroller not later than the 30th day after the last day of the month in which the surcharges are collected.

(d) From the revenue received from the surcharge imposed under this section, the amount derived from the application of the surcharge at a rate of not more than .5 percent shall be allocated to regional planning commissions or other public agencies designated by the regional planning commissions for use in carrying out the regional plans provided for by this chapter. The allocations to the regional planning commissions are not required to be equal, but should be made to carry out the policy of this chapter to implement 9-1-1 service statewide. Money collected under this section may be allocated to an emergency communication district regardless of whether the district is participating in the applicable regional plan.

(e) From the revenue received from the surcharge imposed by this section, the amount derived from the application of the surcharge at a rate of not more than .8 percent shall be periodically allocated to the Texas Department of Health to fund grants awarded under Section 777.009.

(f) The comptroller shall deposit the surcharges and any prior balances in accounts in the general revenue fund in the state

treasury until they are allocated to regional planning commissions, other 9-1-1 jurisdictions, and regional poison control centers in accordance with this section. From those accounts, the amount necessary for the commission to fund approved plans of regional planning commissions and regional poison control centers and to carry out its duties under this chapter shall be appropriated to the commission. Section 403.095, Government Code, does not apply to an account established by this subsection.

(g) Notwithstanding any other law, revenue derived from the equalization surcharge imposed under this section may be appropriated to the commission only for the purposes described by Sections 773.122 through 773.124.

Sec. 771.0725. ESTABLISHMENT OF RATES FOR FEES.

(a) Subject to the applicable limitations prescribed by Sections 771.071(b) and 771.072(b), (d), and (e), the Public Utility Commission of Texas shall monitor the establishment of:

(1) emergency service fees imposed under Section 771.071; and

(2) the equalization surcharge imposed under Section 771.072, including the allocation of revenue under Sections 771.072(d) and (e).

(b) Each year the commission shall provide documentation to the Public Utility Commission of Texas regarding the rate at which each fee should be imposed and the allocation of revenue under Sections 771.072(d) and (e). The commission may provide such documentation more often under this subsection if the commission determines that action is necessary.

(c) The Public Utility Commission of Texas shall review the documentation provided by the commission as well as allocations

derived therefrom and also identified by the commission. If the Public Utility Commission of Texas determines that a recommended rate or allocation is not appropriate, the Public Utility Commission of Texas shall provide comments to the commission, the governor, and the Legislative Budget Board regarding appropriate rates and the basis for that determination.

(d) The Public Utility Commission of Texas may review and make comments regarding a rate or allocation under this section in an informal proceeding. A proceeding in which a rate or allocation is reviewed is not a contested case for purposes of Chapter 2001, Government Code. A review of a rate or allocation is not a rate change for purposes of Chapter 36 or 53, Utilities Code.

Amended by Acts 1999, 76th Leg., ch. 62, Sec. 18.33, eff. Sept. 1, 1999; Acts 1999, 76th Leg., ch. 1405, Sec. 25, eff. Sept. 1, 1999.

Sec. 771.073. COLLECTION OF FEES AND SURCHARGES. (a) A customer on which a fee or surcharge is imposed under this subchapter is liable for the fee or surcharge in the same manner as the customer is liable for the charges for services provided by the service provider. The service provider shall collect the fees and surcharges in the same manner it collects those charges for service, except that the service provider is not required to take legal action to enforce the collection of the fees or surcharges. A fee or surcharge must be stated separately on the customer's bill.

(b) A business service user that provides residential facilities and owns or leases a private telephone switch used to provide telephone service to facility residents shall collect the 9-1-1 emergency service fee and transmit the fees monthly to the comptroller. A business service user that does not collect and remit the 9-1-1 emergency service fee as required is subject to a civil cause of action. A court may award to the comptroller court costs, attorney's fees, and interest on the amount delinquent, to be paid by the nonpaying business service user. A certificate of the comptroller specifying the unremitted fees is prima facie evidence that the fees were not remitted and of the amount of the unremitted fees.

(c) The comptroller may establish collection procedures and recover the cost of collection from the customer liable for the fee or surcharge. The comptroller may institute legal proceedings to collect a fee or surcharge and in those proceedings is entitled to recover from the customer court costs, attorney's fees, and an interest on the amount delinquent.

(d) A service provider may not disconnect services for nonpayment of a fee or surcharge imposed under this subchapter.

(e) A service provider collecting fees or surcharges under this subchapter may retain as an administrative fee an amount equal to one percent of the total amount collected.

(f) The commission may establish payment schedules and minimum payment thresholds for fees and surcharges imposed under this subchapter.

(g) A 9-1-1 service provider is responsible for correctly billing and remitting applicable 9-1-1 fees, charges, and equalization surcharges. Any 9-1-1 fees, charges, or equalization surcharges erroneously billed to a subscriber by a 9-1-1 service provider and erroneously remitted to the commission or an emergency communication district may not be recovered from the commission or emergency communication district unless the fees or charges were adjusted due to a refund to the subscriber by the local exchange carrier or interexchange carrier.

Sec. 771.0735. SOURCING OF CHARGES FOR MOBILE TELECOMMUNICATIONS SERVICES. The federal Mobile Telecommunications Sourcing Act (4 U.S.C. Sections 116-126) governs the sourcing of charges for mobile telecommunications services. In accordance with that Act:

(1) mobile telecommunications services provided in a taxing jurisdiction to a customer, the charges for which are billed

by or for the customer's home service provider, shall be deemed to be provided by the customer's home service provider;

(2) all charges for mobile telecommunications services that are deemed to be provided by the customer's home service provider in accordance with the Act are authorized to be subjected to tax, charge, or fee by the taxing jurisdictions whose territorial limits encompass the customer's place of primary use, regardless of where the mobile telecommunications services originate, terminate, or pass through, and no other taxing jurisdiction may impose taxes, charges, or fees on charges for such mobile telecommunications services; and

(3) the fee imposed on wireless telecommunications bills shall be administered in accordance with Section 151.061, Tax Code.

Sec. 771.074. EXEMPTION. A fee or surcharge authorized by this subchapter, Chapter 772, or a home-rule municipality may not be imposed on or collected from the state or the federal government. Text of subsec. (a) added by Acts 2003, 78th Leg., ch. 258, Sec. 2

(a) This section applies only to the use of fees and surcharges collected under this subchapter in a county subject to this subchapter with a population of at least 700,000.

(b) In addition to use authorized or required by Section 771.072(e) or (f), 771.073(e), or 771.075, fees and surcharges collected under this subchapter may be used for any costs considered necessary by the commission and attributable to:

(1) designing a 9-1-1 system; or

(2) obtaining and maintaining equipment and personnel necessary to establish and operate:

(A) a public safety answering point and related operations; or

(B) other related answering points and operations.

Sec. 771.076. AUDITS. (a) The commission or an employee of the commission may notify the comptroller of any irregularity that may indicate that an audit of a service provider collecting a fee or surcharge under this subchapter is warranted. The comptroller also may audit a service provider at the comptroller's discretion, without first receiving a notification from the commission or an employee of the commission. The cost of the audit shall not be assessed against the service provider. The commission may require at its own expense that an audit be conducted of a public agency receiving money under this chapter.

(b) If the comptroller conducts an audit of a service

provider that collects and disburses fees or surcharges under this subchapter, the comptroller shall also audit those collections and disbursements to determine if the provider is complying with this chapter.

(c) At the request of the Public Utility Commission of Texas, the state auditor may audit a regional planning commission or other public agency designated by the regional planning commission that receives money under this subchapter.

(d) The audit of a public agency under Subsection (a) or (c) must be limited to the collection, remittance, and expenditure of money collected under this subchapter.

Sec. 771.077. COLLECTION OF FEES AND SURCHARGES. (a) The comptroller may establish collection procedures to collect past due amounts and may recover the costs of collection from a service provider or business service user that fails to timely deliver the fees and the equalization surcharge to the comptroller. Subtitles A and B, Title 2, Tax Code, apply to the administration and collection of amounts by the comptroller under this subchapter.

(b) The comptroller may establish procedures to be used by the commission to notify the comptroller of a service provider's or business service user's failure to timely deliver the fees or surcharges.

(c) The comptroller shall deposit amounts received as costs of collection in the general revenue fund.

(d) The comptroller shall:

(1) remit to the commission money collected under this section for fees provided by Section 771.0711 and associated late penalties;

(2) deposit to the 9-1-1 services fee account any money collected under this section for fees provided by Section 771.071 and associated late penalties; and

(3) deposit to the account as authorized by Section

771.072 any money collected under this section for fees provided by Section 771.072 and associated late penalties.

(e) The commission shall:

(1) deposit or distribute the money remitted under Subsection (d)(1) as Section 771.0711 provides for fees received under that section; and

(2) distribute the money remitted under Subsection (d)(2) and appropriated to the commission under contracts as provided by Section 771.078(b)(1).

Sec. 771.078. CONTRACTS FOR SERVICES. (a) The commission shall contract with regional planning commissions for the provision of 9-1-1 service. The commission by rule shall adopt standard provisions for the contracts.

(b) In making contracts under this section, the commission shall ensure that each regional planning commission receives money for 9-1-1 service in two separately computed amounts as provided by this subsection. The commission must provide each regional planning commission with:

(1) an amount of money equal to the total of the revenue from the emergency service fees collected under Section 771.071 that is deposited in the treasury and appropriated to the commission multiplied by a fraction, the numerator of which is the amount of those fees collected from the region and the denominator of which is the total amount of those fees collected in this state; and

(2) an amount of money equal to the total of the revenue from the emergency service fee for wireless telecommunications connections under Section 771.0711 that is deposited in the treasury and appropriated to the commission multiplied by a fraction, the numerator of which is the population of the region and the denominator of which is the population of this state.

(c) Contracts under this section must provide for:

(1) the reporting of financial information regarding administrative expenses by regional planning commissions in accordance with generally accepted accounting principles;

(2) the reporting of information regarding the current performance, efficiency, and degree of implementation of emergency communications services in each regional planning commission's service area;

(3) the collection of efficiency data on the operation of 9-1-1 answering points;

(4) standards for the use of answering points and the creation of new answering points;

(5) quarterly disbursements of money due under the contract, except as provided by Subdivision (6);

(6) the commission to withhold disbursement to a regional planning commission that does not follow a standard imposed by the contract, a commission rule, or a statute; and

(7) a means for the commission to give an advance on a quarterly distribution under the contract to a regional planning commission that has a financial emergency.

(d) Not more than 10 percent of the money received by a regional planning commission under Subsection (b) may be used for the regional planning commission's indirect costs. In this subsection, "indirect costs" means costs that are not directly attributable to a single action of a commission. The governor shall use the federal Office of Management and Budget circulars A-87 and A-122 or use any rules relating to the determination of indirect costs adopted under Chapter 783, Government Code, in administering this section.

(e) The commission may allocate surcharges under Section 771.072(d) by means of a contract under this section.

(f) Promptly after the commission receives a request from a regional planning commission, the commission shall provide the regional planning commission with adequate documentation and financial records of the amount of money collected in that region or of an amount of money allocated to the regional planning commission in accordance with this section.

Sec. 771.079. 9-1-1 SERVICES FEE FUND. (a) The 9-1-1 services fee fund is an account in the general revenue fund.
