II. Program-Specific Rec	overy Plan for Recovery.gov (Q 2.8 of Guidance)	
DOL Agency MAX ID and name: Employment and Training Administration (ETA)		
Recovery Program: Wagner-	Peyser Act Employment Service	
Does this program align with an existing CFDA program?	17.207	
1. Objectives:		
Program Purpose	DOL and its grantees strive to improve outcomes for job seekers and employers who receive employment and workforce information services through the nation's One Stop Career Centers. Funded through the Wagner-Peyser Act, the Employment Service assists nearly 16 million job seekers each year. Services, which may include job search, referral, and placement assistance, help workers obtain jobs and give employers access to skilled workers who will help them compete in the global economy.	
	Services are designed to help both employed and unemployed workers obtain jobs and give employers access to skilled workers who will help them compete in the global economy. In addition, One Stop Career Centers provides customized services to clients with special needs such as Unemployment Insurance (UI) claimants identified as likely to exhaust their benefits, individuals with disabilities, veterans, and migrant and seasonal farm workers.	
Public Benefits	Employment and workforce information services that account for unique local and regional labor market conditions and reflect workers' needs are critical to achieving successful outcomes for job seekers and employers. Services are provided in collaboration with a wide array of workforce investment partners and are coordinated with other services available through One Stop Career Centers, such as training, child care, and transportation. Most services can be accessed electronically at CareerOneStop.org , but many participants are referred to staff for personalized assistance and co-enrolled in Workforce Investment Act (WIA) programs.	
2. Projects and Activities:		
Kinds and scope of projects and activities to be performed	One Stop Career Centers offer core services such as job matching, referral, assessments, a wide array of workforce and labor market information and career guidance, as well as intensive services such as assessments, testing, and workshops. Under the Recovery Act, the Department will spend \$400,000,000 to fund core services, with \$250,000,000 of those funds to be used by States for reemployment services for Unemployment Insurance claimants (including the integrated Employment Services and Unemployment Insurance information technology required to identify and serve the needs of such claimants). In accordance with sec. 801 of the Recovery Act, up to one percent of the program funds provided (\$4 million)	
	may be used for management and oversight of the program. These funds are expended in accordance with the operating plan submitted to OMB and Congress.	
General Wagner-Peyser Act Labor Exchange Services	Through the Employment Service system, core and intensive services are available universally to jobseekers and include: • assessment of skill levels, abilities and aptitudes;	

	career guidance when appropriate;
	 job search workshops; and
	referrals to employers.
	- Toloriale to difficulties.
	The services offered to employers include:
	referral of job seekers to job openings;
	 matching job requirements with job seeker experience, skills and other attributes;
	 helping with special recruitment needs;
	assisting employers analyze hard-to-fill job orders; and
	assisting with job restructuring.
	deciding with jet rectifications.
	Other key services include:
	 a computerized career information system including access to State job bank resources and
	institutions and organizations that provide training;
	 the development and distribution of state and local workforce information which allows job seekers,
	employers, and providers and planners of job training and economic development to obtain
	information about job opportunities, regional job vacancies, labor supply, labor market or workforce
	trends, and the market situation in particular industries; and
	 under section 7(b), 10 percent of the Wagner-Peyser Act funds allotted are reserved for use in other
	areas, including performance incentives for public Employment Service offices, services for groups
	with special needs, and the extra costs of exemplary models.
	Reemployment Services are targeted to unemployment insurance claimants, and include job search and
	placement services to job seekers including counseling, testing, occupational and labor market information,
	assessment, and referral to employers, and appropriate recruitment services and special technical services for
	employers. Specifically, these services may include:
	 Services provided to UI claimants identified through the UI profiling system as likely to exhaust their UI benefits;
	, ,
Reemployment Services	In-person staff assisted services; Initial elaiment reamplement assessments.
	Initial claimant reemployment assessments; Career guidenes and group and individual equippeling, including provision of materials, suggestions, or
	 Career guidance and group and individual counseling, including provision of materials, suggestions, or advice which are intended to assist the job seeker in making occupation or career decisions;
	 Provision of labor market, occupational, and skills transferability information that clarifies claimants' reemployment opportunities and skills used in related or other industries;
	 Referral to job banks, job portals, and job openings;
	 Referral to employers and registered apprenticeship sponsors; Assessment, including interviews, testing, individual and group counseling, or employability planning;
	Assessment, including interviews, testing, individual and group counseling, or employability planning, and
	 Referral to training by WIA-funded or third-party service providers.
	Treferral to training by Win-Turiueu of thiru-party service providers.

A - Formula Grants		
State		
Individual		
estones:		
The Department announced, in Training and Employment Guidance Letter (TEGL) No. 13-08, allotments to states and outlying areas for training and employment services as specified in the Recovery Act for activities under the Workforce Investment Act Adult, Dislocated Worker and Youth Program; and Wagner-Peyser Act (including Reemployment Services)		
Completed: March 6, 2009		
Grant agreements were signed by states and outlying areas on March 17, 2009, which allowed for timely Notice of Obligations. The grant agreements bound grantees to new safeguards as outlined in the Recovery Act.		
Completed: March 17, 2009		
The Department issued the Implementation Guidance on March 18, 2009 in TEGL No. 14-08. The guidance outlines the Department's expectations for implementing the Workforce Investment Act and Wagner-Peyser Act funding in the Recovery Act and state planning requirements for Program Year 2009.		
Completed: March 18, 2009		
All states are required to submit 5-year state plans as a condition of receiving WIA and Wagner-Peyser funds. ETA breaks this planning cycle into a pair of 2-year plans and a 1-year plan. These plans outline short- and long-term implementation strategies for the statewide workface investment system. All state plans can be accessed at http://www.doleta.gov/USWORKFORCE/WIA/planstatus.cfm . In keeping with the state planning schedule, all states submitted a request to extend into PY 2009 their current WIA and Wagner-Peyser Act State Plan along with proposed levels of performance. ETA also waives certain provisions of WIA to support states in their workforce development efforts. States also submitted requests for current waivers that they wanted to extend.		
Completed: April 15, 2009		
Within 30 days of receipt of the Recovery Act funds (April 20, 2009), states allotted WIA and Wagner-Peyser Act formula funds to the local areas.		
Completed: April 20, 2009		
To support state implementation of Recovery Act WIA and Wagner-Peyser Act formula funds, ETA will conduct readiness consultations with each state. These consultations will inform ETA's technical assistance strategy. As planned, 209 visits were completed by May 22, 2009. A consolidated report of findings was cleared by OMB, and published in June 2009. OMB Control No. 1205-0471. Completed: May 22, 2009		

State Plan Modifications	ETA required all states to submit a State Plan modification describing strategies to respond to the economic downturn and implement the Recovery Act by June 30, 2009. The June 30, 2009 submission covered the period of July 1, 2009 through June 30, 2010. ETA reviewed and approved plans within 90 days of receipt of the plan.	
	Completed: June 30, 2009	
	To support state and local implementation of WIA and Wagner-Peyser Act formula funds provided in the Recovery Act, ETA is providing ongoing technical assistance in the form of Webinars, conference calls, and inperson meetings. All technical assistance Webinars can be accessed at http://www.economicrecovery.workforce3one.org .	
Technical Assistance	A sample of Webinars and prerecorded sessions completed: 1. 10/12/09: Automate Your CareerDepartment of Labor's Tools to Enhance Your Career's Performance	
	 4/20/09: ETA's Vision and GuidanceUsing your Reemployment Services Funds Webinar Completed on 7/31/09: Reemployment Services: Strengthening Your Reemployment Efforts through Strong UI Connections 5/12/09: Targeting Job Development for Unemployment Insurance Claimants 	
	In addition, ETA regional offices have provided workshops and other technical assistance to states on an ongoing basis.	
	For PY 2009, ETA's technical assistance priorities focus on Recovery Act implementation, frontline staff training and leadership and partnership. Specific topics for TA include reemployment services, on-the job training, adult learning strategies, services to targeted populations, rapid response, managing intake and case management, and unemployment insurance and workforce system connections.	
	Expected Completion Date: Ongoing through June 30, 2011	
Quarterly Financial and Performance Reports	Quarterly financial and program reports are due 45 days after the end of each quarter, by Program Year, according to ETA WIA and Wagner-Peyser reporting policy. Program Year 2008 began on July 1, 2008.	
	Expected Completion Date: Ongoing through June 30, 2011	

5. Monitoring and Evaluation:

The Department has established reporting systems and Office of Management and Budget-approved forms that grantees use to track, document and report expenditures and performance on a regularly scheduled basis that provides updated information to ETA at a minimum of once a quarter. Grantees are required to certify the accuracy of these reports prior to submitting them to ETA through the established electronic reporting systems. ETA also monitors and reviews quarterly Recovery Act recipient reports required under Section 1512, available on Federalreporting.gov.

ETA uses its Grants Electronic Management System (GEMS) and other related electronic data collection systems to conduct and document quarterly desk reviews of financial obligations, expenditures and program performance. Grantees identified as "high risk grantees" through

these reviews are given priority attention for on-site monitoring. ETA's quarterly desk reviews along with on-site reviews are used to identify potential risks and encourage program improvements through technical assistance and training. Additionally, Federal regulations require that each State establish and maintain a self-appraisal system for Employment Service operations to determine success in reaching goals and to correct deficiencies in performance. The self-appraisal system includes numerical (quantitative) assessment and non-numerical (qualitative) assessment. ETA Federal Project Officers review the States' appraisals during on-site visits.

To further ensure that funds are spent on the intended purpose and accurately reported, the Department requires all grantees to submit single audits annually. ETA works with grantees to resolve any audit findings through additional reviews and the development and implementation of corrective action plans.

ETA conducts a final review of each grantee's expenditures and performance during the grant close-out process.

The Department is conducting a review of state workforce development and unemployment insurance policy responses to the current recession and the Recovery Act. Specifically, the review is examining the types of policy actions states take in their workforce development and unemployment insurance systems to meet the challenges of the recession and implementation of the economic stimulus legislation.

6. Measures:

Measure Text	Entered Employment Rate
Measure Type	Outcome
Measure Frequency	Quarterly
Direction of Measure	Increasing
Unit of Measure	Percentage
Explanation of Measure	The entered employment rate represents the percent of participants employed in the first quarter after exit from the program. This is a Federal job training program common measure, which enables the Wagner-Peyser Act funded Employment Service (ES) to describe in a similar manner the core purposes and results of the program compared to other education, employment and job training programs. For example, while ES provides universal access through One Stop Career Centers and electronic tools, the ultimate outcomes for this program are the same as other more targeted employment and training programs. Common measures remove a barrier to service integration among programs by ensuring that programs no longer have different definitions and methodologies for measuring performance. In this case, the performance indicator measures how many participants got a job according to the following formula: of those who are not employed at the date of participation – the number of participants who are employed in the first quarter after the exit quarter divided by the number of participants who exited during the quarter. There is no targeted ARRA increment. The target was set using a regression model based on past program results and the unemployment rate. Because of the high unemployment rate and a contracted economy, DOL does not expect that Recovery Act funding will allow the program to improve its entered employment rate in the short-term. However, the funds will allow more individuals to receive services. This output measure is shown below.

Revised Full Program Target Targeted ARRA Increment Actual	59.0 % 56.5% N/A 52%
Revised Full Program Target Targeted ARRA Increment Actual	56.5% N/A 52%
Targeted ARRA Increment Actual	52%
Goal Lead	
	Grace Kilbane, Administrator, Office of Workforce Investment
Measure Text	Employment Retention Rate
	Outcome
1 7	Quarterly
Direction of Measure	Increasing
	Percentage
Explanation of Measure	The employment retention rate represents the percentage of participants employed in the first quarter after program exit who are still employed in the second and third quarters after exit from the program. This is a Federal job training program common measure, which enables the Wagner-Peyser Act funded Employment Service (ES) to describe in a similar manner the core purposes and results of the program compared to other education, employment and job training programs. For example, while ES provides universal access through One Stop Career Centers and electronic tools, the ultimate outcomes for this program are the same as other more targeted employment and training programs. Common measures remove a barrier to service integration among programs by ensuring that programs no longer have different definitions and methodologies for measuring performance. In this case, the performance indicator measures how many participants retained their employment once placed in a job, according to the following formula: of those who are employed in the first quarter after the exit quarter – the number of participants who are employed in both the second and third quarters after the exit quarter divided by the number of participants who exited during the quarter. There is no targeted ARRA increment. The target was set using a regression model based on past program results and the unemployment rate. Because of the high unemployment rate and a contracted economy, DOL does not expect that Recovery Act funding will allow the program to improve its employment retention rate in the short-term. However, the funds will allow more individuals to receive services. This output measure is shown below. The actual reported below is from the quarterly report ending December 31, 2009.

Measure Text	Monthly Enrollment Comparison
Measure Type	Output
Measure Frequency	Monthly
Direction of Measure	Decreasing
Unit of Measure	Percentage
Explanation of Measure	Current labor market conditions may have an impact on demand for and participation in Employment Services. ETA will review monthly supplemental performance reports to determine what percentage of participation occurs relative to the level of participation reported for the previous month. A 15% threshold has been identified whereby programs will receive technical assistance if their participation levels vary by greater than 15% from the previous month. The actual reported below shows a 1.5% decline for the monthly enrollment comparison based on the Total Participant level from the month of January to the month of February 2010. The numerator of this percentage is the difference between the total participants from the monthly reports with respective end dates of January 30, 2010 and February 28, 2010. The denominator used to calculate this result is the total participant count for January 2010.
Year	2009
Original Program Target	N/A
Revised Full Program Target	N/A
Targeted ARRA Increment	N/A
Actual	-1.5%
Goal Lead	Grace Kilbane, Administrator, Office of Workforce Investment
Measure Text	Average Earnings
Measure Type	Outcome
Measure Frequency	Quarterly
Direction of Measure	Increasing
Unit of Measure	Dollars
This measure represents the average six-month earnings for program participants. This is a training program common measure, which enables the Wagner-Peyser Act funded Employment to describe in a similar manner the core purposes and results of the program compared to of employment and job training programs. For example, while ES provides universal access the Career Centers and electronic tools, the ultimate outcomes for this program are the same as targeted employment and training programs. Common measures remove a barrier to service among programs by ensuring that programs no longer have different definitions and methode measuring performance. In this case, the performance indicator measures participants' aver earnings once placed in a job (note: the average earnings for a year can be obtained by dou performance measure result), according to the following formula: of those participants who a first, second, and third quarters after the exit quarter – total earnings in the second quarter p	

	in the third quarter after the exit quarter divided by the number of participants who exited during the quarter. There is no targeted ARRA increment. The target was set using a regression model based on past program results and the unemployment rate. Because of the high unemployment rate and a contracted economy, DOL does not expect that Recovery Act funding will allow the program to improve its average earnings in the short-term. However, the funds will allow more individuals to receive services. This output measure is shown below.
	The actual reported below is from the quarterly report ending December 31, 2009.
Year	2009
Original Program Target	\$10,708
Revised Full Program Target	\$9,827
Targeted ARRA Increment	N/A
Actual	\$12,443
Goal Lead	Grace Kilbane, Administrator, Office of Workforce Investment
Measure Text	Monthly Performance Report Indicators: • Number of participants served • Number of UI Veterans • Number received workforce information services • Number referred to career guidance • Number received job search assistance • Number referred to employment • Number referred to WIA services • Number referred and placed in training, including WIA-funded training (RES only)
Measure Type	Output
Measure Frequency	Monthly
Direction of Measure	Increasing
Unit of Measure	Aggregate Participant Counts
Explanation of Measure	Participant levels, by select target characteristics and service categories. This information will enable the Department to report on short-term indicators which are aligned with the intended use of Recovery Act expenditures. For example, it is the intent of the Wagner Peyser Act to increase services to UI claimants. Implementation guidance also stresses the need to provide assessments, career guidance, and referral to WIA training, as needed. This set of indicators will help describe the Department's progress in these areas on a consistent basis. The Department is working to develop targets for this output measure and will establish baselines and measure increases in future months, quarters, and years (until the life of funds expire). Results for the monthly indicators:

February Monthly Results 694,460 - Total participants served 90,944 - UI Veterans 285,821 - received workforce information services 129,712 - referred to career guidance 380,158 - received job search assistance 176,625 - referred to employment 114,319 - referred to WIA services 25,071 - referred and placed in training, including WIA-funded training (RES only) These are the results from the monthly report ending February 28, 2010. There has not been a method developed yet to allow for separate reporting of individuals served with Recovery Act funds and those served with regular Wagner-Peyser Act funds. The above counts, therefore, represent a monthly and cumulative result of participants served below is the cumulative program-to-date total participants served from the February 28, 2010 report. 7. Transparency and Accountability:

Consistent with the transparency and accountability objectives of the Recovery Act, states submit supplemental monthly reports in addition to continuing to submit current quarterly and annual reports. Data for the supplemental monthly report are extracted from the Wagner-Peyser Act quarterly report (ETA 9002A) and include the number of participants served, the number of UI claimants served and the type of services received. Additionally, the report distinguishes between staff-assisted services and self-service.

For Reemployment Services, states report the same data elements as those collected in the Employment Service report. One additional data element was added to the monthly report, i.e., referral to training, including WIA-funded training. The report identifies participants whose services are Recovery Act funded. Recovery Act participants are defined as UI claimants who were identified for, or received, Recovery Act-funded staff-assisted services.

Grantees also submit quarterly recipient reports per Section 1512 of the Recovery Act on FederalReporting.gov, which are made public on Recovery.gov. ETA posts the summary of program data on the ETA website and on the DOL Recovery webpage.
