INCREASING YOUR ACCESS TO INFORMATION YOU NEED: TXDOT UNVEILS NEW CRASH REPORT PURCHASE SYSTEM

he Texas Department of Transportation today announced the launch of a new Web-based Crash Report Online Purchase System that allows the public to immediately access vehicle crash reports. Filed with TxDOT by law enforcement

agencies, these reports often are requested by individuals seeking documentation of a crash.

"We're excited about this new system and its ability to provide these reports quickly to

the public," said Carol Rawson, TxDOT director of traffic operations. "We understand people often have a real need to obtain a crash report quickly after they've been involved in a crash. This new system will allow them to access and download the reports in a matter of minutes once we've received the report from law enforcement."

The new Crash Report Online Purchase System allows a person to search for the report of a crash in which they were involved and pay for it with a major credit card. In Texas, a motor vehicle crash report is considered confidential unless a person can provide certain information about the incident.

Using the new online purchase system, a person can enter the required information, search for the crash report, pay the \$6-\$8 fee online and then download a copy of the report.

Prior to the implementation of this system, a person needing a crash report had to

complete a form, attach payment and mail the request to TxDOT. Although this is still an option, the new online system provides more immediate results.

To access the new Crash Report Online Purchase System, visit TxDOT.gov and search for "crash reports."

From Mr. C. Harmon of Dallas, Texas:

"I sent you an email last Friday after driving home from work across the Lewisville Lake bridge. I wanted to commend TXDOT for their work on the bridge over the weekend. It was vastly improved on Sunday. Thanks for the hard work."

From Mr. R. Harper of Corinth, Texas

"I would like to personally thank each and every employee whose duties were responsible for the ice removal on bridges during this severe Ice Storm. I grew up in the midwest and am very familiar with these conditions. Thank you good job!"
