**Note:** Cohort enrollment inconsistencies occur because of withdrawals due to personal considerations (e.g., illness, relocation, etc.) and the periodic inclusion of exchange students.

*Retention rate and graduation rate percentages are based on actual ID majors:*

\*2011-2012 Junior cohort of 33 students; 2 withdrew, retention rate of 94%; 31 advanced to fall 2012 senior class, 3 returned after a one semester withdrawal, and 33 out of the 34 graduated spring 2013 with a graduation rate of 97%.

\*\*2012-2013 Junior cohort of 32 students; 1 withdrew, 1 postponed senior studios to 2014-2015; retention rate, 97%; 30 advanced to fall 2013 semester senior class and 30 graduated spring 2014 with a graduation of 100%.

\*\*\*2013-2014 Junior cohort of 31 students; 1 postponed senior studios to 2015-2016, retention rate, 97%; 30 advanced to fall 2014 semester senior class, but 1 returned from previous year and 31 graduated spring 2015 with a graduation rate of 100%.

*Job placement rates are calculated based on the most accurate information on file to date. Percentages are provided tracking the individuals known to be in the market for an ID position as well as for the entire class. At the time of this posting, current year spring graduates are in progress in their pursuit of employment.*
