ALL students undertaking a dissertation involving the use of human subjects in any way as a source of data must first receive clearance from the Institutional Review Board on Human Subjects (IRB). The proper form for requesting clearance can be obtained from the Office of Research and Academic Grants or online at **www.unt.edu/ospa/irb/guidelines.htm.** The student should not proceed to collect data until clearance is received. The Major Professor should answer the applicable statements below:

1. This research will use human subjects as a source of data? Yes   No
2. If YES, has the "Use of Human Subjects" form been filed in the Office of Research and Academic Grants?   Yes   No
   The student MAY NOT proceed to collect data until the form is filed and the IRB grants clearance.

I testify this statement is true:
