

Joseph L. Corriveau Ph.D.

Director, Edgewood Chemical Biological Center

On October 6, 2014, Dr. Joseph L. Corriveau began serving as the Director of the U.S. Army Edgewood Chemical Biological Center (ECBC), the only chemical and biological defense technology center of its kind. Dr. Corriveau is a member of the Senior Executive Service (SES) and a Department of Defense expert in countering emerging chemical and biological threats.

Prior to this appointment, Dr. Corriveau served as the Director of Research and Technology at ECBC. The directorate, one of three within ECBC, supports the Department of Defense, as well as other government agencies, by providing innovative science and technology solutions for chemical and biological defense.

Dr. Corriveau joined ECBC in June 2003 as the Deputy Director of Research and Technology after serving in the Office of the Under Secretary of Defense for Acquisition, Technology & Logistics as the chief scientist for the Department of Defense Chemical Biological Defense Program. Earlier in his career, Dr. Corriveau served as a senior analyst with the U.S. Army's National Ground Intelligence Center.

Dr. Corriveau holds two degrees from Brown University: a Doctorate in Biology with an emphasis in cell and molecular biology, and a Master of Science in Biology with an emphasis in biochemistry. He also holds a Master of Science in Plant Pathology from the University of Delaware, and a Bachelor of Arts in Biology from Saint Anselm College.

He and his wife, Angie, live in Alexandria, Virginia.

*The men and women of ECBC provide **innovative solutions** to the world's **most complex chemical and biological challenges.***

Joseph Corriveau, Ph.D.

ECBC is a U.S. Army Research, Development and Engineering Command laboratory and is the U.S. Army's principal research and development center for chemical and biological defense technology, engineering and field operations. ECBC has achieved major technological advances for the warfighter and for our national defense, with a long and distinguished history of providing the Armed Forces with quality systems and outstanding customer service.
