252.204-7011 Alternative Line Item Structure.

As prescribed in [204.7109\(b\)](#), insert the following provision:

ALTERNATIVE LINE ITEM STRUCTURE (SEP 2011)

(a) Line items are the basic structural elements in a solicitation or contract that provide for the organization of contract requirements to facilitate pricing, delivery, inspection, acceptance and payment. Line items are organized into contract line items, subline items, and exhibit line items. Separate line items should be established to account for separate pricing, identification (see section [211.274](#) of the Defense Federal Acquisition Regulation Supplement), deliveries, or funding. The Government recognizes that the line item structure in this solicitation may not conform to every offeror's practices. Failure to correct these issues can result in difficulties in accounting for deliveries and processing payments. Therefore, offerors are invited to propose an alternative line item structure for items on which bids, proposals, or quotes are requested in this solicitation to ensure that the resulting contract structure is economically and administratively advantageous to the Government and the Contractor.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(b) If an alternative line item structure is proposed, the structure must be consistent with subpart [204.71](#) of the Defense Federal Acquisition Regulation Supplement and PGI [204.71](#). A sample line item structure and a proposed alternative structure are as follows:

Solicitation:

ITEM NO.	SUPPLIES/SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Computer, Desktop with CPU, Monitor, Keyboard and Mouse	20	EA		

Alternative line item structure offer where monitors are shipped separately:

ITEM NO.	SUPPLIES/SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Computer, Desktop with CPU, Keyboard and Mouse	20	EA		
0002	Monitor	20	EA

(5) Coal or combustibles such as firewood.

(6) Agricultural products such as seeds, grains, or animal feed.

“Case” means either a MIL-STD-129 defined exterior container within a palletized unit load or a MIL-STD-129 defined individual shipping container.

“Electronic Product Code™ (EPC)” means an identification scheme for universally identifying physical objects via RFID tags and other means. The standardized EPC data consists of an EPC (or EPC identifier) that uniquely identifies an individual object, as well as an optional filter value when judged to be necessary to enable effective and efficient reading of the EPC tags. In addition to this standardized data, certain classes of EPC tags will allow user-defined data. The EPC Tag Data Standards will define the length and position of this data, without defining its content.

“EPCglobal®” means a subscriber-driven organization comprised of industry leaders and organizations focused on creating global standards for the adoption of passive RFID technology.

“Exterior container” means a MIL-STD-129 defined container, bundle, or assembly that is sufficient by reason of material, design, and construction to protect unit packs and intermediate containers and their contents during shipment and storage. It can be a unit pack or a container with a combination of unit packs or intermediate containers. An exterior container may or may not be used as a shipping container.

“Palletized unit load” means a MIL-STD-129 defined quantity of items, packed or unpacked, arranged on a pallet in a specified manner and secured, strapped, or fastened on the pallet so that the whole palletized load is handled as a single unit. A palletized or skidded load is not considered to be a shipping container. A loaded 463L System pallet is not considered to be a palletized unit load. Refer to the Defense Transportation Regulation, DoD 4500.9-R, Part II, Chapter 203, for marking of 463L System pallets.

“Passive RFID tag” means a tag that reflects energy from the reader/interrogator or that receives and temporarily stores a small amount of energy from the reader/interrogator signal in order to generate the tag response. The only acceptable tags are EPC Class 1 passive RFID tags that meet the EPCglobal™ Class 1 Generation 2 standard.

“Radio frequency identification (RFID)” means an automatic identification and data capture technology comprising one or more reader/interrogators and one or more radio frequency transponders in which data transfer is achieved by means of suitably modulated inductive or radiating electromagnetic carriers.

“Shipping container” means a MIL-STD-129 defined exterior container that meets carrier regulations and is of sufficient strength, by reason of material, design, and construction, to be shipped safely without further packing (e.g., wooden boxes or crates, fiber and metal drums, and corrugated and solid fiberboard boxes).

As prescribed in [213.106-2-70](#), use the following provision:

NOTICE TO PROSPECTIVE SUPPLIERS ON USE OF PAST PERFORMANCE
INFORMATION RETRIEVAL SYSTEM—STATISTICAL REPORTING IN PAST
PERFORMANCE EVALUATIONS (JUN 2015)

- (a) The Past Performance Information Retrieval System-Statistical Reporting (PPIRS-SR) application (<http://www.ppirs.gov/>) will be used in the evaluation of suppliers' past performance in accordance with DFARS [213.106-2\(b\)\(i\)](#).
- (b) PPIRS-SR collects quality and delivery data on previously awarded contracts and orders from existing Department of Defense reporting systems to classify each supplier's performance history by Federal supply class (FSC) and product or service code (PSC). The PPIRS-SR application provides the contracting officer quantifiable past performance information regarding a supplier's quality and delivery performance for the FSC and PSC of the supplies being purchased.
- (c) The quality and delivery classifications identified for a supplier in PPIRS-SR will be used by the contracting officer to evaluate a supplier's past performance in conjunction with the supplier's references (if requested) and other provisions of this solicitation under the past performance evaluation factor. The Government reserves the right to award to the supplier whose quotation or offer represents the best value to the Government.
- (d) PPIRS-SR classifications are generated monthly for each contractor and can be reviewed by following the access instructions in the PPIRS-SR User's Manual found at https://www.ppirs.gov/pdf/PPIRS-SR_UserMan.pdf. Contractors are granted access to PPIRS-SR for their own classifications only. Part 252—Solicitation Provisions and Contract Clauses

(Revised June 26, 2015)

252.216-7000 Economic Price Adjustment—Basic Steel, Aluminum, Brass, Bronze, or Copper Mill Products.

As prescribed in [216.203-4-70](#)(a)(1), use the following clause:

ECONOMIC PRICE ADJUSTMENT—BASIC STEEL, ALUMINUM, BRASS, BRONZE, OR COPPER MILL PRODUCTS (MAR 2012)

(a) *Definitions.* As used in this clause—

“Established price” means a price which is an established catalog or market price for a commercial item sold in substantial quantities to the general public.

“Unit price” excludes any part of the price which reflects requirements for preservation, packaging, and packing beyond standard commercial practice.

(b) As represented by the Contractor in its offer, the unit price stated for _____ (*Identify the item*) is not in excess of the Contractor's established price in effect on the date set for opening of bids (or the contract date if this is a negotiated contract) for like quantities of the same item. This price is the net price after applying any applicable standard trade discounts offered by the Contractor from its catalog, list, or schedule price.

(c) The Contractor shall promptly notify the Contracting Officer of the amount and effective date of each decrease in any established price.

(1) Each corresponding contract unit price shall be decreased by the same percentage that the established price is decreased.

(2) This decrease shall apply to items delivered on or after the effective date of the decrease in the Contractor's established price.

(3) This contract shall be modified accordingly.

(d) If the Contractor's established price is increased after the date set for opening of bids (or the contract date if this is a negotiated contract), upon the Contractor's written request to the Contracting Officer, the corresponding contract unit price shall be increased by the same percentage that the established price is increased, and this contract shall be modified accordingly, provided—

(1) The aggregate of the increases in any contract unit price under this contract shall not exceed 10 percent of the original contract unit price;

(2) The increased contract unit price shall be effective on the effective date of the increase in the applicable established price if the Contractor's written request is received by the Contracting Officer within ten days of the change. If it is not, the effective date of the increased unit price shall be the date of receipt of the request by the Contracting Officer; and

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(3) The increased contract unit price shall not apply to quantities scheduled for delivery before the effective date of the increased contract unit price unless the Contractor's failure to deliver before that date results from causes beyond the control and without the fault or negligence of the Contractor, within the meaning of the Default clause of this contract.

(4) The Contracting Officer shall not execute a modification incorporating an increase in a contract unit price under this clause until the increase is verified.

(e) Within 30 days after receipt of the Contractor's written request, the Contracting Officer may cancel, without liability to either party, any portion of the contract affected by the requested increase and not delivered at the time of such cancellation, except as follows—

(1) The Contractor may, after that time, deliver any items that were completed or in the process of manufacture at the time of receipt of the cancellation notice, provided the Contractor notifies the Contracting Officer of such items within 10 days after the Contractor receives the cancellation notice.

(2) The Government shall pay for those items at the contract unit price increased to the extent provided by paragraph (d) of this clause.

(3) Any standard steel supply item shall be deemed to be in the process of manufacture when the steel for that item is in the state of processing after the beginning of the furnace melt.

(f) Pending any cancellation of this contract under paragraph (e) of this clause, or if there is no cancellation, the Contractor shall continue deliveries according to the delivery schedule of the contract. The Contractor shall be paid for those deliveries at the contract unit price increased to the extent provided by paragraph (d) of this clause.

(End of clause)

252.216-7001 Economic Price Adjustment—Nonstandard Steel Items.

As prescribed in [216.203-4-70\(b\)](#), use the following clause:

ECONOMIC PRICE ADJUSTMENT--NONSTANDARD STEEL ITEMS (JUL 1997)

(a) *Definitions.* As used in this clause—

“Base labor index” means the average of the labor indices for the three months which consist of the month of bid opening (or offer submission) and the months immediately preceding and following that month.

“Base steel index” means the Contractor's established price (see Note 6) including all applicable extras of \$_____ per _____ (see Note 1) for _____ (see Note 2) on the date set for bid opening (or the date of submission of the offer).

“Current labor index” means the average of the labor indices for the month in which delivery of supplies is required to be made and the month preceding.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

“Current steel index” means the Contractor's established price (see Note 6) for that item, including all applicable extras in effect ____ days (see Note 3) prior to the first day of the month in which delivery is required.

“Established price” is—

(1) A price which is an established catalog or market price of a commercial item sold in substantial quantities to the general public; and

(2) The net price after applying any applicable standard trade discounts offered by the Contractor from its catalog, list, or schedule price. (But see Note 6.)

“Labor index” means the average straight time hourly earnings of the Contractor's employees in the _____ shop of the Contractor's _____ plant (see Note 4) for any particular month.

“Month” means calendar month. However, if the Contractor's accounting period does not coincide with the calendar month, then that accounting period shall be used in lieu of “month.”

(b) Each contract unit price shall be subject to revision, under the terms of this clause, to reflect changes in the cost of labor and steel. For purpose of this price revision, the proportion of the contract unit price attributable to costs of labor not otherwise included in the price of the steel item identified under the “base steel index” definition in paragraph (a) shall be ____ percent, and the proportion of the contract unit price attributable to the cost of steel shall be ____ percent. (See Note 5.)

(c)(1) Unless otherwise specified in this contract, the labor index shall be computed by dividing the total straight time earnings of the Contractor's employees in the shop identified in paragraph (a) for any given month by the total number of straight time hours worked by those employees in that month.

(2) Any revision in a contract unit price to reflect changes in the cost of labor shall be computed solely by reference to the “base labor index” and the “current labor index.”

(d) Any revision in a contract unit price to reflect changes in the cost of steel shall be computed solely by reference to the “base steel index” and the “current steel index.”

(e)(1) Each contract unit price shall be revised for each month in which delivery of supplies is required to be made.

(2) The revised contract unit price shall apply to the deliveries of those quantities required to be made in that month regardless of when actual delivery is made.

(3) Each revised contract unit price shall be computed by adding—

(i) The adjusted cost of labor (obtained by multiplying ____ percent of the contract unit price by a fraction, of which the numerator shall be the current labor index and the denominator shall be the base labor index);

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(ii) The adjusted cost of steel (obtained by multiplying ____ percent of the contract unit price by a fraction, of which the numerator shall be the current steel index and the denominator shall be the base steel index); and

(iii) The amount equal to ____ percent of the original contract unit price (representing that portion of the unit price which relates neither to the cost of labor nor the cost of steel, and which is therefore not subject to revision (see Note 5)).

(4) The aggregate of the increases in any contract unit price under this contract shall not exceed ten percent of the original contract unit price.

(5) Computations shall be made to the nearest one-hundredth of one cent.

(f)(1) Pending any revisions of the contract unit prices, the Contractor shall be paid the contract unit price for deliveries made.

(2) Within 30 days after final delivery (or such other period as may be authorized by the Contracting Officer), the Contractor shall furnish a statement identifying the correctness of—

(i) The average straight time hourly earnings of the Contractor's employees in the shop identified in paragraph (a) that are relevant to the computations of the “base labor index” and the “current labor index;” and

(ii) The Contractor's established prices (see Note 6), including all applicable extras for like quantities of the item that are relevant to the computation of the “base steel index” and the “current steel index.”

(3) Upon request of the Contracting Officer, the Contractor shall make available all records used in the computation of the labor indices.

(4) Upon receipt of the statement, the Contracting Officer will compute the revised contract unit prices and modify the contract accordingly. No modification to this contract will be made pursuant to this clause until the Contracting Officer has verified the revised established price (see Note 6).

(g)(1) In the event any item of this contract is subject to a total or partial termination for convenience, the month in which the Contractor receives notice of the termination, if prior to the month in which delivery is required, shall be considered the month in which delivery of the terminated item is required for the purposes of determining the current labor and steel indices under paragraphs (c) and (d).

(2) For any item which is not terminated for convenience, the month in which delivery is required under the contract shall continue to apply for determining those indices with respect to the quantity of the non-terminated item.

(3) If this contract is terminated for default, any price revision shall be limited to the quantity of the item which has been delivered by the Contractor and accepted by the Government prior to receipt by the Contractor of the notice of termination.

(h) If the Contractor's failure to make delivery of any required quantity arises out of causes beyond the control and without the fault or negligence of the Contractor, within

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

the meaning of the clause of this contract entitled “Default,” the quantity not delivered shall be delivered as promptly as possible after the cessation of the cause of the failure, and the delivery schedule set forth in this contract shall be amended accordingly.

NOTES:

- 1 Offeror insert the unit price and unit measure of the standard steel mill item to be used in the manufacture of the contract item.
- 2 Offeror identify the standard steel mill item to be used in the manufacture of the contract item.
- 3 Offeror insert best estimate of the number of days required for processing the standard steel mill item in the shop identified under the “labor index” definition.
- 4 Offeror identify the shop and plant in which the standard steel mill item identified under the “base steel index” definition will be finally fabricated or processed into the contract item.
- 5 Offeror insert the same percentage figures for the corresponding blanks in paragraphs (b), (e)(3)(i), and (e)(3)(ii). In paragraph (e)(3)(iii), insert the percentage representing the difference between the sum of the percentages inserted in paragraph (b) and 100 percent.
- 6 In negotiated acquisitions of nonstandard steel items, when there is no “established price” or when it is not desirable to use this price, this paragraph may refer to another appropriate price basis, e.g., an established interplant price.

(End of clause)

252.216-7002 Alternate A, Time-and-Materials/Labor-Hour Proposal Requirements – Non-Commercial Item Acquisition with Adequate Price Competition.

As prescribed in [216.601](#)(e), substitute the following paragraph (c) for paragraph (c) of the provision at FAR 52.216-29:

ALTERNATE A, TIME-AND-MATERIALS/LABOR-HOUR PROPOSAL REQUIREMENTS—NON-COMMERCIAL ITEM ACQUISITION WITH ADEQUATE PRICE COMPETITION (FEB 2007)

(c) The offeror must establish fixed hourly rates using separate rates for each category of labor to be performed by each subcontractor and for each category of labor to be performed by the offeror, and for each category of labor to be transferred between divisions, subsidiaries, or affiliates of the offeror under a common control.

252.216-7003 Economic Price Adjustment—Wage Rates or Material Prices Controlled by a Foreign Government.

As prescribed in [216.203-4-70](#)(c)(1), use the following clause:

ECONOMIC PRICE ADJUSTMENT—WAGE RATES OR MATERIAL PRICES CONTROLLED BY A FOREIGN GOVERNMENT (MAR 2012)

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(a) As represented by the Contractor in its offer, the prices set forth in this contract—

(1) Are based on the wage rate(s) or material price(s) established and controlled by the government of the country specified by the Contractor in its offer; and

(2) Do not include contingency allowances to pay for possible increases in wage rates or material prices.

(b) If wage rates or material prices are revised by the government named in paragraph (a) of this clause, the Contracting Officer shall make an equitable adjustment in the contract price and shall modify the contract to the extent that the Contractor's actual costs of performing this contract are increased or decreased, as a direct result of the revision, subject to the following:

(1) For increases in established wage rates or material prices, the increase in contract unit price(s) shall be effective on the same date that the government named in paragraph (a) of this clause increased the applicable wage rate(s) or material price(s), but only if the Contracting Officer receives the Contractor's written request for contract adjustment within 10 days of the change. If the Contractor's request is received later, the effective date shall be the date that the Contracting Officer received the Contractor's request.

(2) For decreases in established wage rates or material prices, the decrease in contract unit price(s) shall be effective on the same date that the government named in paragraph (a) of this clause decreased the applicable wage rate(s) or material price(s). The decrease in contract unit price(s) shall apply to all items delivered on and after the effective date of the government's rate or price decrease.

(c) No modification changing the contract unit price(s) shall be executed until the Contracting Officer has verified the applicable change in the rates or prices set by the government named in paragraph (a) of this clause. The Contractor shall make available its books and records that support a requested change in contract price.

The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. (b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. (d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Orders issued during the effective period of this contract and not completed within that time shall be completed by the Contractor within the time specified in the order. The rights and obligations of the Contractor and the Government for those orders shall be governed by the terms of this contract to the same extent as if completed during the effective period.

Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) The Government's requirements for each item or subitem of supplies or services described in the Schedule are being purchased through one non-set-aside contract and one set-aside contract. Therefore, the Government shall order from each Contractor approximately one-half of the total supplies or services specified in the Schedule that are required to be purchased by the specified Government activity or activities. The Government may choose between the set-aside Contractor and the non-set-aside Contractor in placing any particular order. However, the Government shall allocate successive orders, in accordance with its delivery requirements, to maintain as close a ratio as is reasonably practicable between the total quantities ordered from the two Contractors.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Orders issued during the effective period of this contract and not completed within that time shall be completed by the Contractor within the time specified in the order. 252.217-7003 Changes.

As prescribed in [217.7104](#)(a), use the following clause:

CHANGES (DEC 1991)

(a) The Contracting Officer may, at any time and without notice to the sureties, by written change order, make changes within the general scope of any job order issued under the Master Agreement in—

- (1) Drawings, designs, plans, and specifications;
- (2) Work itemized;
- (3) Place of performance of the work;
- (4) Time of commencement or completion of the work; and
- (5) Any other requirement of the job order.

(b) If a change causes an increase or decrease in the cost of, or time required for, performance of the job order, whether or not changed by the order, the Contracting Officer shall make an equitable adjustment in the price or date of completion, or both, and shall modify the job order in writing.

(1) Within ten days after the Contractor receives notification of the change, the Contractor shall submit to the Contracting Officer a request for price adjustment, together with a written estimate of the increased cost.

(2) The Contracting Officer may grant an extension of this period if the Contractor requests it within the ten day period.

(3) If the circumstances justify it, the Contracting Officer may accept and grant a request for equitable adjustment at any later time prior to final payment under the job order, except that the Contractor may not receive profit on a payment under a late request.

(c) If the Contractor includes in its claim the cost of property made obsolete or excess as a result of a change, the Contracting Officer shall have the right to prescribe the manner of disposition of that property.

(d) Failure to agree to any adjustment shall be a dispute within the meaning of the Disputes clause.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(e) Nothing in this clause shall excuse the Contractor from proceeding with the job order as changed.

(End of clause)

252.217-7004 Job Orders and Compensation.

As prescribed in [217.7104](#)(a), use the following clause:

JOB ORDERS AND COMPENSATION (MAY 2006)

(a) The Contracting Officer shall solicit bids or proposals and make award of job orders. The issuance of a job order signed by the Contracting Officer constitutes award. The job order shall incorporate the terms and conditions of the Master Agreement.

(b) Whenever the Contracting Officer determines that a vessel, its cargo or stores, would be endangered by delay, or whenever the Contracting Officer determines that military necessity requires that immediate work on a vessel is necessary, the Contracting Officer may issue a written order to perform that work and the Contractor hereby agrees to comply with that order and to perform work on such vessel within its capabilities.

(1) As soon as practicable after the issuance of the order, the Contracting Officer and the Contractor shall negotiate a price for the work and the Contracting Officer shall issue a job order covering the work.

(2) The Contractor shall, upon request, furnish the Contracting Officer with a breakdown of costs incurred by the Contractor and an estimate of costs expected to be incurred in the performance of the work. The Contractor shall maintain, and make available for inspection by the Contracting Officer or the Contracting Officer's representative, records supporting the cost of performing the work.

(3) Failure of the parties to agree upon the price of the work shall constitute a dispute within the meaning of the Disputes clause of the Master Agreement. In the meantime, the Contractor shall diligently proceed to perform the work ordered.

(c)(1) If the nature of any repairs is such that their extent and probable cost cannot be ascertained readily, the Contracting Officer may issue a job order (on a sealed bid or negotiated basis) to determine the nature and extent of required repairs.

(2) Upon determination by the Contracting Officer of what work is necessary, the Contractor, if requested by the Contracting Officer, shall negotiate prices for performance of that work. The prices agreed upon shall be set forth in a modification of the job order.

(3) Failure of the parties to agree upon the price shall constitute a dispute under the Disputes clause. In the meantime, the Contractor shall diligently proceed to perform the work ordered.

(End of clause)

252.217-7005 Inspection and Manner of Doing Work.

As prescribed in [217.7104\(a\)](#), use the following clause:

INSPECTION AND MANNER OF DOING WORK (JUL 2009)

(a) The Contractor shall perform work in accordance with the job order, any drawings and specifications made a part of the job order, and any change or modification issued under the Changes clause of the Master Agreement.

(b)(1) Except as provided in paragraph (b)(2) of this clause, and unless otherwise specifically provided in the job order, all operational practices of the Contractor and all workmanship, material, equipment, and articles used in the performance of work under the Master Agreement shall be in accordance with the best commercial marine practices and the rules and requirements of the American Bureau of Shipping, the U.S. Coast Guard, and the Institute of Electrical and Electronic Engineers, in effect at the time of Contractor's submission of bid (or acceptance of the job order, if negotiated).

(2) When Navy specifications are specified in the job order, the Contractor shall follow Navy standards of material and workmanship. The solicitation shall prescribe the Navy standard whenever applicable.

(c) The Government may inspect and test all material and workmanship at any time during the Contractor's performance of the work.

(1) If, prior to delivery, the Government finds any material or workmanship is defective or not in accordance with the job order, in addition to its rights under the Guarantees clause of the Master Agreement, the Government may reject the defective or nonconforming material or workmanship and require the Contractor to correct or replace it at the Contractor's expense.

(2) If the Contractor fails to proceed promptly with the replacement or correction of the material or workmanship, the Government may replace or correct the defective or nonconforming material or workmanship and charge the Contractor the excess costs incurred.

(3) As specified in the job order, the Contractor shall provide and maintain an inspection system acceptable to the Government.

(4) The Contractor shall maintain complete records of all inspection work and shall make them available to the Government during performance of the job order and for 90 days after the completion of all work required.

(d) The Contractor shall not permit any welder to work on a vessel unless the welder is, at the time of the work, qualified to the standards established by the U.S. Coast Guard, American Bureau of Shipping, or Department of the Navy for the type of welding being performed. Qualifications of a welder shall be as specified in the job order.

(e) The Contractor shall—

(1) Exercise reasonable care to protect the vessel from fire;

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(2) Maintain a reasonable system of inspection over activities taking place in the vicinity of the vessel's magazines, fuel oil tanks, or storerooms containing flammable materials;

(3) Maintain a reasonable number of hose lines ready for immediate use on the vessel at all times while the vessel is berthed alongside the Contractor's pier or in dry dock or on a marine railway;

(4) Unless otherwise provided in a job order, provide sufficient security patrols to reasonably maintain a fire watch for protection of the vessel when it is in the Contractor's custody;

(5) To the extent necessary, clean, wash, and steam out or otherwise make safe, all tanks under alteration or repair;

(6) Furnish the Contracting Officer or designated representative with a copy of the "gas-free" or "safe-for-hotwork" certificate, provided by a Marine Chemist or Coast Guard authorized person in accordance with Occupational Safety and Health Administration regulations (29 CFR 1915.14) before any hot work is done on a tank;

(7) Treat the contents of any tank as Government property in accordance with the Government Property clause; and

(8) Dispose of the contents of any tank only at the direction, or with the concurrence, of the Contracting Officer.

(f) Except as otherwise provided in the job order, when the vessel is in the custody of the Contractor or in dry dock or on a marine railway and the temperature is expected to go as low as 35 °F, the Contractor shall take all necessary steps to—

(1) Keep all hose pipe lines, fixtures, traps, tanks, and other receptacles on the vessel from freezing; and

(2) Protect the stern tube and propeller hubs from frost damage.

(g) The Contractor shall, whenever practicable—

(1) Perform the required work in a manner that will not interfere with the berthing and messing of Government personnel attached to the vessel; and

(2) Provide Government personnel attached to the vessel access to the vessel at all times.

(h) Government personnel attached to the vessel shall not interfere with the Contractor's work or workers.

(i)(1) The Government does not guarantee the correctness of the dimensions, sizes, and shapes set forth in any job order, sketches, drawings, plans, or specifications prepared or furnished by the Government, unless the job order requires that the Contractor perform the work prior to any opportunity to inspect.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(2) Except as stated in paragraph (i)(1) of this clause, and other than those parts furnished by the Government, the Contractor shall be responsible for the correctness of the dimensions, sizes, and shapes of parts furnished under this agreement.

(j) The Contractor shall at all times keep the site of the work on the vessel free from accumulation of waste material or rubbish caused by its employees or the work. At the completion of the work, unless the job order specifies otherwise, the Contractor shall remove all rubbish from the site of the work and leave the immediate vicinity of the work area “broom clean.”

(End of clause)

252.217-7006 Title.

As prescribed in [217.7104](#)(a), use the following clause:

TITLE (DEC 1991)

(a) Unless otherwise provided, title to all materials and equipment to be incorporated in a vessel in the performance of a job order shall vest in the Government upon delivery at the location specified for the performance of the work.

(b) Upon completion of the job order, or with the approval of the Contracting Officer during performance of the job order, all Contractor-furnished materials and equipment not incorporated in, or placed on, any vessel, shall become the property of the Contractor, unless the Government has reimbursed the Contractor for the cost of the materials and equipment.

(c) The vessel, its equipment, movable stores, cargo, or other ship's materials shall not be considered Government-furnished property.

(End of clause)

252.217-7007 Payments.

As prescribed in [217.7104](#)(a), use the following clause:

PAYMENTS (DEC 1991)

(a) “Progress payments,” as used in this clause, means payments made before completion of work in progress under a job order.

(b) Upon submission by the Contractor of invoices in the form and number of copies directed by the Contracting Officer, and as approved by the Contracting Officer, the Government will make progress payments as work progresses under the job order.

(1) Generally, the Contractor may submit invoices on a semi-monthly basis, unless expenditures justify a more frequent submission.

(2) The Government need not make progress payments for invoices aggregating less than \$5,000.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(3) The Contracting Officer shall approve progress payments based on the value, computed on the price of the job order, of labor and materials incorporated in the work, materials suitably stored at the site of the work, and preparatory work completed, less the aggregate of any previous payments.

(4) Upon request, the Contractor will furnish the Contracting Officer any reports concerning expenditures on the work to date that the Contracting Officer may require.

(c) The Government will retain until final completion and acceptance of all work covered by the job order, an amount estimated or approved by the Contracting Officer under paragraph (b) of this clause. The amount retained will be in accordance with the rate authorized by Congress for Naval vessel repair contracts at the time of job order award.

(d) The Contracting Officer may direct that progress payments be based on the price of the job order as adjusted as a result of change orders under the Changes clause of the Master Agreement. If the Contracting Officer does not so direct—

(1) Payments of any increases shall be made from time to time after the amount of the increase is determined under the Changes clause of the Master Agreement; and

(2) Reductions resulting from decreases shall be made for the purposes of subsequent progress payments as soon as the amounts are determined under the Changes clause of the Master Agreement.

(e) Upon completion of the work under a job order and final inspection and acceptance, and upon submission of invoices in such form and with such copies as the Contracting Officer may prescribe, the Contractor shall be paid for the price of the job order, as adjusted pursuant to the Changes clause of the Master Agreement, less any performance reserves deemed necessary by the Contracting Officer, and less the amount of any previous payments.

(f) All materials, equipment, or any other property or work in process covered by the progress payments made by the Government, upon the making of those progress payments, shall become the sole property of the Government, and are subject to the provisions of the Title clause of the Master Agreement.

(End of clause)

252.217-7008 Bonds.

As prescribed in [217.7104](#)(a), use the following clause:

BONDS (DEC 1991)

(a) If the solicitation requires an offeror to submit a bid bond, the Offeror may furnish, instead, an annual bid bond (or evidence thereof) or an annual performance and payment bond (or evidence thereof).

(b) If the solicitation does not require a bid bond, the Offeror shall not include in the price any contingency to cover the premium of such a bond.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(c) Even if the solicitation does not require bonds, the Contracting Officer may nevertheless require a performance and payment bond, in form, amount, and with a surety acceptable to the Contracting Officer. Where performance and payment bond is required, the offer price shall be increased upon the award of the job order in an amount not to exceed the premium of a corporate surety bond.

(d) If any surety upon any bond furnished in connection with a job order under this agreement fails to submit requested reports as to its financial condition or otherwise becomes unacceptable to the Government, the Contracting Officer may require the Contractor to furnish whatever additional security the Contracting Officer determines necessary to protect the interests of the Government and of persons supplying labor or materials in the performance of the work contemplated under the Master Agreement.

(End of clause)

252.217-7009 Default.

As prescribed in [217.7104](#)(a), use the following clause:

DEFAULT (DEC 1991)

(a) The Government may, subject to the provisions of paragraph (b) of this clause, by written notice of default to the Contractor, terminate the whole or any part of a job order if the Contractor fails to—

(1) Make delivery of the supplies or to perform the services within the time specified in a job order or any extension;

(2) Make progress, so as to endanger performance of the job order; or

(3) Perform any of the other provisions of this agreement or a job order.

(b) Except for defaults of subcontractors, the Contractor shall not be liable for any excess costs if failure to perform the job order arises from causes beyond the control and without the fault or negligence of the Contractor. Examples of such causes include acts of God or of the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and unusually severe weather.

(c) If the Contractor's failure to perform is caused by the default of a subcontractor, and if such default arises out of causes beyond the control of both the Contractor and subcontractor, and without the fault or negligence of either, the Contractor shall not be liable for any excess costs for failure to perform, unless the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to perform the job order within the time specified.

(d) If the Government terminates the job order in whole or in part as provided in paragraph (a) of this clause—

(1) The Government may, upon such terms and in such manner as the Contracting Officer may deem appropriate, arrange for the completion of the work so terminated, at such plant or plants, including that of the Contractor, as may be designated by the Contracting Officer.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(i) The Contractor shall continue the performance of the job order to the extent not terminated under the provisions of this clause.

(ii) If the work is to be completed at the plant, the Government may use all tools, machinery, facilities, and equipment of the Contractor determined by the Contracting Office to be necessary for that purpose.

(iii) If the cost to the Government of the work procured or completed (after adjusting such cost to exclude the effect of changes in the plans and specifications made subsequent to the date of termination) exceeds the price fixed for work under the job order (after adjusting such price on account of changes in the plans and specifications made before the date of termination), the Contractor, or the Contractor's surety, if any, shall be liable for such excess.

(2) The Government, in addition to any other rights provided in this clause, may require the Contractor to transfer title and delivery to the Government, in the manner and to the extent directed by the Contracting Officer, any completed supplies and such partially completed supplies and materials, parts, tools, dies, jigs, fixtures, plans, drawings, information and contract rights (hereinafter called “manufacturing materials”) as the Contractor has specifically produced or specifically acquired for the performance of the terminated part of the job order.

(i) The Contractor shall, upon direction of the Contracting Officer, protect and preserve property in possession of the Contractor in which the Government has an interest.

(ii) The Government shall pay to the Contractor the job order price for completed items of work delivered to and accepted by the Government, and the amount agreed upon by the Contractor and the Contracting Officer for manufacturing materials delivered to and accepted by the Government, and for the protection and preservation of property. Failure to agree shall be a dispute concerning a question of fact within the meaning of the Disputes clause.

(e) If, after notice of termination of the job order, it is determined that the Contractor was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the notice of termination had been issued for the convenience of the Government.

(f) If the Contractor fails to complete the performance of a job order within the time specified, or any extension, the actual damage to the Government for the delay will be difficult or impossible to determine.

(1) In lieu of actual damage, the Contractor shall pay to the Government as fixed, agreed, and liquidated damages for each calendar day of delay the amount, if any, set forth in the job order (prorated to the nearest hour for fractional days).

(2) If the Government terminates the job order, the Contractor shall be liable, in addition to the excess costs provided in paragraph (d) of this clause, for liquidated damages accruing until such time as the Government may reasonably obtain completion of the work.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(3) The Contractor shall not be charged with liquidated damages when the delay arises out of causes beyond the control and without the fault or negligence of the Contractor. Subject to the provisions of the Disputes clause of the Master Agreement, the Contracting Officer shall ascertain the facts and the extent of the delay and shall extend the time for performance when in the judgment of the Contracting Officer, the findings of fact justify an extension.

(g) The rights and remedies of the Government provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law under this agreement.

(End of clause)

252.217-7010 Performance.

As prescribed in [217.7104](#)(a), use the following clause:

PERFORMANCE (JUL 2009)

(a) Upon the award of a job order, the Contractor shall promptly start the work specified and shall diligently prosecute the work to completion. The Contractor shall not start work until the job order has been awarded except in the case of emergency work ordered by the Contracting Officer under the Job Orders and Compensation clause of the Master Agreement.

(b) The Government shall deliver the vessel described in the job order at the time and location specified in the job order. Upon completion of the work, the Government shall accept delivery of the vessel at the time and location specified in the job order.

(c) The Contractor shall, without charge and without specific requirement in a job order—

(1) Make available at the plant to personnel of the vessel while in dry dock or on a marine railway, sanitary lavatory and similar facilities acceptable to the Contracting Officer;

(2) Supply and maintain suitable brows and gangways from the pier, dry dock, or marine railway to the vessel;

(3) Treat salvage, scrap or other ship's material of the Government resulting from performance of the work as items of Government-furnished property, in accordance with the Government Property clause;

(4) Perform, or pay the cost of, any repair, reconditioning or replacement made necessary as the result of the use by the Contractor of any of the vessel's machinery, equipment or fittings, including, but not limited to, winches, pumps, rigging, or pipe lines; and

(5) Furnish suitable offices, office equipment and telephones at or near the site of the work for the Government's use.

(d) The job order will state whether dock and sea trials are required to determine whether or not the Contractor has satisfactorily performed the work.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(1) If dock and sea trials are required, the vessel shall be under the control of the vessel's commander and crew.

(2) The Contractor shall not conduct dock and sea trials not specified in the job order without advance approval of the Contracting Officer. Dock and sea trials not specified in the job order shall be at the Contractor's expense and risk.

(3) The Contractor shall provide and install all fittings and appliances necessary for dock and sea trials. The Contractor shall be responsible for care, installation, and removal of instruments and apparatus furnished by the Government for use in the trials.

(End of clause)

252.217-7011 Access to Vessel.

As prescribed at [217.7104](#)(a), use the following clause:

ACCESS TO VESSEL (DEC 1991)

(a) Upon the request of the Contracting Officer, the Contractor shall grant admission to the Contractor's facilities and access to vessel, on a non-interference basis, as necessary to perform their respective responsibilities, to a reasonable number of:

(1) Government and other Government contractor employees (in addition to those Government employees attached to the vessel); and

(2) Representatives of offerors on other contemplated Government work.

(b) All personnel granted access shall comply with Contractor rules governing personnel at its shipyard.

(End of clause)

252.217-7012 Liability and Insurance.

As prescribed in [217.7104](#)(a), use the following clause:

LIABILITY AND INSURANCE (AUG 2003)

(a) The Contractor shall exercise its best efforts to prevent accidents, injury, or damage to all employees, persons, and property, in and about the work, and to the vessel or part of the vessel upon which work is done.

(b) *Loss or damage to the vessel, materials, or equipment.*

(1) Unless otherwise directed or approved in writing by the Contracting Officer, the Contractor shall not carry insurance against any form of loss or damage to the vessel(s) or to the materials or equipment to which the Government has title or which have been furnished by the Government for installation by the Contractor. The Government assumes the risks of loss of and damage to that property.

(2) The Government does not assume any risk with respect to loss or damage compensated for by insurance or otherwise or resulting from risks with respect to which

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

the Contractor has failed to maintain insurance, if available, as required or approved by the Contracting Officer.

(3) The Government does not assume risk of and will not pay for any costs of the following:

(i) Inspection, repair, replacement, or renewal of any defects in the vessel(s) or material and equipment due to—

(A) Defective workmanship performed by the Contractor or its subcontractors;

(B) Defective materials or equipment furnished by the Contractor or its subcontractors; or

(C) Workmanship, materials, or equipment which do not conform to the requirements of the contract, whether or not the defect is latent or whether or not the nonconformance is the result of negligence.

(ii) Loss, damage, liability, or expense caused by, resulting from, or incurred as a consequence of any delay or disruption, willful misconduct or lack of good faith by the Contractor or any of its representatives that have supervision or direction of—

(A) All or substantially all of the Contractor's business; or

(B) All or substantially all of the Contractor's operation at any one plant.

(4) As to any risk that is assumed by the Government, the Government shall be subrogated to any claim, demand or cause of action against third parties that exists in favor of the Contractor. If required by the Contracting Officer, the Contractor shall execute a formal assignment or transfer of the claim, demand, or cause of action.

(5) No party other than the Contractor shall have any right to proceed directly against the Government or join the Government as a co-defendant in any action.

(6) Notwithstanding the foregoing, the Contractor shall bear the first \$50,000 of loss or damage from each occurrence or incident, the risk of which the Government would have assumed under the provisions of this paragraph (b).

(c) *Indemnification.* The Contractor indemnifies the Government and the vessel and its owners against all claims, demands, or causes of action to which the Government, the vessel or its owner(s) might be subject as a result of damage or injury (including death) to the property or person of anyone other than the Government or its employees, or the vessel or its owner, arising in whole or in part from the negligence or other wrongful act of the Contractor or its agents or employees, or any subcontractor, or its agents or employees.

(1) The Contractor's obligation to indemnify under this paragraph shall not exceed the sum of \$300,000 as a consequence of any single occurrence with respect to any one vessel.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(2) The indemnity includes, without limitation, suits, actions, claims, costs, or demands of any kind, resulting from death, personal injury, or property damage occurring during the period of performance of work on the vessel or within 90 days after redelivery of the vessel. For any claim, etc., made after 90 days, the rights of the parties shall be as determined by other provisions of this agreement and by law. The indemnity does apply to death occurring after 90 days where the injury was received during the period covered by the indemnity.

(d) *Insurance.*

(1) The Contractor shall, at its own expense, obtain and maintain the following insurance—

(i) Casualty, accident, and liability insurance, as approved by the Contracting Officer, insuring the performance of its obligations under paragraph (c) of this clause.

(ii) Workers Compensation Insurance (or its equivalent) covering the employees engaged on the work.

(2) The Contractor shall ensure that all subcontractors engaged on the work obtain and maintain the insurance required in paragraph (d)(1) of this clause.

(3) Upon request of the Contracting Officer, the Contractor shall provide evidence of the insurance required by paragraph (d) of this clause.

(e) The Contractor shall not make any allowance in the job order price for the inclusion of any premium expense or charge for any reserve made on account of self-insurance for coverage against any risk assumed by the Government under this clause.

(f) The Contractor shall give the Contracting Officer written notice as soon as practicable after the occurrence of a loss or damage for which the Government has assumed the risk.

(1) The notice shall contain full details of the loss or damage.

(2) If a claim or suit is later filed against the Contractor as a result of the event, the Contractor shall immediately deliver to the Government every demand, notice, summons, or other process received by the Contractor or its employees or representatives.

(3) The Contractor shall cooperate with the Government and, upon request, shall assist in effecting settlements, securing and giving evidence, obtaining the attendance of witnesses, and in the conduct of suits. The Government shall reimburse the Contractor for expenses incurred in this effort, other than the cost of maintaining the Contractor's usual organization.

(4) The Contractor shall not, except at its own expense, voluntarily make any payment, assume any obligation, or incur any expense other than what would be imperative for the protection of the vessel(s) at the time of the event.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(g) In the event of loss of or damage to any vessel(s), material, or equipment which may result in a claim against the Government under the insurance provisions of this contract, the Contractor shall promptly notify the Contracting Officer of the loss or damage. The Contracting Officer may, without prejudice to any other right of the Government, either—

(1) Order the Contractor to proceed with replacement or repair, in which event the Contractor shall effect the replacement or repair;

(i) The Contractor shall submit to the Contracting Officer a request for reimbursement of the cost of the replacement or repair together with whatever supporting documentation the Contracting Officer may reasonably require, and shall identify the request as being submitted under the Insurance clause of the agreement.

(ii) If the Government determines that the risk of the loss or damage is within the scope of the risks assumed by the Government under this clause, the Government will reimburse the Contractor for the reasonable, allowable cost of the replacement or repair, plus a reasonable profit (if the work or replacement or repair was performed by the Contractor) less the deductible amount specified in paragraph (b) of this clause.

(iii) Payments by the Government to the Contractor under this clause are outside the scope of and shall not affect the pricing structure of the contract, and are additional to the compensation otherwise payable to the Contractor under this contract; or

(2) In the event the Contracting Officer decides that the loss or damage shall not be replaced or repaired, the Contracting Officer shall—

(i) Modify the contract appropriately, consistent with the reduced requirements reflected by the unreplaced or unrepaired loss or damage; or

(ii) Terminate the repair of any part or all of the vessel(s) under the Termination for Convenience of the Government clause of this agreement.

(End of clause)

252.217-7013 Guarantees.

As prescribed in [217.7104\(a\)](#), use the following clause:

GUARANTEES (DEC 1991)

(a) In the event any work performed or materials furnished by the contractor under the Master Agreement prove defective or deficient within 90 days from the date of redelivery of the vessel(s), the Contractor, as directed by the Contracting Officer and at its own expense, shall correct and repair the deficiency to the satisfaction of the Contracting Officer.

(b) If the Contractor or any subcontractor has a guarantee for work performed or materials furnished that exceeds the 90 day period, the Government shall be entitled to rely upon the longer guarantee until its expiration.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(c) With respect to any individual work item identified as incomplete at the time of redelivery of the vessel(s), the guarantee period shall run from the date the item is completed.

(d) If practicable, the Government shall give the Contractor an opportunity to correct the deficiency.

(1) If the Contracting Officer determines it is not practicable or is otherwise not advisable to return the vessel(s) to the Contractor, or the Contractor fails to proceed with the repairs promptly, the Contracting Officer may direct that the repairs be performed elsewhere, at the Contractor's expense.

(2) If correction and repairs are performed by other than the Contractor, the Contracting Officer may discharge the Contractor's liability by making an equitable deduction in the price of the job order.

(e) The Contractor's liability shall extend for an additional 90 day guarantee period on those defects or deficiencies that the Contractor corrected.

(f) At the option of the Contracting Officer, defects and deficiencies may be left uncorrected. In that event, the Contractor and Contracting Officer shall negotiate an equitable reduction in the job price. Failure to agree upon an equitable reduction shall constitute a dispute under the Disputes clause of this agreement.

(End of clause)

252.217-7014 Discharge of Liens.

As prescribed in [217.7104](#)(a), use the following clause:

DISCHARGE OF LIENS (DEC 1991)

(a) The Contractor shall immediately discharge, or cause to be discharged, any lien or right *in rem* of any kind, other than in favor of the Government, that exists or arises in connection with work done or material furnished under any job order under this agreement.

(b) If any lien or right *in rem* is not immediately discharged, the Government, at the expense of the Contractor, may discharge, or cause to be discharged, the lien or right.

(End of clause)

252.217-7015 Safety and Health.

As prescribed in [217.7104](#)(a), use the following clause:

PLANT PROTECTION (DEC 1991)

(a) The Contractor shall provide, for the plant and work in process, reasonable safeguards against all hazards, including unauthorized entry, malicious mischief, theft, vandalism, and fire.

(b) The Contractor shall also provide whatever additional safeguards are necessary to protect the plant and work in process from espionage, sabotage, and enemy action.

(1) The Government shall reimburse the Contractor for that portion of the costs of the additional safeguards that is allocable to the contract in the same manner as if the Contracting Officer had issued a change order for the additional safeguards.

(2) The costs reimbursed shall not include any overhead allowance, unless the overhead is incident to the construction or installation of necessary security devices or equipment.

(c) Upon payment by the Government of the cost of any device or equipment required or approved under paragraph (b) of this clause, title shall vest in the Government.

(1) The Contractor shall comply with the instructions of the Contracting Officer concerning its identification and disposition.

252.223-7002 Safety Precautions for Ammunition and Explosives.

As prescribed in [223.370-5](#), use the following clause:

SAFETY PRECAUTIONS FOR AMMUNITION AND EXPLOSIVES (MAY 1994)

(a) *Definition.* “Ammunition and explosives,” as used in this clause—

(1) Means liquid and solid propellants and explosives, pyrotechnics, incendiaries and smokes in the following forms:

- (i) Bulk,
- (ii) Ammunition;
- (iii) Rockets;
- (iv) Missiles;
- (v) Warheads;
- (vi) Devices; and
- (vii) Components of (i) through (vi), except for wholly inert items.

(2) This definition does not include the following, unless the Contractor is using or incorporating these materials for initiation, propulsion, or detonation as an integral or component part of an explosive, an ammunition or explosive end item, or of a weapon system—

- (i) Inert components containing no explosives, propellants, or pyrotechnics;
- (ii) Flammable liquids;
- (iii) Acids;
- (iv) Oxidizers;
- (v) Powdered metals; or

(b) *Safety requirements.*

(1) The Contractor shall comply with the requirements of the DoD Contractors' Safety Manual for Ammunition and Explosives, DoD 4145.26-M, hereafter referred to as “the manual,” in effect on the date of the solicitation for this contract. The Contractor shall also comply with any other additional requirements included in the schedule of this contract.

(2) The Contractor shall allow the Government access to the Contractor's facilities, personnel, and safety program documentation. The Contractor shall allow

Part 252—Solicitation Provisions and Contract Clauses

authorized Government representatives to evaluate safety programs, implementation, and facilities.

(c) *Noncompliance with the manual.*

(1) If the Contracting Officer notifies the Contractor of any noncompliance with the manual or schedule provisions, the Contractor shall take immediate steps to correct the noncompliance. The Contractor is not entitled to reimbursement of costs incurred to correct noncompliances unless such reimbursement is specified elsewhere in the contract.

(2) The Contractor has 30 days from the date of notification by the Contracting Officer to correct the noncompliance and inform the Contracting Officer of the actions taken. The Contracting Officer may direct a different time period for the correction of noncompliances.

(3) If the Contractor refuses or fails to correct noncompliances within the time period specified by the Contracting Officer, the Government has the right to direct the Contractor to cease performance on all or part of this contract. The Contractor shall not resume performance until the Contracting Officer is satisfied that the corrective action was effective and the Contracting Officer so informs the Contractor.

(4) The Contracting Officer may remove Government personnel at any time the Contractor is in noncompliance with any safety requirement of this clause.

(5) If the direction to cease work or the removal of Government personnel results in increased costs to the Contractor, the Contractor shall not be entitled to an adjustment in the contract price or a change in the delivery or performance schedule unless the Contracting Officer later determines that the Contractor had in fact complied with the manual or schedule provisions. If the Contractor is entitled to an equitable adjustment, it shall be made in accordance with the Changes clause of this contract.

(d) *Mishaps.* If a mishap involving ammunition or explosives occurs, the Contractor shall—

(1) Notify the Contracting Officer immediately;

(2) Conduct an investigation in accordance with other provisions of this contract or as required by the Contracting Officer; and

(ii) The Government's personnel and property; or

(iii) The general public.

(2) Nothing in this clause shall relieve the Contractor of its responsibility for complying with applicable Federal, State, and local laws, ordinances, codes, and regulations (including those requiring the obtaining of licenses and permits) in connection with the performance of this contract.

(f) *Contractor responsibility for contract performance.*

(1) Neither the number or frequency of inspections performed by the Government, nor the degree of surveillance exercised by the Government, relieve the Contractor of its responsibility for contract performance.

(2) If the Government acts or fails to act in surveillance or enforcement of the safety requirements of this contract, this does not impose or add to any liability of the Government.

(g) *Subcontractors.*

(1) The Contractor shall insert this clause, including this paragraph (g), in every subcontract that involves ammunition or explosives.

(i) The clause shall include a provision allowing authorized Government safety representatives to evaluate subcontractor safety programs, implementation, and facilities as the Government determines necessary.

(ii) **NOTE:** The Government Contracting Officer or authorized representative shall notify the prime Contractor of all findings concerning subcontractor safety and compliance with the manual. The Contracting Officer or authorized representative may furnish copies to the subcontractor. The Contractor in turn shall communicate directly with the subcontractor, substituting its name for references to “the Government”. The Contractor and higher tier subcontractors shall also include provisions to allow direction to cease performance of the subcontract if a serious uncorrected or recurring safety deficiency potentially causes an imminent hazard to DoD personnel, property, or contract performance.

(2) The Contractor agrees to ensure that the subcontractor complies with all contract safety requirements. The Contractor will determine the best method for verifying the adequacy of the subcontractor's compliance.

(3) The Contractor shall ensure that the subcontractor understands and agrees to the Government's right to access to the subcontractor's facilities, personnel, and safety program documentation to perform safety surveys. The Government performs these safety surveys of subcontractor facilities solely to prevent the occurrence of any mishap which would endanger the safety of DoD personnel or otherwise adversely impact upon the Government's contractual interests.

(4) The Contractor shall notify the Contracting Officer or authorized representative before issuing any subcontract when it involves ammunition or explosives. If the proposed subcontract represents a change in the place of performance,

the Contractor shall request approval for such change in accordance with the clause of this contract entitled “Change in Place of Performance--Ammunition and Explosives”.

(a) The Offeror shall identify, in the “Place of Performance” provision of this solicitation, the place of performance of all ammunition and explosives work covered by the Safety Precautions for Ammunition and Explosives clause of this solicitation. Failure to furnish this information with the offer may result in rejection of the offer.

(b) The Offeror agrees not to change the place of performance of any portion of the offer covered by the Safety Precautions for Ammunition and Explosives clause contained in this solicitation after the date set for receipt of offers without the written approval of the Contracting Officer. The Contracting Officer shall grant approval only if there is enough time for the Government to perform the necessary safety reviews on the new proposed place of performance.

(c) If a contract results from this offer, the Contractor agrees not to change any place of performance previously cited without the advance written approval of the Contracting Officer.

(End of clause)

252.223-7004 Drug-Free Work Force.

As prescribed in [223.570-2](#), use the following clause:

(a) *Definitions.*

(1) “Employee in a sensitive position,” as used in this clause, means an employee who has been granted access to classified information; or employees in other positions that the Contractor determines involve national security, health or safety, or functions other than the foregoing requiring a high degree of trust and confidence.

(2) “Illegal drugs,” as used in this clause, means controlled substances included in Schedules I and II, as defined by section 802(6) of Title 21 of the United States Code, the possession of which is unlawful under Chapter 13 of that Title. The term “illegal drugs” does not mean the use of a controlled substance pursuant to a valid prescription or other uses authorized by law.

(b) The Contractor agrees to institute and maintain a program for achieving the objective of a drug-free work force. While this clause defines criteria for such a program, contractors are encouraged to implement alternative approaches comparable to the criteria in paragraph (c) that are designed to achieve the objectives of this clause.

(3) Provision for self-referrals as well as supervisory referrals to treatment with maximum respect for individual confidentiality consistent with safety and security issues;

(4) Provision for identifying illegal drug users, including testing on a controlled and carefully monitored basis. Employee drug testing programs shall be established taking account of the following:

(i) The Contractor shall establish a program that provides for testing for the use of illegal drugs by employees in sensitive positions. The extent of and criteria for such testing shall be determined by the Contractor based on considerations that include the nature of the work being performed under the contract, the employee's duties, the efficient use of Contractor resources, and the risks to health, safety, or national security that could result from the failure of an employee adequately to discharge his or her position.

(ii) In addition, the Contractor may establish a program for employee drug testing—

drugs; or (A) When there is a reasonable suspicion that an employee uses illegal

drug use; (C) As part of or as a follow-up to counseling or rehabilitation for illegal

(D) As part of a voluntary employee drug testing program.

(iii) The Contractor may establish a program to test applicants for employment for illegal drug use.

(d) Contractors shall adopt appropriate personnel procedures to deal with employees who are found to be using drugs illegally. Contractors shall not allow any employee to remain on duty or perform in a sensitive position who is found to use illegal drugs until such time as the Contractor, in accordance with procedures established by the Contractor, determines that the employee may perform in such a position.

Part 252—Solicitation Provisions and Contract Clauses

(e) The provisions of this clause pertaining to drug testing programs shall not apply to the extent they are inconsistent with state or local law, or with an existing collective bargaining agreement; provided that with respect to the latter, the Contractor agrees that those issues that are in conflict will be a subject of negotiation at the next collective bargaining session.

A charge may be assessed for any storage or disposal authorized under any of the exceptions to 10 U.S.C. 2692. (B) Sold in substantial quantities in the commercial marketplace; and

(C) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Scrap generated, collected, and prepared for processing in the United States is considered domestic. A component is considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that—

(1) Sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(2) It is inconsistent with the public interest to apply the restrictions of the Buy American statute; or

(B) The end product is a COTS item.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.

(1) The Contractor shall exclude and reserve paragraph (d) and this paragraph (e)(1) when flowing down this clause to subcontracts.

(2) The Contractor shall insert paragraphs (a) through (c) and this paragraph (e)(2) of this clause in subcontracts, including subcontracts for commercial items, that are for items containing specialty metals to ensure compliance of the end products that the Contractor will deliver to the Government. When inserting this clause in subcontracts, the Contractor shall—

(i) Modify paragraph (c)(6) of this clause only as necessary to facilitate management of the minimal content exception at the prime contract level. The minimal content exception does not apply to specialty metals contained in high-performance magnets; and

(ii) Not further alter the clause other than to identify the appropriate parties.

The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Scrap generated, collected, and prepared for processing in the United States is considered domestic. “Contractors authorized to accompany the Force,” or “CAAF,” means contractor personnel, including all tiers of subcontractor personnel, who are authorized to accompany U.S. Armed Forces in applicable operations and have been afforded CAAF status through a letter of authorization. CAAF generally include all U.S. citizen n and

third-country national employees not normally residing within the operational area whose area of performance is in the direct vicinity of U.S. Armed Forces and who routinely are collocated with the U.S. Armed Forces (especially in non-permissive environments). Personnel collocated with U.S. Armed Forces shall be afforded CAAF status through a letter of authorization. In some cases, Combatant Commander subordinate commanders may designate mission-essential host nation or local national contractor employees (e.g., interpreters) as CAAF. CAAF includes contractors previously identified as contractors deploying with the U.S. Armed Forces. The law of war encompasses all international law for the conduct of hostilities binding on the United States or its individual citizens, including treaties and international agreements to which the United States is a party, and applicable customary international law.

“Non-CAAF” means personnel who are not designated as CAAF, such as local national (LN) employees and non-LN employees who are permanent residents in the operational area or third-country nationals not routinely residing with U.S. Armed Forces (and third-country national expatriates who are permanent residents in the operational area) who perform support functions away from the close proximity of, and do not reside with, U.S. Armed Forces. Government-furnished support to non-CAAF is typically limited to force protection, emergency medical care, and basic human needs (e.g., bottled water, latrine facilities, security, and food when necessary) when performing their jobs in the direct vicinity of U.S. Armed Forces. Non-CAAF status does not apply to contractor personnel in support of applicable operations within the boundaries and territories of the United States.

“Subordinate joint force commander” means a sub-unified commander or joint task force commander.

(b) *General.*

(1) This clause applies to both CAAF and non-CAAF when performing in a designated operational area outside the United States to support U.S. Armed Forces deployed outside the United States in—

Combatant Commander or as directed by the Secretary of Defense.

(2) Contract performance in support of U.S. Armed Forces deployed outside the United States may require work in dangerous or austere conditions. Except as otherwise provided in the contract, the Contractor accepts the risks associated with required contract performance in such operations.

(3) When authorized in accordance with paragraph (j) of this clause to carry arms for personal protection, Contractor personnel are only authorized to use force for individual self-defense.

252.227-7013 Rights in Technical Data--Noncommercial Items.

As prescribed in [227.7103-6](#)(a), use the following clause:

RIGHTS IN TECHNICAL DATA--NONCOMMERCIAL ITEMS (FEB 2014)

(a) *Definitions.* As used in this clause—

(1) “Computer data base” means a collection of data recorded in a form capable of being processed by a computer. The term does not include computer software.

(2) “Computer program” means a set of instructions, rules, or routines recorded in a form that is capable of causing a computer to perform a specific operation or series of operations.

(3) “Computer software” means computer programs, source code, source code listings, object code listings, design details, algorithms, processes, flow charts, formulae

Part 252--Solicitation Provisions and Contract Clauses

and related material that would enable the software to be reproduced, recreated, or recompiled. Computer software does not include computer data bases or computer software documentation.

(4) "Computer software documentation" means owner's manuals, user's manuals, installation instructions, operating instructions, and other similar items, regardless of storage medium, that explain the capabilities of the computer software or provide instructions for using the software.

(5) "Covered Government support contractor" means a contractor (other than a litigation support contractor covered by [252.204-7014](#)) under a contract, the primary purpose of which is to furnish independent and impartial advice or technical assistance directly to the Government in support of the Government's management and oversight of a program or effort (rather than to directly furnish an end item or service to accomplish a program or effort), provided that the contractor—

(i) Is not affiliated with the prime contractor or a first-tier subcontractor on the program or effort, or with any direct competitor of such prime contractor or any such first-tier subcontractor in furnishing end items or services of the type developed or produced on the program or effort; and

(ii) Receives access to technical data or computer software for performance of a Government contract that contains the clause at [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

(6) "Detailed manufacturing or process data" means technical data that describe the steps, sequences, and conditions of manufacturing, processing or assembly used by the manufacturer to produce an item or component or to perform a process.

(7) "Developed" means that an item, component, or process exists and is workable. Thus, the item or component must have been constructed or the process practiced. Workability is generally established when the item, component, or process has been analyzed or tested sufficiently to demonstrate to reasonable people skilled in the applicable art that there is a high probability that it will operate as intended. Whether, how much, and what type of analysis or testing is required to establish workability depends on the nature of the item, component, or process, and the state of the art. To be considered "developed," the item, component, or process need not be at the stage where it could be offered for sale or sold on the commercial market, nor must the item, component, or process be actually reduced to practice within the meaning of Title 35 of the United States Code.

(8) "Developed exclusively at private expense" means development was accomplished entirely with costs charged to indirect cost pools, costs not allocated to a government contract, or any combination thereof.

(i) Private expense determinations should be made at the lowest practicable level.

(ii) Under fixed-price contracts, when total costs are greater than the firm-fixed-price or ceiling price of the contract, the additional development costs necessary to

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

complete development shall not be considered when determining whether development was at government, private, or mixed expense.

(9) “Developed exclusively with government funds” means development was not accomplished exclusively or partially at private expense.

(10) “Developed with mixed funding” means development was accomplished partially with costs charged to indirect cost pools and/or costs not allocated to a government contract, and partially with costs charged directly to a government contract.

(11) “Form, fit, and function data” means technical data that describes the required overall physical, functional, and performance characteristics (along with the qualification requirements, if applicable) of an item, component, or process to the extent necessary to permit identification of physically and functionally interchangeable items.

(12) “Government purpose” means any activity in which the United States Government is a party, including cooperative agreements with international or multi-national defense organizations, or sales or transfers by the United States Government to foreign governments or international organizations. Government purposes include competitive procurement, but do not include the rights to use, modify, reproduce, release, perform, display, or disclose technical data for commercial purposes or authorize others to do so.

(13) “Government purpose rights” means the rights to—

(i) Use, modify, reproduce, release, perform, display, or disclose technical data within the Government without restriction; and

(ii) Release or disclose technical data outside the Government and authorize persons to whom release or disclosure has been made to use, modify, reproduce, release, perform, display, or disclose that data for United States government purposes.

(14) “Limited rights” means the rights to use, modify, reproduce, release, perform, display, or disclose technical data, in whole or in part, within the Government. The Government may not, without the written permission of the party asserting limited rights, release or disclose the technical data outside the Government, use the technical data for manufacture, or authorize the technical data to be used by another party, except that the Government may reproduce, release, or disclose such data or authorize the use or reproduction of the data by persons outside the Government if—

(i) The reproduction, release, disclosure, or use is—

(A) Necessary for emergency repair and overhaul; or

(B) A release or disclosure to—

(1) A covered Government support contractor in performance of its covered Government support contract for use, modification, reproduction, performance, display, or release or disclosure to a person authorized to receive limited rights technical data; or

Defense Federal Acquisition Regulation Supplement

Part 252--Solicitation Provisions and Contract Clauses

(2) A foreign government, of technical data other than detailed manufacturing or process data, when use of such data by the foreign government is in the interest of the Government and is required for evaluational or informational purposes;

(ii) The recipient of the technical data is subject to a prohibition on the further reproduction, release, disclosure, or use of the technical data; and

(iii) The contractor or subcontractor asserting the restriction is notified of such reproduction, release, disclosure, or use.

(15) "Technical data" means recorded information, regardless of the form or method of the recording, of a scientific or technical nature (including computer software documentation). The term does not include computer software or data incidental to contract administration, such as financial and/or management information.

(16) "Unlimited rights" means rights to use, modify, reproduce, perform, display, release, or disclose technical data in whole or in part, in any manner, and for any purpose whatsoever, and to have or authorize others to do so.

(b) *Rights in technical data.* The Contractor grants or shall obtain for the Government the following royalty free, world-wide, nonexclusive, irrevocable license rights in technical data other than computer software documentation (see the Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation clause of this contract for rights in computer software documentation):

(1) *Unlimited rights.* The Government shall have unlimited rights in technical data that are—

(i) Data pertaining to an item, component, or process which has been or will be developed exclusively with Government funds;

(ii) Studies, analyses, test data, or similar data produced for this contract, when the study, analysis, test, or similar work was specified as an element of performance;

(iii) Created exclusively with Government funds in the performance of a contract that does not require the development, manufacture, construction, or production of items, components, or processes;

(iv) Form, fit, and function data;

(v) Necessary for installation, operation, maintenance, or training purposes (other than detailed manufacturing or process data);

(vi) Corrections or changes to technical data furnished to the Contractor by the Government;

(vii) Otherwise publicly available or have been released or disclosed by the Contractor or subcontractor without restrictions on further use, release or disclosure, other than a release or disclosure resulting from the sale, transfer, or other assignment

of interest in the technical data to another party or the sale or transfer of some or all of a business entity or its assets to another party;

(viii) Data in which the Government has obtained unlimited rights under another Government contract or as a result of negotiations; or

(ix) Data furnished to the Government, under this or any other Government contract or subcontract thereunder, with—

(A) Government purpose license rights or limited rights and the restrictive condition(s) has/have expired; or

(B) Government purpose rights and the Contractor's exclusive right to use such data for commercial purposes has expired.

(2) *Government purpose rights.*

(i) The Government shall have government purpose rights for a five-year period, or such other period as may be negotiated, in technical data—

(A) That pertain to items, components, or processes developed with mixed funding except when the Government is entitled to unlimited rights in such data as provided in paragraphs (b)(1)(ii) and (b)(1)(iv) through (b)(1)(ix) of this clause; or

(B) Created with mixed funding in the performance of a contract that does not require the development, manufacture, construction, or production of items, components, or processes.

(ii) The five-year period, or such other period as may have been negotiated, shall commence upon execution of the contract, subcontract, letter contract (or similar contractual instrument), contract modification, or option exercise that required development of the items, components, or processes or creation of the data described in paragraph (b)(2)(i)(B) of this clause. Upon expiration of the five-year or other negotiated period, the Government shall have unlimited rights in the technical data.

(iii) The Government shall not release or disclose technical data in which it has government purpose rights unless—

(A) Prior to release or disclosure, the intended recipient is subject to the non-disclosure agreement at [227.7103-7](#) of the Defense Federal Acquisition Regulation Supplement (DFARS); or

(B) The recipient is a Government contractor receiving access to the data for performance of a Government contract that contains the clause at DFARS [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

(iv) The Contractor has the exclusive right, including the right to license others, to use technical data in which the Government has obtained government purpose rights under this contract for any commercial purpose during the time period specified in the government purpose rights legend prescribed in paragraph (f)(2) of this clause.

Defense Federal Acquisition Regulation Supplement

Part 252--Solicitation Provisions and Contract Clauses

(3) *Limited rights.*

(i) Except as provided in paragraphs (b)(1)(ii) and (b)(1)(iv) through (b)(1)(ix) of this clause, the Government shall have limited rights in technical data—

(A) Pertaining to items, components, or processes developed exclusively at private expense and marked with the limited rights legend prescribed in paragraph (f) of this clause; or

(B) Created exclusively at private expense in the performance of a contract that does not require the development, manufacture, construction, or production of items, components, or processes.

(ii) The Government shall require a recipient of limited rights data for emergency repair or overhaul to destroy the data and all copies in its possession promptly following completion of the emergency repair/overhaul and to notify the Contractor that the data have been destroyed.

(iii) The Contractor, its subcontractors, and suppliers are not required to provide the Government additional rights to use, modify, reproduce, release, perform, display, or disclose technical data furnished to the Government with limited rights. However, if the Government desires to obtain additional rights in technical data in which it has limited rights, the Contractor agrees to promptly enter into negotiations with the Contracting Officer to determine whether there are acceptable terms for transferring such rights. All technical data in which the Contractor has granted the Government additional rights shall be listed or described in a license agreement made part of the contract. The license shall enumerate the additional rights granted the Government in such data.

(iv) The Contractor acknowledges that—

(A) Limited rights data are authorized to be released or disclosed to covered Government support contractors;

(B) The Contractor will be notified of such release or disclosure;

(C) The Contractor (or the party asserting restrictions as identified in the limited rights legend) may require each such covered Government support contractor to enter into a non-disclosure agreement directly with the Contractor (or the party asserting restrictions) regarding the covered Government support contractor's use of such data, or alternatively, that the Contractor (or party asserting restrictions) may waive in writing the requirement for a non-disclosure agreement; and

(D) Any such non-disclosure agreement shall address the restrictions on the covered Government support contractor's use of the limited rights data as set forth in the clause at [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends. The non-disclosure agreement shall not include any additional terms and conditions unless mutually agreed to by the parties to the non-disclosure agreement.

Part 252--Solicitation Provisions and Contract Clauses

(4) *Specifically negotiated license rights.* The standard license rights granted to the Government under paragraphs (b)(1) through (b)(3) of this clause, including the period during which the Government shall have government purpose rights in technical data, may be modified by mutual agreement to provide such rights as the parties consider appropriate but shall not provide the Government lesser rights than are enumerated in paragraph (a)(14) of this clause. Any rights so negotiated shall be identified in a license agreement made part of this contract.

(5) *Prior government rights.* Technical data that will be delivered, furnished, or otherwise provided to the Government under this contract, in which the Government has previously obtained rights shall be delivered, furnished, or provided with the pre-existing rights, unless—

(i) The parties have agreed otherwise; or

(ii) Any restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose the data have expired or no longer apply.

(6) *Release from liability.* The Contractor agrees to release the Government from liability for any release or disclosure of technical data made in accordance with paragraph (a)(14) or (b)(2)(iii) of this clause, in accordance with the terms of a license negotiated under paragraph (b)(4) of this clause, or by others to whom the recipient has released or disclosed the data and to seek relief solely from the party who has improperly used, modified, reproduced, released, performed, displayed, or disclosed Contractor data marked with restrictive legends.

(c) *Contractor rights in technical data.* All rights not granted to the Government are retained by the Contractor.

(d) *Third party copyrighted data.* The Contractor shall not, without the written approval of the Contracting Officer, incorporate any copyrighted data in the technical data to be delivered under this contract unless the Contractor is the copyright owner or has obtained for the Government the license rights necessary to perfect a license or licenses in the deliverable data of the appropriate scope set forth in paragraph (b) of this clause, and has affixed a statement of the license or licenses obtained on behalf of the Government and other persons to the data transmittal document.

(e) *Identification and delivery of data to be furnished with restrictions on use, release, or disclosure.*

(1) This paragraph does not apply to restrictions based solely on copyright.

(2) Except as provided in paragraph (e)(3) of this clause, technical data that the Contractor asserts should be furnished to the Government with restrictions on use, release, or disclosure are identified in an attachment to this contract (the Attachment). The Contractor shall not deliver any data with restrictive markings unless the data are listed on the Attachment.

(3) In addition to the assertions made in the Attachment, other assertions may be identified after award when based on new information or inadvertent omissions unless the inadvertent omissions would have materially affected the source selection decision. Such identification and assertion shall be submitted to the Contracting Officer

(4) When requested by the Contracting Officer, the Contractor shall provide sufficient information to enable the Contracting Officer to evaluate the Contractor's assertions. The Contracting Officer reserves the right to add the Contractor's assertions to the Attachment and validate any listed assertion, at a later date, in accordance with the procedures of the Validation of Restrictive Markings on Technical Data clause of this contract.

(f) *Marking requirements.* The Contractor, and its subcontractors or suppliers, may only assert restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data to be delivered under this contract by marking the deliverable data subject to restriction. Except as provided in paragraph

(f)(5) of this clause, only the following legends are authorized under this contract: the government purpose rights legend at paragraph (f)(2) of this clause; the limited rights legend at paragraph (f)(3) of this clause; or the special license rights legend at paragraph (f)(4) of this clause; and/or a notice of copyright as prescribed under 17 U.S.C. 401 or 402.

(1) *General marking instructions.* The Contractor, or its subcontractors or suppliers, shall conspicuously and legibly mark the appropriate legend on all technical data that qualify for such markings. The authorized legends shall be placed on the transmittal document or storage container and, for printed material, each page of the printed material containing technical data for which restrictions are asserted. When only portions of a page of printed material are subject to the asserted restrictions, such portions shall be identified by circling, underscoring, with a note, or other appropriate identifier. Technical data transmitted directly from one computer or computer terminal to another shall contain a notice of asserted restrictions. Reproductions of technical data or any portions thereof subject to asserted restrictions shall also reproduce the asserted restrictions.

(2) *Government purpose rights markings.* Data delivered or otherwise furnished to the Government with government purpose rights shall be marked as follows:

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these technical data are restricted by paragraph (b)(2) of the Rights in Technical Data—Noncommercial Items clause contained in the above identified contract. No restrictions apply after the expiration date shown above. Any reproduction of technical data or portions thereof marked with this legend must also reproduce the markings.

(3) *Limited rights markings.* Data delivered or otherwise furnished to the Government with limited rights shall be marked with the following legend:

Part 252--Solicitation Provisions and Contract Clauses

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these technical data are restricted by paragraph (b)(3) of the Rights in Technical Data--Noncommercial Items clause contained in the above identified contract. Any reproduction of technical data or portions thereof marked with this legend must also reproduce the markings. Any person, other than the Government, who has been provided access to such data must promptly notify the above named Contractor.

(End of legend)

(4) *Special license rights markings.*

(i) Data in which the Government's rights stem from a specifically negotiated license shall be marked with the following legend:

SPECIAL LICENSE RIGHTS

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these data are restricted by Contract No. ____ (Insert contract number) ____, License No. ____ (Insert license identifier) _____. Any reproduction of technical data or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(ii) For purposes of this clause, special licenses do not include government purpose license rights acquired under a prior contract (see paragraph (b)(5) of this clause).

(5) *Pre-existing data markings.* If the terms of a prior contract or license permitted the Contractor to restrict the Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data deliverable under this contract, and those restrictions are still applicable, the Contractor may mark such data with the appropriate restrictive legend for which the data qualified under the prior contract or license. The marking procedures in paragraph (f)(1) of this clause shall be followed.

(g) *Contractor procedures and records.* Throughout performance of this contract, the Contractor and its subcontractors or suppliers that will deliver technical data with other than unlimited rights, shall—

(1) Have, maintain, and follow written procedures sufficient to assure that restrictive markings are used only when authorized by the terms of this clause; and

(2) Maintain records sufficient to justify the validity of any restrictive markings on technical data delivered under this contract.

(h) *Removal of unjustified and nonconforming markings.*

(1) *Unjustified technical data markings.* The rights and obligations of the parties regarding the validation of restrictive markings on technical data furnished or to be furnished under this contract are contained in the Validation of Restrictive

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

Markings on Technical Data clause of this contract. Notwithstanding any provision of this contract concerning inspection and acceptance, the Government may ignore or, at the Contractor's expense, correct or strike a marking if, in accordance with the procedures in the Validation of Restrictive Markings on Technical Data clause of this contract, a restrictive marking is determined to be unjustified.

(2) *Nonconforming technical data markings.* A nonconforming marking is a marking placed on technical data delivered or otherwise furnished to the Government under this contract that is not in the format authorized by this contract. Correction of nonconforming markings is not subject to the Validation of Restrictive Markings on Technical Data clause of this contract. If the Contracting Officer notifies the Contractor of a nonconforming marking and the Contractor fails to remove or correct such marking within sixty (60) days, the Government may ignore or, at the Contractor's expense, remove or correct any nonconforming marking.

(i) *Relation to patents.* Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent.

(j) *Limitation on charges for rights in technical data.*

(1) The Contractor shall not charge to this contract any cost, including, but not limited to, license fees, royalties, or similar charges, for rights in technical data to be delivered under this contract when—

(i) The Government has acquired, by any means, the same or greater rights in the data; or

(ii) The data are available to the public without restrictions.

(2) The limitation in paragraph (j)(1) of this clause—

(i) Includes costs charged by a subcontractor or supplier, at any tier, or costs incurred by the Contractor to acquire rights in subcontractor or supplier technical data, if the subcontractor or supplier has been paid for such rights under any other Government contract or under a license conveying the rights to the Government; and

(ii) Does not include the reasonable costs of reproducing, handling, or mailing the documents or other media in which the technical data will be delivered.

(k) *Applicability to subcontractors or suppliers.*

(1) The Contractor shall ensure that the rights afforded its subcontractors and suppliers under 10 U.S.C. 2320, 10 U.S.C. 2321, and the identification, assertion, and delivery processes of paragraph (e) of this clause are recognized and protected.

(2) Whenever any technical data for noncommercial items, or for commercial items developed in any part at Government expense, is to be obtained from a subcontractor or supplier for delivery to the Government under this contract, the Contractor shall use this same clause in the subcontract or other contractual instrument, including subcontracts or other contractual instruments for commercial items, and require its subcontractors or suppliers to do so, without alteration, except to

identify the parties. This clause will govern the technical data pertaining to noncommercial items or to any portion of a commercial item that was developed in any part at Government expense, and the clause at [252.227-7015](#) will govern the technical data pertaining to any portion of a commercial item that was developed exclusively at private expense. No other clause shall be used to enlarge or diminish the Government's, the Contractor's, or a higher-tier subcontractor's or supplier's rights in a subcontractor's or supplier's technical data.

(3) Technical data required to be delivered by a subcontractor or supplier shall normally be delivered to the next higher-tier contractor, subcontractor, or supplier. However, when there is a requirement in the prime contract for data which may be submitted with other than unlimited rights by a subcontractor or supplier, then said subcontractor or supplier may fulfill its requirement by submitting such data directly to the Government, rather than through a higher-tier contractor, subcontractor, or supplier.

(4) The Contractor and higher-tier subcontractors or suppliers shall not use their power to award contracts as economic leverage to obtain rights in technical data from their subcontractors or suppliers.

(5) In no event shall the Contractor use its obligation to recognize and protect subcontractor or supplier rights in technical data as an excuse for failing to satisfy its contractual obligation to the Government.

(End of clause)

ALTERNATE I (JUN 1995)

As prescribed in [227.7103-6\(b\)\(1\)](#), add the following paragraph (l) to the basic clause:

(l) *Publication for sale.*

(1) This paragraph only applies to technical data in which the Government has obtained unlimited rights or a license to make an unrestricted release of technical data.

(2) The Government shall not publish a deliverable technical data item or items identified in this contract as being subject to paragraph (l) of this clause or authorize others to publish such data on its behalf if, prior to publication for sale by the Government and within twenty-four (24) months following the date specified in this contract for delivery of such data or the removal of any national security or export control restrictions, whichever is later, the Contractor publishes that item or items for sale and promptly notifies the Contracting Officer of such publication(s). Any such publication shall include a notice identifying the number of this contract and the Government's rights in the published data.

(3) This limitation on the Government's right to publish for sale shall continue as long as the data are reasonably available to the public for purchase.

ALTERNATE II (MAR 2011)

As prescribed in [227.7103-6\(b\)\(2\)](#), add the following paragraphs (a)(17) and (b)(7) to the basic clause:

(i) Has been sold, leased, or licensed to the public;

(ii) Has been offered for sale, lease, or license to the public;

Defense Federal Acquisition Regulation Supplement

Part 252--Solicitation Provisions and Contract Clauses

(i) Except as provided in paragraph (b)(1) of this clause, the Government shall have government purpose rights in computer software developed with mixed funding.

(ii) Government purpose rights shall remain in effect for a period of five years unless a different period has been negotiated. Upon expiration of the five-year or other negotiated period, the Government shall have unlimited rights in the computer software or computer software documentation. The government purpose rights period shall commence upon execution of the contract, subcontract, letter contract (or similar contractual instrument), contract modification, or option exercise that required development of the computer software.

(iii) The Government shall not release or disclose computer software in which it has government purpose rights to any other person unless—

(A) Prior to release or disclosure, the intended recipient is subject to the use and non-disclosure agreement at DFARS [227.7103-7](#); or

(ii) The Contractor, its subcontractors, or suppliers are not required to provide the Government additional rights in noncommercial computer software delivered or otherwise provided to the Government with restricted rights. However, if the Government desires to obtain additional rights in such software, the Contractor agrees to promptly enter into negotiations with the Contracting Officer to determine whether there are acceptable terms for transferring such rights. All noncommercial computer software in which the Contractor has granted the Government additional rights shall be listed or described in a license agreement made part of the contract (see paragraph (b)(4) of this clause). The license shall enumerate the additional rights granted the Government.

of such software, or alternatively, that the Contractor (or party asserting restrictions) may waive in writing the requirement for a non-disclosure agreement; and

(D) Any such non-disclosure agreement shall address the restrictions on the covered Government support contractor's use of the restricted rights software as set forth in the clause at [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends. The non-disclosure agreement shall not include any additional terms and conditions unless mutually agreed to by the parties to the non-disclosure agreement.

(4) *Specifically negotiated license rights.*

(i) The standard license rights granted to the Government under paragraphs (b)(1) through (b)(3) of this clause, including the period during which the Government shall have government purpose rights in computer software, may be modified by mutual agreement to provide such rights as the parties consider appropriate but shall not provide the Government lesser rights in computer software than are enumerated in paragraph (a)(15) of this clause or lesser rights in computer software documentation than are enumerated in paragraph (a)(14) of the Rights in Technical Data--Noncommercial Items clause of this contract.

(ii) Any rights so negotiated shall be identified in a license agreement made part of this contract.

(5) *Prior government rights.* Computer software or computer software documentation that will be delivered, furnished, or otherwise provided to the Government under this contract, in which the Government has previously obtained rights shall be delivered, furnished, or provided with the pre-existing rights, unless—

(i) The parties have agreed otherwise; or

(6) *Release from liability.* The Contractor agrees to release the Government from liability for any release or disclosure of computer software made in accordance with paragraph (a)(15) or (b)(2)(iii) of this clause, in accordance with the terms of a license negotiated under paragraph (b)(4) of this clause, or by others to whom the recipient has released or disclosed the software, and to seek relief solely from the party who has improperly used, modified, reproduced, released, performed, displayed, or disclosed Contractor software marked with restrictive legends.

(c) *Rights in derivative computer software or computer software documentation.* The Government shall retain its rights in the unchanged portions of any computer software or computer software documentation delivered under this contract that the Contractor uses to prepare, or includes in, derivative computer software or computer software documentation.

is the copyright owner or has obtained for the Government the license rights necessary to perfect a license or licenses in the deliverable software or documentation of the appropriate scope set forth in paragraph (b) of this clause, and prior to delivery of such—

(1) Computer software, has provided a statement of the license rights obtained in a form acceptable to the Contracting Officer; or

(2) Computer software documentation, has affixed to the transmittal document a statement of the license rights obtained.

(e) Identification and delivery of computer software and computer software documentation to be furnished with restrictions on use, release, or disclosure.

(1) This paragraph does not apply to restrictions based solely on copyright.

(2) Except as provided in paragraph (e)(3) of this clause, computer software that the Contractor asserts should be furnished to the Government with restrictions on use, release, or disclosure is identified in an attachment to this contract (the Attachment). The Contractor shall not deliver any software with restrictive markings unless the software is listed on the Attachment.

(3) In addition to the assertions made in the Attachment, other assertions may be identified after award when based on new information or inadvertent omissions unless the inadvertent omissions would have materially affected the source selection decision. Such identification and assertion shall be submitted to the Contracting Officer as soon as practicable prior to the scheduled date for delivery of the software, in the following format, and signed by an official authorized to contractually obligate the Contractor:

Identification and Assertion of Restrictions on the Government's Use, Release, or Disclosure of Computer Software.

The Contracting Officer reserves the right to add the Contractor's assertions to the Attachment and validate any listed assertion, at a later date, in accordance with the procedures of the Validation of Asserted Restrictions—Computer Software clause of this contract.

(f) *Marking requirements.* The Contractor, and its subcontractors or suppliers, may only assert restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose computer software by marking the deliverable software or documentation subject to restriction. Except as provided in paragraph (f)(5) of this clause, only the following legends are authorized under this contract: the government purpose rights legend at paragraph (f)(2) of this clause; the restricted rights legend at paragraph (f)(3) of this clause; or the special license rights legend at paragraph (f)(4) of this clause; and/or a notice of copyright as prescribed under 17 U.S.C. 401 or 402.

(1) *General marking instructions.* The Contractor, or its subcontractors or suppliers, shall conspicuously and legibly mark the appropriate legend on all computer software that qualify for such markings. The authorized legends shall be placed on the transmittal document or software storage container and each page, or portions thereof, of printed material containing computer software for which restrictions are asserted. Computer software transmitted directly from one computer or computer terminal to another shall contain a notice of asserted restrictions. However, instructions that interfere with or delay the operation of computer software in order to display a restrictive rights legend or other license statement at any time prior to or during use of the computer software, or otherwise cause such interference or delay, shall not be inserted in software that will or might be used in combat or situations that simulate combat conditions, unless the Contracting Officer's written permission to deliver such software has been obtained prior to delivery. Reproductions of computer software or any portions thereof subject to asserted restrictions, shall also reproduce the asserted restrictions.

(2) *Government purpose rights markings.* Computer software delivered or otherwise furnished to the Government with government purpose rights shall be marked as follows:

computer software, computer software documentation, or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(ii) For purposes of this clause, special licenses do not include government purpose license rights acquired under a prior contract (see paragraph (b)(5) of this clause).

(5) *Pre-existing markings.* If the terms of a prior contract or license permitted the Contractor to restrict the Government's rights to use, modify, release, perform, display, or disclose computer software or computer software documentation and those restrictions are still applicable, the Contractor may mark such software or documentation with the appropriate restrictive legend for which the software qualified under the prior contract or license. The marking procedures in paragraph (f)(1) of this clause shall be followed.

(g) *Contractor procedures and records.* Throughout performance of this contract, the Contractor and its subcontractors or suppliers that will deliver computer software or computer software documentation with other than unlimited rights, shall—

(1) Have, maintain, and follow written procedures sufficient to assure that restrictive markings are used only when authorized by the terms of this clause; and

(2) Maintain records sufficient to justify the validity of any restrictive markings on computer software or computer software documentation delivered under this contract.

(h) *Removal of unjustified and nonconforming markings.*

(1) *Unjustified computer software or computer software documentation markings.* The rights and obligations of the parties regarding the validation of restrictive markings on computer software or computer software documentation furnished or to be furnished under this contract are contained in the Validation of Asserted Restrictions--Computer Software and the Validation of Restrictive Markings on Technical Data clauses of this contract, respectively. Notwithstanding any provision of this contract concerning inspection and acceptance, the Government may ignore or, at the Contractor's expense, correct or strike a marking if, in accordance with the procedures of those clauses, a restrictive marking is determined to be unjustified.

(2) *Nonconforming computer software or computer software documentation markings.* A nonconforming marking is a marking placed on computer software or computer software documentation delivered or otherwise furnished to the Government under this contract that is not in the format authorized by this contract. Correction of nonconforming markings is not subject to the Validation of Asserted Restrictions--Computer Software or the Validation of Restrictive Markings on Technical Data clause of this contract. If the Contracting Officer notifies the Contractor of a nonconforming marking or markings and the Contractor fails to remove or correct such markings within sixty (60) days, the Government may ignore or, at the Contractor's expense, remove or correct any nonconforming markings.

(i) *Relation to patents.* Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent.

(j) *Limitation on charges for rights in computer software or computer software documentation.*

(1) The Contractor shall not charge to this contract any cost, including but not limited to license fees, royalties, or similar charges, for rights in computer software or computer software documentation to be delivered under this contract when—

(i) The Government has acquired, by any means, the same or greater rights in the software or documentation; or

(ii) The software or documentation are available to the public without restrictions.

(2) The limitation in paragraph (j)(1) of this clause—

(i) Includes costs charged by a subcontractor or supplier, at any tier, or costs incurred by the Contractor to acquire rights in subcontractor or supplier computer software or computer software documentation, if the subcontractor or supplier has been paid for such rights under any other Government contract or under a license conveying the rights to the Government; and

(ii) Does not include the reasonable costs of reproducing, handling, or mailing the documents or other media in which the software or documentation will be delivered.

(k) *Applicability to subcontractors or suppliers.*

(1) Whenever any noncommercial computer software or computer software documentation is to be obtained from a subcontractor or supplier for delivery to the Government under this contract, the Contractor shall use this same clause in its subcontracts or other contractual instruments, and require its subcontractors or suppliers to do so, without alteration, except to identify the parties. No other clause shall be used to enlarge or diminish the Government's, the Contractor's, or a higher tier subcontractor's or supplier's rights in a subcontractor's or supplier's computer software or computer software documentation.

(2) The Contractor and higher tier subcontractors or suppliers shall not use their power to award contracts as economic leverage to obtain rights in computer software or computer software documentation from their subcontractors or suppliers.

(3) The Contractor shall ensure that subcontractor or supplier rights are recognized and protected in the identification, assertion, and delivery processes required by paragraph (e) of this clause.

(4) In no event shall the Contractor use its obligation to recognize and protect subcontractor or supplier rights in computer software or computer software documentation as an excuse for failing to satisfy its contractual obligation to the Government.

ALTERNATE I (JUN 1995)

As prescribed in [227.7203-6](#)(a)(2), add the following paragraph (l) to the basic clause:

(l) *Publication for sale.*

(1) This paragraph only applies to computer software or computer software documentation in which the Government has obtained unlimited rights or a license to make an unrestricted release of the software or documentation.

(2) The Government shall not publish a deliverable item or items of computer software or computer software documentation identified in this contract as being subject to paragraph (l) of this clause or authorize others to publish such software or documentation on its behalf if, prior to publication for sale by the Government and within twenty-four (24) months following the date specified in this contract for delivery of such software or documentation, or the removal of any national security or export control restrictions, whichever is later, the Contractor publishes that item or items for sale and promptly notifies the Contracting Officer of such publication(s). Any such publication shall include a notice identifying the number of this contract and the Government's rights in the published software or documentation.

(3) This limitation on the Government's right to publish for sale shall continue as long as the software or documentation are reasonably available to the public for purchase.

252.227-7015 Technical Data--Commercial Items.

As prescribed in [227.7102-4](#)(a)(1), use the following clause:

TECHNICAL DATA—COMMERCIAL ITEMS (FEB 2014)

(2) “Covered Government support contractor” means a contractor (other than a litigation support contractor covered by [252.204-7014](#)) under a contract, the primary purpose of which is to furnish independent and impartial advice or technical assistance directly to the Government in support of the Government’s management and oversight of a program or effort (rather than to directly furnish an end item or service to accomplish a program or effort), provided that the contractor—

(i) Is not affiliated with the prime contractor or a first-tier subcontractor on the program or effort, or with any direct competitor of such prime contractor or any such first-tier subcontractor in furnishing end items or services of the type developed or produced on the program or effort; and

(ii) Receives access to technical data or computer software for performance of a Government contract that contains the clause at [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

Part 252--Solicitation Provisions and Contract Clauses

(3) “Form, fit, and function data” means technical data that describes the required overall physical, functional, and performance characteristics (along with the qualification requirements, if applicable) of an item, component, or process to the extent necessary to permit identification of physically and functionally interchangeable items.

(4) The term “item” includes components or processes.

(5) “Technical data” means recorded information, regardless of the form or method of recording, of a scientific or technical nature (including computer software documentation). The term does not include computer software or data incidental to contract administration, such as financial and/or management information.

(b) *License.*

(1) The Government shall have the unrestricted right to use, modify, reproduce, release, perform, display, or disclose technical data, and to permit others to do so, that—

(i) Have been provided to the Government or others without restrictions on use, modification, reproduction, release, or further disclosure other than a release or disclosure resulting from the sale, transfer, or other assignment of interest in the technical data to another party or the sale or transfer of some or all of a business entity or its assets to another party;

(ii) Are form, fit, and function data;

(iii) Are a correction or change to technical data furnished to the Contractor by the Government;

(iv) Are necessary for operation, maintenance, installation, or training (other than detailed manufacturing or process data); or

(v) Have been provided to the Government under a prior contract or licensing agreement through which the Government has acquired the rights to use, modify, reproduce, release, perform, display, or disclose the data without restrictions.

(2) Except as provided in paragraph (b)(1) of this clause, the Government may use, modify, reproduce, release, perform, display, or disclose technical data within the Government only. The Government shall not—

(i) Use the technical data to manufacture additional quantities of the commercial items; or

(ii) Release, perform, display, disclose, or authorize use of the technical data outside the Government without the Contractor's written permission unless a release, disclosure, or permitted use is necessary for emergency repair or overhaul of the commercial items furnished under this contract, or for performance of work by covered Government support contractors.

(3) The Contractor acknowledges that—

Part 252--Solicitation Provisions and Contract Clauses

(i) Technical data covered by paragraph (b)(2) of this clause are authorized to be released or disclosed to covered Government support contractors;

(ii) The Contractor will be notified of such release or disclosure;

(iii) The Contractor (or the party asserting restrictions as identified in a restrictive legend) may require each such covered Government support contractor to enter into a non-disclosure agreement directly with the Contractor (or the party asserting restrictions) regarding the covered Government support contractor's use of such data, or alternatively, that the Contractor (or party asserting restrictions) may waive in writing the requirement for an non-disclosure agreement; and

(iv) Any such non-disclosure agreement shall address the restrictions on the covered Government support contractor's use of the data as set forth in the clause at [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends. The non-disclosure agreement shall not include any additional terms and conditions unless mutually agreed to by the parties to the non-disclosure agreement.

(c) *Additional license rights.* The Contractor, its subcontractors, and suppliers are not required to provide the Government additional rights to use, modify, reproduce, release, perform, display, or disclose technical data. However, if the Government desires to obtain additional rights in technical data, the Contractor agrees to promptly enter into negotiations with the Contracting Officer to determine whether there are acceptable terms for transferring such rights. All technical data in which the Contractor has granted the Government additional rights shall be listed or described in a special license agreement made part of this contract. The license shall enumerate the additional rights granted the Government in such data.

(d) *Release from liability.* The Contractor agrees that the Government, and other persons to whom the Government may have released or disclosed technical data delivered or otherwise furnished under this contract, shall have no liability for any release or disclosure of technical data that are not marked to indicate that such data are licensed data subject to use, modification, reproduction, release, performance, display, or disclosure restrictions.

(e) *Applicability to subcontractors or suppliers.*

(1) The Contractor shall recognize and protect the rights afforded its subcontractors and suppliers under 10 U.S.C. 2320 and 10 U.S.C. 2321.

(2) Whenever any technical data related to commercial items developed in any part at private expense will be obtained from a subcontractor or supplier for delivery to the Government under this contract, the Contractor shall use this same clause in the subcontract or other contractual instrument, including subcontracts and other contractual instruments for commercial items, and require its subcontractors or suppliers to do so, without alteration, except to identify the parties. As prescribed in [227.7103-6](#)(e)(1), [227.7104](#)(e)(1), or [227.7203-6](#)(b), use the following clause:

RIGHTS IN BID OR PROPOSAL INFORMATION (JAN 2011)

(a) *Definitions.*

(1) For contracts that require the delivery of technical data, the terms "technical data" and "computer software" are defined in the Rights in Technical Data--Noncommercial Item clause of this contract or, if this is a contract awarded under the Small Business Innovation Research Program, the Rights in Noncommercial Technical Data and Computer Software--Small Business Innovation Research (SBIR) Program clause of this contract.

(2) For contracts that do not require the delivery of technical data, the term "computer software" is defined in the Rights in Noncommercial Computer and Noncommercial Computer Software Documentation clause of this contract or, if this is a contract awarded under the Small Business Innovation Research Program, the Rights in Noncommercial Technical Data and Computer Software--Small Business Innovation Research (SBIR) Program clause of this contract.

(b) *Government rights prior to contract award.* By submission of its offer, the Offeror agrees that the Government—

(1) May reproduce the bid or proposal, or any portions thereof, to the extent necessary to evaluate the offer.

(2) Except as provided in paragraph (d) of this clause, shall use information contained in the bid or proposal only for evaluational purposes and shall not disclose, directly or indirectly, such information to any person including potential evaluators, unless that person has been authorized by the head of the agency, his or her designee, or the Contracting Officer to receive such information.

(f) *Flowdown.* The Contractor shall include this clause in all subcontracts or similar contractual instruments and require its subcontractors or suppliers to do so without alteration, except to identify the parties.

IDENTIFICATION AND ASSERTION OF USE, RELEASE, OR DISCLOSURE RESTRICTIONS (JAN 2011)

(a) The terms used in this provision are defined in following clause or clauses contained in this solicitation—

(1) If a successful offeror will be required to deliver technical data, the Rights in Technical Data--Noncommercial Items clause, or, if this solicitation contemplates a contract under the Small Business Innovation Research Program, the Rights in

Noncommercial Technical Data and Computer Software--Small Business Innovation Research (SBIR) Program clause.

(2) If a successful offeror will not be required to deliver technical data, the Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation clause, or, if this solicitation contemplates a contract under the Small Business Innovation Research Program, the Rights in Noncommercial Technical Data and Computer Software--Small Business Innovation Research (SBIR) Program clause.

(b) The identification and assertion requirements in this provision apply only to technical data, including computer software documentation, or computer software to be delivered with other than unlimited rights. For contracts to be awarded under the Small Business Innovation Research Program, the notification and identification requirements do not apply to technical data or computer software that will be generated under the resulting contract. Notification and identification is not required for restrictions based solely on copyright.

(c) Offers submitted in response to this solicitation shall identify, to the extent known at the time an offer is submitted to the Government, the technical data or computer software that the Offeror, its subcontractors or suppliers, or potential subcontractors or suppliers, assert should be furnished to the Government with restrictions on use, release, or disclosure.

(d) The Offeror's assertions, including the assertions of its subcontractors or suppliers or potential subcontractors or suppliers, shall be submitted as an attachment to its offer in the following format, dated and signed by an official authorized to contractually obligate the Offeror:

Identification and Assertion of Restrictions on the Government's Use, Release, or Disclosure of Technical Data or Computer Software.

The Offeror asserts for itself, or the persons identified below, that the Government's rights to use, release, or disclose the following technical data or computer software should be restricted:

(End of identification and assertion)

(e) An offeror's failure to submit, complete, or sign the notification and identification required by paragraph (d) of this provision with its offer may render the offer ineligible for award.

(f) If the Offeror is awarded a contract, the assertions identified in paragraph (d) of this provision shall be listed in an attachment to that contract. Upon request by the Contracting Officer, the Offeror shall provide sufficient information to enable the Contracting Officer to evaluate any listed assertion.

252.227-7018 Rights in Noncommercial Technical Data and Computer Software--Small Business Innovation Research (SBIR) Program.

As prescribed in [227.7104](#)(a), use the following clause:

RIGHTS IN NONCOMMERCIAL TECHNICAL DATA AND COMPUTER SOFTWARE--SMALL BUSINESS INNOVATION RESEARCH (SBIR) PROGRAM (FEB 2014)

(a) *Definitions.* As used in this clause—

(1) “Commercial computer software” means software developed or regularly used for nongovernmental purposes which—

(i) Has been sold, leased, or licensed to the public;

(ii) Has been offered for sale, lease, or license to the public;

(iii) Has not been offered, sold, leased, or licensed to the public but will be available for commercial sale, lease, or license in time to satisfy the delivery requirements of this contract; or

Defense Federal Acquisition Regulation Supplement

Part 252--Solicitation Provisions and Contract Clauses

(iv) Satisfies a criterion expressed in paragraph (a)(1)(i), (ii), or (iii) of this clause and would require only minor modification to meet the requirements of this contract.

(2) “Computer database” means a collection of recorded data in a form capable of being processed by a computer. The term does not include computer software.

(3) “Computer program” means a set of instructions, rules, or routines, recorded in a form that is capable of causing a computer to perform a specific operation or series of operations.

(4) “Computer software” means computer programs, source code, source code listings, object code listings, design details, algorithms, processes, flow charts, formulae, and related material that would enable the software to be reproduced, recreated, or recompiled. Computer software does not include computer databases or computer software documentation.

(5) “Computer software documentation” means owner's manuals, user's manuals, installation instructions, operating instructions, and other similar items, regardless of storage medium, that explain the capabilities of the computer software or provide instructions for using the software.

(6) “Covered Government support contractor” means a contractor (other than a litigation support contractor covered by [252.204-7014](#)) under a contract, the primary purpose of which is to furnish independent and impartial advice or technical assistance directly to the Government in support of the Government's management and oversight of a program or effort (rather than to directly furnish an end item or service to accomplish a program or effort), provided that the contractor—

(i) Is not affiliated with the prime contractor or a first-tier subcontractor on the program or effort, or with any direct competitor of such prime contractor or any such first-tier subcontractor in furnishing end items or services of the type developed or produced on the program or effort; and

(ii) Receives access to the technical data or computer software for performance of a Government contract that contains the clause at [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

(7) “Detailed manufacturing or process data” means technical data that describe the steps, sequences, and conditions of manufacturing, processing or assembly used by the manufacturer to produce an item or component or to perform a process.

(8) “Developed” means—

(i) (Applicable to technical data other than computer software documentation.) An item, component, or process, exists and is workable. Thus, the item or component must have been constructed or the process practiced. Workability is generally established when the item, component, or process has been analyzed or tested sufficiently to demonstrate to reasonable people skilled in the applicable art that there

Part 252--Solicitation Provisions and Contract Clauses

is a high probability that it will operate as intended. Whether, how much, and what type of analysis or testing is required to establish workability depends on the nature of the item, component, or process, and the state of the art. To be considered “developed,” the item, component, or process need not be at the stage where it could be offered for sale or sold on the commercial market, nor must the item, component or process be actually reduced to practice within the meaning of Title 35 of the United States Code;

(ii) A computer program has been successfully operated in a computer and tested to the extent sufficient to demonstrate to reasonable persons skilled in the art that the program can reasonably be expected to perform its intended purpose;

(iii) Computer software, other than computer programs, has been tested or analyzed to the extent sufficient to demonstrate to reasonable persons skilled in the art that the software can reasonably be expected to perform its intended purpose; or

(iv) Computer software documentation required to be delivered under a contract has been written, in any medium, in sufficient detail to comply with requirements under that contract.

(9) “Developed exclusively at private expense” means development was accomplished entirely with costs charged to indirect cost pools, costs not allocated to a government contract, or any combination thereof.

(i) Private expense determinations should be made at the lowest practicable level.

(ii) Under fixed-price contracts, when total costs are greater than the firm-fixed-price or ceiling price of the contract, the additional development costs necessary to complete development shall not be considered when determining whether development was at government, private, or mixed expense.

(10) “Developed exclusively with government funds” means development was not accomplished exclusively or partially at private expense.

(11) “Developed with mixed funding” means development was accomplished partially with costs charged to indirect cost pools and/or costs not allocated to a government contract, and partially with costs charged directly to a government contract.

(12) “Form, fit, and function data” means technical data that describe the required overall physical, functional, and performance characteristics (along with the qualification requirements, if applicable) of an item, component, or process to the extent necessary to permit identification of physically and functionally interchangeable items.

(13) “Generated” means technical data or computer software first created in the performance of this contract.

(14) “Government purpose” means any activity in which the United States Government is a party, including cooperative agreements with international or multi-national defense organizations or sales or transfers by the United States Government to foreign governments or international organizations. Government purposes include competitive procurement, but do not include the rights to use, modify, reproduce,

Defense Federal Acquisition Regulation Supplement

Part 252--Solicitation Provisions and Contract Clauses

release, perform, display, or disclose technical data or computer software for commercial purposes or authorize others to do so.

(15) "Limited rights" means the rights to use, modify, reproduce, release, perform, display, or disclose technical data, in whole or in part, within the Government. The Government may not, without the written permission of the party asserting limited rights, release or disclose the technical data outside the Government, use the technical data for manufacture, or authorize the technical data to be used by another party, except that the Government may reproduce, release, or disclose such data or authorize the use or reproduction of the data by persons outside the Government if—

(i) The production, release, disclosure, or use is—

(A) Necessary for emergency repair and overhaul; or

(B) A release or disclosure to—

(1) A covered Government support contractor in performance of its covered Government support contracts for use, modification, reproduction, performance, display, or release or disclosure to a person authorized to receive limited rights technical data; or

(2) A foreign government, of technical data other than detailed manufacturing or process data, when use of such data by the foreign government is in the interest of the Government and is required for evaluational or informational purposes;

(ii) The recipient of the technical data is subject to a prohibition on the further reproduction, release, disclosure, or use of the technical data; and

(iii) The Contractor or subcontractor asserting the restriction is notified of such reproduction, release, disclosure, or use.

(16) "Minor modification" means a modification that does not significantly alter the nongovernmental function or purpose of computer software or is of the type customarily provided in the commercial marketplace.

(17) "Noncommercial computer software" means software that does not qualify as commercial computer software under paragraph (a)(1) of this clause.

(18) "Restricted rights" apply only to noncommercial computer software and mean the Government's rights to—

(i) Use a computer program with one computer at one time. The program may not be accessed by more than one terminal or central processing unit or time shared unless otherwise permitted by this contract;

(ii) Transfer a computer program to another Government agency without the further permission of the Contractor if the transferor destroys all copies of the program and related computer software documentation in its possession and notifies the licensor of the transfer. Transferred programs remain subject to the provisions of this clause;

Defense Federal Acquisition Regulation Supplement

Part 252--Solicitation Provisions and Contract Clauses

(iii) Make the minimum number of copies of the computer software required for safekeeping (archive), backup, or modification purposes;

(iv) Modify computer software provided that the Government may—

(A) Use the modified software only as provided in paragraphs (a)(18)(i) and (iii) of this clause; and

(B) Not release or disclose the modified software except as provided in paragraphs (a)(18)(ii), (v), (vi), and (vii) of this clause;

(v) Permit contractors or subcontractors performing service contracts (see 37.101 of the Federal Acquisition Regulation) in support of this or a related contract to use computer software to diagnose and correct deficiencies in a computer program, to modify computer software to enable a computer program to be combined with, adapted to, or merged with other computer programs or when necessary to respond to urgent tactical situations, provided that—

(A) The Government notifies the party which has granted restricted rights that a release or disclosure to particular contractors or subcontractors was made;

(B) Such contractors or subcontractors are subject to the non-disclosure agreement at [227.7103-7](#) of the Defense Federal Acquisition Regulation Supplement or are Government contractors receiving access to the software for performance of a Government contract that contains the clause at [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends;

(C) The Government shall not permit the recipient to decompile, disassemble, or reverse engineer the software, or use software decompiled, disassembled, or reverse engineered by the Government pursuant to paragraph (a)(18)(iv) of this clause, for any other purpose; and

(D) Such use is subject to the limitations in paragraphs (a)(18)(i) through (iii) of this clause;

(vi) Permit contractors or subcontractors performing emergency repairs or overhaul of items or components of items procured under this or a related contract to use the computer software when necessary to perform the repairs or overhaul, or to modify the computer software to reflect the repairs or overhaul made, provided that—

(A) The intended recipient is subject to the non-disclosure agreement at [227.7103-7](#) or is a Government contractor receiving access to the software for performance of a Government contract that contains the clause at [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends;

(B) The Government shall not permit the recipient to decompile, disassemble, or reverse engineer the software, or use software decompiled, disassembled, or reverse engineered by the Government pursuant to paragraph (a)(18)(iv) of this clause, for any other purpose; and

(A) The Government shall not permit the covered Government support contractor to decompile, disassemble, or reverse engineer the software, or use software decompiled, disassembled, or reverse engineered by the Government pursuant to the paragraph (a)(18)(iv) of this clause, for any other purpose; and

(B) Such use is subject to the limitations in paragraphs (a)(18)(i) through (iv) of this clause.

(19) “SBIR data rights” means the Government’s rights during the SBIR data protection period (specified in paragraph (b)(4) of this clause) to use, modify, reproduce, release, perform, display, or disclose technical data or computer software generated under a SBIR award as follows:

- (i) Limited rights in such SBIR technical data; and
- (ii) Restricted rights in such SBIR computer software.

(20) “Technical data” means recorded information, regardless of the form or method of the recording, of a scientific or technical nature (including computer software documentation). The term does not include computer software or data incidental to contract administration, such as financial and/or management information.

(21) “Unlimited rights” means rights to use, modify, reproduce, release, perform, display, or disclose, technical data or computer software in whole or in part, in any manner and for any purpose whatsoever, and to have or authorize others to do so.

(v) Data or software in which the Government has acquired previously unlimited rights under another Government contract or through a specific license; and

(vi) SBIR data upon expiration of the SBIR data rights period.

(2) *Limited rights.* The Government shall have limited rights in technical data, that were not generated under this contract, pertain to items, components or processes developed exclusively at private expense, and are marked, in accordance with the marking instructions in paragraph (f)(1) of this clause, with the legend prescribed in paragraph (f)(2) of this clause.

(3) *Restricted rights in computer software.* The Government shall have restricted rights in noncommercial computer software required to be delivered or otherwise furnished to the Government under this contract that were developed exclusively at private expense and were not generated under this contract.

computer software documentation made in accordance with paragraph (a)(14), (a)(17), or (b)(4) of this clause, or in accordance with the terms of a license negotiated under paragraph (b)(5) of this clause, or by others to whom the recipient has released or disclosed the data, software, or documentation and to seek relief solely from the party who has improperly used, modified, reproduced, released, performed, displayed, or disclosed Contractor data or software marked with restrictive legends.

(8) *Covered Government support contractors.* The Contractor acknowledges that—

(i) Limited rights technical data and restricted rights computer software are authorized to be released or disclosed to covered Government support contractors;

(ii) The Contractor will be notified of such release or disclosure;

(iii) The Contractor may require each such covered Government support contractor to enter into a non-disclosure agreement directly with the Contractor (or the party asserting restrictions as identified in a restrictive legend) regarding the covered Government support contractor's use of such data or software, or alternatively that the Contractor (or party asserting restrictions) may waive in writing the requirement for a non-disclosure agreement; and

(2) Computer software, has provided a statement of the license rights obtained in a form acceptable to the Contracting Officer.

(e) *Identification and delivery of technical data or computer software to be furnished with restrictions on use, release, or disclosure.*

Defense Federal Acquisition Regulation Supplement

Part 252--Solicitation Provisions and Contract Clauses

(1) This paragraph does not apply to technical data or computer software that were or will be generated under this contract or to restrictions based solely on copyright.

(2) Except as provided in paragraph (e)(3) of this clause, technical data or computer software that the Contractor asserts should be furnished to the Government with restrictions on use, release, or disclosure is identified in an attachment to this contract (the Attachment). The Contractor shall not deliver any technical data or computer software with restrictive markings unless the technical data or computer software are listed on the Attachment.

(3) In addition to the assertions made in the Attachment, other assertions may be identified after award when based on new information or inadvertent omissions unless the inadvertent omissions would have materially affected the source selection decision. Such identification and assertion shall be submitted to the Contracting Officer as soon as practicable prior to the scheduled date for delivery of the technical data or computer software, in the following format, and signed by an official authorized to contractually obligate the Contractor:

Identification and Assertion of Restrictions on the Government's Use, Release, or Disclosure of Technical Data or Computer Software.

**Generally, development at private expense, either exclusively or partially, is the only basis for asserting restrictions on the Government's rights to use, release, or disclose technical data or computer software. Indicate whether development was exclusively or partially at private expense. If development was not at private expense, enter the specific reason for asserting that the Government's rights should be restricted.

(4) When requested by the Contracting Officer, the Contractor shall provide sufficient information to enable the Contracting Officer to evaluate the Contractor's assertions. The Contracting Officer reserves the right to add the Contractor's assertions to the Attachment and validate any listed assertions, at a later date, in accordance with the procedures of the Validation of Asserted Restrictions—Computer Software and/or Validation of Restrictive Markings on Technical Data clauses of this contract.

(f) *Marking requirements.* The Contractor, and its subcontractors or suppliers, may only assert restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data or computer software to be delivered under this contract by marking the deliverable data or software subject to restriction. Except as provided in paragraph (f)(6) of this clause, only the following markings are authorized under this contract: the limited rights legend at paragraph (f)(2) of this clause; the restricted rights legend at paragraph (f)(3) of this clause, the SBIR data rights legend at paragraph (f)(4) of this clause, or the special license rights legend at paragraph (f)(5) of this clause; and/or a notice of copyright as prescribed under 17 U.S.C. 401 or 402.

(1) *General marking instructions.* The Contractor, or its subcontractors or suppliers, shall conspicuously and legibly mark the appropriate legend to all technical data and computer software that qualify for such markings. The authorized legends shall be placed on the transmittal document or storage container and, for printed material, each page of the printed material containing technical data or computer software for which restrictions are asserted. When only portions of a page of printed material are subject to the asserted restrictions, such portions shall be identified by circling, underscoring, with a note, or other appropriate identifier. Technical data or computer software transmitted directly from one computer or computer terminal to another shall contain a notice of asserted restrictions. However, instructions that interfere with or delay the operation of computer software in order to display a restrictive rights legend or other license statement at any time prior to or during use of the computer software, or otherwise cause such interference or delay, shall not be inserted in software that will or might be used in combat or situations that simulate combat conditions, unless the Contracting Officer's written permission to deliver such software has been obtained prior to delivery. Reproductions of technical data, computer software, or any portions thereof subject to asserted restrictions shall also reproduce the asserted restrictions.

(2) *Limited rights markings.* Technical data not generated under this contract that pertain to items, components, or processes developed exclusively at private expense and delivered or otherwise furnished with limited rights shall be marked with the following legend:

(4) *SBIR data rights markings.* Except for technical data or computer software in which the Government has acquired unlimited rights under paragraph (b)(1) of this clause, or negotiated special license rights as provided in paragraph (b)(5) of this clause, technical data or computer software generated under this contract shall be marked with the following legend. The Contractor shall enter the expiration date for the SBIR data rights period on the legend:

Defense Federal Acquisition Regulation Supplement

Part 252--Solicitation Provisions and Contract Clauses

The Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data or computer software marked with this legend are restricted during the period shown as provided in paragraph (b)(4) of the Rights in Noncommercial Technical Data and Computer Software--Small Business Innovation Research (SBIR) Program clause contained in the above identified contract. No restrictions apply after the expiration date shown above. Any reproduction of technical data, computer software, or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(5) *Special license rights markings.*

(i) Technical data or computer software in which the Government's rights stem from a specifically negotiated license shall be marked with the following legend:

SPECIAL LICENSE RIGHTS

The Government's rights to use, modify, reproduce, release, perform, display, or disclose this technical data or computer software are restricted by Contract No. ____ (Insert contract number)____, License No. ____ (Insert license identifier)____. Any reproduction of technical data, computer software, or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(ii) For purposes of this clause, special licenses do not include government purpose license rights acquired under a prior contract (see paragraph (b)(6) of this clause).

(6) *Pre-existing data markings.* If the terms of a prior contract or license permitted the Contractor to restrict the Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data or computer software, and those restrictions are still applicable, the Contractor may mark such data or software with the appropriate restrictive legend for which the data or software qualified under the prior contract or license. The marking procedures in paragraph (f)(1) of this clause shall be followed.

(g) *Contractor procedures and records.* Throughout performance of this contract, the Contractor, and its subcontractors or suppliers that will deliver technical data or computer software with other than unlimited rights, shall—

(1) Have, maintain, and follow written procedures sufficient to assure that restrictive markings are used only when authorized by the terms of this clause; and

(2) Maintain records sufficient to justify the validity of any restrictive markings on technical data or computer software delivered under this contract.

(h) *Removal of unjustified and nonconforming markings.*

(1) *Unjustified markings.* The rights and obligations of the parties regarding the validation of restrictive markings on technical data or computer software furnished

Part 252—Solicitation Provisions and Contract Clauses

or to be furnished under this contract are contained in the Validation of Restrictive Markings on Technical Data and the Validation of Asserted Restrictions—Computer Software clauses of this contract, respectively. Notwithstanding any provision of this contract concerning inspection and acceptance, the Government may ignore or, at the Contractor's expense, correct or strike a marking if, in accordance with the applicable procedures of those clauses, a restrictive marking is determined to be unjustified.

(2) *Nonconforming markings.* A nonconforming marking is a marking placed on technical data or computer software delivered or otherwise furnished to the Government under this contract that is not in the format authorized by this contract. Correction of nonconforming markings is not subject to the Validation of Restrictive Markings on Technical Data or the Validation of Asserted Restrictions—Computer Software clause of this contract. If the Contracting Officer notifies the Contractor of a nonconforming marking or markings and the Contractor fails to remove or correct such markings within sixty (60) days, the Government may ignore or, at the Contractor's expense, remove or correct any nonconforming markings.

(i) *Relation to patents.* Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent.

(j) *Limitation on charges for rights in technical data or computer software.*

(1) The Contractor shall not charge to this contract any cost, including but not limited to, license fees, royalties, or similar charges, for rights in technical data or computer software to be delivered under this contract when—

(i) The Government has acquired, by any means, the same or greater rights in the data or software; or

(ii) The data are available to the public without restrictions.

(2) The limitation in paragraph (j)(1) of this clause—

(i) Includes costs charged by a subcontractor or supplier, at any tier, or costs incurred by the Contractor to acquire rights in subcontractor or supplier technical data or computer software, if the subcontractor or supplier has been paid for such rights under any other Government contract or under a license conveying the rights to the Government; and

(ii) Does not include the reasonable costs of reproducing, handling, or mailing the documents or other media in which the technical data or computer software will be delivered.

(k) *Applicability to subcontractors or suppliers.*

(1) The Contractor shall assure that the rights afforded its subcontractors and suppliers under 10 U.S.C. 2320, 10 U.S.C. 2321, and the identification, assertion, and delivery processes required by paragraph (e) of this clause are recognized and protected.

(2) Whenever any noncommercial technical data or computer software is to be obtained from a subcontractor or supplier for delivery to the Government under this

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

contract, the Contractor shall use this same clause in the subcontract or other contractual instrument, and require its subcontractors or suppliers to do so, without alteration, except to identify the parties. The Contractor shall use the Technical Data—Commercial Items clause of this contract to obtain technical data pertaining to commercial items, components, or processes. No other clause shall be used to enlarge or diminish the Government's, the Contractor's, or a higher tier subcontractor's or supplier's rights in a subcontractor's or supplier's technical data or computer software.

(3) Technical data required to be delivered by a subcontractor or supplier shall normally be delivered to the next higher tier contractor, subcontractor, or supplier. However, when there is a requirement in the prime contract for technical data which may be submitted with other than unlimited rights by a subcontractor or supplier, then said subcontractor or supplier may fulfill its requirement by submitting such technical data directly to the Government, rather than through a higher tier contractor, subcontractor, or supplier.

(4) The Contractor and higher tier subcontractors or suppliers shall not use their power to award contracts as economic leverage to obtain rights in technical data or computer software from their subcontractors or suppliers.

(5) In no event shall the Contractor use its obligation to recognize and protect subcontractor or supplier rights in technical data or computer software as an excuse for failing to satisfy its contractual obligation to the Government.

(End of clause)

ALTERNATE I (JUN 1995)

As prescribed in [227.7104](#)(d), add the following paragraph (l) to the basic clause:

(l) *Publication for sale.*

(1) This paragraph applies only to technical data or computer software delivered to the Government with SBIR data rights.

(2) Upon expiration of the SBIR data rights period, the Government will not exercise its right to publish or authorize others to publish an item of technical data or computer software identified in this contract as being subject to paragraph (l) of this clause if the Contractor, prior to the expiration of the SBIR data rights period, or within two years following delivery of the data or software item, or within twenty-four months following the removal of any national security or export control restrictions, whichever is later, publishes such data or software item(s) and promptly notifies the Contracting Officer of such publication(s). Any such publication(s) shall include a notice identifying the number of this contract and the Government's rights in the published data.

(3) This limitation on the Government's right to publish for sale shall continue as long as the technical data or computer software are reasonably available to the public for purchase.

252.227-7019 Validation of Asserted Restrictions—Computer Software.

As prescribed in [227.7104](#)(e)(3) or [227.7203-6](#)(c), use the following clause:

VALIDATION OF ASSERTED RESTRICTIONS—COMPUTER SOFTWARE

(SEP 2016)

(a) *Definitions.*

(1) As used in this clause, unless otherwise specifically indicated, the term "Contractor" means the Contractor and its subcontractors or suppliers.

(2) Other terms used in this clause are defined in the Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation clause of this contract.

(b) *Justification.* The Contractor shall maintain records sufficient to justify the validity of any markings that assert restrictions on the Government's rights to use, modify, reproduce, perform, display, release, or disclose computer software delivered or required to be delivered under this contract and shall be prepared to furnish to the Contracting Officer a written justification for such restrictive markings in response to a request for information under paragraph (d) or a challenge under paragraph (f) of this clause.

(c) *Direct contact with subcontractors or suppliers.* The Contractor agrees that the Contracting Officer may transact matters under this clause directly with subcontractors or suppliers at any tier who assert restrictions on the Government's right to use, modify, reproduce, release, perform, display, or disclose computer software. Neither this clause, nor any action taken by the Government under this clause, creates or implies privity of contract between the Government and the Contractor's subcontractors or suppliers.

(d) *Requests for information.*

(1) The Contracting Officer may request the Contractor to provide sufficient information to enable the Contracting Officer to evaluate the Contractor's asserted restrictions. Such information shall be based upon the records required by this clause or other information reasonably available to the Contractor.

(2) Based upon the information provided, if the—

(i) Contractor agrees that an asserted restriction is not valid, the Contracting Officer may—

(A) Strike or correct the unjustified marking at the Contractor's expense; or

(B) Return the computer software to the Contractor for correction at the Contractor's expense. If the Contractor fails to correct or strike the unjustified restriction and return the corrected software to the Contracting Officer within sixty (60) days following receipt of the software, the Contracting Officer may correct or strike the markings at that Contractor's expense.

(ii) Contracting Officer concludes that the asserted restriction is appropriate for this contract, the Contracting Officer shall so notify the Contractor in writing.

(3) The Contractor's failure to provide a timely response to a Contracting Officer's request for information or failure to provide sufficient information to enable the

Contracting Officer to evaluate an asserted restriction shall constitute reasonable grounds for questioning the validity of an asserted restriction.

(e) *Government right to challenge and validate asserted restrictions.*

(1) The Government, when there are reasonable grounds to do so, has the right to review and challenge the validity of any restrictions asserted by the Contractor on the Government's rights to use, modify, reproduce, release, perform, display, or disclose computer software delivered, to be delivered under this contract, or otherwise provided to the Government in the performance of this contract. Except for software that is publicly available, has been furnished to the Government without restrictions, or has been otherwise made available without restrictions, the Government may exercise this right only within three years after the date(s) the software is delivered or otherwise furnished to the Government, or three years following final payment under this contract, whichever is later.

(2) The absence of a challenge to an asserted restriction shall not constitute validation under this clause. Only a Contracting Officer's final decision or actions of an agency Board of Contract Appeals or a court of competent jurisdiction that sustain the validity of an asserted restriction constitute validation of the restriction.

(f) *Challenge procedures.*

(1) A challenge must be in writing and shall—

(i) State the specific grounds for challenging the asserted restriction;

(ii) Require the Contractor to respond within sixty (60) days;

(iii) Require the Contractor to provide justification for the assertion based upon records kept in accordance with paragraph (b) of this clause and such other documentation that are reasonably available to the Contractor, in sufficient detail to enable the Contracting Officer to determine the validity of the asserted restrictions; and

(iv) State that a Contracting Officer's final decision, during the three-year period preceding this challenge, or action of a court of competent jurisdiction or Board of Contract Appeals that sustained the validity of an identical assertion made by the Contractor (or a licensee) shall serve as justification for the asserted restriction.

(2) The Contracting Officer shall extend the time for response if the Contractor submits a written request showing the need for additional time to prepare a response.

(3) The Contracting Officer may request additional supporting documentation if, in the Contracting Officer's opinion, the Contractor's explanation does not provide sufficient evidence to justify the validity of the asserted restrictions. The Contractor agrees to promptly respond to the Contracting Officer's request for additional supporting documentation.

(4) Notwithstanding challenge by the Contracting Officer, the parties may agree on the disposition of an asserted restriction at any time prior to a Contracting Officer's final decision or, if the Contractor has appealed that decision, filed suit, or

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

provided notice of an intent to file suit, at any time prior to a decision by a court of competent jurisdiction or Board of Contract Appeals.

(5) If the Contractor fails to respond to the Contracting Officer's request for information or additional information under paragraph (f)(1) of this clause, the Contracting Officer shall issue a final decision, in accordance with the Disputes clause of this contract, pertaining to the validity of the asserted restriction.

(6) If the Contracting Officer, after reviewing any available information pertaining to the validity of an asserted restriction, determines that the asserted restriction has—

(i) Not been justified, the Contracting Officer shall issue promptly a final decision, in accordance with the Disputes clause of this contract, denying the validity of the asserted restriction; or

(ii) Been justified, the Contracting Officer shall issue promptly a final decision, in accordance with the Disputes clause of this contract, validating the asserted restriction.

(7) A Contractor receiving challenges to the same asserted restriction(s) from more than one Contracting Officer shall notify each Contracting Officer of the other challenges. The notice shall also state which Contracting Officer initiated the first in time unanswered challenge. The Contracting Officer who initiated the first in time unanswered challenge, after consultation with the other Contracting Officers who have challenged the restrictions and the Contractor, shall formulate and distribute a schedule that provides the Contractor a reasonable opportunity for responding to each challenge.

(g) *Contractor appeal—Government obligation.*

(1) The Government agrees that, notwithstanding a Contracting Officer's final decision denying the validity of an asserted restriction and except as provided in paragraph (g)(3) of this clause, it will honor the asserted restriction—

(i) For a period of ninety (90) days from the date of the Contracting Officer's final decision to allow the Contractor to appeal to the appropriate Board of Contract Appeals or to file suit in an appropriate court;

(ii) For a period of one year from the date of the Contracting Officer's final decision if, within the first ninety (90) days following the Contracting Officer's final decision, the Contractor has provided notice of an intent to file suit in an appropriate court; or

(iii) Until final disposition by the appropriate Board of Contract Appeals or court of competent jurisdiction, if the Contractor has:

(A) appealed to the Board of Contract Appeals or filed suit in an appropriate court within ninety (90) days; or

(B) submitted, within ninety (90) days, a notice of intent to file suit in an appropriate court and filed suit within one year.

Defense Federal Acquisition Regulation Supplement

Part 252--Solicitation Provisions and Contract Clauses

(2) The Contractor agrees that the Government may strike, correct, or ignore the restrictive markings if the Contractor fails to—

(i) Appeal to a Board of Contract Appeals within ninety (90) days from the date of the Contracting Officer's final decision;

(ii) File suit in an appropriate court within ninety (90) days from such date; or

(iii) File suit within one year after the date of the Contracting Officer's final decision if the Contractor had provided notice of intent to file suit within ninety (90) days following the date of the Contracting Officer's final decision.

(3) The agency head, on a nondelegable basis, may determine that urgent or compelling circumstances do not permit awaiting the filing of suit in an appropriate court, or the rendering of a decision by a court of competent jurisdiction or Board of Contract Appeals. In that event, the agency head shall notify the Contractor of the urgent or compelling circumstances. Notwithstanding paragraph (g)(1) of this clause, the Contractor agrees that the agency may use, modify, reproduce, release, perform, display, or disclose computer software marked with (i) government purpose legends for any purpose, and authorize others to do so; or (ii) restricted or special license rights for government purposes only. The Government agrees not to release or disclose such software unless, prior to release or disclosure, the intended recipient is subject to the use and non-disclosure agreement at [227.7103-7](#) of the Defense Federal Acquisition Regulation Supplement (DFARS), or is a Government contractor receiving access to the software for performance of a Government contract that contains the clause at DFARS [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends. The agency head's determination may be made at any time after the date of the Contracting Officer's final decision and shall not affect the Contractor's right to damages against the United States, or other relief provided by law, if its asserted restrictions are ultimately upheld.

(h) *Final disposition of appeal or suit.* If the Contractor appeals or files suit and if, upon final disposition of the appeal or suit, the Contracting Officer's decision is:

(1) Sustained—

(i) Any restrictive marking on such computer software shall be struck or corrected at the Contractor's expense or ignored; and

(ii) If the asserted restriction is found not to be substantially justified, the Contractor shall be liable to the Government for payment of the cost to the Government of reviewing the asserted restriction and the fees and other expenses (as defined in 28 U.S.C. 2412(d)(2)(A)) incurred by the Government in challenging the restriction, unless special circumstances would make such payment unjust.

(2) Not sustained—

(i) The Government shall be bound by the asserted restriction; and

(ii) If the challenge by the Government is found not to have been made in good faith, the Government shall be liable to the Contractor for payment of fees and other expenses (as defined in 28 U.S.C. 2412(d)(2)(A)) incurred by the Contractor in defending the restriction.

(i) *Flowdown.* The Contractor shall insert this clause in all contracts, purchase orders, and other similar instruments with its subcontractors or suppliers, at any tier, who will be furnishing computer software to the Government in the performance of this contract. The clause may not be altered other than to identify the appropriate parties.

(End of clause)

252.227-7020 Rights in Special Works.

As prescribed in [227.7105-3](#), [227.7106](#)(a) or [227.7205](#)(a), use the following clause:

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(1) The Government shall have unlimited rights in works first produced, created, or generated and required to be delivered under this contract.

(2) When a work is first produced, created, or generated under this contract, and such work is required to be delivered under this contract, the Contractor shall assign copyright in those works to the Government. The Contractor, unless directed to the contrary by the Contracting Officer, shall place the following notice on such works:

“© (Year date of delivery) United States Government, as represented by the Secretary of (department). All rights reserved.”

For phonorecords, the “©” marking shall be replaced by a “P”.

(d) *Third party copyrighted data.* The Contractor shall not incorporate, without the written approval of the Contracting Officer, any copyrighted works in the works to be delivered under this contract unless the Contractor is the copyright owner or has obtained for the Government the license rights necessary to perfect a license of the scope identified in paragraph (c)(3) of this clause and, prior to delivery of such works—

(1) Has affixed to the transmittal document a statement of the license rights obtained; or

(2) For computer software, has provided a statement of the license rights obtained in a form acceptable to the Contracting Officer.

(e) *Indemnification.* The Contractor shall indemnify and save and hold harmless the Government, and its officers, agents and employees acting for the Government, against any liability, including costs and expenses, (1) for violation of proprietary rights, copyrights, or rights of privacy or publicity, arising out of the creation, delivery, use, modification, reproduction, release, performance, display, or disclosure of any works furnished under this contract, or (2) based upon any libelous or other unlawful matter contained in such works.

(f) *Government-furnished information.* Paragraphs (d) and (e) of this clause are not applicable to information furnished to the Contractor by the Government and incorporated in the works delivered under this contract.

(End of clause)

252.227-7022 Government Rights (Unlimited).

As prescribed at [227.7107-1](#)(a) use the following clause:

GOVERNMENT RIGHTS (UNLIMITED) (MAR 1979)

The Government shall have unlimited rights, in all drawings, designs, specifications, notes and other works developed in the performance of this contract, including the right to use same on any other Government design or construction without additional compensation to the Contractor. The Contractor hereby grants to the Government a paid-up license throughout the world to all such works to which he may assert or establish any claim under design patent or copyright laws. The Contractor for a period of three (3) years after completion of the project agrees to furnish the original or copies of all such works on the request of the Contracting Officer.

(End of clause)

252.227-7023 Drawings and Other Data to Become Property of Government.

As prescribed at [227.7107-1](#)(b), use the following clause:

Unless approved by the Contracting Officer, the Contractor shall not produce a design or specification that requires in this construction work the use of structures, products, materials, construction equipment, or processes that are known by the Contractor to be available only from a sole source. The Contractor shall promptly report any such design or specification to the Contracting Officer and give the reason why it is considered necessary to so restrict the design or specification.

(End of clause)

(5) *Covered Government support contractors.* If the Contractor is a covered Government support contractor receiving technical data or computer software marked with restrictive legends pursuant to paragraphs (b)(1)(ii), (b)(3)(ii), or (b)(4)(ii), the Contractor further agrees and acknowledges that—

(i) The technical data or computer software will be accessed and used for the sole purpose of furnishing independent and impartial advice or technical assistance directly to the Government in support of the Government's management and oversight of the program or effort to which such technical data or computer software relates, as stated in this contract, and shall not be used to compete for any Government or non-Government contract;

(ii) The Contractor will take all reasonable steps to protect the technical data or computer software against any unauthorized release or disclosure;

(iii) The Contractor will ensure that the party whose name appears in the legend is notified of the access or use within thirty (30) days of the Contractor's access or use of such data or software;

(iv) The Contractor will enter into a non-disclosure agreement with the party whose name appears in the legend, if required to do so by that party, and that any such non-disclosure agreement will implement the restrictions on the Contractor's use of such data or software as set forth in this clause. The non-disclosure agreement shall not include any additional terms and conditions unless mutually agreed to by the parties to the non-disclosure agreement; and

(v) That a breach of these obligations or restrictions may subject the Contractor to—

(A) Criminal, civil, administrative, and contractual actions in law and equity for penalties, damages, and other appropriate remedies by the United States; and

(B) Civil actions for damages and other appropriate remedies by the party whose name appears in the legend.

(c) *Indemnification and creation of third party beneficiary rights.* The Contractor agrees—

When the technical data or computer software is ordered, the Contractor shall be compensated for converting the data or computer software into the prescribed form, for reproduction and delivery. The obligation to deliver the technical data of a subcontractor and pertaining to an item obtained from him shall expire three (3) years after the date the Contractor accepts the last delivery of that item from that subcontractor under this contract. The Offeror shall attach to its offer an identification of all documents or other media incorporating technical data or computer software it intends to deliver under this contract with other than unlimited rights that are identical or substantially similar to documents or other media that the Offeror has produced for, delivered to, or is obligated to deliver to the Government under any contract or subcontract. Payments shall not be withheld nor any other action taken pursuant to this paragraph when the Contractor's failure to make timely delivery or to deliver such data without deficiencies arises out of causes beyond the control and without the fault or negligence of the Contractor.

(b) The withholding of any amount or subsequent payment to the Contractor shall not be construed as a waiver of any rights accruing to the Government under this contract.

VALIDATION OF RESTRICTIVE MARKINGS ON TECHNICAL DATA (SEP 2016)

(a) *Definitions.* The terms used in this clause are defined in the Rights in Technical Data—Noncommercial Items clause of this contract.

(b) *Presumption regarding development exclusively at private expense.*

(1) *Commercial items.*

(i) Except as provided in paragraph (b)(2) of this clause, the Contracting Officer will presume that the Contractor's or a subcontractor's asserted use or release

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

restrictions with respect to a commercial item is justified on the basis that the item was developed exclusively at private expense.

(ii) The Contracting Officer will not challenge such assertions unless the Contracting Officer has information that demonstrates that the commercial item was not developed exclusively at private expense.

(2) *Major weapon systems.* In the case of a challenge to a use or release restriction that is asserted with respect to data of the Contractor or a subcontractor for a major weapon system or a subsystem or component thereof on the basis that the major weapon system, subsystem, or component was developed exclusively at private expense—

(i) The presumption in paragraph (b)(1) of this clause applies to—

(A) A commercial subsystem or component of a major weapon system, if the major weapon system was acquired as a commercial item in accordance with DFARS subpart [234.70](#) (10 U.S.C. 2379(a));

(B) A component of a subsystem, if the subsystem was acquired as a commercial item in accordance with DFARS subpart [234.70](#) (10 U.S.C. 2379(b)); and

(C) Any other component, if the component is a commercially available off-the-shelf item or a commercially available off-the-shelf item with modifications of a type customarily available in the commercial marketplace or minor modifications made to meet Federal Government requirements; and

(ii) In all other cases, the challenge to the use or release restriction will be sustained unless information provided by the Contractor or a subcontractor demonstrates that the item or process was developed exclusively at private expense.

(c) *Justification.* The Contractor or subcontractor at any tier is responsible for maintaining records sufficient to justify the validity of its markings that impose restrictions on the Government and others to use, duplicate, or disclose technical data delivered or required to be delivered under the contract or subcontract. Except as provided in paragraph (b)(1) of this clause, the Contractor or subcontractor shall be prepared to furnish to the Contracting Officer a written justification for such restrictive markings in response to a challenge under paragraph (e) of this clause.

(d) *Prechallenge request for information.*

(1) The Contracting Officer may request the Contractor or subcontractor to furnish a written explanation for any restriction asserted by the Contractor or subcontractor on the right of the United States or others to use technical data. If, upon review of the explanation submitted, the Contracting Officer remains unable to ascertain the basis of the restrictive marking, the Contracting Officer may further request the Contractor or subcontractor to furnish additional information in the records of, or otherwise in the possession of or reasonably available to, the Contractor or subcontractor to justify the validity of any restrictive marking on technical data delivered or to be delivered under the contract or subcontract (e.g., a statement of facts accompanied with supporting documentation). The Contractor or subcontractor shall

Part 252--Solicitation Provisions and Contract Clauses

submit such written data as requested by the Contracting Officer within the time required or such longer period as may be mutually agreed.

(2) If the Contracting Officer, after reviewing the written data furnished pursuant to paragraph (d)(1) of this clause, or any other available information pertaining to the validity of a restrictive marking, determines that reasonable grounds exist to question the current validity of the marking and that continued adherence to the marking would make impracticable the subsequent competitive acquisition of the item, component, or process to which the technical data relates, the Contracting Officer shall follow the procedures in paragraph (e) of this clause.

(3) If the Contractor or subcontractor fails to respond to the Contracting Officer's request for information under paragraph (d)(1) of this clause, and the Contracting Officer determines that continued adherence to the marking would make impracticable the subsequent competitive acquisition of the item, component, or process to which the technical data relates, the Contracting Officer may challenge the validity of the marking as described in paragraph (e) of this clause.

(e) Challenge.

(1) Notwithstanding any provision of this contract concerning inspection and acceptance, if the Contracting Officer determines that a challenge to the restrictive marking is warranted, the Contracting Officer shall send a written challenge notice to the Contractor or subcontractor asserting the restrictive markings. Such challenge shall—

(i) State the specific grounds for challenging the asserted restriction;

(ii) Require a response within sixty (60) days justifying and providing sufficient evidence as to the current validity of the asserted restriction;

(iii) State that a DoD Contracting Officer's final decision, issued pursuant to paragraph (g) of this clause, sustaining the validity of a restrictive marking identical to the asserted restriction, within the three-year period preceding the challenge, shall serve as justification for the asserted restriction if the validated restriction was asserted by the same Contractor or subcontractor (or any licensee of such Contractor or subcontractor) to which such notice is being provided; and

(iv) State that failure to respond to the challenge notice may result in issuance of a final decision pursuant to paragraph (f) of this clause.

(2) The Contracting Officer shall extend the time for response as appropriate if the Contractor or subcontractor submits a written request showing the need for additional time to prepare a response.

(3) The Contractor's or subcontractor's written response shall be considered a claim within the meaning of 41 U.S.C. 7101, Contract Disputes, and shall be certified in the form prescribed at 33.207 of the Federal Acquisition Regulation, regardless of dollar amount.

(4) A Contractor or subcontractor receiving challenges to the same restrictive markings from more than one Contracting Officer shall notify each Contracting Officer of the existence of more than one challenge. The notice shall also state which

Defense Federal Acquisition Regulation Supplement

Part 252--Solicitation Provisions and Contract Clauses

Contracting Officer initiated the first in time unanswered challenge. The Contracting Officer initiating the first in time unanswered challenge after consultation with the Contractor or subcontractor and the other Contracting Officers, shall formulate and distribute a schedule for responding to each of the challenge notices to all interested parties. The schedule shall afford the Contractor or subcontractor an opportunity to respond to each challenge notice. All parties will be bound by this schedule.

(f) *Final decision when Contractor or subcontractor fails to respond.* Upon a failure of a Contractor or subcontractor to submit any response to the challenge notice the Contracting Officer will issue a final decision to the Contractor or subcontractor in accordance with paragraph (b) of this clause and the Disputes clause of this contract pertaining to the validity of the asserted restriction. This final decision shall be issued as soon as possible after the expiration of the time period of paragraph (e)(1)(ii) or (e)(2) of this clause. Following issuance of the final decision, the Contracting Officer will comply with the procedures in paragraphs (g)(2)(ii) through (iv) of this clause.

(g) *Final decision when Contractor or subcontractor responds.*

(1) If the Contracting Officer determines that the Contractor or subcontractor has justified the validity of the restrictive marking, the Contracting Officer shall issue a final decision to the Contractor or subcontractor sustaining the validity of the restrictive marking, and stating that the Government will continue to be bound by the restrictive marking. This final decision shall be issued within sixty (60) days after receipt of the Contractor's or subcontractor's response to the challenge notice, or within such longer period that the Contracting Officer has notified the Contractor or subcontractor that the Government will require. The notification of a longer period for issuance of a final decision will be made within sixty (60) days after receipt of the response to the challenge notice.

(2)(i) If the Contracting Officer determines that the validity of the restrictive marking is not justified, the Contracting Officer shall issue a final decision to the Contractor or subcontractor in accordance with the Disputes clause of this contract. Notwithstanding paragraph (e) of the Disputes clause, the final decision shall be issued within sixty (60) days after receipt of the Contractor's or subcontractor's response to the challenge notice, or within such longer period that the Contracting Officer has notified the Contractor or subcontractor of the longer period that the Government will require. The notification of a longer period for issuance of a final decision will be made within sixty (60) days after receipt of the response to the challenge notice.

(ii) The Government agrees that it will continue to be bound by the restrictive marking for a period of ninety (90) days from the issuance of the Contracting Officer's final decision under paragraph (g)(2)(i) of this clause. The Contractor or subcontractor agrees that, if it intends to file suit in the United States Claims Court it will provide a notice of intent to file suit to the Contracting Officer within ninety (90) days from the issuance of the Contracting Officer's final decision under paragraph (g)(2)(i) of this clause. If the Contractor or subcontractor fails to appeal, file suit, or provide a notice of intent to file suit to the Contracting Officer within the ninety (90)-day period, the Government may cancel or ignore the restrictive markings, and the failure of the Contractor or subcontractor to take the required action constitutes agreement with such Government action.

Defense Federal Acquisition Regulation Supplement

Part 252--Solicitation Provisions and Contract Clauses

(iii) The Government agrees that it will continue to be bound by the restrictive marking where a notice of intent to file suit in the United States Claims Court is provided to the Contracting Officer within ninety (90) days from the issuance of the final decision under paragraph (g)(2)(i) of this clause. The Government will no longer be bound, and the Contractor or subcontractor agrees that the Government may strike or ignore the restrictive markings, if the Contractor or subcontractor fails to file its suit within one (1) year after issuance of the final decision. Notwithstanding the foregoing, where the head of an agency determines, on a nondelegable basis, that urgent or compelling circumstances will not permit waiting for the filing of a suit in the United States Claims Court, the Contractor or subcontractor agrees that the agency may, following notice to the Contractor or subcontractor, authorize release or disclosure of the technical data. Such agency determination may be made at any time after issuance of the final decision and will not affect the Contractor's or subcontractor's right to damages against the United States where its restrictive markings are ultimately upheld or to pursue other relief, if any, as may be provided by law.

(iv) The Government agrees that it will be bound by the restrictive marking where an appeal or suit is filed pursuant to the Contract Disputes statute until final disposition by an agency Board of Contract Appeals or the United States Claims Court. Notwithstanding the foregoing, where the head of an agency determines, on a nondelegable basis, following notice to the Contractor that urgent or compelling circumstances will not permit awaiting the decision by such Board of Contract Appeals or the United States Claims Court, the Contractor or subcontractor agrees that the agency may authorize release or disclosure of the technical data. Such agency determination may be made at any time after issuance of the final decision and will not affect the Contractor's or subcontractor's right to damages against the United States where its restrictive markings are ultimately upheld or to pursue other relief, if any, as may be provided by law.

(h) *Final disposition of appeal or suit.*

(1) If the Contractor or subcontractor appeals or files suit and if, upon final disposition of the appeal or suit, the Contracting Officer's decision is sustained—

(i) The restrictive marking on the technical data shall be cancelled, corrected or ignored; and

(ii) If the restrictive marking is found not to be substantially justified, the Contractor or subcontractor, as appropriate, shall be liable to the Government for payment of the cost to the Government of reviewing the restrictive marking and the fees and other expenses (as defined in 28 U.S.C. 2412(d)(2)(A)) incurred by the Government in challenging the marking, unless special circumstances would make such payment unjust.

(2) If the Contractor or subcontractor appeals or files suit and if, upon final disposition of the appeal or suit, the Contracting Officer's decision is not sustained—

(i) The Government shall continue to be bound by the restrictive marking; and

(ii) The Government shall be liable to the Contractor or subcontractor for payment of fees and other expenses (as defined in 28 U.S.C. 2412(d)(2)(A)) incurred by

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

the Contractor or subcontractor in defending the marking, if the challenge by the Government is found not to have been made in good faith.

(i) *Duration of right to challenge.* The Government may review the validity of any restriction on technical data, delivered or to be delivered under a contract, asserted by the Contractor or subcontractor. During the period within three (3) years of final payment on a contract or within three (3) years of delivery of the technical data to the Government, whichever is later, the Contracting Officer may review and make a written determination to challenge the restriction. The Government may, however, challenge a restriction on the release, disclosure or use of technical data at any time if such technical data—

(1) Is publicly available;

(2) Has been furnished to the United States without restriction; or

(3) Has been otherwise made available without restriction. Only the Contracting Officer's final decision resolving a formal challenge by sustaining the validity of a restrictive marking constitutes “validation” as addressed in 10 U.S.C. 2321.

(j) *Decision not to challenge.* A decision by the Government, or a determination by the Contracting Officer, to not challenge the restrictive marking or asserted restriction shall not constitute “validation.”

(k) *Privity of contract.* The Contractor or subcontractor agrees that the Contracting Officer may transact matters under this clause directly with subcontractors at any tier that assert restrictive markings. However, this clause neither creates nor implies privity of contract between the Government and subcontractors.

(l) *Flowdown.* The Contractor or subcontractor agrees to insert this clause in contractual instruments, including subcontracts and other contractual instruments for commercial items, with its subcontractors or suppliers at any tier requiring the delivery of technical data.

Part 252--Solicitation Provisions and Contract Clauses

(B) Includes the right to grant sublicenses to the extent the Contractor was legally obligated to do so at the time of contract award; and

(C) Is transferable only with the approval of the agency, except when transferred to the successor of that part of the Contractor's business to which the invention pertains.

(ii) The agency—

(A) May revoke or modify the Contractor's domestic license to the extent necessary to achieve expeditious practical application of the subject invention pursuant to an application for an exclusive license submitted in accordance with 37 CFR Part 404 and agency licensing regulations;

(B) Will not revoke the license in that field of use or the geographical areas in which the Contractor has achieved practical application and continues to make the benefits of the invention reasonably accessible to the public; and

(C) May revoke or modify the license in any foreign country to the extent the Contractor, its licensees, or the domestic subsidiaries or affiliates have failed to achieve practical application in that foreign country.

(iii) Before revoking or modifying the license, the agency—

(A) Will furnish the Contractor a written notice of its intention to revoke or modify the license; and

(B) Will allow the Contractor 30 days (or such other time as the funding agency may authorize for good cause shown by the Contractor) after the notice to show cause why the license should not be revoked or modified.

(iv) The Contractor has the right to appeal, in accordance with 37 CFR Part 404 and agency regulations, concerning the licensing of Government-owned inventions, any decision concerning the revocation or modification of the license.

(c) *Contractor's obligations.*

(ii) Include in the disclosure—

(A) The inventor(s) and the contract under which the invention was made;

(B) Sufficient technical detail to convey a clear understanding of the invention; and

the invention and whether a manuscript describing the invention has been submitted for publication and, if so, whether it has been accepted for publication; and

(iii) After submission of the disclosure, promptly notify the Contracting Officer of the acceptance of any manuscript describing the invention for publication and of any on sale or public use.

(2) The Contractor shall elect in writing whether or not to retain ownership of any subject invention by notifying the Contracting Officer at the time of disclosure or within 8 months of disclosure, as to those countries (including the United States) in which the Contractor will retain ownership. However, in any case where publication, on sale, or public use has initiated the 1-year statutory period during which valid patent protection can be obtained in the United States, the agency may shorten the period of election of title to a date that is no more than 60 days prior to the end of the statutory period.

(3) The Contractor shall—

(i) File either a provisional or a nonprovisional patent application on an elected subject invention within 1 year after election, provided that in all cases the application is filed prior to the end of any statutory period wherein valid patent protection can be obtained in the United States after a publication, on sale, or public use;

(ii) File a nonprovisional application within 10 months of the filing of any provisional application; and

(iii) File patent applications in additional countries or international patent offices within either 10 months of the first filed patent application (whether provisional or nonprovisional) or 6 months from the date the Commissioner of Patents grants permission to file foreign patent applications where such filing has been prohibited by a Secrecy Order.

(4) The Contractor may request extensions of time for disclosure, election, or filing under paragraphs (c)(1), (2), and (3) of this clause. The Contracting Officer will normally grant the extension unless there is reason to believe the extension would prejudice the Government's interests.

(d) *Government's rights.*

(1) *Ownership.* The Contractor shall assign to the agency, upon written request, title to any subject invention—

(i) If the Contractor elects not to retain title to a subject invention;

(ii) If the Contractor fails to disclose or elect the subject invention within the times specified in paragraph (c) of this clause and the agency requests title within 60 days after learning of the Contractor's failure to report or elect within the specified times;

(iii) In those countries in which the Contractor fails to file patent applications within the times specified in paragraph (c) of this clause, provided that, if

the Contractor has filed a patent application in a country after the times specified in paragraph (c) of this clause, but prior to its receipt of the written request of the agency, the Contractor shall continue to retain ownership in that country; and

(iv) In any country in which the Contractor decides not to continue the prosecution of any application for, to pay the maintenance fees on, or defend in reexamination or opposition proceeding on, a patent on a subject invention.

(2) *License.* If the Contractor retains ownership of any subject invention, the Government shall have a nonexclusive, nontransferable, irrevocable, paid-up license to practice, or have practiced for or on behalf of the United States, the subject invention throughout the world.

(e) *Contractor action to protect the Government's interest.*

(1) The Contractor shall execute or have executed and promptly deliver to the agency all instruments necessary to—

(i) Establish or confirm the rights the Government has throughout the world in those subject inventions in which the Contractor elects to retain ownership; and

(ii) Assign title to the agency when requested under paragraph (d)(1) of this clause and enable the Government to obtain patent protection for that subject invention in any country.

(2) The Contractor shall—

(i) Require, by written agreement, its employees, other than clerical and nontechnical employees, to—

(A) Disclose each subject invention promptly in writing to personnel identified as responsible for the administration of patent matters, so that the Contractor can comply with the disclosure provisions in paragraph (c) of this clause; and

(ii) Instruct its employees, through employee agreements or other suitable educational programs, as to the importance of reporting inventions in sufficient time to permit the filing of patent applications prior to U.S. or statutory foreign bars; and

(iii) Execute all papers necessary to file patent applications on subject inventions and to establish the Government's rights in the subject inventions.

(3) The Contractor shall notify the Contracting Officer of any decisions not to file a nonprovisional patent application, continue the prosecution of a patent application, pay maintenance fees, or defend in a reexamination or opposition proceeding on a patent, in any country, not less than 30 days before the expiration of the response or filing period required by the relevant patent office.

(4) The Contractor shall include, within the specification of any United States nonprovisional patent application and any patent issuing thereon covering a subject

(ii) Include in these procedures the maintenance of—

(A) Laboratory notebooks or equivalent records and other records as are reasonably necessary to document the conception and/or the first actual reduction to practice of subject inventions; and

(B) Records that show that the procedures for identifying and disclosing the inventions are followed; and

(iii) Upon request, furnish the Contracting Officer a description of these procedures for evaluation and for determination as to their effectiveness.

(ii) Refund any amounts received as royalty charges on the subject inventions in acquisitions for, or on behalf of, the Government; and

(iii) Provide for the refund in any instrument transferring rights in the invention to any party.

(7) The Contractor shall furnish to the Contracting Officer the following:

(ii) A final report, within 3 months after completion of the contracted work, listing all subject inventions or stating that there were no subject inventions, and listing all subcontracts at any tier containing a patent rights clause or stating that there were no subcontracts.

(8)(i) The Contractor shall promptly notify the Contracting Officer in writing upon the award of any subcontract at any tier containing a patent rights clause by identifying—

(A) The subcontractor;

- (D) The dates of award and estimated completion.

(ii) The Contractor shall furnish, upon request, a copy of the subcontract, and no more frequently than annually, a listing of the subcontracts that have been awarded.

(9) In the event of a refusal by a prospective subcontractor to accept one of the clauses specified in paragraph (l)(1) of this clause, the Contractor—

(i) Shall promptly submit a written notice to the Contracting Officer setting forth the subcontractor's reasons for the refusal and other pertinent information that may expedite disposition of the matter; and

(ii) Shall not proceed with that subcontract without the written authorization of the Contracting Officer.

(10) The Contractor shall provide to the Contracting Officer, upon request, the following information for any subject invention for which the Contractor has retained ownership:

(i) Filing date.

(ii) Serial number and title.

(iii) A copy of any patent application (including an English-language version if filed in a language other than English).

provided under paragraph (f)(1) of this clause to persons outside the Government without the Contractor's permission, if the data or information is considered by the Contractor or its licensee or assignee to be "privileged and confidential" (see 5 U.S.C. 552(b)(4)) and is so marked.

(g) *Preference for United States industry.* Notwithstanding any other provision of this clause, the Contractor agrees that neither the Contractor nor any assignee shall grant to any person the exclusive right to use or sell any subject invention in the United States unless the person agrees that any products embodying the subject invention or produced through the use of the subject invention will be manufactured substantially in the United States. However, in individual cases, the agency may waive the requirement for an exclusive license agreement upon a showing by the Contractor or its assignee that—

(1) Reasonable but unsuccessful efforts have been made to grant licenses on similar terms to potential licensees that would be likely to manufacture substantially in the United States; or

(2) Under the circumstances, domestic manufacture is not commercially feasible.

(h) *March-in rights.* The Contractor acknowledges that, with respect to any subject invention in which it has retained ownership, the agency has the right to require licensing pursuant to 35 U.S.C. 203 and 210(c), 37 CFR 401.6, and any supplemental regulations of the agency in effect on the date of contract award.

(i) *Other inventions.* Nothing contained in this clause shall be deemed to grant to the Government any rights with respect to any invention other than a subject invention.

(j) *Examination of records relating to inventions.*

(1) The Contracting Officer or any authorized representative shall, until 3 years after final payment under this contract, have the right to examine any books (including laboratory notebooks), records, and documents of the Contractor relating to the conception or first reduction to practice of inventions in the same field of technology as the work under this contract to determine whether—

(i) Any inventions are subject inventions;

(ii) The Contractor has established procedures required by paragraph (e)(5) of this clause; and

(iii) The Contractor and its inventors have complied with the procedures.

(2) If the Contracting Officer learns of an unreported Contractor invention that the Contracting Officer believes may be a subject invention, the Contractor shall be required to disclose the invention to the agency for a determination of ownership rights.

(3) Any examination of records under this paragraph (j) shall be subject to appropriate conditions to protect the confidentiality of the information involved.

(k) *Withholding of payment (this paragraph does not apply to subcontracts).*

(1) Any time before final payment under this contract, the Contracting Officer may, in the Government's interest, withhold payment until a reserve not exceeding \$50,000 or 5 percent of the amount of the contract, whichever is less, is set aside if, in the Contracting Officer's opinion, the Contractor fails to—

(i) Establish, maintain, and follow effective procedures for identifying and disclosing subject inventions pursuant to paragraph (e)(5) of this clause;

(ii) Disclose any subject invention pursuant to paragraph (c)(1) of this clause;

(iii) Deliver acceptable interim reports pursuant to paragraph (e)(7)(i) of this clause; or

(iv) Provide the information regarding subcontracts pursuant to paragraph (e)(8) of this clause.

(2) The reserve or balance shall be withheld until the Contracting Officer has determined that the Contractor has rectified whatever deficiencies exist and has delivered all reports, disclosures, and other information required by this clause.

(3) The Government will not make final payment under this contract before the Contractor delivers to the Contracting Officer—

(i) All disclosures of subject inventions required by paragraph (c)(1) of this clause;

(ii) An acceptable final report pursuant to paragraph (e)(7)(ii) of this clause; and

(iii) All past due confirmatory instruments.

(4) The Contracting Officer may decrease or increase the sums withheld up to the maximum authorized in paragraph (k)(1) of this clause. No amount shall be withheld under this paragraph while the amount specified by this paragraph is being withheld under other provisions of the contract. The withholding of any amount or the subsequent payment thereof shall not be construed as a waiver of any Government right.

(l) *Subcontracts.*

(1) The Contractor—

(i) Shall include the substance of the Patent Rights—Ownership by the Contractor clause set forth at 52.227-11 of the Federal Acquisition Regulation (FAR), in all subcontracts for experimental, developmental, or research work to be performed by a small business concern or nonprofit organization; and

different patent rights clause is required by FAR 27.303.

(2) For subcontracts at any tier—

(i) The patents rights clause included in the subcontract shall retain all references to the Government and shall provide to the subcontractor all the rights and obligations provided to the Contractor in the clause. The Contractor shall not, as consideration for awarding the subcontract, obtain rights in the subcontractor's subject inventions; and

(ii) The Government, the Contractor, and the subcontractor agree that the mutual obligations of the parties created by this clause constitute a contract between the subcontractor and the Government with respect to those matters covered by this clause. However, nothing in this paragraph is intended to confer any jurisdiction under the Contract Disputes statute in connection with proceedings under paragraph (h) of this clause.

(a) *Definitions.* As used in this clause—

(1) “Aircraft,” unless otherwise provided in the contract Schedule, means—

(i) Aircraft to be delivered to the Government under this contract (either before or after Government acceptance), including complete aircraft and aircraft in the process of being manufactured, disassembled, or reassembled; provided that an engine, portion of a wing or a wing is attached to a fuselage of the aircraft;

(ii) Aircraft, whether in a state of disassembly or reassembly, furnished by the Government to the Contractor under this contract, including all Government property installed, in the process of installation, or temporarily removed; provided that the aircraft and property are not covered by a separate bailment agreement;

(iii) Aircraft furnished by the Contractor under this contract (either before or after Government acceptance); or

(iv) Conventional winged aircraft, as well as helicopters, vertical take-off or landing aircraft, lighter-than-air airships, unmanned aerial vehicles, or other non-conventional aircraft specified in this contract.

(2) “Contractor’s managerial personnel” means the Contractor’s directors, officers, managers, superintendents, or equivalent representatives who have supervision or direction of—

(ii) All, or substantially all, of the Contractor’s operation at any one plant or separate location; or

(iii) A separate and complete major industrial operation.

(3) “Contractor’s premises” means those premises, including subcontractors’ premises, designated in the Schedule or in writing by the Contracting Officer, and any other place the aircraft is moved for safeguarding.

(4) “Flight” means any flight demonstration, flight test, taxi test, or other flight made in the performance of this contract, or for the purpose of safeguarding the aircraft, or previously approved in writing by the Contracting Officer.

(i) For land based aircraft, “flight” begins with the taxi roll from a flight line on the Contractor’s premises and continues until the aircraft has completed the taxi roll in returning to a flight line on the Contractor’s premises.

(ii) For seaplanes, “flight” begins with the launching from a ramp on the Contractor’s premises and continues until the aircraft has completed its landing run and is beached at a ramp on the Contractor’s premises.

(iii) For helicopters, “flight” begins upon engagement of the rotors for the purpose of take-off from the Contractor’s premises and continues until the aircraft has

Part 252-Solicitation Provisions and Contract Clauses

returned to the ground on the Contractor's premises and the rotors are disengaged.

(iv) For vertical take-off or landing aircraft, "flight" begins upon disengagement from any launching platform or device on the Contractor's premises and continues until the aircraft has been engaged to any launching platform or device on the Contractor's premises.

(v) All aircraft off the Contractor's premises shall be considered to be in flight when on the ground or water for reasonable periods of time following emergency landings, landings made in performance of this contract, or landings approved in writing by the Contracting Officer.

(5) "Flight crew member" means the pilot, the co-pilot, and, unless otherwise provided in the Schedule, the flight engineer, navigator, and bombardier-navigator when assigned to their respective crew positions for the purpose of conducting any flight on behalf of the Contractor. (6) "In the open" means located wholly outside of buildings on the Contractor's premises or other places described in the Schedule as being "in the open." Government furnished aircraft shall be considered to be located "in the open" at all times while in the Contractor's possession, care, custody, or control.

(7) "Operation" means operations and tests of the aircraft and its installed equipment, accessories, and power plants, while the aircraft is in the open or in motion. The term does not apply to aircraft on any production line or in flight.

(b) *Combined regulation/instruction.* The Contractor shall be bound by the operating procedures contained in the combined regulation/instruction entitled "Contractor's Flight and Ground Operations" (Air Force Instruction 10-220, Army Regulation 95-20, NAVAIR Instruction 3710.1 (Series), Coast Guard Instruction M13020.3, and Defense Contract Management Agency Instruction 8210.1) in effect on the date of contract award.

(c) ***Government as self-insurer.*** Subject to the conditions in paragraph (d) of this clause, the Government self-insures and assumes the risk of damage to, or loss or destruction of aircraft "in the open," during "operation," and in "flight," except as may be specifically provided in the Schedule as an exception to this clause. The Contractor shall not be liable to the Government for such damage, loss, or destruction beyond the Contractor's share of loss amount under the Government's self-insurance.

(d) ***Conditions for Government's self-insurance.*** The Government's assumption of risk for aircraft in the open shall continue unless the Contracting Officer finds that the Contractor has failed to comply with paragraph (b) of this clause, or that the aircraft is in the open under unreasonable conditions, and the Contractor fails to take prompt corrective action.

Defense Federal Acquisition Regulation Supplement

Part 252-Solicitation Provisions and Contract Clauses

(1) The Contracting Officer, when finding that the Contractor has failed to comply with paragraph (b) of this clause or that the aircraft is in the open under unreasonable conditions, shall notify the Contractor in writing and shall require the Contractor to make corrections within a reasonable time.

(2) Upon receipt of the notice, the Contractor shall promptly correct the cited conditions, regardless of whether there is agreement that the conditions are unreasonable.

(i) If the Contracting Officer later determines that the cited conditions were not unreasonable, an equitable adjustment shall be made in the contract price for any additional costs incurred in correcting the conditions.

(ii) Any dispute as to the unreasonableness of the conditions or the equitable adjustment shall be considered a dispute under the Disputes clause of this contract.

(3) If the Contracting Officer finds that the Contractor failed to act promptly to correct the cited conditions or failed to correct the conditions within a reasonable time, the Contracting Officer may terminate the Government's assumption of risk for any aircraft in the open under the cited conditions. The termination will be effective at 12:01 a.m. on the fifteenth day following the day the written notice is received by the Contractor.

(i) If the Contracting Officer later determines that the Contractor acted promptly to correct the cited conditions or that the time taken by the Contractor was not unreasonable, an equitable adjustment shall be made in the contract price for any additional costs incurred as a result of termination of the Government's assumption of risk.

(ii) Any dispute as to the timeliness of the Contractor's action or the equitable adjustment shall be considered a dispute under the Disputes clause of this contract.

(4) If the Government terminates its assumption of risk pursuant to the terms of this clause—

(i) The Contractor shall thereafter assume the entire risk for damage, loss, or destruction of, the affected aircraft;

(ii) Any costs incurred by the Contractor (including the costs of the Contractor's self-insurance, insurance premiums paid to insure the Contractor's assumption of risk, deductibles associated with such purchased insurance, etc.) to mitigate its assumption of risk are unallowable costs; and

(iii) The liability provisions of the Government Property clause of this contract are not applicable to the affected aircraft.

(5) The Contractor shall promptly notify the Contracting Officer when unreasonable conditions have been corrected.

Defense Federal Acquisition Regulation Supplement

Part 252-Solicitation Provisions and Contract Clauses

(i) If, upon receipt of the Contractor's notice of the correction of the unreasonable conditions, the Government elects to again assume the risk of loss and relieve the Contractor of its liability for damage, loss, or destruction of the aircraft, the Contracting Officer will notify the Contractor of the Contracting Officer's decision to resume the Government's risk of loss.. The Contractor shall be entitled to an equitable adjustment in the contract price for any insurance costs extending from the end of the third working day after the Government's receipt of the Contractor notice of correction until the Contractor is notified that the Government will resume the risk of loss.

(ii) If the Government does not again assume the risk of loss and the unreasonable conditions have been corrected, the Contractor shall be entitled to an equitable adjustment for insurance costs, if any, extending after the third working day after the Government's receipt of the Contractor's notice of correction.

(6) The Government's termination of its assumption of risk of loss does not relieve the Contractor of its obligation to comply with all other provisions of this clause, including the combined regulation/instruction entitled "Contractor's Flight and Ground Operations."

(e) ***Exclusions from the Government's assumption of risk.*** The Government's assumption of risk shall not extend to damage, loss, or destruction of aircraft which—

(1) Results from failure of the Contractor, due to willful misconduct or lack of good faith of any of the Contractor's managerial personnel, to maintain and administer a program for the protection and preservation of aircraft in the open and during operation in accordance with sound industrial practice, including oversight of subcontractor's program.

(2) Is sustained during flight if either the flight or the flight crew members have not been approved in advance of any flight writing by the Government Flight Representative, who has been authorized in accordance with the combined regulation/instruction entitled "Contractor's Flight and Ground Operations";

(3) Occurs in the course of transportation by rail, or by conveyance on public streets, highways, or waterways, except for Government-furnished property;

(4) Is covered by insurance;

(5) Consists of wear and tear; deterioration (including rust and corrosion); freezing; or mechanical, structural, or electrical breakdown or failure, unless these are the result of other loss, damage or destruction covered by this clause. (This exclusion does not apply to Government-furnished property if damage consists of reasonable wear and tear or deterioration, or results from inherent vice, e.g., a known condition or design defect, in the property); or

(6) Is sustained while the aircraft is being worked on and is a direct result of the work unless such damage, loss, or destruction would be covered by insurance which would have been maintained by the Contractor, but for the Government's assumption of risk.

(f) ***Contractor's share of loss and Contractor's deductible under the Government's self-insurance.***

Defense Federal Acquisition Regulation Supplement

Part 252-Solicitation Provisions and Contract Clauses

(1) The Contractor assumes the risk of loss and shall be responsible for the Contractor's share of loss under the Government's self-insurance. That share is the lesser of—

(i) The first \$100,000 of loss or damage to aircraft in the open, during operation, or in flight resulting from each separate event, except for reasonable wear and tear and to the extent the loss or damage is caused by negligence of Government personnel; or

(ii) Twenty percent of the price or estimated cost of this contract.

(2) If the Government elects to require that the aircraft be replaced or restored by the Contractor to its condition immediately prior to the damage, the equitable adjustment in the price authorized by paragraph (j) of this clause shall not include the dollar amount of the risk assumed by the Contractor.

(3) In the event the Government does not elect repair or replacement, the Contractor agrees to credit the contract price or pay the Government, as directed by the Contracting Officer, the lesser of—

(i) \$100,000;

(ii) Twenty percent of the price or estimated cost of this contract; or

(iii) The amount of the loss.

(4) For task order and delivery order contracts, the Contractor's share of the loss shall be the lesser of \$100,000 or twenty percent of the combined total price or total estimated cost of those orders issued to date to which the clause applies.

(5) The costs incurred by the Contractor for its share of the loss and for insuring against that loss are unallowable costs, including but not limited to—

(i) The Contractor's share of loss under the Government's self-insurance;

(ii) The costs of the Contractor's self-insurance;

(iii) The deductible for any Contractor- purchased insurance;

(iv) Insurance premiums paid for Contractor- purchased insurance; and

(v) Costs associated with determining, litigating, and defending against the Contractor's liability.

(g) ***Subcontractor possession or control.*** The Contractor shall not be relieved from liability for damage, loss, or destruction of aircraft while such aircraft is in the possession or control of its subcontractors, except to the extent that the subcontract, with the written approval of the Contracting Officer, provides for relief from each liability. In the absence of approval, the subcontract shall contain provisions requiring the return of aircraft in as good condition as when received, except for reasonable wear

Part 252-Solicitation Provisions and Contract Clauses

and tear or for the utilization of the property in accordance with the provisions of this contract.

(h) ***Contractor's exclusion of insurance costs.*** The Contractor warrants that the contract price does not and will not include, except as may be authorized in this clause, any charge or contingency reserve for insurance covering damage, loss, or destruction of aircraft while in the open, during operation, or in flight when the risk has been assumed by the Government including the Contractor's share of loss in this clause, even if the assumption may be terminated for aircraft in the open.

(i) ***Procedures in the event of loss.*** (1) In the event of damage, loss, or destruction of aircraft in the open, during operation, or in flight, the Contractor shall take all reasonable steps to protect the aircraft from further damage, to separate damaged and undamaged aircraft and to put all aircraft in the best possible order. Except in cases covered by paragraph (f)(2) of this clause, the Contractor shall furnish to the Contracting Officer a statement of—

- (i) The damaged, lost, or destroyed aircraft;
- (ii) The time and origin of the damage, loss, or destruction;
- (iii) All known interests in commingled property of which aircraft are a part; and
- (iv) The insurance, if any, covering the interest in commingled property.

(2) The Contracting Officer will make an equitable adjustment for expenditures made by the Contractor in performing the obligations under this paragraph.

(j) ***Loss prior to delivery.*** (1) If prior to delivery and acceptance by the Government, aircraft is damaged, lost, or destroyed and the Government assumed the risk, the Government shall either—

(i) Require that the aircraft be replaced or restored by the Contractor to the condition immediately prior to the damage, in which event the Contracting Officer will make an equitable adjustment in the contract price and the time for contract performance; or

(ii) Terminate this contract with respect to the aircraft. Notwithstanding the provisions in any other termination clause under this contract, in the event of termination, the Contractor shall be paid the contract price for the aircraft (or, if applicable, any work to be performed on the aircraft) less any amount the Contracting Officer determines—

(A) It would have cost the Contractor to complete the aircraft (or any work to be performed on the aircraft) together with anticipated profit on uncompleted work; and

(B) Would be the value of the damaged aircraft or any salvage retained by the Contractor.

(2) The Contracting Officer shall prescribe the manner of disposition of the

Defense Federal Acquisition Regulation Supplement

Part 252-Solicitation Provisions and Contract Clauses

damaged, lost, or destroyed aircraft, or any parts of the aircraft. If any additional costs of such disposition are incurred by the Contractor, a further equitable adjustment will be made in the amount due the Contractor. Failure of the parties to agree upon termination costs or an equitable adjustment with respect to any aircraft shall be considered a dispute under the Disputes clause.

(k) ***Reimbursement from a third party.*** In the event the Contractor is reimbursed or compensated by a third party for damage, loss, or destruction of aircraft and has also been compensated by the Government, the Contractor shall equitably reimburse the Government. The Contractor shall do nothing to prejudice the Government's right to recover against third parties for damage, loss, or destruction. Upon the request of the Contracting Officer or authorized representative, the Contractor shall at Government expense furnish to the Government all reasonable assistance and cooperation (including the prosecution of suit and the execution of instruments of assignment or subrogation) in obtaining recovery.

(l) ***Government acceptance of liability.*** To the extent the Government has accepted such liability under other provisions of this contract, the Contractor shall not be reimbursed for liability to third persons for loss or damage to property or for death or bodily injury caused by aircraft during flight unless the flight crew members previously have been approved for this flight in writing by the Government Flight Representative, who has been authorized in accordance with the combined regulation entitled "Contractor's Flight and Ground Operations".

(m) ***Subcontracts.*** The Contractor shall incorporate the requirements of this clause, including this paragraph (m), in all subcontracts.

(b) The Contractor is hereby designated as a Direct Contractor under the provisions of Complementary Agreement 5, articles 11, 14, 15, 17, and 18 of the Agreement on Friendship, Defense and Cooperation between the United States Government and the Kingdom of Spain, dated July 2, 1982. The Agreement relates to contracts to be performed in whole or part in Spain, the provisions of which are hereby incorporated into and made a part of this contract by reference.

(c) The Contractor shall apply to the appropriate Spanish authorities for approval of status as a Direct Contractor in order to complete duty-free import of non-Spanish equipment, materials, and supplies represented as necessary for contract performance by the Contracting Officer. Orders for equipment, materials, and supplies placed prior to official notification of such approval shall be at the Contractor's own risk. The Contractor must submit its documentation in sufficient time to permit processing by the appropriate United States and Spanish Government agencies prior to the arrival of the equipment, materials, or supplies in Spain. (e) If the Contractor fails to obtain the required guaranty, the Contractor agrees that the Contracting Officer may withhold a portion of the contract payments in order to establish a fund in the amount set forth in paragraph (g) of this clause. The fund shall be used for the payment of import taxes in the event that the Contractor fails to properly account for, export, or dispose of equipment, materials, or supplies imported on a duty-free basis.

(f) The amount of the bank letter of guaranty or size of the fund required under paragraph (d) or (e) of this clause normally shall be 5 percent of the contract value. However, if the Contractor demonstrates to the Contracting Officer's satisfaction that the amount retained by the United States Government or guaranteed by the bank is excessive, the amount shall be reduced to an amount commensurate with contingent import tax and duty-free liability. This bank guaranty or fund shall not be released to

252.232-7007 Limitation of Government’s Obligation.

As prescribed in [232.705-70](#), use the following clause:

LIMITATION OF GOVERNMENT’S OBLIGATION (APR 2014)

(a) Contract line item(s) *[Contracting Officer insert after negotiations]* is/are incrementally funded. For this/these item(s), the sum of \$ *[Contracting Officer insert after negotiations]* of the total price is presently available for payment and allotted to this contract. An allotment schedule is set forth in paragraph (j) of this clause.

(b) For item(s) identified in paragraph (a) of this clause, the Contractor agrees to perform up to the point at which the total amount payable by the Government, including reimbursement in the event of termination of those item(s) for the Government’s convenience, approximates the total amount currently allotted to the contract. The Contractor is not authorized to continue work on those item(s) beyond that point. The Government will not be obligated in any event to reimburse the Contractor in excess of the amount allotted to the contract for those item(s) regardless of anything to the contrary in the clause entitled “Termination for Convenience of the Government.” As used in this clause, the total amount payable by the Government in the event of termination of applicable contract line item(s) for convenience includes costs, profit, and estimated termination settlement costs for those item(s).

(c) Notwithstanding the dates specified in the allotment schedule in paragraph (j) of this clause, the Contractor will notify the Contracting Officer in writing at least ninety days prior to the date when, in the Contractor’s best judgment, the work will reach the point at which the total amount payable by the Government, including any cost for termination for convenience, will approximate 85 percent of the total amount then allotted to the contract for performance of the applicable item(s). The notification will state (1) the estimated date when that point will be reached and (2) an estimate of

additional funding, if any, needed to continue performance of applicable line items up to the next scheduled date for allotment of funds identified in paragraph (j) of this clause, or to a mutually agreed upon substitute date. The notification will also advise the Contracting Officer of the estimated amount of additional funds that will be required for the timely performance of the item(s) funded pursuant to this clause, for a subsequent period as may be specified in the allotment schedule in paragraph (j) of this clause or otherwise agreed to by the parties. If after such notification additional funds are not allotted by the date identified in the Contractor's notification, or by an agreed substitute date, the Contracting Officer will terminate any item(s) for which additional funds have not been allotted, pursuant to the clause of this contract entitled "Termination for Convenience of the Government."

(d) When additional funds are allotted for continued performance of the contract line item(s) identified in paragraph (a) of this clause, the parties will agree as to the period of contract performance which will be covered by the funds. The provisions of paragraphs (b) through (d) of this clause will apply in like manner to the additional allotted funds and agreed substitute date, and the contract will be modified accordingly.

(e) If, solely by reason of failure of the Government to allot additional funds, by the dates indicated below, in amounts sufficient for timely performance of the contract line item(s) identified in paragraph (a) of this clause, the Contractor incurs additional costs or is delayed in the performance of the work under this contract and if additional funds are allotted, an equitable adjustment will be made in the price or prices (including appropriate target, billing, and ceiling prices where applicable) of the item(s), or in the time of delivery, or both. Failure to agree to any such equitable adjustment hereunder will be a dispute concerning a question of fact within the meaning of the clause entitled "Disputes."

(f) The Government may at any time prior to termination allot additional funds for the performance of the contract line item(s) identified in paragraph (a) of this clause.

(g) The termination provisions of this clause do not limit the rights of the Government under the clause entitled "Default." The provisions of this clause are limited to the work and allotment of funds for the contract line item(s) set forth in paragraph (a) of this clause. This clause no longer applies once the contract is fully funded except with regard to the rights or obligations of the parties concerning equitable adjustments negotiated under paragraphs (d) and (e) of this clause.

(h) Nothing in this clause affects the right of the Government to terminate this contract pursuant to the clause of this contract entitled "Termination for Convenience of the Government."

(i) Nothing in this clause shall be construed as authorization of voluntary services whose acceptance is otherwise prohibited under 31 U.S.C. 1342.

252.234-7001 Notice of Earned Value Management System.

As prescribed in [234.203](#)(1), use the following provision:

NOTICE OF EARNED VALUE MANAGEMENT SYSTEM (APR 2008)

(a) If the offeror submits a proposal in the amount of \$50,000,000 or more—

(1) The offeror shall provide documentation that the Cognizant Federal Agency (CFA) has determined that the proposed Earned Value Management System (EVMS) complies with the EVMS guidelines in the American National Standards Institute/Electronic Industries Alliance Standard 748, Earned Value Management Systems (ANSI/EIA-748) (current version at time of solicitation). The Government reserves the right to perform reviews of the EVMS when deemed necessary to verify compliance.

(2) If the offeror proposes to use a system that has not been determined to be in compliance with the requirements of paragraph (a)(1) of this provision, the offeror shall submit a comprehensive plan for compliance with the guidelines in ANSI/EIA-748.

(i) The plan shall—

(A) Describe the EVMS the offeror intends to use in performance of the contract, and how the proposed EVMS complies with the EVMS guidelines in ANSI/EIA-748;

(B) Distinguish between the offeror's existing management system and modifications proposed to meet the EVMS guidelines;

(C) Describe the management system and its application in terms of the EVMS guidelines;

(D) Describe the proposed procedure for administration of the EVMS guidelines as applied to subcontractors; and

(E) Describe the process the offeror will use to determine subcontractor compliance with ANSI/EIA-748.

(ii) The offeror shall provide information and assistance as required by the Contracting Officer to support review of the plan.

(iii) The offeror's EVMS plan must provide milestones that indicate when the offeror anticipates that the EVMS will be compliant with the guidelines in ANSI/EIA-748.

(b) If the offeror submits a proposal in an amount less than \$50,000,000—

(1) The offeror shall submit a written description of the management procedures it will use and maintain in the performance of any resultant contract to comply with the requirements of the Earned Value Management System clause of the

contract. The description shall include—

(i) A matrix that correlates each guideline in ANSI/EIA-748 (current version at time of solicitation) to the corresponding process in the offeror's written management procedures; and

(ii) The process the offeror will use to determine subcontractor compliance with ANSI/EIA-748.

(2) If the offeror proposes to use an EVMS that has been determined by the CFA to be in compliance with the EVMS guidelines in ANSI/EIA-748, the offeror may submit a copy of the documentation of such determination instead of the written description required by paragraph (b)(1) of this provision.

(c) The offeror shall identify the subcontractors (or the subcontracted effort if subcontractors have not been selected) to whom the EVMS requirements will apply. As prescribed in [234.203](#)(2), use the following clause:

EARNED VALUE MANAGEMENT SYSTEM (MAY 2011)

(a) *Definitions.* As used in this clause—

“Acceptable earned value management system” means an earned value management system that generally complies with system criteria in paragraph (b) of this clause.

“Earned value management system” means an earned value management system that complies with the earned value management system guidelines in the ANSI/EIA-748.

“Significant deficiency” means a shortcoming in the system that materially affects the ability of officials of the Department of Defense to rely upon information produced by the system that is needed for management purposes.

(b) *System criteria.* In the performance of this contract, the Contractor shall use—

(1) An Earned Value Management System (EVMS) that complies with the EVMS guidelines in the American National Standards Institute/Electronic Industries Alliance Standard 748, Earned Value Management Systems (ANSI/EIA-748); and

(2) Management procedures that provide for generation of timely, reliable, and verifiable information for the Contract Performance Report (CPR) and the Integrated Master Schedule (IMS) required by the CPR and IMS data items of this contract.

(c) If this contract has a value of \$50 million or more, the Contractor shall use an

EVMS that has been determined to be acceptable by the Cognizant Federal Agency (CFA). If, at the time of award, the Contractor's EVMS has not been determined by the CFA to be in compliance with the EVMS guidelines as stated in paragraph (b)(1) of this clause, the Contractor shall apply its current system to the contract and shall take necessary actions to meet the milestones in the Contractor's EVMS plan.

(d) If this contract has a value of less than \$50 million, the Government will not make a formal determination that the Contractor's EVMS complies with the EVMS guidelines in ANSI/EIA-748 with respect to the contract. The use of the Contractor's EVMS for this contract does not imply a Government determination of the Contractor's compliance with the EVMS guidelines in ANSI/EIA-748 for application to future contracts. The Government will allow the use of a Contractor's EVMS that has been formally reviewed and determined by the CFA to be in compliance with the EVMS guidelines in ANSI/EIA-748.

(e) The Contractor shall submit notification of any proposed substantive changes to the EVMS procedures and the impact of those changes to the CFA. If this contract has a value of \$50 million or more, unless a waiver is granted by the CFA, any EVMS changes proposed by the Contractor require approval of the CFA prior to implementation. The CFA will advise the Contractor of the acceptability of such changes as soon as practicable (generally within 30 calendar days) after receipt of the Contractor's notice of proposed changes. If the CFA waives the advance approval requirements, the Contractor shall disclose EVMS changes to the CFA at least 14 calendar days prior to the effective date of implementation.

(f) The Government will schedule integrated baseline reviews as early as practicable, and the review process will be conducted not later than 180 calendar days after—

- (1) Contract award;
- (2) The exercise of significant contract options; and
- (3) The incorporation of major modifications.

During such reviews, the Government and the Contractor will jointly assess the Contractor's baseline to be used for performance measurement to ensure complete coverage of the statement of work, logical scheduling of the work activities, adequate resourcing, and identification of inherent risks.

(g) The Contractor shall provide access to all pertinent records and data requested by the Contracting Officer or duly authorized representative as necessary to permit Government surveillance to ensure that the EVMS complies, and continues to comply, with the performance criteria referenced in paragraph (b) of this clause.

(h) When indicated by contract performance, the Contractor shall submit a request for approval to initiate an over-target baseline or over-target schedule to the Contracting Officer. The request shall include a top-level projection of cost and/or schedule growth, a determination of whether or not performance variances will be retained, and a schedule of implementation for the rebaselining. The Government will acknowledge receipt of the request in a timely manner (generally within 30 calendar days).

(i) *Significant deficiencies.* (1) The Contracting Officer will provide an initial determination to the Contractor, in writing, of any significant deficiencies. The initial determination will describe the deficiency in sufficient detail to allow the Contractor to understand the deficiency.

(2) The Contractor shall respond within 30 days to a written initial determination from the Contracting Officer that identifies significant deficiencies in the Contractor's EVMS. If the Contractor disagrees with the initial determination, the Contractor shall state, in writing, its rationale for disagreeing.

(3) The Contracting Officer will evaluate the Contractor's response and notify the Contractor, in writing, of the Contracting Officer's final determination concerning—

(i) Remaining significant deficiencies;

(ii) The adequacy of any proposed or completed corrective action;

(iii) System noncompliance, when the Contractor's existing EVMS fails to comply with the earned value management system guidelines in the ANSI/EIA-748; and

(End of clause)

252.236-7003 Payment for Mobilization and Preparatory Work.

As prescribed in [236.570\(b\)\(2\)](#), use the following clause:

PAYMENT FOR MOBILIZATION AND PREPARATORY WORK (JAN 1997)

(a) The Government will make payment to the Contractor under the procedures in this clause for mobilization and preparatory work under item no. _____.

(b) Payments will be made for actual payments by the Contractor on work preparatory to commencing actual work on the construction items for which payment is provided under the terms of this contract, as follows—

(1) For construction plant and equipment exceeding \$25,000 in value per unit (as appraised by the Contracting Officer at the work site) acquired for the execution of the work;

(c) Requests for payment must include—

(1) An account of the Contractor's actual expenditures;

Part 252—Solicitation Provisions and Contract Clauses

(ii) Agreeing that the construction plant, equipment, and material will not be removed from the site without the written permission of the Contracting Officer; and

(iii) Agreeing that structures and facilities prepared or erected for the prosecution of the contract work will be maintained and not dismantled prior to the completion and acceptance of the entire work, without the written permission of the Contracting Officer.

(d) Upon receiving a request for payment, the Government will make payment, less any prescribed retained percentage, if—

(1) The Contracting Officer finds the—

(i) Construction plant, material, equipment, and the mobilization and preparatory work performed are suitable and necessary to the efficient prosecution of the contract; and

(ii) Preparatory work has been done with proper economy and efficiency.

(2) Payments for construction plant, equipment, material, and structures and facilities prepared or erected for prosecution of the contract work do not exceed—

(i) The Contractor's cost for the work performed less the estimated value upon completion of the contract; and

(ii) 100 percent of the cost to the contractor of any items having no appreciable salvage value; and

(iii) 75 percent of the cost to the contractor of items which do have an appreciable salvage value.

(e)(1) Payments will continue to be made for item no. _____, and all payments will be deducted from the contract price for this item, until the total deductions reduce this item to zero, after which no further payments will be made under this item.

(2) If the total of payments so made does not reduce this item to zero, the balance will be paid to the Contractor in the final payment under the contract.

(3) The retained percentage will be paid in accordance with the Payments to Contractor clause of this contract.

(f) The Contracting Officer shall determine the value and suitability of the construction plant, equipment, materials, structures and facilities. The Contracting Officer's determinations are not subject to appeal.

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(a) The Government will pay all costs for the mobilization and demobilization of all of the Contractor's plant and equipment at the contract lump sum price for this item.

(1) _____ percent of the lump sum price upon completion of the contractor's mobilization at the work site.

(2) The remaining _____ percent upon completion of demobilization.

(b) The Contracting Officer may require the Contractor to furnish cost data to justify this portion of the bid if the Contracting Officer believes that the percentages in paragraphs (a)(1) and (2) of this clause do not bear a reasonable relation to the cost of the work in this contract.

(1) Failure to justify such price to the satisfaction of the Contracting Officer will result in payment, as determined by the Contracting Officer, of—

(i) Actual mobilization costs at completion of mobilization;

(ii) Actual demobilization costs at completion of demobilization; and

(iii) The remainder of this item in the final payment under this contract.

(2) The Contracting Officer's determination of the actual costs in paragraph (b)(1) of this clause is not subject to appeal.

252.236-7005 Airfield Safety Precautions.

As prescribed in [236.570\(b\)\(3\)](#), use the following clause. At some airfields, the width of the primary surface is 1,500 feet (750 feet on each side of the runway centerline). In such instances, substitute the proper width in the clause.

AIRFIELD SAFETY PRECAUTIONS (DEC 1991)

(a) *Definitions.* As used in this clause—

(1) “Landing areas” means—

(i) The primary surfaces, comprising the surface of the runway, runway shoulders, and lateral safety zones. The length of each primary surface is the same as the runway length. The width of each primary surface is 2,000 feet (1,000 feet on each side of the runway centerline);

(ii) The “clear zone” beyond the ends of each runway, i.e., the extension of the primary surface for a distance of 1,000 feet beyond each end of each runway;

(iii) All taxiways, plus the lateral clearance zones along each side for the length of the taxiways (the outer edge of each lateral clearance zone is laterally 250 feet from the far or opposite edge of the taxiway, e.g., a 75-foot-wide taxiway would have a combined width of taxiway and lateral clearance zones of 425 feet); and

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(iv) All aircraft parking aprons, plus the area 125 feet in width extending beyond each edge all around the aprons.

(2) “Safety precaution areas” means those portions of approach-departure clearance zones and transitional zones where placement of objects incident to contract performance might result in vertical projections at or above the approach-departure clearance, or the transitional surface.

(i) The “approach-departure clearance surface” is an extension of the primary surface and the clear zone at each end of each runway, for a distance of 50,000 feet, first along an inclined (glide angle) and then along a horizontal plane, both flaring symmetrically about the runway centerline extended.

(A) The inclined plane (glide angle) begins in the clear zone 200 feet past the end of the runway (and primary surface) at the same elevation as the end of the runway. It continues upward at a slope of 50:1 (1 foot vertically for each 50 feet horizontally) to an elevation of 500 feet above the established airfield elevation. At that point the plane becomes horizontal, continuing at that same uniform elevation to a point 50,000 feet longitudinally from the beginning of the inclined plane (glide angle) and ending there.

(B) The width of the surface at the beginning of the inclined plane (glide angle) is the same as the width of the clear zone. It then flares uniformly, reaching the maximum width of 16,000 feet at the end.

(ii) The “approach-departure clearance zone” is the ground area under the approach-departure clearance surface.

(iii) The “transitional surface” is a sideways extension of all primary surfaces, clear zones, and approach-departure clearance surfaces along inclined planes.

(A) The inclined plane in each case begins at the edge of the surface.

(B) The slope of the incline plane is 7:1 (1 foot vertically for each 7 feet horizontally). It continues to the point of intersection with the—

(1) Inner horizontal surface (which is the horizontal plane 150 feet above the established airfield elevation); or

(2) Outer horizontal surface (which is the horizontal plane 500 feet above the established airfield elevation), whichever is applicable.

(iv) The “transitional zone” is the ground area under the transitional surface. (It adjoins the primary surface, clear zone, and approach-departure clearance zone.)

(b) *General.*

(1) The Contractor shall comply with the requirements of this clause while—

(i) Operating all ground equipment (mobile or stationary);

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(ii) Placing all materials; and

(iii) Performing all work, upon and around all airfields.

(2) The requirements of this clause are in addition to any other safety requirements of this contract.

(c) The Contractor shall—

(1) Report to the Contracting Officer before initiating any work;

(2) Notify the Contracting Officer of proposed changes to locations and operations;

(3) Not permit either its equipment or personnel to use any runway for purposes other than aircraft operation without permission of the Contracting Officer, unless the runway is—

(i) Closed by order of the Contracting Officer; and

(ii) Marked as provided in paragraph (d)(2) of this clause;

(4) Keep all paved surfaces, such as runways, taxiways, and hardstands, clean at all times and, specifically, free from small stones which might damage aircraft propellers or jet aircraft;

(5) Operate mobile equipment according to the safety provisions of this clause, while actually performing work on the airfield. At all other times, the Contractor shall remove all mobile equipment to locations—

(i) Approved by the Contracting Officer;

(ii) At a distance of at least 750 feet from the runway centerline, plus any additional distance; and

(iii) Necessary to ensure compliance with the other provisions of this clause; and

(6) Not open a trench unless material is on hand and ready for placing in the trench. As soon as practicable after material has been placed and work approved, the Contractor shall backfill and compact trenches as required by the contract. Meanwhile, all hazardous conditions shall be marked and lighted in accordance with the other provisions of this clause.

(d) *Landing areas.* The Contractor shall—

(1) Place nothing upon the landing areas without the authorization of the Contracting Officer;

(2) Outline those landing areas hazardous to aircraft, using (unless otherwise authorized by the Contracting Officer) red flags by day, and electric, battery-operated low-intensity red flasher lights by night;

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(3) Obtain, at an airfield where flying is controlled, additional permission from the control tower operator every time before entering any landing area, unless the landing area is marked as hazardous in accordance with paragraph (d)(2) of this clause;

(4) Identify all vehicles it operates in landing areas by means of a flag on a staff attached to, and flying above, the vehicle. The flag shall be three feet square, and consist of a checkered pattern of international orange and white squares of 1 foot on each side (except that the flag may vary up to ten percent from each of these dimensions);

(5) Mark all other equipment and materials in the landing areas, using the same marking devices as in paragraph (d)(2) of this clause; and

(6) Perform work so as to leave that portion of the landing area which is available to aircraft free from hazards, holes, piles of material, and projecting shoulders that might damage an airplane tire.

(e) *Safety precaution areas.* The Contractor shall—

(1) Place nothing upon the safety precaution areas without authorization of the Contracting Officer;

(2) Mark all equipment and materials in safety precaution areas, using (unless otherwise authorized by the Contracting Officer) red flags by day, and electric, battery-operated, low-intensity red flasher lights by night; and

(3) Provide all objects placed in safety precaution areas with a red light or red lantern at night, if the objects project above the approach-departure clearance surface or above the transitional surface.

(End of clause)

252.236-7006 Cost Limitation.

As prescribed in [236.570\(b\)\(4\)](#), use the following provision:

COST LIMITATION (JAN 1997)

(a) Certain items in this solicitation are subject to statutory cost limitations. The limitations are stated in the Schedule.

(b) An offer which does not state separate prices for the items identified in the Schedule as subject to a cost limitation may be considered nonresponsive.

(c) Prices stated in offers for items subject to cost limitations shall include an appropriate apportionment of all costs, direct and indirect, overhead, and profit.

(d) Offers may be rejected which—

(1) Are materially unbalanced for the purpose of bringing items within cost limitations; or

Defense Federal Acquisition Regulation Supplement

Part 252—Solicitation Provisions and Contract Clauses

(2) Exceed the cost limitations, unless the limitations have been waived by the Government prior to award.

(End of provision)

252.236-7007 Additive or Deductive Items.

As prescribed in [236.570\(b\)\(5\)](#), use the following provision:

ADDITIVE OR DEDUCTIVE ITEMS (DEC 1991)

(a) The low offeror and the items to be awarded shall be determined as follows—

(1) Prior to the opening of bids, the Government will determine the amount of funds available for the project.

(2) The low offeror shall be the Offeror that—

(i) Is otherwise eligible for award; and

(ii) Offers the lowest aggregate amount for the first or base bid item, plus or minus (in the order stated in the list of priorities in the bid schedule) those additive or deductive items that provide the most features within the funds determined available.

(3) The Contracting Officer shall evaluate all bids on the basis of the same additive or deductive items.

(i) If adding another item from the bid schedule list of priorities would make the award exceed the available funds for all offerors, the Contracting Officer will skip that item and go to the next item from the bid schedule of priorities; and

(ii) Add that next item if an award may be made that includes that item and is within the available funds.

(b) The Contracting Officer will use the list of priorities in the bid schedule only to determine the low offeror. After determining the low offeror, an award may be made on any combination of items if—

(1) It is in the best interest of the Government;

(2) Funds are available at the time of award; and

(3) The low offeror's price for the combination to be awarded is less than the price offered by any other responsive, responsible offeror.

(c) *Example.* The amount available is \$100,000. Offeror A's base bid and four additives (in the order stated in the list of priorities in the bid Schedule) are \$85,000, \$10,000, \$8,000, \$6,000, and \$4,000. Offeror B's base bid and four additives are \$80,000, \$16,000, \$9,000, \$7,000, and \$4,000. Offeror A is the low offeror. The aggregate amount of offeror A's bid for purposes of award would be \$99,000, which includes a base bid plus the first and fourth additives. The second and third additives were skipped because each of them would cause the aggregate bid to exceed \$100,000.

(End of clause)

252.239-7007 Cancellation or Termination of Orders.

As prescribed in [239.7411](#)(a), use the following clause:

CANCELLATION OR TERMINATION OF ORDERS (NOV 2005)

(a) If the Government cancels any of the services ordered under this agreement/contract, before the services are made available to the Government, or terminates any of these services after they are made available to the Government, the Government shall reimburse the Contractor for the actual nonrecoverable costs the Contractor has reasonably incurred in providing facilities and equipment for which the Contractor has no foreseeable reuse.

(b) The amount of the Government's liability upon cancellation or termination of any of the services ordered under this agreement/contract will be determined under applicable tariffs governing cancellation and termination charges which—

(1) Are filed by the Contractor with a governmental regulatory body, as defined in the Rates, Charges, and Services clause of this agreement/contract;

(2) Are in effect on the date of termination; and

(3) Provide specific cancellation or termination charges for the facilities and equipment involved or show how to determine the charges.

(c) The amount of the Government's liability upon cancellation or termination of any of the services ordered under this agreement/contract, which are not subject to a governmental regulatory body, will be determined under a mutually agreed schedule in the communication services authorization (CSA) or other contractual document.

(d) If no applicable tariffs are in effect on the date of cancellation or termination or set forth in the applicable CSA or other contractual document, the Government's liability will be determined under the following settlement procedures—

(1) The Contractor agrees to provide the Contracting Officer, in such reasonable detail as the Contracting Officer may require, inventory schedules covering all items of property or facilities in the Contractor's possession, the cost of which is included in the Basic Cancellation or Termination Liability for which the Contractor has no foreseeable reuse.

(2) The Contractor shall use its best efforts to sell property or facilities when the Contractor has no foreseeable reuse or when the Government has not exercised its option to take title under the Title to Telecommunications Facilities and Equipment clause of this agreement/contract. The Contractor shall apply any proceeds of the sale

Part 252—Solicitation Provisions and Contract Clauses

to reduce any payments by the Government to the Contractor under a cancellation or termination settlement.

(3) The Contractor shall record actual nonrecoverable costs under established accounting procedures prescribed by the cognizant governmental regulatory authority or, if no such procedures have been prescribed, under generally accepted accounting procedures applicable to the provision of telecommunication services for public use.

(4) The actual nonrecoverable costs are the installed costs of the facilities and equipment, less cost of reusable materials, and less net salvage value. Installed costs shall include the actual cost of equipment and materials specifically provided or used, plus the actual cost of installing (including engineering, labor, supervision, transportation, rights-of-way, and any other items which are chargeable to the capital accounts of the Contractor) less any costs the Government may have directly reimbursed the Contractor under the Special Construction and Equipment Charges clause of this agreement/contract. Deduct from the Contractor's installed cost, the net salvage value (salvage value less cost of removal). In determining net salvage value, give consideration to foreseeable reuse of the facilities and equipment by the Contractor. Make allowance for the cost of dismantling, removal, reconditioning, and disposal of the facilities and equipment when necessary either to the sale of facilities or their reuse by the Contractor in another location.

(5) The Basic Cancellation Liability is defined as the actual nonrecoverable cost which the Government shall reimburse the Contractor at the time services are cancelled. The Basic Termination Liability is defined as the nonrecoverable cost amortized in equal monthly increments throughout the liability period. Upon termination of services, the Government shall reimburse the Contractor for the nonrecoverable cost less such costs amortized to the date services are terminated. Establish the liability period as mutually agreed to but not to exceed ten years.

(6) When the Basic Cancellation or Termination Liability established by the CSA or other contractual document is based on estimated costs, the Contractor agrees to settle on the basis of actual cost at the time of termination or cancellation.

(7) The Contractor agrees that, if after settlement but within the termination liability period of the services, should the Contractor make reuse of equipment or facilities which were treated as nonreusable or nonsalvageable in the settlement, the Contractor shall reimburse the Government for the value of the equipment or facilities.

(8) The Contractor agrees to exclude—

(i) Any costs which are not included in determining cancellation and termination charges under the Contractor's standard practices or procedures; and

(ii) Charges not ordinarily made by the Contractor for similar facilities or equipment, furnished under similar circumstances.

(e) The Government may, under such terms and conditions as it may prescribe, make partial payments and payments on account against costs incurred by the Contractor in connection with the cancelled or terminated portion of this agreement/contract. The Government may make these payments if in the opinion of the Contracting Officer the total of the payments is within the amount the Contractor is entitled. If the total of the payments is in excess of the amount finally agreed or

(f) Failure to agree shall be a dispute concerning a question of fact within the meaning of the Disputes clause.

(b) If at any time the Government requires that telecommunications facilities or equipment be relocated within the Contractor's service area, the Government shall have the option of paying the costs of relocating the facilities or equipment in lieu of paying any termination or cancellation charge under the Cancellation or Termination of Orders—Common Carriers clause of this agreement/contract. The Basic Termination Liability applicable to the facilities or equipment in their former location shall continue to apply to the facilities and equipment in their new location. Monthly rental charges shall continue to be paid during the period.

(c) When there is another requirement or foreseeable reuse in place of cancelled or terminated facilities or equipment, no charge shall apply and the Basic Cancellation or Termination Liability shall be appropriately reduced. When feasible, the Contractor shall promptly reuse discontinued channels or facilities, including equipment for which the Government is obligated to pay a minimum service charge.

252.242-7004 Material Management and Accounting System.

As prescribed in [242.7204](#), use the following clause:

MATERIAL MANAGEMENT AND ACCOUNTING SYSTEM (MAY 2011)

(a) *Definitions.* As used in this clause—

(1) “Material management and accounting system (MMAS)” means the Contractor's system or systems for planning, controlling, and accounting for the acquisition, use, issuing, and disposition of material. Material management and accounting systems may be manual or automated. They may be stand-alone systems or they may be integrated with planning, engineering, estimating, purchasing, inventory, accounting, or other systems.

(2) “Valid time-phased requirements” means material that is—

(i) Needed to fulfill the production plan, including reasonable quantities for scrap, shrinkage, yield, etc.; and

(ii) Charged/billed to contracts or other cost objectives in a manner consistent with the need to fulfill the production plan.

(3) “Contractor” means a business unit as defined in section 31.001 of the Federal Acquisition Regulation (FAR).

(4) “Acceptable material management and accounting system” means a MMAS that generally complies with the system criteria in paragraph (d) of this clause.

(5) “Significant deficiency” means a shortcoming in the system that materially affects the ability of officials of the Department of Defense to rely upon information produced by the system that is needed for management purposes.

(b) *General.* The Contractor shall—

(1) Maintain an MMAS that—

(i) Reasonably forecasts material requirements;

(ii) Ensures that costs of purchased and fabricated material charged or allocated to a contract are based on valid time-phased requirements; and

Defense Federal Acquisition Regulation Supplement

Part 252-Solicitation Provisions and Contract Clauses

(iii) Maintains a consistent, equitable, and unbiased logic for costing of material transactions; and

(2) Assess its MMAS and take reasonable action to comply with the MMAS standards in paragraph (e) of this clause.

(c) *Disclosure and maintenance requirements.* The Contractor shall—

(1) Have policies, procedures, and operating instructions that adequately describe its MMAS;

(2) Provide to the Administrative Contracting Officer (ACO), upon request, the results of internal reviews that it has conducted to ensure compliance with established MMAS policies, procedures, and operating instructions; and

(3) Disclose significant changes in its MMAS to the ACO at least 30 days prior to implementation.

(d) *System criteria.* The MMAS shall have adequate internal controls to ensure system and data integrity, and shall—

(1) Have an adequate system description including policies, procedures, and operating instructions that comply with the FAR and Defense FAR Supplement;

(2) Ensure that costs of purchased and fabricated material charged or allocated to a contract are based on valid time-phased requirements as impacted by minimum/economic order quantity restrictions.

(i) A 98 percent bill of material accuracy and a 95 percent master production schedule accuracy are desirable as a goal in order to ensure that requirements are both valid and appropriately time-phased.

(ii) If systems have accuracy levels below these, the Contractor shall provide adequate evidence that—

(A) There is no material harm to the Government due to lower accuracy levels; and

(B) The cost to meet the accuracy goals is excessive in relation to the impact on the Government;

(3) Provide a mechanism to identify, report, and resolve system control weaknesses and manual override. Systems should identify operational exceptions, such as excess/residual inventory, as soon as known;

(4) Provide audit trails and maintain records (manual and those in machine-readable form) necessary to evaluate system logic and to verify through transaction testing that the system is operating as desired;

(5) Establish and maintain adequate levels of record accuracy, and include reconciliation of recorded inventory quantities to physical inventory by part number on

Defense Federal Acquisition Regulation Supplement

Part 252-Solicitation Provisions and Contract Clauses

a periodic basis. A 95 percent accuracy level is desirable. If systems have an accuracy level below 95 percent, the Contractor shall provide adequate evidence that—

(i) There is no material harm to the Government due to lower accuracy levels; and

(ii) The cost to meet the accuracy goal is excessive in relation to the impact on the Government;

(6) Provide detailed descriptions of circumstances that will result in manual or system generated transfers of parts;

(7) Maintain a consistent, equitable, and unbiased logic for costing of material transactions as follows:

(i) The Contractor shall maintain and disclose written policies describing the transfer methodology and the loan/pay-back technique.

(ii) The costing methodology may be standard or actual cost, or any of the inventory costing methods in 48 CFR 9904.411-50(b). The Contractor shall maintain consistency across all contract and customer types, and from accounting period to accounting period for initial charging and transfer charging.

(iii) The system should transfer parts and associated costs within the same billing period. In the few instances where this may not be appropriate, the Contractor may accomplish the material transaction using a loan/pay-back technique. The “loan/pay-back technique” means that the physical part is moved temporarily from the contract, but the cost of the part remains on the contract. The procedures for the loan/pay-back technique must be approved by the ACO. When the technique is used, the Contractor shall have controls to ensure—

(A) Parts are paid back expeditiously;

(B) Procedures and controls are in place to correct any overbilling that might occur;

(C) Monthly, at a minimum, identification of the borrowing contract and the date the part was borrowed; and

(D) The cost of the replacement part is charged to the borrowing contract;

(8) Where allocations from common inventory accounts are used, have controls (in addition to those in paragraphs (e)(2) and (7) of this clause) to ensure that—

(i) Reallocations and any credit due are processed no less frequently than the routine billing cycle;

(ii) Inventories retained for requirements that are not under contract are not allocated to contracts; and

(iii) Algorithms are maintained based on valid and current data;

Defense Federal Acquisition Regulation Supplement

Part 252-Solicitation Provisions and Contract Clauses

(9) Have adequate controls to ensure that physically commingled inventories that may include material for which costs are charged or allocated to fixed-price, cost-reimbursement, and commercial contracts do not compromise requirements of any of the standards in paragraphs (e)(1) through (8) of this clause. Government-furnished material shall not be—

- (i) Physically commingled with other material; or
- (ii) Used on commercial work; and

(10) Be subjected to periodic internal reviews to ensure compliance with established policies and procedures.

(e) *Significant deficiencies.* (1) The Contracting Officer will provide an initial determination to the Contractor, in writing, of any significant deficiencies. The initial determination will describe the deficiency in sufficient detail to allow the Contractor to understand the deficiency.

(2) The Contractor shall respond within 30 days to a written initial determination from the Contracting Officer that identifies significant deficiencies in the Contractor's MMAS. If the Contractor disagrees with the initial determination, the Contractor shall state, in writing, its rationale for disagreeing.

(3) The Contracting Officer will evaluate the Contractor's response and notify the Contractor, in writing, of the Contracting Officer's final determination concerning—

- (i) Remaining significant deficiencies;
- (ii) The adequacy of any proposed or completed corrective action; and

(iii) System disapproval if the Contracting Officer determines that one or more significant deficiencies remain.

(f) If the Contractor receives the Contracting Officer's final determination of significant deficiencies, the Contractor shall, within 45 days of receipt of the final determination, either correct the significant deficiencies or submit an acceptable corrective action plan showing milestones and actions to eliminate the significant deficiencies.

(g) *Withholding payments.* If the Contracting Officer makes a final determination to disapprove the Contractor's MMAS, and the contract includes the clause at [252.242-7005](#), Contractor Business Systems, the Contracting Officer will withhold payments in accordance with that clause.

(End of clause)

252.242-7005 Contractor Business Systems.

As prescribed in [242.7001](#), use the following clause:

CONTRACTOR BUSINESS SYSTEMS (FEB 2012)

Defense Federal Acquisition Regulation Supplement

Part 252-Solicitation Provisions and Contract Clauses

(a) This clause only applies to covered contracts that are subject to the Cost Accounting Standards under 41 U.S.C. chapter 15, as implemented in regulations found at 48 CFR 9903.201-1 (see the FAR Appendix).

(b) *Definitions.* As used in this clause—

“Acceptable contractor business systems” means contractor business systems that comply with the terms and conditions of the applicable business system clauses listed in the definition of “contractor business systems” in this clause.

“Contractor business systems” means—

(1) Accounting system, if this contract includes the clause at [252.242-7006](#), Accounting System Administration;

(2) Earned value management system, if this contract includes the clause at [252.234-7002](#), Earned Value Management System;

(3) Estimating system, if this contract includes the clause at [252.215-7002](#), Cost Estimating System Requirements;

(4) Material management and accounting system, if this contract includes the clause at [252.242-7004](#), Material Management and Accounting System;

(5) Property management system, if this contract includes the clause at [252.245-7003](#), Contractor Property Management System Administration; and

“Significant deficiency,” in the case of a contractor business system, means a shortcoming in the system that materially affects the ability of officials of the Department of Defense to rely upon information produced by the system that is needed for management purposes.

(c) *General.* The Contractor shall establish and maintain acceptable business systems in accordance with the terms and conditions of this contract.

(d) *Significant deficiencies.* (1) The Contractor shall respond, in writing, within 30 days to an initial determination that there are one or more significant deficiencies in one or more of the Contractor’s business systems.

(2) The Contracting Officer will evaluate the Contractor's response and notify the Contractor, in writing, of the final determination as to whether the Contractor’s business system contains significant deficiencies. If the Contracting Officer determines that the Contractor’s business system contains significant deficiencies, the final determination will include a notice to withhold payments.

(e) *Withholding payments.* (1) If the Contracting Officer issues the final determination with a notice to withhold payments for significant deficiencies in a

contractor business system required under this contract, the Contracting Officer will withhold five percent of amounts due from progress payments and performance-based payments, and direct the Contractor, in writing, to withhold five percent from its billings on interim cost vouchers on cost-reimbursement, labor-hour, and time-and-materials contracts until the Contracting Officer has determined that the Contractor has corrected all significant deficiencies as directed by the Contracting Officer's final determination. The Contractor shall, within 45 days of receipt of the notice, either correct the deficiencies or submit an acceptable corrective action plan showing milestones and actions to eliminate the deficiencies.

(2) If the Contractor submits an acceptable corrective action plan within 45 days of receipt of a notice of the Contracting Officer's intent to withhold payments, and the Contracting Officer, in consultation with the auditor or functional specialist, determines that the Contractor is effectively implementing such plan, the Contracting Officer will reduce withholding directly related to the significant deficiencies covered under the corrective action plan, to two percent from progress payments and performance-based payments, and direct the Contractor, in writing, to reduce the percentage withheld on interim cost vouchers to two percent until the Contracting Officer determines the Contractor has corrected all significant deficiencies as directed by the Contracting Officer's final determination. However, if at any time, the Contracting Officer determines that the Contractor has failed to follow the accepted corrective action plan, the Contracting Officer will increase withholding from progress payments and performance-based payments, and direct the Contractor, in writing, to increase the percentage withheld on interim cost vouchers to the percentage initially withheld, until the Contracting Officer determines that the Contractor has corrected all significant deficiencies as directed by the Contracting Officer's final determination.

(ii) If this contract contains pre-existing withholds, and the application of any subsequent payment withholds will cause withholding under this clause to exceed the payment withhold percentage limits in paragraph (e)(3)(i) of this clause, the Contracting Officer will reduce the payment withhold percentage in the final determination to an amount that will not exceed the payment withhold percentage limits.

(4) For the purpose of this clause, payment means any of the following payments authorized under this contract:

(iii) Performance-based payments.

(5) Payment withholding shall not apply to payments on fixed-price line items where performance is complete and the items were accepted by the Government.

(6) The withholding of any amount or subsequent payment to the Contractor shall not be construed as a waiver of any rights or remedies the Government has under this contract.

(7) Notwithstanding the provisions of any clause in this contract providing for interim, partial, or other payment withholding on any basis, the Contracting Officer may withhold payment in accordance with the provisions of this clause.

(8) The payment withholding authorized in this clause is not subject to the interest-penalty provisions of the Prompt Payment Act.

(f) *Correction of deficiencies.* (1) The Contractor shall notify the Contracting Officer, in writing, when the Contractor has corrected the business system's deficiencies.

(2) Once the Contractor has notified the Contracting Officer that all deficiencies have been corrected, the Contracting Officer will take one of the following actions:

(i) If the Contracting Officer determines that the Contractor has corrected all significant deficiencies as directed by the Contracting Officer's final determination, the Contracting Officer will, as appropriate, discontinue the withholding of progress payments and performance-based payments, and direct the Contractor, in writing, to discontinue the payment withholding from billings on interim cost vouchers under this contract associated with the Contracting Officer's final determination, and authorize the Contractor to bill for any monies previously withheld that are not also being withheld due to other significant deficiencies. Any payment withholding under this contract due to other significant deficiencies, will remain in effect until the Contracting Officer determines that those significant deficiencies are corrected.

(ii) If the Contracting Officer determines that the Contractor still has significant deficiencies, the Contracting Officer will continue the withholding of progress payments and performance-based payments, and the Contractor shall continue withholding amounts from its billings on interim cost vouchers in accordance with paragraph (e) of this clause, and not bill for any monies previously withheld.

(iii) If the Contracting Officer determines, based on the evidence submitted by the Contractor, that there is a reasonable expectation that the corrective actions have been implemented and are expected to correct the significant deficiencies, the

(iv) If, within 90 days of receipt of the Contractor notification that the Contractor has corrected the significant deficiencies, the Contracting Officer has not made a determination in accordance with paragraphs (f)(2)(i), (ii), or (iii) of this clause, the Contracting Officer will reduce withholding directly related to the significant deficiencies identified in the Contractor notification by at least 50 percent of the amount being withheld from progress payments and performance-based payments, and direct the Contractor, in writing, to reduce the payment withholding from billings on interim cost vouchers directly related to the significant deficiencies identified in the Contractor notification by a specified percentage that is at least 50 percent, but not authorize the Contractor to bill for any monies previously withheld until the Contracting Officer makes a determination in accordance with paragraphs (f)(2)(i), (ii), or (iii) of this clause.

(v) At any time after the Contracting Officer reduces or discontinues the withholding of progress payments and performance-based payments, or directs the Contractor to reduce or discontinue the payment withholding from billings on interim cost vouchers under this contract, if the Contracting Officer determines that the Contractor has failed to correct the significant deficiencies identified in the Contractor's notification, the Contracting Officer will reinstate or increase withholding from progress payments and performance-based payments, and direct the Contractor, in writing, to reinstate or increase the percentage withheld on interim cost vouchers to the percentage initially withheld, until the Contracting Officer determines that the Contractor has corrected all significant deficiencies as directed by the Contracting Officer's final determination.

(b) *Acceptable counterfeit electronic part detection and avoidance system.* The Contractor shall establish and maintain an acceptable counterfeit electronic part detection and avoidance system. Failure to maintain an acceptable counterfeit electronic part detection and avoidance system, as defined in this clause, may result in disapproval of the purchasing system by the Contracting Officer and/or withholding of payments and affect the allowability of costs of counterfeit electronic parts or suspect counterfeit electronic parts and the cost of rework or corrective action that may be required to remedy the use or inclusion of such parts (see DFARS [231.205-71](#)).

(c) *System criteria.* A counterfeit electronic part detection and avoidance system shall include risk-based policies and procedures that address, at a minimum, the following areas:

Part 1—Charter

1. There is created the Armed Services Board of Contract Appeals which is hereby designated as the authorized representative of the Secretary of Defense, the Secretary of the Army, the Secretary of the Navy and the Secretary of the Air Force, in hearing, considering and determining appeals by contractors from decisions of contracting officers or their authorized representatives or other authorities on disputed questions. These appeals may be taken (a) pursuant to the Contract Disputes Act of 1978 (41 U.S.C. Sections 7101-7109), (b) pursuant to the provisions of contracts requiring the decision by the Secretary of Defense or by a Secretary of a Military Department or their duly authorized representative, or (c) pursuant to the provisions of any directive whereby the Secretary of Defense or the Secretary of a Military Department or their authorized representative has granted a right of appeal not contained in the contract on any matter consistent with the contract appeals procedure. The Board may determine contract disputes for other departments and agencies by agreement as permitted by law. The Board shall operate under general policies established or approved by the Under Secretary of Defense for Acquisition, Technology and Logistics and may perform other duties as directed not inconsistent with the Contract Disputes Act of 1978.

2. Membership of the Board shall consist of attorneys at law who have been qualified in the manner prescribed by the Contract Disputes Act of 1978. Members of the Board are hereby designated Administrative Judges. There shall be appointed from the Judges of the Board a Chairman and two or more Vice-Chairmen. Appointment of the Chairman and Vice-Chairmen and other Judges of the Board shall be made by the Under Secretary of Defense for Acquisition, Technology and Logistics, the General Counsel of the Department of Defense, and the Assistant Secretaries of the Military Departments responsible for acquisition. The Chairman may designate a Judge of the Board to serve as an Acting Chairman or Acting Vice Chairman.

3. It shall be the duty and obligation of the Judges of the Armed Services Board of Contract Appeals to decide appeals on the record of the appeal to the best of their knowledge and ability in accordance with applicable contract provisions and in accordance with law and regulation pertinent thereto.

4. The Chairman of the Board shall be responsible for establishing appropriate divisions of the Board to provide for the most effective and expeditious handling of appeals. The Chairman shall designate one Judge of each division as the division head. The Chairman may refer an appeal of unusual difficulty, significant precedential importance, or serious dispute within the normal decision process for decision by the senior deciding group. The division heads and the Chairman and Vice-Chairmen,

Defense Federal Acquisition Regulation Supplement

Appendix A—Armed Services Board of Contract Appeals

together with, if applicable, the author of the decision so referred, shall constitute the senior deciding group of the Board. The decision of the Board in cases so referred to the senior deciding group shall be by majority vote of the participating Judges of that group. A majority of the Judges of a division shall constitute a quorum for the transaction of the business of each, respectively. Decisions of the Board shall be by majority vote of the Judges of a division participating and the Chairman and a Vice-Chairman, unless the Chairman refers the appeal for decision by the senior deciding group. An appeal involving a small claim as defined by the Contract Disputes Act of 1978 may be decided by a single Judge or fewer Judges of the Board than hereinbefore provided for cases of unlimited dollar amount, under accelerated or expedited procedures as provided in the Rules of the Board and the Contract Disputes Act of 1978.

5. The Board shall have all powers necessary and incident to the proper performance of its duties. The Board has the authority to issue methods of procedure and rules and regulations for its conduct and for the preparation and presentation of appeals and issuance of opinions.

6. Any Judge of the Board or any examiner, designated by the Chairman, shall be authorized to hold hearings, examine witnesses, and receive evidence and argument. A Judge of the Board shall have authority to administer oaths and issue subpoenas as specified in the Contract Disputes Act of 1978. In cases of contumacy or refusal to obey a subpoena, the Chairman may request orders of the court in the manner prescribed in the Contract Disputes Act of 1978.

7. The Chairman shall be responsible for the internal organization of the Board and for its administration. He shall provide within approved ceilings for the staffing of the Board with non-Judge personnel, including hearing examiners, as may be required for the performance of the functions of the Board. The Chairman shall appoint a Recorder of the Board. All personnel shall be responsible to and shall function under the direction, supervision and control of the Chairman. Judges shall decide cases independently.

8. The Board will be serviced by the Department of the Army for administrative support as required for its operations. Administrative support will include budgeting, funding, fiscal control, manpower control and utilization, personnel administration, security administration, supplies, and other administrative services. The Departments of the Army, Navy, Air Force and the Office of the Secretary of Defense will participate in financing the Board's operations on an equal basis and to the extent determined by the Under Secretary of Defense (Comptroller). The cost of processing appeals for departments and agencies other than those in the Department of Defense will be reimbursed.

9. Within 30 days following the close of a calendar quarter, the Chairman shall forward a report of the Board's proceedings for the quarter to the Under Secretary of Defense for Acquisition, Technology and Logistics, the General Counsel of the Department of Defense, the Assistant Secretaries of the Military Departments responsible for acquisition, and to the Director of the Defense Logistics Agency. The Chairman of the Board will also furnish the Secretary of Defense, the General Counsel of the Department of Defense, the Secretaries of the Military Departments, and the Director of the Defense Logistics Agency, an annual report containing an account of the Board's transactions and proceedings for the preceding fiscal year.

PREFACE

I. JURISDICTION FOR CONSIDERING APPEALS

The Armed Services Board of Contract Appeals (referred to herein as the Board) has jurisdiction to decide any appeal from a final decision of a contracting officer, pursuant to the Contract Disputes Act, 41 U.S.C. 7101-7109, or its Charter, 48 CFR Chap. 2, App. A, Pt. 1, relative to a contract made by the Department of Defense, the Department of the Army, the Department of the Navy, the Department of the Air Force, the National Aeronautics and Space Administration or any other department or agency, as permitted by law.

II. LOCATION AND ORGANIZATION OF THE BOARD

(a) The Board's address is Skyline Six, Room 703, 5109 Leesburg Pike, Falls Church, VA 22041-3208; telephone 703-681-8500 (general), 703-681-8502 (Recorder). The Board's facsimile number is 703-681-8535. The Board's Recorder's email address is asbca.recorder@mail.mil. The Board's website address is <http://www.asbca.mil>.

(b) The Board consists of a Chairman, two or more Vice Chairmen, and other Members, all of whom are attorneys at law duly licensed by a state, commonwealth, territory, or the District of Columbia. Board Members are designated Administrative Judges.

(c) There are a number of divisions of the Board, established by the Chairman in such manner as to provide for the most effective and expeditious handling of appeals. The Chairman and a Vice Chairman act as members of each division. Hearings may be held by an Administrative Judge or by a duly authorized examiner. Except for appeals processed under the expedited or accelerated procedure (see Rules 12.2(c) and 12.3(c)), the decision of a majority of a division constitutes the decision of the Board, unless the Chairman refers the appeal to the Board's Senior Deciding Group (consisting of the Chairman, Vice Chairmen, all division heads, and the Judge who drafted the decision), in which event a decision of a majority of that group constitutes the decision of the Board. Appeals referred to the Senior Deciding Group are those of unusual difficulty or significant precedential importance, or that have occasioned serious dispute within the normal division decision process.

(d) The Board will to the fullest extent practicable provide informal, expeditious, and inexpensive resolution of disputes.

RULES

Rule 1. Appeals

(a) *Taking an Appeal*—For appeals subject to the Contract Disputes Act, notice of an appeal shall be in writing and mailed or otherwise furnished to the Board within 90 days from the date of receipt of a contracting officer's decision. The appellant (contractor) should also furnish a copy of the notice of appeal to the contracting officer. For appeals not subject to the Contract Disputes Act, the contractor should refer to the Disputes clause in its contract for the time period in which it must file a notice of appeal.

(1) Where the contractor has submitted a claim of \$100,000 or less to the contracting officer and has requested a written decision within 60 days from receipt of the request, and the contracting officer has not provided a decision within that period, or where such a contractor request has not been made and the contracting officer has not issued a decision within a reasonable time, the contractor may file a notice of appeal as provided in paragraph (a) of this Rule, citing the failure of the contracting officer to issue a decision.

(2) Where the contractor has submitted a properly certified claim over \$100,000 to the contracting officer or has submitted a claim that involves no monetary amount, and the contracting officer, within 60 days of receipt of the claim, fails to issue a decision or fails to provide the contractor with a reasonable date by which a decision will be issued, and the contracting officer has failed to issue a decision within a reasonable time, the contractor may file a notice of appeal as provided in paragraph (a) of this Rule, citing the failure of the contracting officer to issue a decision.

(3) A reasonable time shall be determined by taking into account such factors as the size and complexity of the claim and the adequacy of the information provided by the contractor to support the claim.

(4) Where an appeal is before the Board pursuant to paragraph (a)(1) or (a)(2) of this Rule, the Board may, at its option, stay further proceedings pending issuance of a final decision by the contracting officer within such period of time as is determined by the Board.

(5) In lieu of filing a notice of appeal under paragraph (a)(1) or (a)(2) of this Rule, the contractor may petition the Board to direct the contracting officer to issue a decision in a specified period of time as determined by the Board.

Appendix A—Armed Services Board of Contract Appeals

(b) *Contents of Notice of Appeal*—A notice of appeal shall indicate that an appeal is being taken and should identify the contract by number, the department and/or agency involved in the dispute, the decision from which the appeal is taken, and the amount in dispute, if any. A copy of the contracting officer's final decision, if any, should be attached to the notice of appeal. The notice of appeal should be signed by the appellant or by the appellant's duly authorized representative or attorney. The complaint referred to in Rule 6 may be filed with the notice of appeal, or the appellant may designate the notice of appeal as a complaint, if it otherwise fulfills the requirements of a complaint.

(c) *Docketing of Appeal*—When a notice of appeal has been received by the Board, it will be docketed. The Board will provide a written notice of docketing to the appellant and to the Government.

Rule 2. Filing Documents

(a) Documents may be filed with the Board by the following methods:

(1) *Governmental Postal Service*—Documents may be filed via a governmental postal service. Filing occurs when the document, properly addressed and with sufficient postage, is transferred into the custody of the postal service. Contact the Recorder before submitting classified documents.

(2) *Courier*—Documents may be filed via courier. Filing occurs when the document is delivered to the Board. Contact the Recorder before submitting classified documents.

(3) *Electronic Mail*—Documents, except appeal files submitted pursuant to Rule 4, hearing exhibits, classified documents, and documents submitted *in camera* or under a protective order, may be filed via electronic mail (email). Email attachments should be in PDF format and the attachments may not exceed 10 megabytes total. The transmittal email should include the ASBCA docket number(s), if applicable, and the name of the appellant in the "Subject:" line. Filing occurs upon receipt by the Board's email server. When a document is successfully filed via email, the document should not also be submitted by any other means, unless so directed by the Board. Submit emails to: <mailto:asbca.recorder@mail.mil>.

(4) *Facsimile Transmission*—Documents, except appeal files submitted pursuant to Rule 4, hearing exhibits, classified documents, and documents submitted *in camera* or under a protective order, may be filed via facsimile (fax) machine. Due to equipment constraints, transmissions over 10 pages should not be made absent Board permission. Filing occurs upon receipt by the Board. When a document is successfully filed via fax, the document should not also be submitted by any other means, unless so directed by the Board.

(b) *Copies to Opposing Party*—The party filing any document with the Board will send a copy to the opposing party unless the Board directs otherwise, noting on the document filed with the Board that a copy has been so furnished.

Rule 3. Service Upon Other Parties

Documents may be served personally or by mail, addressed to the party upon whom service is to be made, unless the parties have agreed to an alternate means of service. Subpoenas shall be served as provided in Rule 22.

Rule 4. Preparation, Content, Organization, Forwarding, and Status of Appeal File

(a) *Duties of the Government*—Within 30 days of notice that an appeal has been filed, the Government shall transmit to the Board and the appellant an appeal file consisting of the documents the Government considers relevant to the appeal, including:

- (1) The decision from which the appeal is taken;
- (2) The contract, including pertinent specifications, amendments, plans, and drawings;
- (3) All correspondence between the parties relevant to the appeal, including any claim in response to which the decision was issued.

The Government's appeal file may be supplemented at such times as are fair and reasonable and as ordered by the Board.

(b) *Duties of the Appellant*—Within 30 days after receipt of a copy of the Government's appeal file, the appellant shall transmit to the Board and the Government any documents not contained therein that the appellant considers relevant to the appeal. Appellant's appeal file may be supplemented at such times as are fair and reasonable and as ordered by the Board.

(c) *Organization of Appeal File*—Documents in the appeal file may be originals or legible copies, and shall be arranged in chronological order where practicable, tabbed with sequential numbers, and indexed to identify the contents of the file. Any document without internal page numbers shall have page numbers added. All documents must be in English or include an English translation. Documents shall be submitted in 3-ring binders, with spines not wider than 3 inches wide, with labels identifying the name of the appeal, ASBCA number and tab numbers contained in each volume, on the front and spine of each volume. Each volume shall contain an index of the documents contained in the entire Rule 4 submission.

(d) *Status of Documents in Appeal File*—Documents contained in the appeal file are considered, without further action by the parties, as part of the record upon which the Board will render its decision. However, a party may object, for reasons stated, to the admissibility of a particular document reasonably in advance of hearing or, if there is no hearing, of settling the record, or in any case as ordered by the Board. If such objection is made, the Board will constructively remove the document from the appeal file and permit the party offering the document to move its admission as evidence in accordance with Rules 10, 11, and 13.

Rule 5. Time, Computation, and Extensions

(a) Where practicable, actions should be taken in less time than the time allowed. Where appropriate and justified, however, extensions of time will be granted. All

Appendix A—Armed Services Board of Contract Appeals

requests for extensions of time should be in writing and indicate that the other party was contacted to seek its concurrence.

(b) In computing any period of time, the day of the event from which the designated period of time begins to run will not be included, but the last day of the period will be included unless it is a Saturday, Sunday, or a Federal holiday, in which event the period will run to the next business day.

Rule 6. Pleadings

(a) *Appellant*—Within 30 days after receipt of notice of docketing of the appeal, the appellant shall file with the Board a complaint setting forth simple, concise, and direct statements of each of its claims. The complaint shall also set forth the basis, with appropriate reference to contract provisions, of each claim and the dollar amount claimed, if any. This pleading shall fulfill the generally recognized requirements of a complaint, although no particular form is required. Should the complaint not be timely received, the appellant's claim and notice of appeal may be deemed to set forth its complaint if, in the opinion of the Board, the issues before the Board are sufficiently defined, and the parties will be notified.

(b) *Government*—Within 30 days from receipt of the complaint, or the aforesaid notice from the Board, the Government shall file with the Board an answer thereto. The answer shall admit or deny the allegations of the complaint and shall set forth simple, concise, and direct statements of the Government's defenses to each claim asserted by the appellant, including any affirmative defenses. Should the answer not be timely received, the Board may enter a general denial on behalf of the Government, and the parties will be notified.

(c) *Foreign Law*—A party who intends to raise an issue concerning the law of a foreign country shall give notice in its pleadings or other reasonable written notice. The Board, in determining foreign law, may consider any relevant material or source, including testimony, whether or not submitted by a party or admissible under Rules 10, 11, or 13. The determination of foreign law shall be treated as a ruling on a question of law.

(d) *Further Pleadings*—The Board upon its own initiative or upon motion may order a party to make a more definite statement of the complaint or answer, or to reply to an answer. The Board may permit either party to amend its pleading upon conditions fair to both parties. When issues within the proper scope of the appeal, but not raised by the pleadings, are tried by express or implied consent of the parties, or by permission of the Board, they shall be treated in all respects as if they had been raised therein. In such instances, motions to amend the pleadings to conform to the proof may be entered, but are not required. If evidence is objected to at a hearing on the ground that it is not within the issues raised by the pleadings, it may be admitted within the proper scope of the appeal, provided however, that the objecting party may be granted an opportunity to meet such evidence.

Rule 7. Motions

(a) *Motions Generally*—The Board may entertain and rule upon motions and may defer ruling as appropriate. The Board will rule on motions so as to secure, to the fullest extent practicable, the informal, expeditious, and inexpensive resolution of

appeals. All motions should be filed as separate documents with an appropriate heading describing the motion. Oral argument on motions is subject to the discretion of the Board.

(b) *Jurisdictional Motions*—Any motion addressed to the jurisdiction of the Board should be promptly filed. An evidentiary hearing to address disputed jurisdictional facts will be afforded on application of either party or by order of the Board. The Board may defer its decision on the motion pending hearing on the merits. The Board may at any time and on its own initiative raise the issue of its jurisdiction, and shall do so by an appropriate order, affording the parties an opportunity to be heard thereon.

(c) *Summary Judgment Motions*—

(1) To facilitate disposition of such a motion, the parties should adhere to the following procedures. Where the parties agree that disposition by summary judgment or partial summary judgment is appropriate, they may file a stipulation of all material facts necessary for the Board to rule on the motion. Otherwise, the moving party should file with its motion a “Statement of Undisputed Material Facts,” setting forth the claimed undisputed material facts in separate, numbered paragraphs. The non-moving party should file a “Statement of Genuine Issues of Material Fact,” responding to each numbered paragraph proposed, demonstrating, where appropriate, the existence of material facts in dispute and if appropriate propose additional facts. The moving party and the non-moving party should submit a memorandum of law supporting or opposing summary judgment.

(2) In deciding motions for summary judgment, the Board looks to Rule 56 of the Federal Rules of Civil Procedure for guidance. The parties should explicitly state and support by specific evidence all facts and legal arguments necessary to sustain a party’s position. Each party should cite to the record and attach any additional evidence upon which it relies (e.g., affidavits, declarations, excerpts from depositions, answers to interrogatories, admissions). The Board may accept a fact properly proposed and supported by one party as undisputed, unless the opposing party properly responds and establishes that it is in dispute.

(d) *Response to Motions*—A non-moving party has 30 days from receipt of a motion to file its response, unless a different period is ordered by the Board. A moving party has 30 days from receipt of a non-moving party’s response to file a reply, unless a different period is ordered by the Board.

Rule 8. Discovery

(a) *General Policy and Protective Orders*—The parties are encouraged to engage in voluntary discovery procedures. Within 45 days after the pleadings have been filed, the parties must confer concerning each party’s discovery needs, including the scheduling of discovery and the production of electronically stored information. Absent stipulation or a Board order, no discovery may be served prior to this conference. Any motion pertaining to a discovery dispute shall include a statement that the movant has in good faith attempted to resolve the discovery dispute without involvement of the Board. In connection with any discovery procedure, the Board may issue orders to protect a party or person from annoyance, embarrassment, or undue burden or expense. Those orders may include limitations on the scope, method, time, and place for discovery, and

Appendix A—Armed Services Board of Contract Appeals

provisions for governing the disclosure of information or documents. Any discovery under this Rule shall be subject to the provisions of Rule 16 with respect to sanctions.

(b) *Depositions—When Permitted*—Subject to paragraph (a) of this Rule, a party may take, or the Board may upon motion order the taking of, testimony of any person by deposition upon oral examination or written interrogatories before any officer authorized to administer oaths at the place of examination, for use as evidence or for purpose of discovery. The Board expects the parties to make persons under their control available for deposition. The motion for an order shall specify whether the purpose of the deposition is discovery or for use as evidence.

(1) *Depositions—Orders*—The time, place, and manner of taking depositions shall be as mutually agreed by the parties, or failing such agreement, governed by order of the Board.

(2) *Depositions—Use as Evidence*—No testimony taken by deposition shall be considered as part of the evidence in the hearing of an appeal until such testimony is offered and received in evidence at such hearing. It will not ordinarily be received in evidence if the deponent can testify at the hearing. The deposition may be used to contradict or impeach the testimony of the deponent given at a hearing. In cases submitted on the record, the Board may receive depositions to supplement the record.

(3) *Depositions—Expenses*—Each party shall bear its own expenses associated with the taking of any deposition, absent an agreement by the parties or a Board order to the contrary.

(4) *Depositions—Subpoenas*—Where appropriate, a party may request the issuance of a subpoena under the provisions of Rule 22.

(c) *Interrogatories, Requests for Admissions, Requests for Production*—Subject to paragraph (a) of this Rule, a party may serve, or the Board may upon motion order:

(1) Written interrogatories to be answered separately in writing, signed under oath and answered or objected to within 45 days after service;

(2) A request for the admission of specified facts and/or of the authenticity of any documents, to be answered or objected to within 45 days after service, the factual statements and/or the authenticity of the documents to be deemed admitted upon failure of a party to respond to the request; and

(3) A request for the production, inspection, and copying of any documents, electronic or otherwise, or objects, not privileged, which reasonably may lead to the discovery of admissible evidence, to be answered or objected to within 45 days after service. The Board may allow a shorter or longer time.

Rule 9. Pre-Hearing or Pre-Submission Conference

The Board may, upon its own initiative, or upon the request of either party, arrange a conference or order the parties to appear before an Administrative Judge or examiner for a conference to address any issue related to the prosecution of the appeal.

Rule 10. Hearings

Appendix A—Armed Services Board of Contract Appeals

(a) *Where and When Held*—Hearings will be held at such times and places determined by the Board to best serve the interests of the parties and the Board.

(b) *Unexcused Absence*—The unexcused absence of a party at the time and place set for hearing will not be occasion for delay. In the event of such absence, the hearing will proceed and the evidentiary record will consist solely of the evidence of record at the conclusion of the hearing, except as ordered otherwise by the Board.

(c) *Nature of Hearings*—Hearings shall be as informal as may be reasonable and appropriate under the circumstances. The parties may offer such evidence as they deem appropriate and as would be admissible under the Federal Rules of Evidence or in the sound discretion of the presiding Administrative Judge or examiner. The Federal Rules of Evidence are not binding on the Board but may guide the Board's rulings. The parties may stipulate the testimony that would be given by a witness if the witness were present. The Board may require evidence in addition to that offered by the parties.

(d) *Examination of Witnesses*—Witnesses will be examined orally under oath or affirmation, unless the presiding Administrative Judge or examiner shall otherwise order. If the testimony of a witness is not given under oath or affirmation, the Board may advise the witness that his or her testimony may be subject to any provision of law imposing penalties for knowingly making false representations in connection with claims.

(e) *Interpreters*—In appropriate cases, the Board may order that an interpreter be used. An interpreter must be qualified and must be placed under oath or affirmation to give a complete and true translation.

(f) *Transcripts*—Testimony and argument at hearings will be reported verbatim, unless the Board otherwise orders. The Board will contract for a reporter. No other recordings of the proceedings will be made.

Rule 11. Submission Without a Hearing

(a) Either party may elect to waive a hearing and to submit its case upon the record. Submission of a case without hearing does not relieve the parties from the necessity of proving the facts supporting their allegations or defenses. Affidavits, declarations, depositions, admissions, answers to interrogatories, and stipulations may be employed in addition to the Rule 4 file if moved and accepted into evidence. Such submissions may be supplemented by briefs. The Board may designate, with notice to the parties, any document to be made part of the record.

(b) As appropriate, the Board may also rely on pleadings, prehearing conference memoranda, orders, briefs, stipulations and other documents contained in the Board's file.

(c) Except as the Board may otherwise order, no evidence will be received after notification by the Board that the record is closed.

(d) The weight to be given to any evidence will rest within the discretion of the Board. The Board may require either party, with appropriate notice to the other party, to submit additional evidence on any matter relevant to the appeal.

(e) The record will at all reasonable times be available for inspection by the parties at the offices of the Board.

Rule 12. Optional Small Claims (Expedited) and Accelerated Procedures

12.1 Elections to Utilize Small Claims (Expedited) and Accelerated Procedures

(a) In appeals where the amount in dispute is \$50,000 or less, or in the case of a small business concern (as defined in the Small Business Act and regulations under that Act), \$150,000 or less, the appellant may elect to have the appeal processed under a Small Claims (Expedited) procedure requiring decision of the appeal, whenever possible, within 120 days after the Board receives written notice of the appellant's election to utilize this procedure. The details of this procedure appear in section 12.2 of this Rule. An appellant may elect the Accelerated procedure rather than the Small Claims (Expedited) procedure for any appeal where the amount in dispute is \$50,000 or less.

(b) In appeals where the amount in dispute is \$100,000 or less, the appellant may elect to have the appeal processed under an Accelerated procedure requiring decision of the appeal, whenever possible, within 180 days after the Board receives written notice of the appellant's election to utilize this procedure. The details of this procedure appear in section 12.3 of this Rule.

(c) The appellant's election of either the Small Claims (Expedited) procedure or the Accelerated procedure shall be made by written notice within 60 days after receipt of notice of docketing, unless such period is extended by the Board for good cause. The election, once made, may not be changed or withdrawn except with permission of the Board and for good cause.

(d) The 45-day conference required by Rule 8(a) does not apply to Rule 12 appeals.

12.2 Small Claims (Expedited) Procedure

(a) In appeals proceeding under the Small Claims (Expedited) procedure, the following time periods shall apply:

(1) Within 10 days from the Government's receipt of the appellant's notice of election of the Small Claims (Expedited) procedure, the Government shall send the Board a copy of the contract, the contracting officer's final decision, and the appellant's claim letter or letters, if any. Any other documents required under Rule 4 shall be submitted in accordance with times specified in that Rule unless the Board otherwise directs.

(2) Within 15 days after the Board has acknowledged receipt of the appellant's notice of election, the assigned Administrative Judge should take the following actions, if feasible, in a pre-hearing conference:

(i) Identify and simplify the issues;

(ii) Establish a simplified procedure, including discovery, appropriate to the particular appeal involved;

(iii) Determine whether either party elects a hearing, and if so, fix a time and place therefor; and

(iv) Establish an expedited schedule for the timely resolution of the appeal.

(b) Pleadings, discovery, and other prehearing activity will be allowed only as consistent with the requirement to conduct a hearing, or if no hearing is elected, to close the record on a date that will allow the timely issuance of the decision. The Board may shorten time periods prescribed or allowed under these Rules as necessary to enable the Board to decide the appeal within the 120-day period.

(c) Written decisions by the Board in appeals processed under the Small Claims (Expedited) procedure will be short and will contain only summary findings of fact and conclusions. Decisions will be rendered for the Board by a single Administrative Judge. If there has been a hearing, the Administrative Judge presiding at the hearing may at the conclusion of the hearing and after entertaining such oral argument as deemed appropriate, render on the record oral summary findings of fact, conclusions, and a decision of the appeal. Whenever such an oral decision is rendered, the Board will subsequently furnish the parties an authenticated copy of such oral decision for record and payment purposes and to establish the starting date for the period for filing a motion for reconsideration under Rule 20.

(d) A decision under Rule 12.2 shall have no value as precedent, and in the absence of fraud, shall be final and conclusive and may not be appealed or set aside.

12.3 Accelerated Procedure

(a) In appeals proceeding under the Accelerated procedure, the parties are encouraged, to the extent possible consistent with adequate presentation of their factual and legal positions, to waive pleadings, discovery, and briefs. The Board may shorten time periods prescribed or allowed under these Rules as necessary to enable the Board to decide the appeal within the 180-day period.

(b) Within 30 days after the Board has acknowledged receipt of the appellant's notice of election, the assigned Administrative Judge should take the following actions, if feasible, in a pre-hearing conference:

(1) Identify and simplify the issues;

(2) Establish a simplified procedure, including discovery, appropriate to the particular appeal involved;

(3) Determine whether either party elects a hearing, and if so, fix a time and place therefor; and

(4) Establish an accelerated schedule for the timely resolution of the appeal.

(c) Written decisions by the Board in appeals processed under the Accelerated procedure will normally be short and contain only summary findings of fact and conclusions. Decisions will be rendered for the Board by a single Administrative Judge with the concurrence of a Vice Chairman, or by a majority among these two and the Chairman in case of disagreement.

12.4 Motions for Reconsideration in Rule 12 Appeals

Motions for reconsideration of appeals decided under either the Small Claims (Expedited) procedure or the Accelerated procedure need not be decided within the original 120-day or 180-day limit, but all such motions will be processed and decided promptly so as to be consistent with the intent of this Rule.

Rule 13. Settling the Record in Appeals with a Hearing

(a) The record upon which the Board's decision will be rendered consists of the documents admitted under Rule 4, the documents admitted into evidence as hearing exhibits, together with the hearing transcript. The Board may designate with notice to the parties, any document to be made part of the record.

(b) As appropriate, the Board may also rely on pleadings, pre-hearing conference memoranda, orders, briefs, stipulations, and other documents contained in the Board's file.

(c) Except as the Board may otherwise order, no evidence will be received after completion of an oral hearing.

(d) The weight to be given to any evidence will rest within the discretion of the Board. The Board may require either party, with appropriate notice to the other party, to submit additional evidence on any matter relevant to the appeal.

(e) The record will at all reasonable times be available for inspection by the parties at the offices of the Board.

Rule 14. Briefs

(a) *Pre-Hearing Briefs*—The Board may require the parties to submit pre-hearing briefs. If the Board does not require pre-hearing briefs, either party may, upon appropriate and sufficient notice to the other party, furnish a pre-hearing brief to the Board.

(b) *Post-Hearing Briefs*—Post-hearing briefs may be submitted upon such terms as may be directed by the presiding Administrative Judge or examiner at the conclusion of the hearing.

Rule 15. Representation

(a) An individual appellant may represent his or her interests before the Board; a corporation may be represented by one of its officers; and a partnership or joint venture by one of its members; or any of these by an attorney at law duly licensed in any state, commonwealth, territory, the District of Columbia, or in a foreign country. Anyone representing an appellant shall file a written notice of appearance with the Board.

(b) The Government shall be represented by counsel. Counsel for the Government shall file a written notice of appearance with the Board.

Rule 16. Sanctions

If any party fails to obey an order issued by the Board, the Board may impose such sanctions as it considers necessary to the just and expeditious conduct of the appeal.

Rule 17. Dismissal or Default for Failure to Prosecute or Defend

Whenever the record discloses the failure of either party to file documents required by these Rules, respond to notices or correspondence from the Board, comply with orders of the Board, or otherwise indicates an intention not to continue the prosecution or defense of an appeal, the Board may, in the case of a default by the appellant, issue an order to show cause why the appeal should not be dismissed with prejudice for failure to prosecute. In the case of a default by the Government, the Board may issue an order to show cause why the Board should not act thereon pursuant to Rule 16. If good cause is not shown, the Board may take appropriate action.

Rule 18. Suspensions; Dismissal Without Prejudice

(a) The Board may suspend the proceedings by agreement of the parties for settlement discussions, or for good cause shown.

(b) In certain cases, appeals docketed before the Board are required to be placed in a suspense status and the Board is unable to proceed with disposition thereof for reasons not within the control of the Board. Where the suspension has continued, or may continue, for an inordinate length of time, the Board may dismiss such appeals from its docket for a period of time without prejudice to their restoration. Unless either party or the Board moves to reinstate the appeal within the time period set forth in the dismissal order, or if no time period is set forth, within one year from the date of the dismissal order, the dismissal shall be deemed to be with prejudice.

Rule 19. Decisions

(a) Decisions of the Board will be made in writing and authenticated copies of the decision will be sent simultaneously to both parties. All orders and decisions, except those as may be required by law to be held confidential, will be available to the public. Decisions of the Board will be made solely upon the record.

(b) Any monetary award shall be promptly paid.

(c) In awards that may be paid from the Judgment Fund, 31 U.S.C. 1304, the Recorder will forward the required forms to each party with the decision. If the parties do not contemplate an appeal or motion for reconsideration, they will execute the forms indicating that no judicial review will be sought. The Government agency will forward the required forms with a copy of the decision to the Department of the Treasury for certification of payment.

(d) When the parties settle an appeal in favor of the appellant, they may file with the Board a stipulation setting forth the amount of the settlement due to the appellant. By joint motion, the parties may request that the Board issue a decision in the nature of a consent judgment, awarding the stipulated amount to the appellant. These decisions will be processed in accordance with paragraph (c) of this Rule.

(e) After a decision has become final the Board may, upon request of a party and after notice to the other party, grant the withdrawal of original exhibits, or any part

thereof. The Board may require the substitution of true copies of exhibits or any part thereof as a condition of granting permission for such withdrawal.

Rule 20. Motion for Reconsideration

A motion for reconsideration may be filed by either party. It shall set forth specifically the grounds relied upon to grant the motion. The motion must be filed within 30 days from the date of the receipt of a copy of the decision of the Board by the party filing the motion. An opposing party must file any cross-motion for reconsideration within 30 days from its receipt of the motion for reconsideration. Extensions in the period to file a motion will not be granted. Extensions to file a memorandum in support of a timely-filed motion may be granted.

Rule 21. Remand from Court

Whenever any Court remands an appeal to the Board for further proceedings, each of the parties shall, within 30 days of receipt of such remand, submit a report to the Board recommending procedures to be followed so as to comply with the Court's remand. The Board will consider the reports and enter an order governing the remanded appeal.

Rule 22. Subpoenas

(a) *Voluntary Cooperation*—Each party is expected:

(1) To cooperate and make available witnesses and evidence under its control as requested by the other party without issuance of a subpoena, and

(2) To secure voluntary attendance of desired third-party witnesses and production of desired third-party books, records, documents, or tangible things whenever possible.

(b) *General*—Upon written request of either party, or on his or her own initiative, an Administrative Judge may issue a subpoena requiring:

(1) *Testimony at a deposition*—The deposing of a witness in the city or county where the witness resides or is employed or transacts business in person, or at another location convenient for the witness that is specifically determined by the Board;

(2) *Testimony at a hearing*—The attendance of a witness for the purpose of taking testimony at a hearing; and

(3) *Production of books and records*—The production by the witness at the deposition or hearing of books and records (including electronically stored information and other tangible things) designated in the subpoena.

(c) *Request for Subpoena*—

(1) A request for subpoena shall normally be filed at least:

(i) 15 days before a scheduled deposition where the attendance of a witness at a deposition is sought; or

Defense Federal Acquisition Regulation Supplement

Appendix A—Armed Services Board of Contract Appeals

(ii) 30 days before a scheduled hearing where the attendance of a witness at a hearing is sought.

(2) The Board may honor a request for subpoena not made within the time limitations set forth in paragraph (c)(1) of this Rule.

(3) A request for a subpoena shall state the reasonable scope and general relevance to the case of the testimony and of any books and records sought. The Board may require resubmission of a request that does not provide this information.

(d) *Requests to Quash or Modify*—Upon written request by the person subpoenaed or by a party, made within 10 days after service but in any event not later than the time specified in the subpoena for compliance, the Board may quash or modify the subpoena if it is unreasonable or oppressive or for other good cause shown, or require the person in whose behalf the subpoena was issued to advance the reasonable cost of producing subpoenaed books and papers. Where circumstances require, the Board may act upon such a request at any time after a copy of the request has been served upon the opposing party.

(e) *Form of Subpoena*—

(1) Every subpoena shall state the name of the Board and the caption of the appeal, and shall command each person to whom it is directed to attend and give testimony, and if appropriate, to produce specified books and records at a time and place therein specified. In issuing a subpoena to a requesting party, the Administrative Judge will sign the subpoena, enter the name of the witness and may otherwise leave it blank. The party to whom the subpoena is issued shall complete the subpoena before service.

(2) Where the witness is located in a foreign country, a letter rogatory may be issued and served under the circumstances and in the manner provided in 28 U.S.C. 1781.

(f) *Service*—

(1) The party requesting issuance of a subpoena shall arrange for service.

(2) A subpoena requiring the attendance of a witness at a deposition or hearing may be served in any state, commonwealth, territory, or the District of Columbia. A subpoena may be served by a United States marshal or deputy marshal, or by any other person who is not a party and not less than 18 years of age. Service of a subpoena upon a person named therein shall be made by personally delivering a copy to that person and tendering the fees for one day's attendance and the mileage provided by 28 U.S.C. 1821 or other applicable law. However, where the subpoena is issued on behalf of the Government, payment need not be tendered in advance of attendance.

(3) The party at whose instance a subpoena is issued shall be responsible for the payment of fees and mileage of the witness and of the officer who serves the subpoena. The failure to make payment of such charges on demand may be deemed by the Board as a sufficient ground for striking such evidence as the Board deems appropriate.

(g) *Contumacy or Refusal to Obey a Subpoena*—In case of contumacy or refusal to obey a subpoena by a person who resides, is found, or transacts business within the jurisdiction of a United States District Court, the Board may apply to the Court through the Attorney General of the United States for an order requiring the person to appear before the Board to give testimony or produce evidence or both. Any failure of any such person to obey the order of the Court may be punished by the Court as a contempt thereof.

Rule 23. Ex Parte Communications

No member of the Board or of the Board's staff shall entertain, nor shall any person directly or indirectly involved in an appeal, submit to the Board or the Board's staff, ex parte, any evidence, explanation, analysis, or advice, whether written or oral, regarding any matter at issue in an appeal. This Rule does not apply to consultation among Board members or its staff or to ex parte communications concerning the Board's administrative functions or procedures.

Rule 24. Effective Date

These rules and addendums are applicable to appeals processed under the Contract Disputes Act (CDA), 41 U.S.C. 7101-7109, and other appeals to the extent consistent with law. They apply to all appeals filed on or after the date of final publication in the Federal Register, and to those appeals filed before that date, unless that application is inequitable or unfair.

ADDENDUM I

EQUAL ACCESS TO JUSTICE ACT PROCEDURES

(a) Definitions—

For the purpose of these procedures:

- (1) "Equal Access to Justice Act," or "EAJA," means 5 U.S.C. 504, as amended;
- (2) "Board" means the Armed Services Board of Contract Appeals; and
- (3) "Contract Disputes Act" means the Contract Disputes Act, 41 U.S.C. 7101-7109 (CDA).

(b) *Scope of procedures*—These procedures are intended to assist the parties in the processing of EAJA applications for award of fees and other expenses incurred in connection with appeals pursuant to the CDA.

(c) Eligibility of applicants—

(1) To be eligible for an EAJA award, an applicant must be a party appellant that has prevailed in a CDA appeal before the Board and must be one of the following:

- (i) An individual with a net worth which did not exceed \$2,000,000 at the time the appeal was filed; or

Appendix A—Armed Services Board of Contract Appeals

(ii) Any owner of an unincorporated business, or any partnership, corporation, association, unit of local Government, or organization, the net worth of which does not exceed \$7,000,000 and which does not have more than 500 employees; except:

(A) Certain charitable organizations or cooperative associations; and

(B) For the purposes of 5 U.S.C. 504(a)(4), a small entity as defined in 5 U.S.C. 601, need not comply with any net worth requirement (see 5 U.S.C. 504(b)(1)(B)).

(2) For the purpose of eligibility, the net worth and number of employees of an applicant shall be determined as of the date the underlying CDA appeal was filed with the Board.

(d) *Standards of awards*—A prevailing eligible applicant shall receive an award of fees and expenses incurred in connection with a CDA appeal, unless the position of the Government over which the applicant prevailed was substantially justified, or if special circumstances make the award unjust.

(e) *Allowable fees and other expenses*—

(1) Fees and other expenses must be reasonable. Awards will be based upon the prevailing market rates, subject to paragraph (e)(2) of this section, for the kind and quality of services furnished by attorneys, agents, and expert witnesses.

(2) No award for the fee of an attorney or agent may exceed \$125 per hour. No expert witness shall be compensated at a rate in excess of the highest rate of compensation for expert witnesses paid by the agency involved.

(3) The reasonable cost of any study, analysis, engineering report, test, or project, prepared on behalf of a party may be awarded, to the extent that the study or other matter was necessary in connection with the appeal and the charge for the service does not exceed the prevailing rate for similar services.

(f) *Time for filing of applications*—An application may be filed after an appellant has prevailed in the CDA appeal within 30 days after the Board's disposition of the appeal has become final.

(g) *Application contents*—

(1) An EAJA application shall comply with each of the following:

(i) Show that the applicant is a prevailing party;

(ii) Show that the applicant is eligible to receive an award;

(iii) Allege that the position of the government was not substantially justified; and

(iv) Show the amount of fees and other expenses sought, including an itemized statement thereof.

Appendix A—Armed Services Board of Contract Appeals

(2) An original and one copy of the application and exhibits should be filed with the Board. The applicant will forward one copy to the Government.

(3) When a compliant application has been timely filed, the Board, in order to obtain more detailed information, may require supplementation of the application.

(h) *Net worth exhibit*—Each applicant for which a determination of net worth is required under the EAJA should provide with its application a detailed net worth exhibit showing the net worth of the applicant when the CDA appeal was filed. The exhibit may be in any form convenient to the applicant that provides full disclosure of assets, liabilities, and net worth.

(i) *Fees and other expenses exhibit*—The application should be accompanied by a detailed fees and other expenses exhibit fully documenting the fees and other expenses, including the cost of any study, analysis, engineering report, test, or project, for which an award is sought. The date and a description of all services rendered or costs incurred should be indicated. A separate itemized statement should be submitted for each professional firm or individual whose services are covered by the application showing the hours spent in connection with the CDA appeal by each individual, a description of the particular services performed by specific date, the rate at which each fee has been computed, any expenses for which reimbursement is sought, the total amount claimed, and the total amount paid or payable by the applicant or by any other person or entity for the services provided. The Board may require the applicant to provide vouchers, receipts, or other substantiation for any expenses sought.

(j) *Answer to application*—

(1) Within 30 days after receipt by the Government of an application, the Government may file an answer. Unless the Government requests an extension of time for filing or files a statement of intent to negotiate under paragraph (2) below, failure to file an answer within the 30-day period may be treated by the Board at its discretion as a general denial to the application on behalf of the Government.

(2) If the Government and the applicant believe that the matters raised in the application can be resolved by mutual agreement, they may jointly file a statement of intent to negotiate a settlement. Filing of this statement will extend the time for filing an answer for an additional 30 days. Further extensions may be requested by the parties.

(3) The answer will explain in detail any objections to the award requested and identify the facts relied upon in support of the Government's position.

(4) An original and one copy of the answer should be filed with the Board. The Government will forward one copy to the applicant.

(k) *Reply*—Within 15 days after receipt of an answer, the applicant may file a reply. An original and one copy of the reply will be filed with the Board. The applicant will forward one copy to the Government.

(l) *Award proceedings*—

Defense Federal Acquisition Regulation Supplement

Appendix A—Armed Services Board of Contract Appeals

(1) The Board may enter an order prescribing the procedure to be followed or take such other action as may be deemed appropriate under the EAJA. Further proceedings will be held only when necessary for full and fair resolution of the issues arising from the application.

(2) A request that the Board order further proceedings under this paragraph will describe the disputed issues, explain why the additional proceedings are deemed necessary to resolve the issues and specifically identify any information sought and its relationship to the disputed issues.

(m) *Evidence*—

(1) *Decisions on the merits*—When a CDA appeal is decided on the merits, other than by a consent judgment, the record relating to whether the Government's position under the EAJA was substantially justified will be limited to the record in the CDA appeal. Evidence relevant to other issues in the award proceeding may be submitted.

(2) *Other dispositions*—When a CDA appeal is settled, or decided by a consent judgment, either party in proceedings under the EAJA may, for good cause shown, supplement the record established in the CDA appeal with affidavits and other supporting evidence relating to whether the position of the agency was substantially justified or other issues in the award proceeding.

(n) *Decision*—Decisions under the EAJA will be rendered by the Administrative Judge or a majority of the judges who would have participated in a motion for reconsideration of the underlying CDA appeal. The decision of the Board will include written findings and conclusions and the basis therefor. The Board's decision on an application for fees and other expenses under the EAJA will be the final administrative decision regarding the EAJA application.

(o) *Motions for reconsideration*—Either party may file a motion for reconsideration. Motions for reconsideration must be filed within 30 days of receipt of the Board's EAJA decision. Extensions in the period to file a motion will not be granted. Extensions to file a memorandum in support of a timely filed motion may be granted.

(p) *Payment of Awards*—The Board's EAJA awards will be paid directly by the contracting agency over which the applicant prevailed in the underlying CDA appeal.

ADDENDUM II

ALTERNATIVE METHODS OF DISPUTE RESOLUTION

1. The Contract Disputes Act (CDA), 41 U.S.C. 7105(g)(1), states that boards of contract appeals "shall ... to the fullest extent practicable provide informal, expeditious, and inexpensive resolution of disputes". Resolution of a dispute at the earliest stage feasible, by the fastest and least expensive method possible, benefits both parties. To that end, the parties are encouraged to consider Alternative Dispute Resolution (ADR) procedures for pre-claim and pre-final decision matters, as well as appeals pending before the Board. The Board may also conduct ADRs for any Federal agency. However, if the matter is not pending before the Board under its CDA jurisdiction, any settlement may not be paid out of the Judgment Fund.

2. The ADR methods described in this Addendum are intended to suggest techniques that have worked in the past. Any appropriate method that brings the parties together in settlement, or partial settlement, of their disputes is a good method. The ADR methods listed are not intended to preclude the parties' use of other ADR techniques that do not require the Board's participation, such as settlement negotiations, fact-finding conferences or procedures, mediation, or minitrials not involving use of the Board's personnel. Any method, or combination of methods, including one that will result in a binding decision, may be selected by the parties without regard to the dollar amount in dispute.

3. The parties must jointly request ADR procedures at the Board. The request must be approved by the Board. The Board may also schedule a conference to explore the desirability and selection of an ADR method and related procedures. If an ADR involving the Board's participation is requested and approved by the Board, a Neutral will be appointed. If an Administrative Judge has already been assigned to an appeal, the same judge will normally be assigned to be the Neutral in an ADR. If an Administrative Judge has not yet been assigned to the appeal, or if the subject of the ADR is a matter pending before the contracting officer prior to any appeal, the Board will appoint an Administrative Judge to be the Neutral. In such instances, as well as situations in which the parties prefer that an assigned Administrative Judge not be appointed to serve as the Neutral, the parties may submit a list of at least three preferred Administrative Judges and the Board will endeavor to accommodate their preferences.

4. To facilitate full, frank and open discussion and presentations, any Neutral who has participated in a non-binding ADR procedure that has failed to resolve the underlying dispute will be recused from further participation in the matter unless the parties expressly agree otherwise in writing and the Board concurs. Further, the recused Neutral will not discuss the merits of the dispute or substantive matters involved in the ADR proceedings with other Board personnel.

5. Written material prepared specifically for use in an ADR proceeding, oral presentations made at an ADR proceeding, and all discussions in connection with such proceedings between the parties and the Neutral are confidential and, unless otherwise specifically agreed by the parties, inadmissible as evidence in any pending or future Board proceeding involving the parties or matter in dispute. However, evidence otherwise admissible before the Board is not rendered inadmissible because of its use in the ADR proceeding.

6. The ADR method and the procedures and requirements implementing the ADR method will be prescribed by the written agreement of the parties and approved by the Board. ADR methods can be used successfully at any stage of the litigation.

7. The following are examples of ADR methods commonly used at the Board:

(a) *Nonbinding*—

Mediations: A Neutral is an Administrative Judge who will not normally hear or have any formal or informal decision-making authority in the matter and who is appointed for the purpose of facilitating settlement. In many circumstances, settlement can be fostered by a frank, in-depth discussion of the strengths and weaknesses of each party's position with the Neutral. The agenda for meetings with

the Neutral will be flexible to accommodate the requirements of the case. To further the settlement effort, the Neutral may meet with the parties either jointly or individually. A Neutral's recommendations are not binding on the parties. When this method is selected, the ADR agreement must contain a provision in which the parties and counsel agree not to subpoena the Neutral in any legal action or administrative proceeding of any kind to produce any notes or documents related to the ADR proceeding or to testify concerning any such notes or documents or concerning his/her thoughts or impressions.

(b) *Binding*—

Summary Proceeding With Binding Decision: A summary proceeding with binding decision is a procedure whereby the resolution of the appeal is expedited and the parties try their appeal informally before an Administrative Judge. A binding "bench" decision may be issued upon conclusion of the proceeding, or a binding summary written decision will be issued by the judge no later than ten days following the later of conclusion of the proceeding or receipt of a transcript. The parties must agree in the ADR agreement that all decisions, rulings, and orders by the Board under this method shall be final, conclusive, not appealable, and may not be set aside, except for fraud. All such decisions, rulings, and orders will have no precedential value. Pre-hearing, hearing, and post-hearing procedures and rules applicable to appeals generally will be modified or eliminated to expedite resolution of the appeal.

(c) *Other Agreed Methods*—

The parties and the Board may agree upon other informal methods, binding or nonbinding that are structured and tailored to suit the requirements of the individual case.

8. The above-listed ADR procedures are intended to shorten and simplify the Board's more formalized procedures. Generally, if the parties resolve their dispute by agreement, they benefit in terms of cost and time savings and maintenance or restoration of amicable relations. The Board will not view the parties' participation in ADR proceedings as a sign of weakness. Any method adopted for dispute resolution depends upon both parties having a firm, good faith commitment to resolve their differences. Absent such intention, the best structured dispute resolution procedure is unlikely to be successful.

APPENDIX F: MATERIAL INSPECTION AND RECEIVING REPORT
(Revised August 30, 2016)

PART 1—INTRODUCTION

F-101 General.

(a) This appendix contains procedures and instructions for the use, preparation, and distribution of the Wide Area WorkFlow (WAWF) Receiving Report (RR), WAWF Repairable Receiving Report (WAWF RRR), the WAWF Energy RR, and commercial shipping/packing lists used to document Government contract quality assurance. The WAWF RR is the electronic equivalent of the DD Form 250, Material Inspection and Receiving Report (MIRR). The WAWF Energy RR is the electronic equivalent of the DD Form 250 for overland shipments and DD Form 250-1, Tanker/Barge Material Inspection and Receiving Report, for waterborne shipments. The WAWF RRR is the electronic equivalent of the DD Form 250 for repair, maintenance, or overhaul of Government-furnished property.

(b) The use of the DD Form 250 series documents is on an exception basis (see DFARS [232.7002](#)(a)) because use of the WAWF RR is now required by most DoD contracts. WAWF provides for electronic preparation and documentation of acceptance of supplies and services, and electronic invoicing. In addition WAWF allows the printing of a RR that can be used as a packing list or when a signed copy is required.

F-102 Applicability.

(a) DFARS [252.232-7003](#), Electronic Submission of Payment Requests and Receiving Reports, requires payment requests and receiving reports using WAWF in nearly all cases.

(b) The provisions of this appendix also apply to supplies or services acquired by DoD when the clause at DFARS [252.246-7000](#), Material Inspection and Receiving Report, is included in the contract.

(c) When DoD provides quality assurance or acceptance services for non-DoD activities, prepare a MIRR using the instructions in this appendix, unless otherwise specified in the contract.

F-103 Use.

(a) The WAWF RR, WAWF RRR, and the DD Form 250 are multipurpose reports used—

- (1) To provide evidence of Government contract quality assurance at origin or destination;
- (2) To provide evidence of acceptance at origin, destination, or other;
- (3) For packing lists;

Defense Federal Acquisition Regulation Supplement

Appendix F--Material Inspection and Receiving Report

- (4) For receiving;
 - (5) For shipping;
 - (6) As a contractor invoice (the WAWF RR, WAWF RRR, or DD Form 250 alone cannot be used as an invoice, however the option exists to create an invoice from the Receiving Report or a Combo (Invoice and Receiving Report) both of which minimize data entry); and
 - (7) As commercial invoice support.
- (b) Do not use the WAWF RR, WAWF RRR, or the DD Form 250 for shipments—
- (1) By subcontractors, unless the subcontractor is shipping directly to the Government; or
 - (2) Of contract inventory. The WAWF Property Transfer document should be used for this type of shipment. Training for the preparation of this document type is available at <https://wawftraining.eb.mil>, under the Property Transfer and Receipt section.
- (c) The contractor prepares the WAWF RR, WAWF RRR, or the DD Form 250, except for entries that an authorized Government representative is required to complete. When using a paper DD Form 250, the contractor shall furnish sufficient copies of the completed form, as directed by the Government representative.
- (d) Use the WAWF Energy RR or the DD Form 250-1:
- (1) For bulk movements of petroleum products by tanker or barge to cover—
 - (i) Origin or destination acceptance of cargo; or
 - (ii) Shipment or receipt of Government owned products.
 - (2) To send quality data to the point of acceptance in the case of origin inspection on FOB destination deliveries or preinspection at product source. Annotate the forms with the words “INSPECTED FOR QUALITY ONLY.”
- (e) In addition to the above uses, the WAWF RR and WAWF RRR provide additional functionality, not provided by the paper DD Form 250 that complies with the following requirements:
- (1) Item Unique Identification (IUID), when the clause at DFARS [252.211-7003](#), Item Unique Identification and Valuation is used in the contract, reporting of IUID data is required. WAWF captures the IUID data and forwards the data to the IUID registry after acceptance. WAWF shall be used to report Unique Item Identifiers (UIIs) at the line item level, unless an exception to WAWF applies, and can also be used to report UIIs embedded at the line item level.

(2) Radio Frequency Identification (RFID), when the clause at DFARS [252.211-7006](#), Radio Frequency Identification, is used in the contract, WAWF will capture the RFID information and forward the data to the receiving location. Using WAWF is the only way a contractor can comply with the clause to furnish RFID data via an Advance Shipping Notice (ASN). The RFID information may be added at time of submission, or via the WAWF Pack Later functionality after acceptance.

(3) Reporting of Government-furnished property, when the clause at DFARS [252.211-7007](#), Reporting of Government-Furnished Property, is used in the contract, use of the WAWF RRR will capture the shipment of Government-furnished property items after acceptance of repair services and forward the data to the IUID registry. WAWF is the only way a contractor can report the transfer of Government-furnished property items in the IUID registry.

F-104 Application.

(a) *WAWF RR and DD Form 250.*

(1) Use the WAWF RR or DD Form 250 for delivery of contract line, subline, exhibit line, or exhibit subline items. Do not use the WAWF RR or DD Form 250 for those exhibit line or exhibit subline items on a DD Form 1423, Contract Data Requirements List, that indicate no DD Form 250 is required.

(2) If the shipped to, marked for, shipped from, mode of shipment, contract quality assurance and acceptance data are the same for more than one shipment made on the same day under the same contract, contractors may prepare one WAWF RR or DD Form 250 to cover all such shipments.

(3) If the volume of the shipment precludes the use of a single car, truck, or other vehicle, prepare a separate WAWF RR or DD Form 250 for the contents of each vehicle.

(4) When a shipment is consigned to an Air Force activity and the shipment includes items of more than one Federal supply class (FSC) or material management code (MMC), prepare a separate WAWF RR or DD Form 250 for items of each of the FSCs or MMCs in the shipment. However, the cognizant Government representative may authorize a single WAWF RR or DD Form 250, listing each of the FSCs or MMCs included in the shipment on a separate continuation sheet. The MMC appears as a suffix to the national stock number applicable to the item.

(5) *Consolidation of Petroleum Shipments on a Single WAWF RR or DD Form 250.*

(i) *Contiguous United States.* Contractors may consolidate multiple car or truck load shipments of petroleum made on the same day, to the same destination, against the same contract line item, on one WAWF RR or DD Form 250. To permit verification of motor deliveries, assign each load a load number which can be identified to the shipment number in Block 2 of the DD Form 250. Include a shipping document (commercial or Government) with each individual load showing as a minimum—

(A) The shipper;

Appendix F--Material Inspection and Receiving Report

- (B) Shipping point;
- (C) Consignee;
- (D) Contract and line item number;
- (E) Product identification;
- (F) Gross gallons (bulk only);
- (G) Loading temperature (bulk only);
- (H) American Petroleum Institute gravity (bulk only);
- (I) Identification of carrier's equipment;
- (J) Serial number of all seals applied; and
- (K) Signature of supplier's representative.

When acceptance is at destination, the receiving activity retains the shipping document(s) to verify the entries on the consignee copy of the DD Form 250 forwarded by the contractor (reference F-401, Table 1) before signing Block 21b.

(ii) *Overseas.* The same criteria as for contiguous United States applies, except the consolidation period may be extended, if acceptable to the receiving activity, shipping activity, Government finance office, and the authorized Government representative having cognizance at the contractor's facility. In addition, the contractor may include more than one contract line item in each WAWF RR or DD Form 250 if the shipped to, marked for, shipped from, mode of shipment, contract quality assurance, and acceptance data are the same for all line items.

(6) *Consolidation of Coal Shipments on a Single WAWF RR or DD 250.* Contractors may consolidate multiple railcar or truck shipments of coal made on the same day, to the same destination, against the same contract line items, on one WAWF RR or DD 250. To permit verification of truck deliveries, assign each load a load number which can be identified to the shipment number in Block 2 of the DD Form 250 and the analytical test report. Include a commercial shipping document with each individual truck load showing as a minimum—

- (i) The shipper;
- (ii) The name or names;
- (iii) Location and shipping point of the mine or mines from which the coal originates;
- (iv) The contract number;
- (v) The exact size of the coal shipped; and

Appendix F--Material Inspection and Receiving Report

- (vi) A certified weighmaster's certification of weight for the truckload.

Include a waybill with each rail shipment showing the identical information. To permit verification of rail deliveries, identify each railcar number comprising the shipment to the shipment number in Block 2 of the DD Form 250 and the analytical test report. When acceptance is at destination, the receiving activity must retain the shipping document(s) to verify the entries on the consignee copy of the DD Form 250.

(b) *WAWF RRR or DD Form 250*. Use as in paragraph (a) of this section for delivery of services for repair, overhaul, or maintenance.

(c) *WAWF Energy RR or the DD Form 250-1*.

- (1) Use a separate form for each tanker or barge cargo loaded.
- (2) The contractor may report more than one barge in the same tow on a single form if on the same contract and consigned to the same destination.
- (3) When liftings involve more than one contract, prepare separate forms to cover the portion of cargo loaded on each contract.
- (4) Prepare a separate form for each product or grade of product loaded.
- (5) Use a separate document for each tanker or barge cargo and each grade of product discharged.
- (6) For discharge, the contractor may report more than one barge in the same tow on a single form if from the same loading source.

**PART 2—CONTRACT QUALITY ASSURANCE ON SHIPMENTS
BETWEEN CONTRACTORS**

F-201 Procedures.

Follow the procedures at PGI [F-201](#) for evidence of required Government contract quality assurance at a subcontractor's facility.

**PART 3—PREPARATION OF THE WIDE AREA WORKFLOW (WAWF)
RECEIVING REPORT (RR), WAWF REPARABLE RECEIVING REPORT
(WAWF RRR), AND WAWF ENERGY RR**

F-301 Preparation instructions.

(a) *General.*

(1) Preparation instructions and training for the WAWF RR are available at <https://wawftraining.eb.mil>. The instructions on preparing a WAWF RR are part of the Vendor Training section.

(2) Prime contractors can direct subcontractors to prepare and submit documents in WAWF by giving their subcontractors access to WAWF via the creation of a Commercial and Government Entity (CAGE) extension to the prime CAGE.

(3) If the contract is in Electronic Document Access (EDA) (DoD's contract repository), then the WAWF system will automatically populate all available and applicable contract data.

(i) When source acceptance is required, WAWF will populate the "Inspect By" with the "Admin by" Department of Defense Activity Address Code (DoDAAC). The vendor shall change the DoDAAC if Government Source Inspection (GSI) is performed at other than the "Admin By."

(ii) Any fields that have been pre-filled may be changed.

(iii) WAWF will also verify that CAGE codes are valid and active in the System for Award Management (SAM), and that DoDAACs and Military Assistance Program Address Codes (MAPACs) are valid in Defense Automatic Addressing System (DAAS).

(4) WAWF will populate the address information for CAGE codes, DODAACs, and MAPACs from SAM and DAAS. These sites are the DoD definitive sources for address information. Any fields that have been pre-filled may be changed or additional information added.

(5) Do not include classified information in WAWF.

(b) *Completion instructions.*

(1) CONTRACT NO/DELIVERY ORDER NO.

(i) For stand-alone contracts, enter the 13-position alpha-numeric basic Procurement Instrument Identifier (PIID) of the contract. For task and delivery orders numbered in accordance with FAR 4.1603 and DFARS [204.1603](#), enter the 13-character order number. The contract or agreement number under which the order was placed may be omitted from the WAWF RR. Alternatively, the contractor may choose to enter the contract number on the WAWF RR in addition to the 13-character order number. If the order has only a four-position alpha-numeric call or order serial number, enter both the 13-position basic contract PIID and the four-position order number.

Defense Federal Acquisition Regulation Supplement

Appendix F--Material Inspection and Receiving Report

(ii) Except as indicated in paragraph (b)(1)(iii) of this appendix, do not enter supplementary numbers used in conjunction with basic PIIDs to identify—

- (A) Modifications of contracts and agreements;
- (B) Modifications to calls or orders; or
- (C) Document numbers representing contracts written between contractors.

(iii) When shipping instructions are furnished and shipment is made before receipt of the confirming contract modification (SF 30, Amendment of Solicitation/Modification of Contract), enter a comment in the Misc. Info Tab to this effect. This will appear in the Comments section of the printed WAWF RR.

(2) SHIPMENT NO.

(i) The shipment number format requires first three data positions to be alpha, fourth position alpha-numeric and last three positions numeric, e.g., DFAR001 or DAR0001. Any document used as a packing list must include the shipment number information.

(A) The prime contractor shall control and assign the shipment number prefix. The shipment number shall consist of three alphabetic characters for each “Shipped From” address. The shipment number prefix shall be different for each “Shipped From” address and shall remain constant throughout the life of the contract. The prime contractor may assign separate prefixes when shipments are made from different locations within a facility identified by one “Shipped From” address.

(B) Number the first shipment 0001 for shipments made under the contract or contract and order number from each “Shipped From” address, or shipping location within the “Shipped From” address. Consecutively number all subsequent shipments with the identical shipment number prefix. While shipments should be created sequentially they can be released and accepted out of sequence.

(1) Use alpha-numeric serial numbers when more than 9,999 numbers are required. Serially assign alpha-numeric numbers with the alpha in the first position (the letters I and O shall not be used) followed by the three-position numeric serial number. Use the following alpha-numeric sequence:

A000 through A999 (10,000 through 10,999)
B000 through B999 (11,000 through 11,999)
Z000 through Z999 (34,000 through 34,999)

(2) When this series is completely used, the shipment number prefix will have to be changed when the series is completely used. WAWF will not allow duplicate shipment numbers to be created against a contract or contract and delivery order.

Defense Federal Acquisition Regulation Supplement

Appendix F—Material Inspection and Receiving Report

(ii) Reassign the shipment number of the initial shipment where a “Replacement Shipment” is involved (see paragraph (b)(16)(iv)(F) of this appendix).

(iii) The prime contractor shall control deliveries and on the final shipment of the contract shall end the shipment number with a “Z.” Where the final shipment is from other than the prime contractor's plant, the prime contractor may elect either to—

(A) Direct the subcontractor making the final shipment to end that shipment number with a “Z”; or

(B) Upon determination that all subcontractors have completed their shipments, to correct the DD Form 250 (see [F-304](#)) covering the final shipment made from the prime contractor's plant by addition of a “Z” to that shipment number.

(iv) Contractors follow the procedures in [F-305](#) to use commercial invoices.

(3) DATE SHIPPED. Enter the date the shipment is released to the carrier or the date the services are completed. If the shipment will be released after the date of contract quality assurance and/or acceptance, enter the estimated date of release. When the date is estimated, enter an “E” or select an “E” from the drop down menu in the “Estimated” block after the date. Do not delay submission of the WAWF RR for lack of entry of the actual shipping date. Correction of the WAWF RR is not required to show the actual shipping date (see [F-303](#)). Once the document is submitted the shipment date cannot be changed.

(4) B/L TCN. When applicable, enter—

(i) The commercial or Government bill of lading number after “B/L,” WAWF provides the capability to separately and correctly identify the Government Bill of Lading (GBL) from a Commercial Bill of Lading (CBL). An authorized user will select whether the entered bill of lading number is either a GBL number or a CBL number.

(ii) The transportation control number must be a 17 alpha/numeric digit min/max field, and WAWF provides the capability to enter two secondary transportation tracking numbers.

(5) LINE HAUL MODE. Select the Line Haul Mode of Shipment code from a drop down menu in WAWF.

(6) INSPECTION AND ACCEPTANCE POINT. Enter an “S” for Origin or “D” for Destination. In addition to “S” and “D,” WAWF allows acceptance at Other (O). For purposes of conforming to contract, “O” is equivalent to “D”. In WAWF, destination acceptance is performed by the “Ship to” DODAAC organization and “Other” permits the acceptance of destination documents at a location other than the “Ship to.” The goods or services will be shipped to one location and the paperwork will be routed to another location for the actual acceptance.

(7) PRIME CONTRACTOR/CODE. Enter the prime CAGE code to which the contract was awarded.

Defense Federal Acquisition Regulation Supplement

Appendix F--Material Inspection and Receiving Report

(8) ADMINISTERED BY/CODE. Enter the DoDAAC code of the contract administration office cited in the contract.

(9) SHIPPED FROM/CODE

(i) Enter the CAGE or DoDAAC code of the "Shipped From" location. If it is the same as the CAGE code leave blank.

(ii) For performance of services line items which do not require delivery of items upon completion of services, enter the code of the location at which the services were performed. As mentioned in (i) above, if identical to the prime CAGE code leave blank.

(10) FOB. Enter an "S" for Origin or "D" for Destination as specified in the contract. Enter an alphabetic "O" if the "FOB" point cited in the contract is other than origin or destination.

(11) PAYMENT WILL BE MADE BY/CODE. Enter the DoDAAC code of the payment office cited in the contract.

(12) SHIPPED TO/CODE. Enter the DoDAAC, MAPAC, or CAGE code from the contract or shipping instructions.

(13) MARKED FOR/CODE. Enter the code from the contract or shipping instructions. Only valid DoDAACs, MAPACs, or CAGE codes can be entered. Vendors should use the WAWF "Mark for Rep" and "Mark for Secondary" fields for textual marking information specified in the contract. Enter the three-character project code when provided in the contract or shipping instructions.

(14) ITEM NO. Enter the item number used in the contract. Use a valid 4 or 6 character line item number under the Uniform Contract Line Item Numbering System (see [204.71](#)). Line item numbers with 6 characters with numbers in the final two positions are not deliverable or billable.

(15) STOCK/PART NUMBER/DESCRIPTION.

(i) Enter the following for each line item:

(A) The national stock number (NSN) or noncatalog number. If the contract contains NSNs as well as other identification (e.g. part numbers) the contractor should place the NSN information in the Stock Part Number field and the remaining numbers in the line item description field. The data entered in the NSN field must reflect the NSN of the material item being shipped and should be a valid NSN, 13 positions in length. In the "Type" drop-down field, select the corresponding type for the data entered. If no National Stock Number (NSN) or other valid "Type" is available, the word "NONE" may be entered for the Stock/Part Number, with a corresponding "Type" of any value other than NSN selected from the drop-down box.

(B) In the description field, if required by the contract for control purposes, enter: the make, model, serial number, lot, batch, hazard indicator, or similar description.

Defense Federal Acquisition Regulation Supplement

Appendix F--Material Inspection and Receiving Report

(C) The Military Standard Requisitioning and Issue Procedures (MILSTRIP) must be placed on the MILSTRIP Tab, not in the line item description field. Enter the MILSTRIP data for each CLIN when MILSTRIP data is identified in the contract.

(ii) For service line items, select SV for "SERVICE" in the type field followed by as short a description as is possible in the description field. Some examples of service line items are maintenance, repair, alteration, rehabilitation, engineering, research, development, training, and testing.

(A) For WAWF RRRs, the "Ship To" code is the DoDAAC, MAPAC, or CAGE code from the contract or shipping instructions.

(B) For service line items not using a WAWF RRR, the "Ship To" code and the "Unit" shall be filled out. The "Ship To" code is the destination Service Acceptor Code for WAWF. If source inspected and accepted, enter the service performance location as the "Ship To" code.

(iii) For all contracts administered by the Defense Contract Management Agency, with the exception of fast pay procedures, enter the gross weight of the shipment.

(iv) In the description field enter the following as appropriate (entries may be extended through Block 20).

(A) Enter in capital letters any special handling instructions/limits for material environmental control, such as temperature, humidity, aging, freezing, shock, etc.

(B) When a shipment is chargeable to Navy appropriation 17X4911, enter the appropriation, bureau control number (BCN), and authorization accounting activity (AAA) number (e.g., 17X4911-14003-104).

(C) When the Navy transaction type code (TC), "2T" or "7T" is included in the appropriation data, enter "TC 2T" or "TC 7T."

(D) When an NSN is required by but not cited in a contract and has not been furnished by the Government, the contractor may make shipment without the NSN at the direction of the contracting officer. Enter the authority for such shipment.

(E) When Government furnished property (GFP) is included with or incorporated into the line item, enter the letters "GFP."

(F) On shipments of Government furnished aeronautical equipment (GFAE) under Air Force contracts, enter the assignment AERNO control number, e.g., "AERNO 60-6354."

(G) For items shipped with missing components, enter and complete the following:

Defense Federal Acquisition Regulation Supplement

Appendix F--Material Inspection and Receiving Report

“Item(s) shipped short of the following component(s):
NSN or comparable identification _____,
Quantity _____, Estimated Value _____,
Authority _____”

(H) When shipment is made of components which were short on a prior shipment, enter and complete the following:

“These components were listed as shortages on shipment
number _____, date shipped _____”

(I) When shipments involve drums, cylinders, reels, containers, skids, etc., designated as returnable under contract provisions, enter and complete the following:

“Return to _____, Quantity _____,
Item _____, Ownership (Government/contractor).”

(J) Enter the total number of shipping containers, the type of containers, and the container number(s) assigned for the shipment.

(K) On foreign military sales (FMS) shipments, enter the special markings, and FMS case identifier from the contract. Also enter the gross weight.

(L) When test/evaluation results are a condition of acceptance and are not available prior to shipment, the following note shall be entered if the shipment is approved by the contracting officer:

“Note: Acceptance and payment are contingent
upon receipt of approved test/evaluation results.”

The contracting officer will advise—

(1) The consignee of the results (approval/disapproval); and

(2) The contractor to withhold invoicing pending attachment of the approved test/evaluation results.

(M) For clothing and textile contracts containing a bailment clause, enter the words “GFP UNIT VALUE.”

(N) When the initial unit incorporating an approved value engineering change proposal (VECP) is shipped, enter the following statement:

This is the initial unit delivered which incorporates VECP
No. _____, Contract Modification
No. _____, dated _____

(16) QUANTITY SHIPPED/RECEIVED.

(i) Enter the quantity shipped, using the unit of measure in the contract for payment. When a second unit of measure is used for purposes other than payment, enter the appropriate quantity in the description field.

(ii) On the final shipment of a line item of a contract containing a clause permitting a variation of quantity and an underrun condition exists, the prime contractor shall choose the Ship Advice Code "Z". Where the final shipment is from other than the prime contractor's plant and an underrun condition exists, the prime contractor may elect to direct the subcontractor making the final shipment to choose the Ship Advice Code "Z";

(iii) When the Government is performing destination acceptance the acceptor should enter actual quantity received in apparent good condition in the "Qty. Accepted" field of the Acceptor Line Item Tab.

(17) UNIT OF MEASURE. Enter the abbreviation of the unit measure as indicated in the contract for payment. Where a second unit of measure is indicated in the contract for purposes other than payment or used for shipping purposes, enter the second unit of measure in the description field. Authorized abbreviations are listed in MIL-STD-129, Marking for Shipping and Storage and in the WAWF Unit of Measure Table Link. For example, LB for pound, SH for sheet.

(18) UNIT PRICE. The contractor shall enter unit prices on all WAWF RR copies. When using the WAWF RRR, the unit price is the price of the repair, overhaul, or maintenance service from the contract.

(i) The contractor shall enter unit prices for each item of property fabricated or acquired for the Government and delivered to a contractor as Government furnished property (GFP). Get the unit price from Section B of the contract. If the unit price is not available, use an estimate. The estimated price should be the contractor's estimate of what the items cost the Government. When the price is estimated, enter "Estimated Unit Price" in the description field. However, if the contract has Item Unique Identification (IUID) requirements and the receiving report is being processed in WAWF, the unit price must represent the acquisition cost that will be recorded in the IUID registry. Therefore, the unit price is required (see the clause at DFARS [252.211-7003](#), Item Unique Identification and Valuation). When delivering GFP via WAWF to another contractor, WAWF will initiate a property transfer if the vendor who is initiating the WAWF RR is also registered as a vendor property shipper in WAWF and the vendor receiving the property is also a vendor property receiver in WAWF.

(ii) For clothing and textile contracts containing a bailment clause, enter the cited Government furnished property unit value as "GFP UNIT VALUE" in the description field.

(19) AMOUNT. WAWF will calculate and populate the amount by multiplying the unit price times the quantity.

(20) CONTRACT QUALITY ASSURANCE (CQA).

Appendix F--Material Inspection and Receiving Report

(i) The words “conform to contract” contained in the text above the signature block in the WAWF RR Header Tab relate to quality and to the quantity of the items on the report. Enter notes taking exception in Misc. Info Tab comment field or on attached supporting documents with an appropriate block cross-reference.

(ii) When a shipment is authorized under an alternative release procedure, contractors will execute the alternative release procedure in WAWF by including the appropriate indicator in the electronic transaction rather than through inclusion or attachment of the text of the certificate. The alternative release procedure only provides for release of shipment; Government acceptance must still be indicated by a Government official's signature on the WAWF RR.

(iii) When contract terms provide for use of Certificate of Conformance and shipment is made under these terms, contractors will execute Certificates in WAWF by including the appropriate indicator in the electronic transaction rather than through inclusion or attachment of the text of the certificate. Government acceptance must still be indicated by a Government official's signature on the WAWF RR.

(iv) *ORIGIN.*

(A) The authorized Government representative must:—

(1) Place an “X” in the appropriate CQA and/or acceptance box(es) to show origin CQA and/or acceptance; and

(2) Sign and date.

WAWF will enter the typed, stamped, or printed name, title, email address, and commercial telephone number.

(B) When fast pay procedures apply, the contractor or subcontractor shall select “FAST PAY” when creating the WAWF RR. When CQA is required, the authorized Government representative shall execute the block as required by paragraph (A).

(v) *DESTINATION.* When CQA and acceptance or acceptance is at destination, the authorized Government representative must—

(A) Place an “X” in the appropriate box(es); and

(B) Sign and date.

WAWF will enter the typed, stamped, or printed name, title, email address, and commercial telephone number.

F-303 Consolidated shipments.

When individual shipments are held at the contractor's plant for authorized transportation consolidation to a single bill of lading, the contractor may prepare the WAWF RR or WAWF RRR at the time of CQA or acceptance prior to the time of actual shipment.

F-304 Correction instructions.

Functionality for correcting a WAWF RR or WAWF RRR is available for Defense Contract Management Agency administered contracts paid using the Mechanization of Contract Administration Services system with source acceptance. Preparation instructions and training for corrections is available at <https://wawftraining.eb.mil>. The instructions are part of the Vendor Training section.

F-305 Invoice instructions.

Contractors shall submit payment requests and receiving reports in electronic form, unless an exception in DFARS [232.7002](#) applies. Contractor submission of the material inspection and receiving information required by this appendix by using the WAWF electronic form (see paragraph (b) of the clause at DFARS [252.232-7003](#)) fulfills the requirement for a DD Form 250 MIRR. Contractors should ensure the packaging documentation includes a Government signed receiving report when the contract requires origin inspection and acceptance. Contractors must include a signed document indicating material receipt and acceptance has occurred in the container with the exception of material shipments that are approved for Alternative Release Procedures (ARP).

Appendix F--Material Inspection and Receiving Report

F-306 Packing list instructions.

Contractors may also use a WAWF processed RR, including the WAWF RRR, as a packing list. WAWF provides options to print the RR. These printed RRs may also be used if a signed copy is required.

(a) WAWF provides a print capability for its RR. The WAWF printed RR can be identified by its distinctive format and by the text title at the top of each printed page "Material Inspection and Receiving Report in accordance with DFARS Appendix F. Paper DD Form 250 is usable in lieu of this document on an exception basis." (See DFARS [252.232-7003\(c\)](#)). This printed copy can be used as a packing list. If needed, the signature can be verified by reviewing the signed RR in WAWF.

(b) Contractors can also print a RR from their systems (not WAWF). If such a signed copy is required by the contractor, the contractor will print the WAWF RR only after a signature is applied by the Government Inspector or Acceptor in WAWF. Copies printed will be annotated with "\\original signed in WAWF\\" in lieu of the inspector/acceptor's signature.

F-307 Receiving instructions.

If CQA and acceptance or acceptance of supplies is required upon arrival at destination, see [F-301\(b\)\(20\)\(v\)](#) for instructions.

PART 4—PREPARATION OF THE DD FORM 250 AND DD FORM 250C

F-401 Preparation instructions.

(a) *General.*

(1) Dates must use nine spaces consisting of the four digits of the year, three-position alphabetic month abbreviation, and two digits for the day. For example, 2000AUG07, 2000SEP24.

(2) Addresses must consist of the name, street address/P.O. box, city, state, and ZIP code.

(3) Enter to the right of and on the same line as the word “Code” in Blocks 9 through 12 and in Block 14—

(i) The Commercial and Government Entity Handbook (H4/H8) code;

DD Forms 250 at the time of CQA or acceptance prior to the time of actual shipment (see Block 3).

F-404 Multiple consignee instructions.

The contractor may prepare one MIRR when the identical line item(s) of a contract are to be shipped to more than one consignee, with the same or varying quantities, and the shipment requires origin acceptance. Prepare the MIRR using the procedures in this appendix with the following changes:

- (a) Blocks 2, 4, 13, and, if applicable, 14--Enter "See Attached Distribution List."

- (d) Use the DD Form 250c to list each individual "Shipped To" and "Marked For" with—
 - (1) Code(s) and complete shipping address and a sequential shipment number for each;
 - (2) Line item number(s);
 - (3) Quantity;
 - (4) MIPR number(s), preceded by "MIPR," or the MILSTRIP requisition number, and quantity for each when provided in the contract or shipping instructions; and
 - (5) If applicable, bill of lading number, TCN, and mode of shipment code.
- (e) The contractor may omit those distribution list pages of the DD Form 250c that are not applicable to the consignee. Provide a complete MIRR for all other distribution.

F-405 Correction instructions.

Make a new revised MIRR or correct the original when, because of errors or omissions, it is necessary to correct the MIRR after distribution has been made. Use data identical to that of the original MIRR. Do not correct MIRRs for Blocks 19 and 20 entries. Make the corrections as follows--

- (a) Circle the error and place the corrected information in the same block; if space is limited, enter the corrected information in Block 16 referencing the error page and block. Enter omissions in Block 16 referencing omission page and block. For example—

2. SHIPMENT NO.

16. STOCK/PART NO. DESCRIPTION

CORRECTIONS:

Refer Block 2: Change shipment No. AAA001 to AAA0010 on all pages of the MIRR.

Refer Blocks 15, 16, 17, and 18, page 2: Delete in entirety Line Item No. 0006. This item was not shipped.

(b) When corrections have been made to entries for line items (Block 15) or quantity (Block 17), enter the words "CORRECTIONS HAVE BEEN VERIFIED" on page 1. The authorized Government representative will date and sign immediately below the statement. This verification statement and signature are not required for other corrections.

F-406 Invoice instructions.

(a) Contractors shall submit payment requests and receiving reports in electronic form, unless an exception in DFARS [232.7002](#) applies. Contractor submission of the material inspection and receiving information required by this appendix by using the WAWF electronic form (see paragraph (b) of the clause at DFARS [252.232-7003](#)) fulfills the requirement for an MIRR.

(b) If the contracting officer authorizes the contractor to submit an invoice in paper form, the Government encourages, but does not require, the contractor to use the MIRR as an invoice, in lieu of a commercial form. If commercial forms are used, identify the related MIRR shipment number(s) on the form. If using the MIRR as an invoice, prepare the MIRR and forward the required number of copies to the payment office as follows:

(1) Complete Blocks 5, 6, 19, and 20. Block 6 shall contain the invoice number and date. Column 20 shall be totaled.

Questions regarding the appropriate number of copies (i.e., one or four) should be directed to the applicable payment office.

Appendix F--Material Inspection and Receiving Report

(3) Forward the appropriate number of copies to the payment office (Block 12 address), except when acceptance is at destination and a Navy finance office will make payment, forward to destination.

(4) Separate the copies of the MIRR used as an invoice from the copies of the MIRR used as a receiving report.

F-407 Packing list instructions.

Contractors may use copies of the MIRR as a packing list. The packing list copies are in addition to the copies of the MIRR required for standard distribution (see [F-501](#)). Mark them "PACKING LIST."

F-408 Receiving instructions.

When the MIRR is used for receiving purposes, local directives shall prescribe procedures. If CQA and acceptance or acceptance of supplies is required upon arrival at destination, see [F-401](#)(b)(21)(v) for instructions.

DEBARMENT AND SUSPENSION PROCEDURES

DEBARMENT AND SUSPENSION PROCEDURES

H-100 Scope.

This appendix provides uniform debarment and suspension procedures to be followed by all debarring and suspending officials.

H-101 Notification.

Contractors will be notified of the proposed debarment or suspension in accordance with FAR 9.406-3 or 9.407-3. A copy of the record which formed the basis for the decision by the debarring and suspending official will be made available to the contractor. If there is a reason to withhold from the contractor any portion of the record, the contractor will be informed of what is withheld and the reasons for such withholding.

H-102 Nature of proceeding.

There are two distinct proceedings which may be involved in the suspension or debarment process. The first is the presentation of matters in opposition to the suspension or proposed debarment by the contractor. The second is fact-finding which occurs only in cases in which the contractor's presentation of matters in opposition raises a genuine dispute over one or more material facts. In a suspension action based upon an indictment or in a proposed debarment action based upon a conviction or civil judgment, there will be no fact-finding proceeding concerning the matters alleged in the indictment, or the facts underlying the convictions or civil judgment. However, to the extent that the proposed action stems from the contractor's affiliation with an individual or firm indicted or convicted, or the subject of a civil judgment, fact-finding is permitted if a genuine dispute of fact is raised as to the question of affiliation as defined in FAR 9.403.

H-103 Presentation of matters in opposition.

(a) In accordance with FAR 9.406-3(c) and 9.407-3(c), matters in opposition may be presented in person, in writing, or through a representative. Matters in opposition may be presented through any combination of the foregoing methods, but if a contractor desires to present matters in person or through a representative, any written material should be delivered at least 5 working days in advance of the presentation. Usually, all matters in opposition are presented in a single proceeding. A contractor who becomes aware of a pending indictment or allegations of wrongdoing that the contractor believes may lead to suspension or debarment action may contact the debarring and suspending official or designee to provide information as to the contractor's present responsibility.

(b) An in-person presentation is an informal meeting, nonadversarial in nature. The debarring and suspending official and/or other agency representatives may ask questions of the contractor or its representative making the presentation. The contractor may select the individuals who will attend the meeting on the contractor's behalf; individual respondents or principals of a business firm respondent may attend and speak for themselves.

(c) In accordance with FAR 9.406-3(c) and 9.407-3(c), the contractor may submit matters in opposition within 30 days from receipt of the notice of suspension or proposed debarment.

Appendix H—Debarment and Suspension Procedures

(d) The opportunity to present matters in opposition to debarment includes the opportunity to present matters concerning the duration of the debarment.

H-104 Fact-finding.

(a) The debarring and suspending official will determine whether the contractor's presentation has raised a genuine dispute of material fact(s). If the debarring and suspending official has decided against debarment or continued suspension, or the provisions of FAR 9.4 preclude fact-finding, no fact-finding will be conducted. If the debarring and suspending official has determined a genuine dispute of material fact(s) exists, a designated fact-finder will conduct the fact-finding proceeding. The proceeding before the fact-finder will be limited to a finding of the facts in dispute as determined by the debarring and suspending official.

(b) The designated fact-finder will establish the date for a fact-finding proceeding, normally to be held within 45 working days of the contractor's presentation of matters in opposition. An official record will be made of the fact-finding proceeding.

(c) The Government's representative and the contractor will have an opportunity to present evidence relevant to the facts at issue. The contractor may appear in person or through a representative in the fact-finding proceeding.

(d) Neither the Federal Rules of Evidence nor the Federal Rules of Civil Procedure govern fact-finding. Hearsay evidence may be presented and will be given appropriate weight by the fact-finder.

(e) Witnesses may testify in person. Witnesses will be reminded of the official nature of the proceeding and that any false testimony given is subject to criminal prosecution. Witnesses are subject to cross-examination.

H-105 Timing requirements.

All timing requirements set forth in these procedures may be extended by the debarring and suspending official for good cause.

H-106 Subsequent to fact-finding.

(a) Written findings of fact will be prepared by the fact-finder as mandated by FAR 9.406-3(d)(2)(i) and 9.407-3(d)(2)(i).

(b) The fact-finder will determine the disputed fact(s) by a preponderance of the evidence. A copy of the findings of fact will be provided to the debarring and suspending official, the Government's representative, and the contractor.

(c) The debarring and suspending official will determine whether to continue the suspension or to debar the contractor based upon the entire administrative record, including the findings of fact.

(d) Prompt written notice of the debarring and suspending official's decision will be sent to the contractor and any affiliates involved, in compliance with FAR 9.406-3(e) and 9.407-3(d)(4).

I-100 Purpose.

(a) This Appendix I to 48 CFR Chapter 2 implements the Pilot Mentor-Protege Program (hereafter referred to as the “Program”) established under Section 831 of Pub. L. 101-510, the National Defense Authorization Act for Fiscal Year 1991 (10 U.S.C. 2302 note). The purpose of the Program is to—

(1) Provide incentives to major DoD contractors, performing under at least one active approved subcontracting plan negotiated with DoD or another Federal agency, to assist protege firms in enhancing their capabilities to satisfy DoD and other contract and subcontract requirements;

(2) Increase the overall participation of protege firms as subcontractors and suppliers under DoD contracts, other Federal agency contracts, and commercial contracts; and

(3) Foster the establishment of long-term business relationships between protege firms and such contractors.

(b) Under the Program, eligible companies approved as mentor firms will enter into mentor-protege agreements with eligible protege firms to provide appropriate developmental assistance to enhance the capabilities of the protege firms to perform as subcontractors and suppliers. DoD may provide the mentor firm with either cost reimbursement or credit against applicable subcontracting goals established under contracts with DoD or other Federal agencies.

(c) DoD will measure the overall success of the Program by the extent to which the Program results in—

(1) An increase in the dollar value of contract and subcontract awards to protege firms (under DoD contracts, contracts awarded by other Federal agencies, and commercial contracts) from the date of their entry into the Program until 2 years after the conclusion of the agreement;

(2) An increase in the number and dollar value of subcontracts awarded to a protege firm (or former protege firm) by its mentor firm (or former mentor firm); and

(3) An increase in the employment level of protege firms from the date of entry into the Program until 2 years after the completion of the agreement.

(d) This policy sets forth the procedures for participation in the Program applicable to companies that are interested in receiving—

(1) Reimbursement through a separate contract line item in a DoD contract or a separate contract with DoD; or

I-106 Development of mentor-protege agreements.

(a) Prospective mentors and their proteges may choose to execute letters of intent prior to negotiation of mentor-protege agreements.

(b) The agreements should be structured after completion of a preliminary assessment of the developmental needs of the protege firm and mutual agreement regarding the developmental assistance to be provided to address those needs and enhance the protege's ability to perform successfully under contracts or subcontracts.

(c) A mentor firm may not require a protege firm to enter into a mentor-protege agreement as a condition for award of a contract by the mentor firm, including a subcontract under a DoD contract awarded to the mentor firm.

(d) The mentor-protege agreement may provide for the mentor firm to furnish any or all of the following types of developmental assistance:

(1) Assistance by mentor firm personnel in—

(i) General business management, including organizational management, financial management, and personnel management, marketing, business development, and overall business planning;

(ii) Engineering and technical matters such as production inventory control and quality assurance; and

(iii) Any other assistance designed to develop the capabilities of the protege firm under the developmental program.

(2) Award of subcontracts under DoD contracts or other contracts on a noncompetitive basis.

(3) Payment of progress payments for the performance of subcontracts by a protege firm in amounts as provided for in the subcontract; but in no event may any such progress payment exceed 100 percent of the costs incurred by the protege firm for the performance of the subcontract. Provision of progress payments by a mentor firm to a protege firm at a rate other than the customary rate for the firm must be implemented in accordance with FAR 32.504(c).

(4) Advance payments under such subcontracts. The mentor firm must administer advance payments in accordance with FAR Subpart 32.4.

(5) Loans.

(6) Investment(s) in the protege firm in exchange for an ownership interest in the protege firm, not to exceed 10 percent of the total ownership interest. Investments may include, but are not limited to, cash, stock, and contributions in kind.

(7) Assistance that the mentor firm obtains for the protege firm from one or more of the following:

(i) Small Business Development Centers established pursuant to Section 21 of the Small Business Act (15 U.S.C. 648).

(ii) Entities providing procurement technical assistance pursuant to 10 U.S.C. Chapter 142 (Procurement Technical Assistance Centers).

(iii) Historically Black colleges and universities.

(iv) Minority institutions of higher education.

(e) Pursuant to FAR 31.109, approved mentor firms seeking either reimbursement or credit are strongly encouraged to enter into an advance agreement with the contracting officer responsible for determining final indirect cost rates under FAR 42.705. The purpose of the advance agreement is to establish the accounting treatment of the costs of the developmental assistance pursuant to the mentor-protege agreement prior to the incurring of any costs by the mentor firm. An advance agreement is an attempt by both the Government and the mentor firm to avoid possible subsequent dispute based on questions related to reasonableness, allocability, or allowability of the costs of developmental assistance under the Program. Absent an advance agreement, mentor firms are advised to establish the accounting treatment of such costs and to address the need for any changes to their cost accounting practices that may result from the implementation of a mentor-protege agreement, prior to incurring any costs, and irrespective of whether costs will be reimbursed or credited.

(f) Developmental assistance provided under an approved mentor-protege agreement is distinct from, and must not duplicate, any effort that is the normal and expected product of the award and administration of the mentor firm's subcontracts. Costs associated with the latter must be accumulated and charged in accordance with the contractor's approved accounting practices; they are not considered developmental assistance costs eligible for either credit or reimbursement under the Program.

I-107 Elements of a mentor-protege agreement.

Each mentor-protege agreement will contain the following elements:

(a) The name, address, e-mail address, and telephone number of the mentor and protege points of contact;

(b) The NAICS code(s) that represent the contemplated supplies or services to be provided by the protege firm to the mentor firm and a statement that, at the time the agreement is submitted for approval, the protege firm, if an SDB, a women-owned small business, a HUBZone small business, or a service-disabled veteran-owned small business concern, does not exceed the size standard for the appropriate NAICS code;

(c) A statement that the protege firm is eligible to participate in accordance with I-102(b);

(d) A statement that the mentor is eligible to participate in accordance with I-102;

(e) A preliminary assessment of the developmental needs of the protege firm;

(f) A developmental program for the protege firm specifying the type of assistance the mentor will provide to the protege and how that assistance will--

(1) Increase the protege's ability to participate in DoD, Federal, and/or commercial contracts and subcontracts; and

(2) Increase small business subcontracting opportunities in industry categories where eligible proteges or other small business firms are not dominant in the company's vendor base;

(g) Factors to assess the protege firm's developmental progress under the Program, including specific milestones for providing each element of the identified assistance;

(h) An estimate of the dollar value and type of subcontracts that the mentor firm will award to the protege firm, and the period of time over which the subcontracts will be awarded;

(i) A statement from the protege firm indicating its commitment to comply with the requirements for reporting and for review of the agreement during the duration of the agreement and for 2 years thereafter;

(j) A program participation term for the agreement that does not exceed 3 years. Requests for an extension of the agreement for a period not to exceed an additional 2 years are subject to the approval of the cognizant Component Director, SBP. The justification must detail the unusual circumstances that warrant a term in excess of 3 years;

(k) Procedures for the mentor firm to notify the protege firm in writing at least 30 days in advance of the mentor firm's intent to voluntarily withdraw its participation in the Program. A mentor firm may voluntarily terminate its mentor-protege agreement(s) only if it no longer wants to be a participant in the Program as a mentor firm. Otherwise, a mentor firm must terminate a mentor-protege agreement for cause;

(l) Procedures for the mentor firm to terminate the mentor-protege agreement for cause which provide that—

(1) The mentor firm must furnish the protege firm a written notice of the proposed termination, stating the specific reasons for such action, at least 30 days in advance of the effective date of such proposed termination;

(2) The protege firm must have 30 days to respond to such notice of proposed termination, and may rebut any findings believed to be erroneous and offer a remedial program;

(3) Upon prompt consideration of the protege firm's response, the mentor firm must either withdraw the notice of proposed termination and continue the protege firm's participation, or issue the notice of termination; and

(4) The decision of the mentor firm regarding termination for cause, conforming with the requirements of this section, will be final and is not reviewable by DoD;

(m) Procedures for a protege firm to notify the mentor firm in writing at least 30 days in advance of the protege firm's intent to voluntarily terminate the mentor-protege agreement;

- (n) Additional terms and conditions as may be agreed upon by both parties; and
- (o) Signatures and dates for both parties to the mentor-protege agreement.

I-108 Submission and approval of mentor-protege agreements.

(a) Upon solicitation or as determined by the cognizant DoD component, mentors will submit—

(1) A mentor application pursuant to I-105, if the mentor has not been previously approved to participate;

(2) A signed mentor-protege agreement pursuant to I-107;

(3) A statement as to whether the mentor is seeking credit or reimbursement of costs incurred;

(4) The estimated cost of the technical assistance to be provided, broken out per year;

(5) A justification if program participation term is greater than 3 years (Term of agreements may not exceed 5 years); and

(6) For reimbursable agreements, a specific justification for developmental costs in excess of \$1,000,000 per year.

(b) When seeking reimbursement of costs, cognizant DoD components may require additional information.

(c) The mentor-protege agreement must be approved by the cognizant Component Director, SBP, prior to incurring costs eligible for credit.

(d) The cognizant DoD component will execute a contract modification or a separate contract, if justified pursuant to I-103(b)(3), prior to the mentor's incurring costs eligible for reimbursement.

(e) Credit agreements that are not associated with an existing DoD program and/or component will be submitted for approval to Director, SBP, Defense Contract Management Agency (DCMA), via the mentor's cognizant administrative contracting officer.

(f) A prospective mentor that has identified Program funds to be made available from a DoD program manager must provide the information in paragraph (a) of this section through the program manager to the cognizant Component Director, SBP, with a letter signed by the program manager indicating the amount of funding that has been identified for the developmental assistance program.

I-109 Reimbursement agreements.

The following provisions apply to all reimbursable mentor-protege agreements:

Appendix I—Policy and Procedures for the DoD Pilot Mentor-Protege Program

(a) Assistance provided in the form of progress payments to a protege firm in excess of the customary progress payment rate for the firm will be reimbursed only if implemented in accordance with FAR 32.504(c).

(b) Assistance provided in the form of advance payments will be reimbursed only if the payments have been provided to a protege firm under subcontract terms and conditions similar to those in the clause at FAR 52.232-12, Advance Payments. Reimbursement of any advance payments will be made pursuant to the inclusion of the clause at DFARS [252.232-7005](#), Reimbursement of Subcontractor Advance Payments--DoD Pilot Mentor-Protege Program, in appropriate contracts. In requesting reimbursement, the mentor firm agrees that the risk of any financial loss due to the failure or inability of a protege firm to repay any unliquidated advance payments will be the sole responsibility of the mentor firm.

(c) The primary forms of developmental assistance authorized for reimbursement under the Program are identified in I-106(d). On a case-by-case basis, Component Directors, SBP, at their discretion, may approve additional incidental expenses for reimbursement, provided these expenses do not exceed 10 percent of the total estimated cost of the agreement.

(d) The total amount reimbursed to a mentor firm for costs of assistance furnished to a protege firm in a fiscal year may not exceed \$1,000,000 unless the cognizant Component Director, SBP, determines in writing that unusual circumstances justify reimbursement at a higher amount. Request for authority to reimburse in excess of \$1,000,000 must detail the unusual circumstances and must be endorsed and submitted by the program manager to the cognizant Component Director, SBP.

(e) Developmental assistance costs that are incurred pursuant to an approved reimbursable mentor-protege agreement, and have been charged to, but not reimbursed through, a separate contract, or through a separately priced contract line item added to a DoD contract, will not be otherwise reimbursed, as either a direct or indirect cost, under any other DoD contract, irrespective of whether the costs have been recognized for credit against applicable subcontracting goals.

I-110 Credit agreements.

I-110.1 Program provisions applicable to credit agreements.

(a) Developmental assistance costs incurred by a mentor firm for providing assistance to a protege firm pursuant to an approved credit mentor-protege agreement may be credited as if the costs were incurred under a subcontract award to that protege, for the purpose of determining the performance of the mentor firm in attaining an applicable subcontracting goal established under any contract containing a subcontracting plan pursuant to the clause at FAR 52.219-9, Small Business Subcontracting Plan, or the provisions of the DoD Comprehensive Subcontracting Plan Test Program. Unreimbursed developmental assistance costs incurred for a protege firm that is an eligible entity employing the severely disabled may be credited toward the mentor firm's small disadvantaged business subcontracting goal, even if the protege firm is not a small disadvantaged business concern.

(b) Costs that have been reimbursed through inclusion in indirect expense pools may also be credited as subcontract awards for determining the performance of the

mentor firm in attaining an applicable subcontracting goal established under any contract containing a subcontracting plan. However, costs that have not been reimbursed because they are not reasonable, allocable, or allowable will not be recognized for crediting purposes.

(c) Other costs that are not eligible for reimbursement pursuant to I-106(d) may be recognized for credit only if requested, identified, and incorporated in an approved mentor-protege agreement.

(d) The amount of credit a mentor firm may receive for any such unreimbursed developmental assistance costs must be equal to—

(1) Four times the total amount of such costs attributable to assistance provided by small business development centers, historically Black colleges and universities, minority institutions, and procurement technical assistance centers.

(2) Three times the total amount of such costs attributable to assistance furnished by the mentor's employees.

(3) Two times the total amount of other such costs incurred by the mentor in carrying out the developmental assistance program.

I-110.2 Credit adjustments.

(a) Adjustments may be made to the amount of credit claimed if the Director, SBP, OUSD(AT&L), determines that—

(1) A mentor firm's performance in the attainment of its subcontracting goals through actual subcontract awards declined from the prior fiscal year without justifiable cause; and

(2) Imposition of such a limitation on credit appears to be warranted to prevent abuse of this incentive for the mentor firm's participation in the Program.

(b) The mentor firm must be afforded the opportunity to explain the decline in small business subcontract awards before imposition of any such limitation on credit. In making the final decision to impose a limitation on credit, the Director, SBP, OUSD(AT&L), must consider—

(1) The mentor firm's overall small business participation rates (in terms of percentages of subcontract awards and dollars awarded) as compared to the participation rates existing during the 2 fiscal years prior to the firm's admission to the Program;

(2) The mentor firm's aggregate prime contract awards during the prior 2 fiscal years and the total amount of subcontract awards under such contracts; and

(3) Such other information the mentor firm may wish to submit.

(c) The decision of the Director, SBP, OUSD(AT&L), regarding the imposition of a limitation on credit will be final.

I-111 Agreement terminations.

(a) Mentors and/or proteges must send a copy of any termination notices to the cognizant Component Director, SBP, that approved the agreement, and the DCMA administrative contracting officer responsible for conducting the annual review pursuant to I-113.

(b) For reimbursable agreements, mentors must also send copies of any termination to the program manager and to the contracting officer.

(c) Termination of a mentor-protege agreement will not impair the obligations of the mentor firm to perform pursuant to its contractual obligations under Government contracts and subcontracts.

(d) Termination of all or part of the mentor-protege agreement will not impair the obligations of the protege firm to perform pursuant to its contractual obligations under any contract awarded to the protege firm by the mentor firm.

(e) Mentors and proteges will follow provisions of the mentor-protege agreement developed in compliance with I-107(k) through (m).

I-112 Reporting requirements.

I-112.1 Reporting requirements applicable to Individual Subcontract Reports (ISR), Summary Subcontract Reports (SSR) and SF 294s.

(a) Amounts credited toward applicable subcontracting goal(s) for unreimbursed costs under the Program must be separately identified on the appropriate ISR, SSR or SF 294 from the amounts credited toward the goal(s) resulting from the award of actual subcontracts to protege firms. The combination of the two must equal the mentor firm's overall accomplishment toward the applicable goal(s).

(b) A mentor firm may receive credit toward the attainment of an SDB subcontracting goal for each subcontract awarded by the mentor firm to an entity that qualifies as a protege firm pursuant to I-101.3 or I-101.5.

I-112.2 Program specific reporting requirements.

(a) Mentors must report on the progress made under active mentor-protege agreements semiannually for the periods ending March 31st and September 30th throughout the Program participation term of the agreement. The September 30th report must address the entire fiscal year.

(b) Reports are due 30 days after the close of each reporting period.

(c) Each report must include the following data on performance under the mentor-protege agreement:

(1) Dollars obligated (for reimbursable agreements).

(2) Expenditures.

Defense Federal Acquisition Regulation Supplement

Appendix I—Policy and Procedures for the DoD Pilot Mentor-Protege Program

(3) Dollars credited, if any, toward applicable subcontracting goals as a result of developmental assistance provided to the protege and a copy of the ISR or SF 294 and/or SSR for each contract where developmental assistance was credited.

(4) The number and dollar value of subcontracts awarded to the protege firm.

(5) Description of developmental assistance provided, including milestones achieved.

(6) Impact of the agreement in terms of capabilities enhanced, certifications received, and/or technology transferred.

(d) A recommended reporting format and guidance for its submission are available at: http://www.acq.osd.mil/osbp/mentor_protege/.

(e) The protege must provide data, annually by October 31st, on the progress made during the prior fiscal year by the protege in employment, revenues, and participation in DoD contracts during—

(1) Each fiscal year of the Program participation term; and

(2) Each of the 2 fiscal years following the expiration of the Program participation term.

(f) The protege report required by paragraph (e) of this section may be provided as part of the mentor report for the period ending September 30th required by paragraph (a) of this section.

(g) Progress reports must be submitted—

(1) For credit agreements, to the cognizant Component Director, SBP, that approved the agreement, and the mentor's cognizant DCMA administrative contracting officer; and

(2) For reimbursable agreements, to the cognizant Component Director, SBP, the contracting officer, the DCMA administrative contracting officer, and the program manager.

I-113 Performance reviews.

(a) DCMA will conduct annual performance reviews of the progress and accomplishments realized under approved mentor-protege agreements. These reviews must verify data provided on the semiannual reports and must provide information as to—

(1) Whether all costs reimbursed to the mentor firm under the agreement were reasonably incurred to furnish assistance to the protege in accordance with the mentor-protege agreement and applicable regulations and procedures; and

(2) Whether the mentor and protege accurately reported progress made by the protege in employment, revenues, and participation in DoD contracts during the

Program participation term and for 2 fiscal years following the expiration of the Program participation term.

(b) A checklist for annual performance reviews is available at http://www.acq.osd.mil/osbp/mentor_protege/.
