

## PRIVACY IMPACT ASSESSMENT (PIA)

For the

Enterprise Information System - DTRA - Unclassified (EIS-DTRA-U)
--

Defense Threat Reduction Agency (DTRA)
--

### SECTION 1: IS A PIA REQUIRED?

**a. Will this Department of Defense (DoD) information system or electronic collection of information (referred to as an "electronic collection" for the purpose of this form) collect, maintain, use, and/or disseminate PII about members of the public, Federal personnel, contractors or foreign nationals employed at U.S. military facilities internationally? Choose one option from the choices below. (Choose (3) for foreign nationals).**

- (1) Yes, from members of the general public.
- (2) Yes, from Federal personnel\* and/or Federal contractors.
- (3) Yes, from both members of the general public and Federal personnel and/or Federal contractors.
- (4) No

\* "Federal personnel" are referred to in the DoD IT Portfolio Repository (DITPR) as "Federal employees."

**b. If "No," ensure that DITPR or the authoritative database that updates DITPR is annotated for the reason(s) why a PIA is not required. If the DoD information system or electronic collection is not in DITPR, ensure that the reason(s) are recorded in appropriate documentation.**

**c. If "Yes," then a PIA is required. Proceed to Section 2.**

**SECTION 2: PIA SUMMARY INFORMATION**

**a. Why is this PIA being created or updated? Choose one:**

- New DoD Information System
- Existing DoD Information System
- Significantly Modified DoD Information System
- New Electronic Collection
- Existing Electronic Collection

**b. Is this DoD information system registered in the DITPR or the DoD Secret Internet Protocol Router Network (SIPRNET) IT Registry?**

- Yes, DITPR**      Enter DITPR System Identification Number
- Yes, SIPRNET**      Enter SIPRNET Identification Number
- No**

**c. Does this DoD information system have an IT investment Unique Project Identifier (UPI), required by section 53 of Office of Management and Budget (OMB) Circular A-11?**

- Yes**
- No**

If "Yes," enter UPI

If unsure, consult the Component IT Budget Point of Contact to obtain the UPI.

**d. Does this DoD information system or electronic collection require a Privacy Act System of Records Notice (SORN)?**

A Privacy Act SORN is required if the information system or electronic collection contains information about U.S. citizens or lawful permanent U.S. residents that is retrieved by name or other unique identifier. PIA and Privacy Act SORN information should be consistent.

- Yes**
- No**

If "Yes," enter Privacy Act SORN Identifier

DoD Component-assigned designator, not the Federal Register number.  
Consult the Component Privacy Office for additional information or  
access DoD Privacy Act SORNs at: <http://www.defenselink.mil/privacy/notices/>

or

**Date of submission for approval to Defense Privacy Office**

Consult the Component Privacy Office for this date.

**e. Does this DoD information system or electronic collection have an OMB Control Number?**

Contact the Component Information Management Control Officer or DoD Clearance Officer for this information.

This number indicates OMB approval to collect data from 10 or more members of the public in a 12-month period regardless of form or format.

**Yes**

**Enter OMB Control Number**

**Enter Expiration Date**

**No**

**f. Authority to collect information. A Federal law, Executive Order of the President (EO), or DoD requirement must authorize the collection and maintenance of a system of records.**

(1) If this system has a Privacy Act SORN, the authorities in this PIA and the existing Privacy Act SORN should be the same.

(2) Cite the authority for this DoD information system or electronic collection to collect, use, maintain and/or disseminate PII. (If multiple authorities are cited, provide all that apply.)

(a) Whenever possible, cite the specific provisions of the statute and/or EO that authorizes the operation of the system and the collection of PII.

(b) If a specific statute or EO does not exist, determine if an indirect statutory authority can be cited. An indirect authority may be cited if the authority requires the operation or administration of a program, the execution of which will require the collection and maintenance of a system of records.

(c) DoD Components can use their general statutory grants of authority ("internal housekeeping") as the primary authority. The requirement, directive, or instruction implementing the statute within the DoD Component should be identified.

5 U.S.C. 301, Departmental Regulations; 10 U.S.C. 136, Under Secretary of Defense for Personnel and Readiness; and E.O. 9397 (SSN).

**g. Summary of DoD information system or electronic collection. Answers to these questions should be consistent with security guidelines for release of information to the public.**

(1) Describe the purpose of this DoD information system or electronic collection and briefly describe the types of personal information about individuals collected in the system.

EIS-DTRA-U is GOTS (MS SharePoint-based) application to improve the ability of DTRA to control unclassified assignments and correspondence, document actions taken, and locate records for reference purposes. The application is used to initiate, manage, and track assignments coming from outside DTRA as well as those generated within DTRA at the Director, Deputy Director, Chief of Staff, or Enterprise to Enterprise level.

Records may contain an individual's name, Social Security Number (SSN) within supporting documents, physical and electronic, home and duty addresses, and phone numbers, security clearance data, military or civilian rank/grade, and correspondence or supporting documents.

(2) Briefly describe the privacy risks associated with the PII collected and how these risks are addressed to safeguard privacy.

Privacy risks to the individual associated with the collected PII are unauthorized access to the data or possible misuse of the data.

System Access Controls safeguard privacy. These access controls limit access to the application and/or specific functional areas of the application. These controls consist of privileges or permissions, general access, password control and discretionary access control. Additionally, each user is associated with one or more permission roles. Each role provides some combination of privileges to a subset of the application contents. Users are granted only those privileges that are necessary for their job requirements. The same roles that protect the database tables also determine which buttons and menu items are enabled for the user currently logged on. All Task and correspondence sites are created based on access level permissions set by the creator of the site to provide others the ability to view, add, change or delete, as appropriate. Within these sites, the permissions can be set at the task, folder or document level. The permission levels vary from Full control, Contribute, Modify Delete, and Read only.

Further controls on the use of information collected by EIS-DTRA-U include the training of users on the authorized use and proper handling of the assignment of permissions and PII data. EIS-DTRA-U data is strictly limited to support personnel who are legally authorized to receive that information and have a need to see that information.

**h. With whom will the PII be shared through data exchange, both within your DoD Component and outside your Component (e.g., other DoD Components, Federal Agencies)? Indicate all that apply.**

**Within the DoD Component.**

Specify.

Tasks are created in EIS And assigned to an Enterprise or Special Staff Office (ENT/SSO). Once received by the ENT/SSO the task can assigned further to action officers or another ENT/SSO for a response.

Permissions to the task can be given at every stage of assignment and at varies levels of permission i.e., full control, designer, contribute; read only, EIS user role and EIS permissions roles. This gives the user the ability to view, add, edit and/or delete items from the site. Sensitive documents can be uploaded into the shared documents library. And the user has the ability to lock the permissions on these documents so that they can only be viewed by specific individuals. Once the task has been completed it is closed by Chief of Staff, Administration (COSAdm) and prepared for archiving. Knowledge Mgmt Division (BE-BIK) is currently archiving the documents at least once a week.

Access to these archived documents is limited to the system administrators.

**Other DoD Components.**

Specify.

**Other Federal Agencies.**

Specify.

**State and Local Agencies.**

Specify.

**Contractor** (Enter name and describe the language in the contract that safeguards PII.)

Specify.

**Other** (e.g., commercial providers, colleges).

Specify.

**i. Do individuals have the opportunity to object to the collection of their PII?**

**Yes**  **No**

(1) If "Yes," describe method by which individuals can object to the collection of PII.

All personal data collected is voluntarily given by the subject individual. Forms that collect personal data maintained in this IT system contain a Privacy Act Statement, as required by 5 U.S.C. 552a(e)(3), allowing the individual to make an informed decision about providing the data. The statement advises the individual that the information provided is voluntary; and provides the consequences of choosing not to participate with the information collection. Individuals may raise an objection with the DTRA Privacy Act Office during the data collection. Individuals may raise an objection during data collection or at any time after processing of the data has begun. If no objections are received, consent is presumed.

The individual initiates the collection and maintenance of his/her information for the purpose of travel, security, and personnel transactions. Release of this information is done with the individual's full cooperation and consent.

(2) If "No," state the reason why individuals cannot object.

**j. Do individuals have the opportunity to consent to the specific uses of their PII?**

**Yes**

**No**

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

The individual initiates the collection and maintenance of his/her information for the purpose of travel, security, and personnel transactions. Release of this information is done with the individual's full cooperation and consent. All personal data collected is voluntarily given by the subject individual. Forms that collect personal data maintained in this IT system contain a Privacy Act Statement, as required by 5 U.S.C. 552a(e)(3), allowing the individual to make an informed decision about providing the data. If no objections are received, consent is presumed.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

**k. What information is provided to an individual when asked to provide PII data?** Indicate all that apply.

**Privacy Act Statement**

**Privacy Advisory**

**Other**

**None**

Describe each applicable format.

Forms that collect personal data maintained in this IT system contain a Privacy Act Statement, as required by 5 U.S.C. 552a(e)(3), allowing the individual to make an informed decision about providing the data. The statement advises the individual that the information provided is voluntary; and provides the consequences of choosing not to participate with the information collection.

Privacy Act Routine Uses are provided to individuals, in writing for some of the DTRA forms they completed.

Individuals also sign an Authorization for Release of Information that details the purposes for which the data can be used. The Release remains valid for five years from the date of signature or until the individual has left DTRA.
