

## U.S. Naval Observatory Ephemerides of the Largest Asteroids Errata for CD-ROM

Three source code files for the ephemeris-access software provided on the USNO/AE98 CD-ROM are incorrect. New files may be obtained from the USNO/AE98 Web page (<http://aa.usno.navy.mil/publications/USNOAE98/USNOAE98.php>). Alternatively, the following corrections can be made manually to the files obtained from the CD-ROM.

### **generate.c**

On line 247, replace

```
if( startord > 0 ) {
```

with

```
if( ( startord > 0 ) || ( len == 16 ) ) {
```

### **readeph.c**

Before line 429, add

```
if( astinf.num > 0 ) {
```

After line 454, add

```
}
```

### **readtest.c**

On line 143, replace

```
free( nmae );
```

with

```
free( name );
```
