

Defense Logistics Agency

Delivering the Right Solution – On Time, Every Time

DLA and the Warfighter.

Our nation has a powerful military force, capable of swiftly responding to today's and tomorrow's challenges at a moment's notice across the globe. To be ready, our Soldiers, Marines, Sailors and Airmen rely on the men and women of the Defense Logistics Agency to accomplish their mission. We have a proud history of getting the right support to the right place at the right time for more than five decades.

As America's Combat Logistics Support Agency, the Defense Logistics Agency (DLA) provides the Army, Marine Corps, Navy, Air Force, federal and state agencies, and international partners with the full spectrum of innovative logistics, acquisition, and technical solutions. DLA's most daunting challenges are often encountered in support of our warfighting customers. As the Warfighter's combat logistics support provider, we must sustain Warfighters in an era of complex, dynamic, competing, and often urgent needs.

One of DLA's fundamental commitments is providing premier customer service. Our forward presence with the customer allows us to bring our broad range of DoD supply chains, our capabilities in closing logistics seams and gaps, our strength in aggregating data to aid in decision making, and our deep expertise in achieving transformation directly to the Warfighter.

The DLA Warfighter Support Initiative (DWSI).

The DLA Warfighter Support Initiative brings DLA professionals from across the Agency to our customers, providing opportunities for Warfighters to interact with all of our product and service lines, receiving the latest training and information. DWSI helps DLA customers obtain augmented support in accomplishing and sustaining their missions. DWSI provides training and information on using DLA's many programs and systems to enhance their organization's logistics operations.

DLA hosts the quarterly two-day training event at major military installations across the Services and throughout the nation. The forum includes training from DLA's Primary Level Field Activities on what DLA does, how to use the support and services the Agency offers, and where to go for more information. DWSI also features a DLA exposition with subject matter experts, examples of the Agency's many logistics offerings, and additional information about the Agency's support and services.

DWSI fosters increased understanding of DLA; the competitive advantage the Agency offers its customers; and the benefits of using DLA logistics support and services.
