Emergency numbers are listed on the front cover of this directory. If you need assistance, dial the base operator "0" from base extensions, or dial 963-1110 from private telephones.

After asking the questions on the form, and while the caller is still on the line, **depress the hook-switch or flash button momentarily then dial 11#**. This action allows the telephone switch to identify the calling number. Then from a different telephone, call 911 and report the bomb threat. Be sure to give the 911 dispatcher your name, unit, and telephone number. If danger to life or property is possible, alert personnel and evacuate the building.

MALICIOUS / NUISANCE CALLS

FEDERAL TELECOMMUNICATIONS SYSTEM (FTS)

FTS is provided for the purpose of making official long distance telephone calls for agencies not serviced by DSN. As of Aug 98 all FTS (long distance) calls will require the use of a personal identification number (PIN). The use of a PIN is an Air Force initiative to decrease cost associated with the FTS system; as well, PIN implementation will provide improved tracking capabilities. The PIN program will be centrally managed by the 628 Communications Squadron with each squadron/unit TCO responsible for ensuring all authorized customers who have a requirement for FTS service receive a PIN.

1. Official Calls:
 - (a) For official long distance calls, dial 98, area code, and telephone number.
 - (b) At prompt enter PIN number, and the call will be processed.
 - (c) Duration of calls will be held to a minimum.

GENERAL INFORMATION

All calls outside the local calling area are considered long distance. To ensure effective use of all voice communication services, it is necessary to limit access to users who have official need for the use of long distance service. Such users are personnel of essential elements of command and administration whose authorized usage of long distance telephone communications is required in support of command operations, intelligence, logistics, and administration. **Personal and unofficial calls are prohibited. Unofficial calls to and from government telephones are not permitted. Use of government telephones for such calls to avoid payment of tolls is a UCMJ offense. All such calls are traced back to the calling party and appropriate action taken against the offender.**

MINIMIZE

1. Minimize is a condition imposed by commanders to control and reduce electronic communications, both data and voice traffic, during exercises or periods of emergency. During such periods, vital and relevant message traffic must be drastically reduced.
2. Minimize may be imposed Department of Defense wide, Air Force-wide, MAJCOM wide, or for given countries, states, or areas as conditions warrant.
3. Minimize may be imposed on DSN, local telephone, or data systems. Telephone systems include such services as long distance calls, administrative tie-line calls, etc. One or all systems or services may be minimized as required.

MONITORING

Communications systems are for transmission of official information only and are subject to communications management and security monitoring at all times. The Air Force also reserves the right to enter a premise where it provides such telephone service to inspect, repair, or remove equipment.
