

US Army Corps
of Engineers
New Orleans District

Public Meeting

What: The U.S. Army Corps of Engineers, New Orleans District is hosting a public meeting to provide the public with an update on the Carrollton Fly project (Phase II).

The project will raise the level of protection to the authorized Mississippi River Levee grade (elevation 26.75) on the East Bank of the Mississippi River in the City of New Orleans between Audubon Park's parking lot near "The Fly" (Approximate Station 133+00) and the Children's Hospital South parking lot. Construction activities will include: temporary demolition and restoration at both parking lots and the existing levee, and construction of a 65' floodwall and floodgate (not including the tie-in sheet pile which will be below grade). The swing type flood gate will close a 20' opening centered at the New Orleans Public Bell Rail Road track.

When: August 11, 2016

6:00 p.m. Presentation, Q&A and receipt of public comments

Where: Audubon Nature Institute

6500 Magazine Street
New Orleans, Louisiana 70118

Questions about the Project should be addressed to:

Mr. Christopher N. (Nick) Sims
U.S. Army Corps of Engineers
Programs and Project Management Division
