

DARPA Conference Center Visitor Requirements for Unclassified Meetings

DARPA uses personal information (including Social Security numbers (SSNs)) to conduct record checks with other U.S. Government agencies to determine the identity, citizenship status, and eligibility of individuals seeking access to the DARPA facility. DARPA also uses personal information to maintain control of badges issued for facility access. All requests for personal information are made under appropriate authority. Note that due to the risk of data loss or breach when working with this form online, users should consider appropriate technical safeguards before transmitting it electronically. Once received by DARPA, personal information will be subject to role-based access and safeguards using appropriate physical, administrative, and technical protocols.

PRIVACY ACT STATEMENT

AUTHORITY: 5 U.S.C. 301; 40 U.S.C. 1441; 41 C.F.R. 102-81.10 and 102-81.15; DoDD 1000.25; DoD 5200.08-R; DoD 5200.1-R; DoDD 5200.27; DoDD 5205.07; DoD 5400.11-R; E.O. 9397, as amended, SSN; and E.O. 12977

PURPOSE: DARPA will use personal information to determine identity, eligibility for access, facility security, and visitor control.

ROUTINE USES: Department of Defense "Blanket Routine Uses," consistent with the Privacy Act of 1974 (5 U.S.C. 552a), and available at http://privacy.defense.gov/blanket_uses.shtml, apply to this collection. The information will be used by - and disclosed to - DARPA personnel, contractor employees, or other agents who require the information to determine if access to a DARPA facility or program should be granted. DARPA may also share the information with other government agencies as necessary to determine if adverse information exists on the individual seeking access to a DARPA facility or program.

DISCLOSURE: Furnishing this information (including your Passport information and Social Security Number if applicable) is voluntary; however, failure to furnish the requested information may delay or prevent your requested access to a DARPA facility or program.
