

Naval OPSEC Mobile Application

Now Available for Download to Apple iOS and Google Android Mobile Devices!

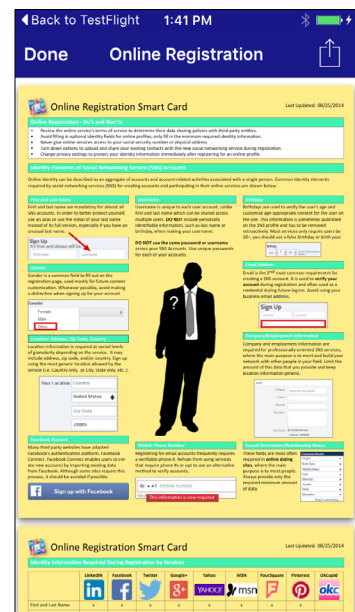

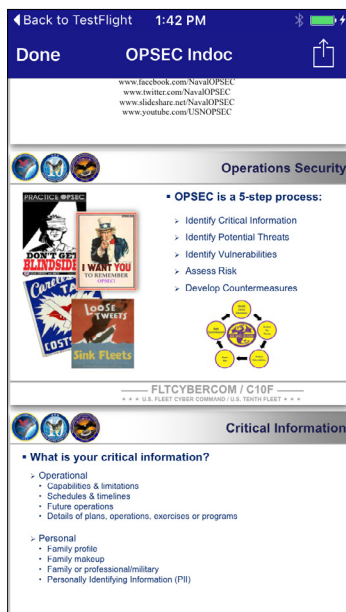

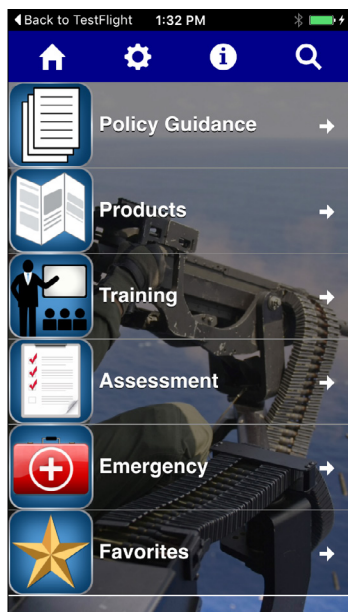

An official US Navy mobile application, produced by the Navy PMW 240 Program

What is the Naval OPSEC Mobile Application?

Want to know how to better protect your family, fellow service members, and mission from potential adversaries? The U.S. Navy's OPSEC App is an all-in-one Operations Security reference, training and education tool for Department of Navy (DoN) personnel and their family members. This app consolidates all relevant DoN OPSEC policies, references, tools, and training aids into one convenient, easy-to-use application for your mobile device. This is your one-stop OPSEC shop!

Naval OPSEC App Sections

- **Policy/Guidance:** Includes Joint, DoD, Navy and Marine Corps Policies; Navy Tactics, Techniques, and Procedures; Marine Corps Warfighting Publication; and handbooks.
- **Training:** Features links to three computer-based training modules, as well as information on courses offered by the Naval OPSEC Support Team Norfolk and other OPSEC agencies. This includes "Uncle Sam's OPSEC" (USOPSEC), a 14-section GMT video-based course designed to educate service members and their families on vulnerabilities and risks associated with sharing too much information, particularly on social media sites and via mobile devices.
- **Products:** Includes training videos on OPSEC topics, training briefs, smart cards that provide synthesized information and best practices at a quick glance, and brochures and posters to assist OPSEC program managers.
- **Assessments:** Features information and resources to assist OPSEC program managers on how to conduct OPSEC assessments at their command. A step-by-step guide, briefing tools, assessment checklists, sample questionnaires, and instructions are included.
- **Favorites/FAQs:** Use this section to highlight parts of the app you use most or find most valuable. The Frequently Asked Questions module addresses some of the most common and prevalent OPSEC issues affecting DoN personnel today, like spear phishing, social engineering, and computer hacking.

Naval OPSEC Content

Achieving a culture of OPSEC throughout DoN begins with training and awareness, which means changing the way we think about sharing information. With the advent of social media and the ability to instantly share information, the danger of revealing unclassified critical and personal data is greater now more than ever before. Consequently, OPSEC is everyone's responsibility. This app aggregates publicly available information from various online DoN sources and will be updated periodically. Feel free to share this app and training with family members, relatives, and friends.

Course Completion Verification

- » Navy personnel may use the app to complete annual mandatory USOPSEC training. End-of-course completions can be emailed to Navy Training Management and Planning System (NTMPS) for display in the Electronic Training Jacket (ETJ).
- » Users should retain course Completion Certificate emails in their mobile phone Sent Items folder until successful posting in their ETJ or Fleet Training Management Planning System (FLTMPS) can be verified.
- » If completion does not appear in ETJ or FLTMPS after 72 hrs, users may wish to forward a copy of the email to their supervisor or FLTMPS Coordinator/Training POC as verification of completion. If necessary, the FLTMPS Coordinator can record manual OPSEC completion in the FLTMPS Learning Event Completion Form.
- » Users may contact NTMPS Support Office at ntmps.support@navy.mil or 1-866-438-2898 if they have any questions.
