

General Dynamics Information Technology provides a comprehensive range of professional and technical services to meet critical operational, planning, staffing, management and technology needs for the Missile Defense Agency (MDA) and other federal military, civilian government and commercial sectors. Please check our website at [www.gdit.com](http://www.gdit.com) to understand what we do, the customers we serve, and where your company's core competencies may best fit. In addition, our **Partners** page also provides useful links and information you can download on doing business with General Dynamics Information Technology.

### Missile Defense Agency

We are a services provider and integrator for the Ballistic Missile Defense System serving the needs of multiple Program Directorates. We are a Prime Contract holder under MiDAESS Engineering Support Services (FCG 3) as well as Infrastructure and Deployment Support (FCG 4). Additionally we are on numerous small business teams providing advisory and assistance services for the MDA via small business teaming partnerships. We provide scientific, engineering, technical and operational support services to a number of MDA organizations including:

- Systems Engineering & Integration Directorate (MDA/DEE)
- Missile Defense National Team Systems Engineering & Integration (MDNTS)
- Missile Defense National Team C2BMC (MDNTB)
- Engineering and Test Support Services MiDAESS FCG 3 (MDA DT/DE)
- Infrastructure and Deployment Support (MiDAESS FCG 4 MDA/DPF)
- Warfighter Support (MiDAESS FCG 4 MDA/DDW)

To be considered for teaming opportunities, please check our Partners site and register at [www.GDIT.com](http://www.GDIT.com) (Partners)

### Teaming areas

We support the full spectrum of missile defense initiatives and infrastructure capabilities from concept development and initial design through deployment and operational support. Specific areas of interest:

- **Professional and Technical Services**
- **Engineering Support Services**
- **IT infrastructure systems engineering support**
- **Infrastructure Support services**
- **Resource Management**
- **Program support**

We are always interested in discussing capabilities of potential small business partners that have:

- NAICS Codes that begin with 5415, 5416 or 5417
- NAICS 541330.
