

## **Missile Defense**

Lockheed Martin delivers the breadth and depth needed for ballistic missile and air defense, with the **most extensive capabilities across boost, ascent, midcourse and terminal phases**. These solutions defend against ballistic missiles, cruise missiles, aircraft and other airborne threats. Our **role ranges from prime contractor for U.S. weapons systems to developer of critical technologies**.

## **Potential Opportunities**

Systems Analysis	541512
Software engineering services	541511
Design engineering services	541330
Sensors	334511
Electro mechanical	334513
Casting	331524
Forging	332112
Extrusions	331318
Optics	333314
