Disclaimer

You are accessing a U.S. Government (USG) Information System (IS) that is provided for USG-authorized use only.

By using this IS (which includes any device attached to this IS), you consent to the following conditions:

- The USG routinely intercepts and monitors communications on this IS for purposes including, but not limited to, penetration testing, COMSEC monitoring, network operations and defense, personnel misconduct (PM), law enforcement (LE), and counterintelligence (CI) investigations.
- At any time, the USG may inspect and seize data stored on this IS.
- Communications using, or data stored on, this IS are not private, are subject to routine monitoring, interception, and search, and may be disclosed or used for any USG authorized purpose.
- This IS includes security measures (e.g., authentication and access controls) to protect USG interests--not for your personal benefit or privacy.
- Notwithstanding the above, using this IS does not constitute consent to PM, LE or CI investigative searching or monitoring of the content of privileged communications, or work product, related to personal representation or services by attorneys, psychotherapists, or clergy, and their assistants. Such communications and work product are private and confidential. See User Agreement for details.

If users have a valid CAC Card for NIPRNET/SIPR Hard Token certificate for SIPRNET, they will be taken directly to the GCSS-J home page when the **“I Agree”** button is clicked. However, if users do not have a valid PKI certificate, they will be redirected to the Login Screen where they will need to click **“Request an Account.”** Once on the login screen, users can request an account.

JCA Environment

The JCA (Joint Capability Areas) Environment provides a rich, map-driven user experience.

Features include:

- Functionality tailored to each mission
- Geospatial visualization and custom layer creation
- Query logistics data and map results
- Watchboards for monitoring supply data
- Engineering planning (JEPES)

■ Requires Flash v10.3

[Launch JCA Environment](#)

LogCOP & Dashboards

Customize dashboards with widgets relevant to you and your organization.

Features include:

- GCSS LogCOP and LogCOP for your organization
- User defined dashboards (UDOP)
- 2D & 3D* mapping options
- Mission focused, geo-enabled widgets
- Widget marketplace

■ *Requires Google Earth Plugin
■ Firefox recommended
