

Contract Vehicle Options For Environmental Projects

The objectives of the US Army Environmental Command Multiple Award Task Order Contracts (MATOCs) are to provide an acquisition alternative for acquiring performance based services to enhance traditional acquisition approaches and promote cost/performance efficiencies and considerations for environmental requirements throughout the Installation Management Command (IMCOM).

NOTE: For installations, there is no administration fee added to the cost of task orders on these contracts. USAEC has direct funded this cost for all Army users. This document serves as only a summary of the information included in the ordering guides for each MATOC.

Contract Initiation and Support Options

	Full AEC Support	AEC Advisory Support	Installation Direct to Contracting Agency
Task Order Initiation	Contact AEC at 210-466-1586	Contact AEC at 210-466-1586	Contact Ft. Sam Houston MICC at 210-466-2131
AEC Responsibility	<ul style="list-style-type: none"> • Takes lead role to develop contract package documents and conducts staffing • Serves as COR and approves invoices in WAWF • Provides Technical Advisor to review deliverables and advise installation staff • Develops QASP • Upon Task Order completion, COR notifies KO that all work has been completed and all invoices have been received. 	<ul style="list-style-type: none"> • Assists with contract package development • Reviews deliverables as requested • Provides technical advice on an as-requested basis • Upon request, may attend milestone meetings via teleconference. 	None
Installation Responsibility	<ul style="list-style-type: none"> • Provides necessary information, such as site list with acreages and a site distribution map • If previously developed, provides draft PWS and IGCE • Reviews QASP • Serves as the on-the-ground monitor to ensure that work is being conducted IAW the PWS and ensure that contractor access is provided • Complete and provide a short monthly checklist to AEC COR to document work progress and satisfaction • Notify the AEC COR if POP extension or changes to the task order are needed. • Installation does not, at any time, direct the contractor to work outside of the scope of the task order. 	<ul style="list-style-type: none"> • Takes lead role to develop contract package documents and conducts staffing • Serves as COR and approves invoices in WAWF • Lead deliverable reviewer • Develops QASP 	<ul style="list-style-type: none"> • Takes lead role to develop contract package documents and conducts staffing – including coordination with Contracting Command • Provides necessary information, such as site list with acreages and a site distribution map • Serves as COR and approves invoices in WAWF • Reviews deliverables • Serves as the on-the-ground monitor to ensure that work is being conducted IAW the PWS and ensure that contractor access is provided • The installation completes and submits a quarterly report to the Contracting Command to document work progress and satisfaction • Notifies the KO if a POP extension or changes to the task order are needed. • Upon Task Order completion COR notifies KO that all work has been completed and all invoices have been received.
