AROUND EUROPE

Europe engineer support team to deploy in support of exercises

WIESBADEN, Germany - A Forward Engineer Support Team from the U.S. Army Corps of Engineers Europe District is scheduled to deploy April 20 to provide field force engineering support to federal, state and joint field exercises at various locations around Alaska. ... [Read More](#)

Access Control Point Program in Europe proving successful

HUNTSVILLE, Ala. - The U.S. Army Engineering and Support Center-Huntsville's Access Control Point program is only two-thirds complete in Europe and already faster secured access to the upgraded installations is proving the program successful.

Europe District Readership Survey 2010

Photo by Carol E. Davis

The Public Affairs staff would like to know how it's doing in delivering news. Let them know by taking the readership survey. It's completely anonymous and takes less than 5 minutes. Complete the survey by April 30. ... [Take Survey](#)

USACE People: Celebrating Women's History Month

WIESBADEN, Germany - This year, DCMA and the Europe District joined to celebrate these women's involvement in history, as well as a few women in their own lives who have made their own impacts. ... [Read More](#)

US-German conference focuses on communication

NÜRNBERG, Germany - To minimize communication challenges, the Europe District hosts an annual partnering conference with senior district leaders and representatives from German state and federal ministries, as well as local construction agencies. ... [Read More](#)

USACE in Europe plugs into social media outlets

WIESBADEN, Germany - The world is talking to each other over MySpace and Facebook, sharing photos over Flickr, spreading opinions over blogs and watching their friends and co-workers over YouTube.

What better way to communicate with employees, stakeholders, customers and the public at large than via social media?

And now, up-to-date job announcements, news stories and more is only a click away. ... [Read More](#)

FEATURE

People: Enhancing water security for AFRICOM

STUTTGART, Germany - It's a different continent with different challenges, but Robert Pace is not a fish out of water.

From rivers, wetlands and forests on the eastern coast of the United States to lowlands, deserts and oases of Africa, he is ready for the new challenges awaiting him.

Pace, a strategic water resources planner from the U.S. Army Corps of Engineers North Atlantic Division, is assigned to support the

U.S. African Command to help develop the command's water security program - a core element to their overall environmental security program, he said.
