USACE builds a new small arm simulator in Israel

TEL AVIV, Israel - At an infantry basic training base in the northern Israeli city of Regavim, the U.S. Army Corps of Engineers is overseeing a nearly \$1.7 million small arms firing simulator project designed to improve the capability and training of the Israeli military. The plan seeks to construct a two-story, 900-square-meters facility that houses two simulators with ...

Environmental officers train to protect lives, resources

WIESBADEN, Germany - Exposure to hazardous materials can harm and ultimately kill Soldiers and civilians. Knowing how to properly handle chemicals, fuel and other potentially dangerous materials and what to do in the event of an accidental spill, can save lives and prevent long-term harm to the environment.
