

PROJECT INFORMATION SHEET

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG

CAP-14-Bluffton Road, Ft. Wayne, IN.

Description

The City of Fort Wayne, Indiana is located in Allen County, at the headwaters of the Maumee River, which is formed by the confluence of the St. Mary's and St. Joseph Rivers. Streambank erosion on the north side of the St. Mary's River along approximately 2,000 linear feet of Bluffton Road has threatened the integrity of the road and the associated utility infrastructure along the roadway. Failure of this roadway will cause a severe problem with traffic flow on the south side of the city and utility failure would cause major disruptions in service to many area businesses and residents. Costs to repair such failures would be expected to be extremely costly.

Congressional Interest

Stutzman (IN-3); Senator Coats (IN), Senator Donnelly (IN)

Location Map & Picture

Non-Federal Project Sponsor

City of Fort Wayne, IN

Project Authority

Section 14 of the Flood Control Act of 1946, as amended, Continuing Authorities Program
