

PROJECT INFORMATION SHEET

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG

C-CAP 205-Decatur IN FRM

Description

The project is located on the St. Marys River, in the City of Decatur, Indiana. The City of Decatur, IN incurs significant flooding issues from the St. Marys River, which runs through the center of the City. During flood events, the water levels are extremely slow to recede, causing property damage and creating issues for Emergency Response vehicles. The City is requesting assistance in reducing the risk of flooding through a study of existing river conditions and hydraulics.

Congressional Interest

Stutzman (IN-3); Senator Coats (IN), Senator Donnelly (IN)
