U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG

CAP-206-Clinton/Roseville/Harrison Relief Drain Habitat Improvement, MI

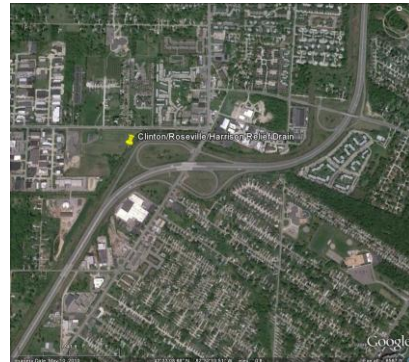

Description

The project is located on a tributary to the Clinton River in Macomb County, Michigan, along a channelized drain that flows to the Clinton River. The drain is choked with invasive Phragmites and habitat conditions are poor due to temperature fluctuations and flashy flow conditions. Managing invasives and adding vegetation along the channel will restore stream habitat.

Stage

Feasibility

Status

Previous funding was used to develop the Determination of Federal Interest, get approval to proceed with feasibility, and complete the Review Plan. The project needs a non-Federal Sponsor to participate in the development of the Feasibility Cost Share Agreement. Macomb County continues to support the development of the project. FY17 funding would be used to develop the project partnership and complete the Feasibility Cost Share Agreement.
