LIST OF ADDITIONAL INFORMATION REQUIRED FOR COMPLETE PRE-CONSTRUCTION NOTIFICATION FOR CALIFORNIA, NEVADA, AND UTAH

PRE-CONSTRUCTION NOTIFICATION FOR A DEPARTMENT OF THE ARMY NATIONWIDE PERMIT

A complete PCN may be submitted either through the completion of the *South Pacific Division Preconstruction Notification* (*PCN*) *Checklist*¹, or a signed application form (ENG Form 4345) ² with an attachment providing information on compliance with all general and regional conditions.

	rements of General Condition 31
	Name, address and telephone numbers of the prospective permittee
	Location of the proposed project
	Description of the proposed project
	Purpose of the proposed project
	Direct and indirect adverse environmental effects the project would cause
	The anticipated amount of loss of water of the U.S. expected to result from the NWP activity, in acres or linear feet
	Any other NWP(s), regional general permit(s) or individual permit(s) used or intended to be used to authorize any part of the proposed project or any related activity
	Sketches containing sufficient detail to provide an illustrative description of the proposed activity
	Delineation of wetlands, other special aquatic sites, and other waters, such as lakes and ponds, and perennial, intermittent, and ephemeral streams, on the project site, prepared in accordance with the current method required by the Corps.
	A statement describing how mitigation requirements will be satisfied, or explaining why the adverse effects are minimal and why compensatory mitigation should not be required
—	The name(s) of endangered or threatened species that might be affected by the proposed work, or utilize the designated critical habitat that may be affected by the proposed work, or , for Federal agencies, documentation demonstrating compliance with the Endangered Species Act
	A statement on which historic property(s) may be affected by the proposed work, or a vicinity map indicating the location of the historic property, or , for Federal agencies, documentation demonstrating compliance with the National Historic Preservation Act.
Requii	rements of Regional Condition 1
	A complete <i>South Pacific Division Preconstruction Notification (PCN) Checklist</i> or signed application form (ENG Form 4345) with an attachment providing information on compliance with all of the general and regional conditions.
	A complete South Pacific Division Preconstruction Notification (PCN) Checklist or signed application form (ENG
	A complete <i>South Pacific Division Preconstruction Notification (PCN) Checklist</i> or signed application form (ENG Form 4345) with an attachment providing information on compliance with all of the general and regional conditions. A written statement describing how the activity has been designed to avoid and minimize adverse effects, both
	A complete <i>South Pacific Division Preconstruction Notification (PCN) Checklist</i> or signed application form (ENG Form 4345) with an attachment providing information on compliance with all of the general and regional conditions. A written statement describing how the activity has been designed to avoid and minimize adverse effects, both temporary and permanent, to waters of the U.S. Drawings clearly depicting the location, size and dimensions of the proposed activity, as well as the location of

Cross-section view

	structure or fills
	Area (in acres) of fill in Corps jurisdiction, including permanent and/or temporary structure or Ordinary high water mark, or, for tidal waters, mean high water mark and high tide line, based National Geodetic Vertical Datum (NGVD) or other appropriate reference elevation.
	Numbered and dated pre-project color photographs showing a representative sample of waters proposed to impa on the site, and all waters of the U.S. proposed to avoided on and immediately adjacent to the project site. The compass angle and view position of each photograph is identified on the required plan view drawing.
Requi	rements for Temporary Fill
	A Description of the temporary fill
	Type and amount of material to be placed in waters of the U.S.
	Area (in acres) of waters of the U.S. proposed to be impacted
	Proposed plan for the restoration of the temporary fill area to pre-project contours and conditions
	The reason(s) why avoidance of temporary impacts in waters of the U.S. is not practicable.
Requi	rements for NWPs 13 and 14
	Information on why the sole use of vegetated techniques is not practicable
Requi	rements for NWP 23 A copy of the signed enterorised evaluation document
Requi	A copy of the signed categorical exclusion document
Requi	A copy of the signed categorical exclusion document
_	A copy of the signed categorical exclusion document Final agency determination regarding compliance with Section 7 of the Endangered Species Act and Section 10
_	A copy of the signed categorical exclusion document Final agency determination regarding compliance with Section 7 of the Endangered Species Act and Section 10 the National Historic Preservation Act
_	A copy of the signed categorical exclusion document Final agency determination regarding compliance with Section 7 of the Endangered Species Act and Section 10th the National Historic Preservation Act rements for Request for Waivers
_	A copy of the signed categorical exclusion document Final agency determination regarding compliance with Section 7 of the Endangered Species Act and Section 10 the National Historic Preservation Act rements for Request for Waivers A narrative description of the stream
_	A copy of the signed categorical exclusion document Final agency determination regarding compliance with Section 7 of the Endangered Species Act and Section 10 the National Historic Preservation Act rements for Request for Waivers A narrative description of the stream Known information on volume and duration of flow
_	A copy of the signed categorical exclusion document Final agency determination regarding compliance with Section 7 of the Endangered Species Act and Section 10 the National Historic Preservation Act rements for Request for Waivers A narrative description of the stream Known information on volume and duration of flow Known information on the approximately length, width and depth of the waterbody Known information on characteristics observed associated with an ordinary high water mark
_	A copy of the signed categorical exclusion document Final agency determination regarding compliance with Section 7 of the Endangered Species Act and Section 10 the National Historic Preservation Act rements for Request for Waivers A narrative description of the stream Known information on volume and duration of flow Known information on the approximately length, width and depth of the waterbody Known information on characteristics observed associated with an ordinary high water mark Description of the adjacent vegetation community
_	A copy of the signed categorical exclusion document Final agency determination regarding compliance with Section 7 of the Endangered Species Act and Section 10 the National Historic Preservation Act rements for Request for Waivers A narrative description of the stream Known information on volume and duration of flow Known information on the approximately length, width and depth of the waterbody Known information on characteristics observed associated with an ordinary high water mark Description of the adjacent vegetation community A statement regarding the wetland status of the adjacent areas (i.e. wetland, non-wetland)
_	A copy of the signed categorical exclusion document Final agency determination regarding compliance with Section 7 of the Endangered Species Act and Section 10 the National Historic Preservation Act rements for Request for Waivers A narrative description of the stream Known information on volume and duration of flow Known information on the approximately length, width and depth of the waterbody Known information on characteristics observed associated with an ordinary high water mark Description of the adjacent vegetation community
_	A copy of the signed categorical exclusion document Final agency determination regarding compliance with Section 7 of the Endangered Species Act and Section 10 the National Historic Preservation Act rements for Request for Waivers A narrative description of the stream Known information on volume and duration of flow Known information on the approximately length, width and depth of the waterbody Known information on characteristics observed associated with an ordinary high water mark Description of the adjacent vegetation community A statement regarding the wetland status of the adjacent areas (i.e. wetland, non-wetland) Surrounding land uses Water quality of the stream
_	A copy of the signed categorical exclusion document Final agency determination regarding compliance with Section 7 of the Endangered Species Act and Section 10 the National Historic Preservation Act rements for Request for Waivers A narrative description of the stream Known information on volume and duration of flow Known information on the approximately length, width and depth of the waterbody Known information on characteristics observed associated with an ordinary high water mark Description of the adjacent vegetation community A statement regarding the wetland status of the adjacent areas (i.e. wetland, non-wetland) Surrounding land uses Water quality of the stream Issues related to cumulative impacts in the watershed
_	A copy of the signed categorical exclusion document Final agency determination regarding compliance with Section 7 of the Endangered Species Act and Section 10 the National Historic Preservation Act rements for Request for Waivers A narrative description of the stream Known information on volume and duration of flow Known information on the approximately length, width and depth of the waterbody Known information on characteristics observed associated with an ordinary high water mark Description of the adjacent vegetation community A statement regarding the wetland status of the adjacent areas (i.e. wetland, non-wetland) Surrounding land uses Water quality of the stream Issues related to cumulative impacts in the watershed An analysis of the proposed impacts to the waterbody
_	A copy of the signed categorical exclusion document Final agency determination regarding compliance with Section 7 of the Endangered Species Act and Section 10 the National Historic Preservation Act rements for Request for Waivers A narrative description of the stream Known information on volume and duration of flow Known information on the approximately length, width and depth of the waterbody Known information on characteristics observed associated with an ordinary high water mark Description of the adjacent vegetation community A statement regarding the wetland status of the adjacent areas (i.e. wetland, non-wetland) Surrounding land uses Water quality of the stream Issues related to cumulative impacts in the watershed An analysis of the proposed impacts to the waterbody Measures taken to avoid and minimize losses to waters of the U.S., including other methods of constructing the proposed activity
_	A copy of the signed categorical exclusion document Final agency determination regarding compliance with Section 7 of the Endangered Species Act and Section 10 the National Historic Preservation Act rements for Request for Waivers A narrative description of the stream Known information on volume and duration of flow Known information on the approximately length, width and depth of the waterbody Known information on characteristics observed associated with an ordinary high water mark Description of the adjacent vegetation community A statement regarding the wetland status of the adjacent areas (i.e. wetland, non-wetland) Surrounding land uses Water quality of the stream Issues related to cumulative impacts in the watershed An analysis of the proposed impacts to the waterbody Measures taken to avoid and minimize losses to waters of the U.S., including other methods of constructing the

²An *Application for Department of the Army Permit* (ENG Form 4345) may be downloaded from the USACE Sacramento District Website at: http://www.spk.usace.army.mil//organizations/cespk-co/regulatory/application.html.

LIST OF ADDITIONAL INFORMATION RECOMMENDED TO EXPEDITE EVALUATION OF NWP PRE-CONSTRUCTION NOTIFICATIONS

 Endang	gered Species
	Information sufficient to initiate consultation with the United States Fish and Wildlife Service and/or National Marine Fisheries Service for compliance with Section 7 of the Endangered Species Act. Information required includes:
	A description of the action to be considered
	A description of the specific area that may be affected by the action.
	A description of any listed species or critical habitat that may be affected by the action.
	A description of the manner in which the action may affect any listed species or critical habitat and an analysis of any cumulative impacts.
	Relevant reports including any environmental impact statement, environmental assessment or biological assessment prepared.
	Any other relevant available information on the action, the listed species, or critical habitat.
	A Biological Assessment sufficient to initiate consultation for compliance with Section 7 of the Endangered Species Act, prepared in accordance with the attached United States Fish and Wildlife Service and National Marine Fisheries Service <i>Template and Guidance on Preparing an Initiation Package for Endangered Species Act Consultation</i> .
 Cultura	1 Resources
	A cultural resources report of archeological/historical resources on/near project site compiled from a record search by a qualified professional archeologist/historian at the regional center in your locale
	A Cultural Resources Report sufficient to initiate consultation for compliance with Section 106 of the National Historic Preservation Act of 1966, as amended, prepared in accordance with the attached Sacramento District Regulatory Branch Guidelines for Compliance with Section 106 of the National Historic Preservation Act of 1966, As Amended
 Compe	nsatory Mitigation
_	A Draft/Final Mitigation and Monitoring Plan for the proposed preserve/ creation/ enhancement/ restoration areas, completed in accordance with the attached December 30, 2004 <i>Mitigation and Monitoring Proposal Guidelines</i> and Corps regulations found at 33 CFR 332. The plan shall include mitigation location and design drawings, vegetation plans, including target species to be planted, and final success criteria.
	A Draft/Final Operations and Management Plan for the propose preserve area, describing in detail any activities that are proposed within the preserve area(s) and the long term funding and maintenance of each of the preserve areas. An opens space preserve operations and maintenance template is attached. /
