

1. WHICH PARENT WAS IN THE MILITARY?

I have spent my entire life in the United States Army. I was born during my Dad's first of two tours in Vietnam. My parents are from a small steel town (Wheeling, WV) 30 miles down the Ohio River from Pittsburgh. My Dad graduated from West Point in 1964 and served Active Duty in the Army for 24 years before retiring and starting a second career in industry.

2. HOW MANY TIMES DID YOU MOVE GROWING UP?

Please refer to question number four.

3. WHAT LED YOU TO A CAREER WITH THE ARMY?

My dad served in a variety of command and staff positions in both the Field Artillery and Acquisition/Program Management (before it was a formal branch). I definitely followed in my Dad's footsteps and he continues to be a great mentor and source of inspiration.

4. HOW MANY PLACES HAVE YOU LIVED AND WHAT WAS YOUR FAVORITE?

I have moved (as a dependent and officer) approximately 25 times across the United States and around the world. I don't really have a favorite, but definitely enjoyed time in Germany, the Pacific Northwest, California, Minneapolis, upstate New York and Washington, DC.

5. WHAT VALUES DID YOU LEARN GROWING UP IN THE MILITARY?

I have two sisters and the five of us grew up as a tight knit Army Family. My parents taught us the values of honesty, perseverance, respect, loyalty, a strong work ethic and candor. My wife Deanne and I have definitely worked hard to install these values in our two daughters. These values certainly impacted my decision to pursue a career in the United States Army. I am definitely a Soldier for Life.

6. WHAT IS YOUR FAVORITE STORY FROM GROWING UP IN THE MILITARY?

I have always most appreciated family and friends, so my favorite experiences growing up in the military always revolved around spending time with family and reuniting with old Army friends.
