C-WAY program is a CAC-enforced  
website.

# COVER SHEET

General Information. The Career Waypoints (C-WAY) system provides a mechanism for matching personnel inventory to requirements with the best performing Sailors. It is designed as a long-term force management tool, balancing manning across rates, ratings, Active Component (AC), Full Time Support (FTS), and Reserve Component (RC) through Bureau of Naval Personnel (BUPERS) control of reenlistment and enlistment contract extension authority.

Eligibility. Career Waypoints applies to all AC, FTS, and RC E6 and below Sailors for lateral conversions and component conversions. Additionally, C-WAY applies to all AC and FTS E6 and below for reenlistment/extension and rating designation authorization.

Form. OPNAVFORM 5239/14 SAAR-N

# CAREER WAYPOINTS MODULES

- **CAREER WAYPOINTS-REENLISTMENT (C-WAY-REEN)** Applies to all rated Active Component (AC) and Full Time Support (FTS) Sailors E3 through E6 with less than 14 years of active service at the End of Obligated Service (EAOS) as extended (also identified as Soft EAOS (SEAOS)). These Sailors shall utilize the C-WAY-REEN system to obtain authorization to reenlist, laterally convert to another rating, convert between AC and FTS, or to indicate their intention to separate from Navy service altogether. C-WAY-REEN can also be utilized to transition from AC or FTS to the Selected Reserve (SELRES) for those Sailors who can apply for in rate or are eligible to direct convert (Sailors who require "A" School to convert for SELRES must process through a Navy Recruiter). Sailors selected or frocked to Chief (E7) are exempt from C-WAY-REEN. In many cases a C-WAY-REEN quota is required to obtain additional OBLISERV to accept Permanent Change of Station (PCS) Transfer Orders prior to Sailors' Projected Rotation Dates (PRD). Sailors within 13 months of their SEAOS require C-WAY-REEN approval to extend their current enlistment contract. Sailors with greater than 13 months from their SEAOS, if eligible, do not require C-WAY-REEN approval to execute an extension in accordance with MILPERSMAN 1160-040.
- **CAREER WAYPOINTS-CONVERSION (C-WAY-CONV)** Applies to all rated AC, FTS, and SELRES Sailors desiring to laterally convert rates. Refer to MILPERSMAN 1440-010 and NAVADMIN 150/13 for eligibility details.
- **CAREER WAYPOINTS-TRANSITION (C-WAY-TRANS)** Applies to all rated AC, FTS, and SELRES Sailors desiring to change from one component to another (i.e. AC to FTS, SELRES to AC, etc.).
- **CAREER WAYPOINTS-PROFESSIONAL APPRENTICESHIP CAREER TRACK DESIGNATION (C-WAY-PACT)** Applies to undesignated Sailors desiring to become rated.

# CURRENT BUSINESS RULES

References. NAVADMIN 149/13

NAVADMIN 150/13

General Information. 1. C-WAY maximum quota expiration date: 13 months after application date (i.e. April 2013 application/processing month, 30 May 2014 expiration)

2. Quota utilization: Any action that changes a Sailor's SEAOS

3. Separation Quotas. Remain in C-WAY until the Sailor has effected separation, or the Sailor is reset by the cognizant Enlisted Community Manager (ECM).

4. Sailors selected for advancement via NWAE must participate in standard C-WAY competition for quota approval. Sailors who have exhausted their C-WAY-REEN looks, but are then selected for advancement, will be reset by cognizant ECM upon request to grant one additional C-WAY-REEN look at the frocked pay grades. Sailors must have time to receive C-WAY-REEN results and reenlist prior to SEAOS. Extensions are NOT authorized to await C-WAY results.

5. E6 Sailors are still required to submit mandatory system-generated C-WAY-REEN applications (e.g. PRD/SEAOS); however, as long as the Sailors are eligible for reenlistment and have a valid application submitted for them, these applications will be approved during the first C-WAY-REEN application window. Beginning on 1 February 2014, these applications will be adjudicated within 24 hours of submission. See Automatic Approval Slides 44-45 for details.

6. E5-E3 Sailors are required to submit applications and will be processed based on the following categories:

a. Open Reenlistment: Undermanned skill sets. All reenlistment eligible, non-Nuclear E-5 and below will receive approval on their first application within 24 hours. See Automatic Approval Slides 44-45 for details.

b. Balanced Reenlistment: Fully manned skill sets. All reenlistment eligible E-5 through E3 will be adjudicated based on manning in their year groups.

c. Competitive Reenlistment: Overmanned or Special Requirement skill sets. All reenlistment eligible E5 through E3 will compete through rack and stack for C-WAY-REEN quotas (In-Rate, Conversion, SELRES).

# SAAR-N (OPNAVFORM 5239/14) is required to gain access and to edit access to Career Waypoints.

Sailors who already have access to Career Waypoints will not need to submit a SAAR-N (OPNAVFORM 5239/14) unless/until their current access is disabled, expired, or requires updating. Beginning 13 February 2014, all new users requesting access, including those who did not log onto the system for over 90 days and lost access, will be required to submit a SAAR-N (OPNAVFORM 5239/14) in order to gain access. SAAR-N (OPNAVFORM 5239/14) should be digitally signed and emailed to the Career Waypoints helpdesk (career\_waypoints@navy.mil). Faxes will no longer be accepted. Sailors are encouraged to download this form from the Career Waypoints website or from the NPC Career Waypoints webpage due to the fact that many fields are prefilled.

# HOW TO ASSIGN TEMPORARY DEPARTMENTAL CAREER COUNSELOR ACCESS

Sailors with Command Career Counselor access have been empowered to give Departmental Career Counselors temporary access to C-WAY. The access is good for 30 days. The C-WAY Help Desk must receive a complete and accurate SAAR-N (OPNAVFORM 5239/14) in order to authorize access through the Sailor's PRD; otherwise the account is disabled 30 days later.

## HOW TO REMOVE C-WAY ACCESS

-If access to C-WAY needs to be disabled for a Sailor with Command Career Counselor (CCC) access, then the CMDCM/SEL or the ISIC CCC will email the C-WAY Help Desk to request removal with a detailed explanation (e.g. CCC transferred, lost confidence, etc.).

-If a Sailor with Departmental Career Counselor access no longer requires access, the CCC will email the C-WAY Help Desk to request to disable the access with a detailed explanation.

-Once disabled, the Sailor will be required to submit a new SAAR-N (OPNAVFORM 5239/14) in order to regain access.

Below it is a navigation bar with the following links: Home, Sailors, Control Analyst, AC/FTS/RC Analyst, Reports, Help, and Sign Out. A search box is located to the right of the navigation bar. A dropdown menu is open under the "Sailors" link, listing the following options: Sailor Browser, Reenlistment (AC/FTS) Application Browser, PACT Designation Application Browser, Conversion (RC) Application Browser, and Transition (RC to AC) Application Browser. A callout box with a white background and a thin border is positioned over the "Sailor Browser" option, containing the text: "To see a list of Sailors, click 'Sailor Browser' under 'Sailors'." The background of the page features a large, stylized blue anchor logo with the word "Career" in white and "WAYPOINTS" in blue, with the anchor's shank forming the letter "W".

## **IA / TAD SAILORS**

Career Waypoints has the option to assign Sailors a secondary UIC. This is helpful when assisting Sailors who are on Individual Augmentee (IA) or Temporary Additional Duty (TAD) assignments.

To assign a Secondary UIC, email the C-WAY Help Desk with the Sailor's name, the UIC for which you have Command Career Counselor access, and the date through which you need access to the Sailor (expiration date). The UIC will automatically be removed the day following the expiration date. Explain that the Sailor is attached to your command for IA or TAD assignment. Do not request access to the UIC for which the IA/TAD Sailor already belongs.

To qualify a Sailor, verify that all of the information on the "Sailor Details" screen (found under "Sailors", "Sailor Browser", enter SSN, click "List", then "Edit") is accurate.

Important blocks to note:

1. "US Citizen", "Parents U.S. Born", and "All immediate family US Citizens". If not marked "Yes", then Sailor may be ineligible for some ratings.
2. ASVAB scores. Ensure scores are composite scores, not raw scores. (Raw scores are very low numbers.)
3. Verify all "Medical" and "Legal" information. If this information is inaccurate, then ratings for which the Sailor is qualified will also be inaccurate.
4. "Security Clearance Eligible". If the Sailor is required to have a Security Clearance for a rating and this block is marked "No", then the Sailor will reflect as being ineligible for the rating.

After verifying that all of this information is accurate, click the "Qualify" button.

To access each subcategory, click the headings, "Test Scores & Evaluations", "Medical", and "Legal & Moral".

Sailors must be "Qualified" in order to determine ratings for which they qualify when investigating conversion options. It is vitally important that all information entered on the "Sailor Details" is completely and thoroughly accurate. A mistake in a few of these blocks could render a Sailor ineligible for a rating that he/she actually does qualify.

### Reenlistment (AC/FTS) Qualified Jobs

When Sailors have Convert Out opportunities, sometimes the jobs for which they wish to convert are not available. There are two reasons for this. Either there are no convert out opportunities for that year group and pay grade or the Sailor does not qualify for that rate. To verify the reason is due to ineligibility for the rate, utilize the Career Exploration Mode ("CEM").

If Sailor is 13 to 10 months prior to SEAOS, then Sailor can choose "In-Rate, Willing to Convert". If FTS rates are available for AC or vice versa, then the Sailor can request component changes as well.

"In-Rate, Willing to Convert" will grant the Sailor more options. The Sailor's application will first be racked and stacked In-Rate. If disapproved for In-Rate, then the application will be racked and stacked at for conversion choice one. If disapproved, then application will be racked and stacked for conversion choice two. If disapproved, then the application will rack and stack for the final conversion choice three. Many Sailors limit themselves by only apply for In-Rate quotas. This type of application can be submitted 13 - 10 months prior to SEAOS and 12-10 months prior to PRD.

The "Notes" section of C-Way is intended as an opportunity to allow communication between the Career Counselors and the Enlisted Community Managers. If the Sailor recently earned his/her warfare device or NEC and it is not reflected in the C-WAY "Sailor Details" page, verify receipt and make a note. NOTE: Warfare devices nor NECs cannot be updated by the Help Desk. If it is missing, contact your PLR.

As long as the Sailor has already been qualified, then simply click "Apply Reenlistment (AC/FTS)".

If no "Apply Reenlistment (AC/FTS)" button is available, check the following:

- Is Sailor a designated E2 or below?
- Is Sailor over 14 years between ADS/PEBD and SEAOS?
- Is Sailor selected or frocked to Chief?

If the answer is Yes, then C-WAY does not apply.

# CAREER WAYPOINTS AUTO APPROVAL PROCESS OVERVIEW FOR SEAOS APPLICATIONS

C-Way auto approval functionality will be implemented February 1, 2014 for non-nuclear rating SEAOS applications. All nuclear-rating applications will be eligible for auto approval (approved-pending status). Requirements for Career Counselors remain the same:

- Validation/update of data on system generated application
- Submission of application for processing

The major change Career Counselors will notice is the addition of an "Auto Approval Eligibility" field and immediate decision on submitted applications (no rack and stack).

E6 Sailors and E5 & below Sailors in "Open Ratings" and/or undermanned year groups will get an immediate status of APPROVED in C-WAY provided the following conditions are met:

- Sailor submits a valid application, in all aspects eligible for reenlistment;
- Sailor applying based on system-generated SEAOS application;
- Sailor is not in the Nuclear program;
- No automatically populated data on the C-WAY application has been changed (security clearance, PFA, evaluation etc.). Changing data on the application including updating evaluations will result in the application changing from auto-approved to approved pending status for ECM review.

Determination of an "Open Rating" or undermanned year group will be continually evaluated based on current Rating manning and may change during the month (from Open to Balanced or Competitive). Once a Rating/year group is no longer Open, Auto Approval functionality for that Rating will be suspended. Individual applications will no longer show they are eligible for Auto Approval and will be processed in the Rack and Stack process as they are today. For information on Rating status refer to the Career Navigator (CNAV) Skillset located at: <http://www.public.navy.mil/bupers-npc/career/careercounseling/Pages/C-WAY.aspx>

All applications for Sailors in nuclear programs will be marked with an approved pending status and will be routed to Enlisted Community Managers for review similar to process currently used. However, ECMs will be able to process applications on an ongoing basis with a shorter turnaround time for decision.

## LETTERS:

Notification letters will NOT be available immediately. However, approval letters will be available the following day.

# C-WAY Special Circumstance - Projected Rotation Date (SC-PRD) Applications

-PRD Applications are submitted as follows:

\*15 months prior to PRD, applications are auto-generated in C-WAY;

\*12 - 10 months prior to PRD, applications are racked and stacked for In-Rate and Conversion quotas for OBLISERVE purposes.

\*Neither SELRES nor component change requests are optional during the PRD application window.

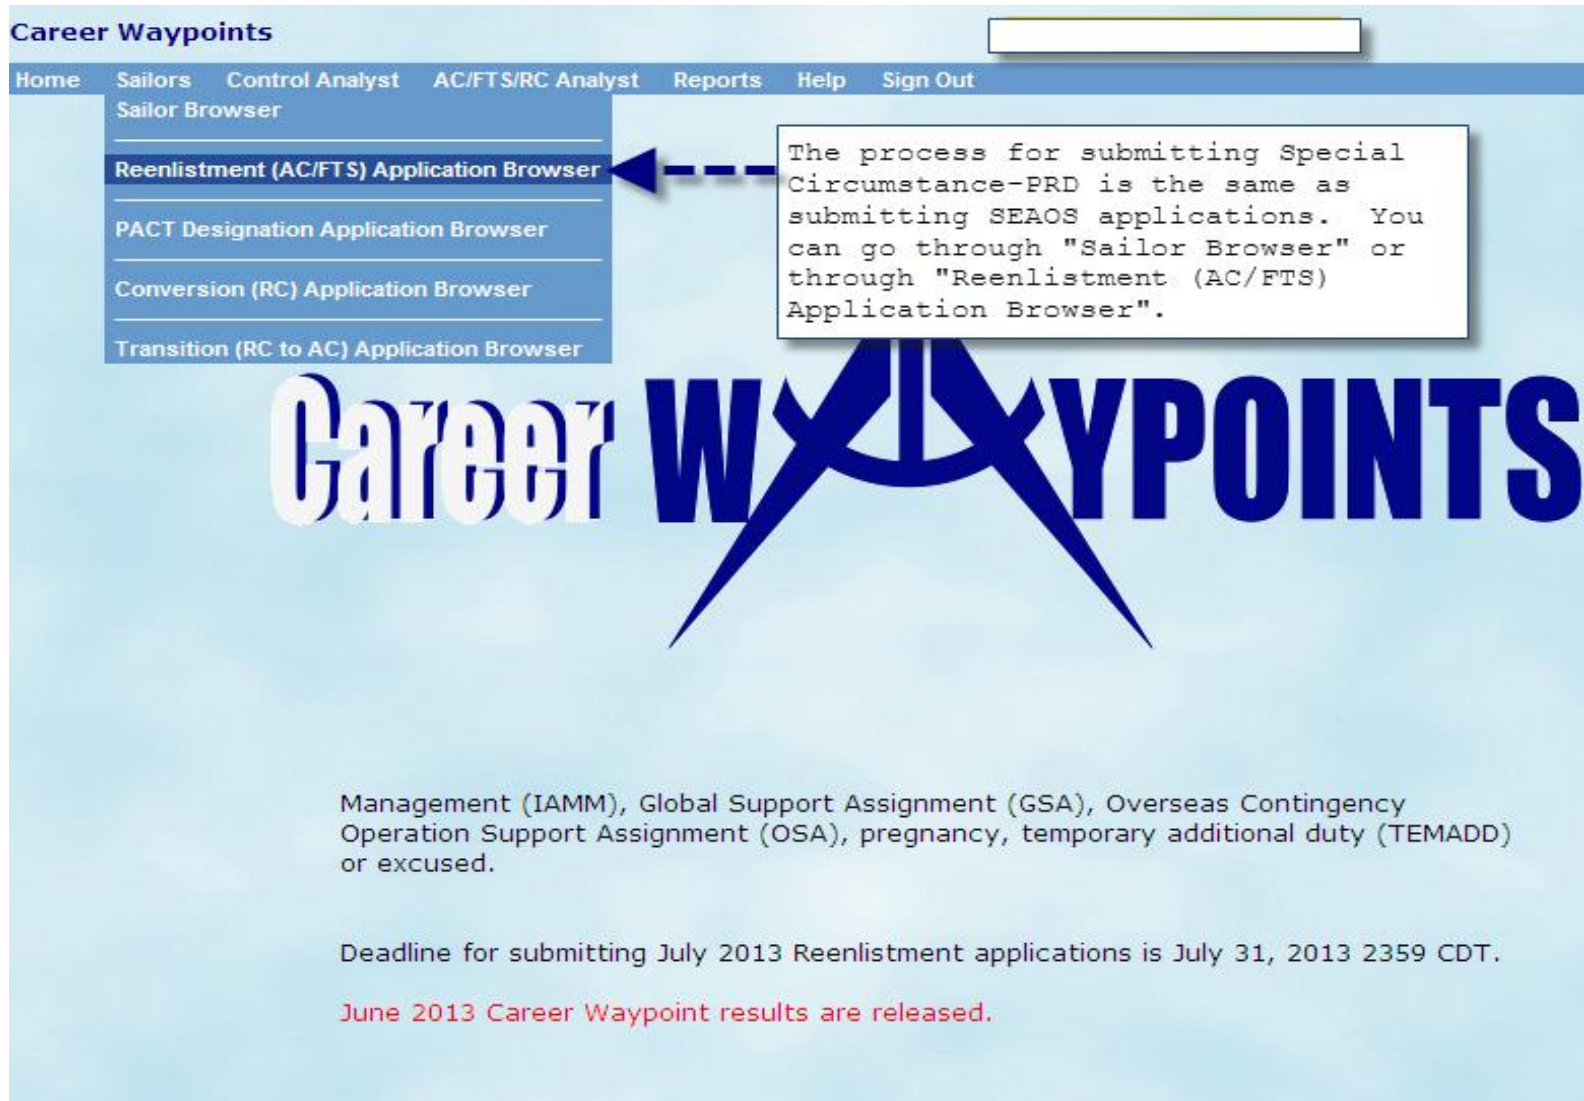

-C-WAY automatically generates mandatory, constrained C-WAY SC-PRD applications 15 months prior to Sailors' PRDs for Sailors who have less than 24 months of contract time remaining, calculated from PRD to SEAOS.

-SC-PRD applications will be reviewed at 12, 11, and 10 months prior to PRD.

-Sailors who do not receive SC-PRD quotas will be required to enter SEAOS applications.

-Sailors who do not receive a SC-PRD approval will contact their respective detailer. Based on the amount of contract time remaining, detailers will determine if the Sailor will remain in place at current command or if orders will be issued IAW sea/shore flow. Sailors left in place will have their PRDs adjusted to match SEAOS.

Sailors who have a 0 or a negative number in this column shall be submitted for SEAOS applications. Sailors who have less than 24 months in this column shall be submitted for PRD applications. Sailors who have 24 months or more in this column shall contact their detailers for orders negotiation. SEAOS and PRD applications are automatically generated by C-WAY 15 months prior to SEAOS and PRD.

# C-WAY-PACT DESIGNATION

- Sailors have the following choices designation:
  - \* Apprenticeship Change (e.g. FN to SN, SN to AN, etc.);
  - \* Direct Rating Designation (RED) (Sailor must be E3 and TIR eligible for E4 or Sailor must be onboard command 12 months or greater);
  - \* "A" School (Sailor must be onboard command for 12 months or greater)
  - \* Navy Wide Advancement Exam (NWAE) (Sailor must be E3 and TIR eligible for the next exam cycle and have an approved quota as follows:
    - March Cycle - Applications months September prior year through February of exam year
    - September Cycle - Application months prior March through August of exam year)
- C-WAY-PACT does not provide approval letters.
- If Sailor is approved for NWAE, order the appropriate exam. NWAE approvals are good for one exam cycle only. If approved during application months March-August, approval is for September exam. If approved during application months September (prior year) through February, approval is for March exam. BUPERS-3 provides a list to NETPDTC with approvals for NWAE.
- If Sailor is approved for "A" School, contact the "A" school detailer.
- If Sailor is approved for RED, BUPERS-3 will update the Enlisted Master File with the rate designation.

# C-WAY-PACT DESIGNATION (CONT' D.)

- Once a Sailor is approved for designation through C-WAY-PACT, only the ECM can authorize release from that designation. ECM rarely authorize a reset for C-WAY-PACT approvals.
- Once a Sailor is approved for NWAE, the exam cycle is over, and the Sailor did not become designated, the Sailor will be required to submit a new C-WAY-PACT application.

## Aviation Electrician's Mate

[AE Community Overview \(ACTIVE\)](#)

[AE Community Overview \(FTS\)](#)

[AE Career Path](#)

Note that under the ratings, there is an Active Component (AC) and a Full Time Support (FTS) Slide. Each slide reflects manning levels for that rate in that component.

### General Description

Aviation Electronic, Electrical, and Computer Systems Technicians work with some of the most advanced electronics equipment in the world and repair a wide range of aircraft electrical and electronic systems. Repair jobs can range from trouble-shooting the computer-controlled weapon system on an F/A18 Hornet on the flight deck of an aircraft carrier to changing circuit cards or tracing electrical wiring diagrams in an air-conditioned shop. Most of these technicians are trained in computers to support state-of-the-art equipment or on power generators and power distribution systems to support aircraft electrical systems.

### What They Do

AV sailors attend common basic electronics training, after which they are selected for either the Aviation Electrician (AE) rating or the Aviation Electronics Technician (AT) rating. Depending on selection to AE or AT, the AV sailor will troubleshoot and repair some of the following complex electronic systems, employing the latest test equipment and procedures: digital computers; fiber optics; infrared detection; radar systems; electricity generation systems; laser electronics; navigation systems; communications equipment; electrical power distribution; pressure indication systems; electric transformers and circuits; testing aircraft instruments and systems such as automatic flight controls, inertial navigation, and compass systems; installing changes, alterations, and modifications to aircraft electronics systems; performing micro-miniature module repair on computer circuit cards; using a variety of electrical measuring and diagnostic equipment; reading electrical system diagrams; repairing and maintaining power generators and electric motors.

### Working Environment

Sailors in this career field will perform duties at sea and ashore around the world. At various times they could be working at a land-based aircraft squadron or onboard an aircraft carrier, either indoors or outdoors, in a shop environment or in office surroundings, and at a clean lab bench or in a garage-type situation. They work closely with others, require little supervision, and do mental and physical work of a technical nature.

# CAREER WAYPOINT-Reenlistment Checklist for Success

- ✓ Understand current CAREER WAYPOINT-Reenlistment policy  
<http://www.public.navy.mil/bupers-npc/career/careercounseling/Pages/CareerWaypointSystem.aspx>
- ✓ Identify eligible (SEAOS/PRD) Sailors
- ✓ Ensure CDBs are being conducted (15-24 months prior to PRD/SEAOS)
- ✓ Ensure all Sailors are qualified
- ✓ Ensure all qualified CAREER WAYPOINT-Reenlistment applications are submitted (13-15 months to SEAOS/PRD)
- ✓ Review monthly results via CAREER WAYPOINT-Reenlistment command reports
- ✓ Personally recognize Sailors approved for Reenlistment
- ✓ Ensure counseling is conducted for all Sailors who have not been selected for INRATE/Conversion approval after two reviews/looks
- ✓ Ensure proper command level notification is being done for those being separated under Reenlistment
- ✓ Ensure Sailors not selected for Reenlistment are provided counseling on the benefits of Reserve Affiliation
- ✓ Ensure CAREER WAYPOINT-Reenlistment is briefed during Quarterly/Monthly Career Development Team Meetings
- ✓ Ensure the Chiefs' Mess maintains accountability of CAREER WAYPOINT-Reenlistment with their respective departments/divisions

# C-WAY STATUS CODES

<b>APPROVED - EXECUTED</b>	This means the C-WAY quota has been used; SEAOS has changed in the Enlisted Master File. (e.g., Reenlistment or Signed Extension paper work)
<b>APPROVED - EXPIRED</b>	This means the Sailor did not use the INRATE quota in the allotted time given (13 months from processing month)
<b>APPROVED - REVOKED</b>	The C-WAY quota was Revoked by the ECM. (e.g., SP Eval, Loss of Security Clearance, Intends to separate, etc...)
<b>APPROVED - SEPARATED</b>	Member separated from the service with an approved quota.
<b>APPROVED - UNUSED</b>	This means the Sailor who had C-WAY approval allowed an existing extension go operative. (i.e., EAOS changes in Enlisted Master File)*

\*APPROVED-UNUSED applications will no longer exist after 1 August 2013.

# CAREER-WAYPOINTS (C-WAY) STATUS CODES FOR ENLISTED MASTER FILE (EMF)
