SUBJECT: Furloughs

This memo directs defense managers to prepare to furlough most Department of Defense (DoD) civilians for up to 11 days. The schedule for furloughs, and some specific exceptions, are described later in this memo and in the attachment. I have made this decision very reluctantly, because I know that the furloughs will disrupt lives and impact DoD operations. I, along with the senior civilian and military leadership of the Department, have spent considerable time reviewing information related to the need for furloughs, and I would like to share with you the reasoning that led me to this difficult decision.

Major budgetary shortfalls drove the basic furlough decision. On March 1, sequestration went into effect across the federal government. DoD's budget for FY 2013 was reduced by \$37 billion, including \$20 billion in the operation and maintenance (O&M) accounts that pay many of our civilian workers. In addition, because our wartime budget is also subject to sequestration, we must utilize funds originally budgeted for other purposes in order to provide our troops at war with every resource they need. To compound our problems, when we estimated future wartime operating costs more than a year ago, we planned on fuel costs below what we are currently experiencing. Taken together, all these factors lead to a shortfall in our O&M accounts of more than \$30 billion – a level that exceeds 15 percent of our budget request, with fewer than six months left in the fiscal year in which to accommodate this dramatic reduction in available resources.

We are taking actions to reduce this shortfall. One main priority has governed our decisions: to minimize the adverse effects on our military mission, including military readiness. With this in mind, early this calendar year we cut back sharply on facilities maintenance and worked to hold down base operating costs -- decisions we knew would build a backlog of maintenance and adversely affect our bases. We are also preparing a request to Congress that would permit us to shift some funding from investment and military personnel accounts into the O&M accounts. If approved by Congress, this initiative -- known as a reprogramming -- would help close the gap.

But these actions are not enough. We have begun making sharp cuts in the training and maintenance of our operating forces -- cutbacks that are seriously harming military readiness. The Army, for example, has terminated most remaining FY 2013 training rotations at its combat training centers. The Air Force has or soon will stop all flying at about one-third of its combat-coded squadrons in the active forces. The Navy and Marine Corps are cutting back on training and on deployments -- including a decision not to send a second carrier strike group to the Gulf. These are only a few of the many cutbacks we have made in training and maintenance. These actions reduce our ability to handle future military contingency needs, both this year and in subsequent years.

Even after taking all these actions, we are still short of needed operating funds for FY 2013, and we cannot rule out unexpected increases in costs during the next few months. So we confront a difficult set of trade offs. We can make even larger cutbacks in training and maintenance, further reducing readiness to handle contingency operations and putting into even greater jeopardy our military readiness in future fiscal years. Alternatively, we can furlough civilian personnel to help close the gap and, knowing that morale, productivity and readiness would be affected. This is an unpleasant set of choices, but this is the situation we face.

Before making a decision, I sought advice and inputs from senior leaders in the military departments and agencies as well as advice from my senior civilian and military staff. I asked them to keep in mind our fundamental criterion to minimize adverse mission effects and, subject to that criterion, to ensure reasonable consistency and fairness across the Department for any furloughs that we impose.

Based on all these inputs, I have decided to direct furloughs of up to 11 days for most of the Department's civilian personnel. Furloughs for up to 11 days represent about half of the 22 days that can legally be imposed in a year and also about half the number we had originally planned. This halving of previous furlough plans reflects vigorous efforts to meet our budgetary shortfalls through actions other than furloughs as well as Congressional passage of an appropriations bill in late March that reduced the shortfalls in our operating budget and expectations of Congressional action on our reprogramming request.

Furloughs will be imposed in every military department as well as almost every agency and in our working capital funds. All of our civilian employees are important, and I would prefer not to furlough any of them. However, there will only be limited exceptions driven by law and by the need to minimize harm to mission execution. We will except civilians deployed to combat zones and civilians necessary to protect life and property (but only to the extent needed to provide that protection). A few categories of workers will be excepted for specific mission reasons while some categories of workers will be excepted because furloughing them would not

free up money for critical DoD mission needs. The attachment provides details regarding approved exceptions. Fewer than one fifth of all civilians paid with appropriated funds will be excepted from furloughs.

The planning and implementation of furloughs will be carried out based on the schedule below:

- May 28 - June 5: Furlough proposal notices will be served to individual employees subject to furloughs.
- June 4 - June 12: Individual employee reply periods end 7 calendar days from when the proposal was received, unless Component procedures allow for a different reply period.
- June 5 - July 5: Furlough decision letters will be served to individual employees subject to furloughs, depending on when the proposal was received and prior to the first day of furlough.
- July 8: Furlough period begins no earlier than this date.

We will begin furloughs on July 8 at the rate of 1 furlough day per week for most personnel. For now, we plan to continue furloughs through the end of FY 2013. That schedule would lead to 11 furlough days – one fifth of the week for about one quarter of the year. Moreover, I am directing all components to monitor funding closely for the remainder of FY 2013. If our budgetary situation permits us to end furloughs early, I would strongly prefer to do so. That is a decision I will make later in the year.

Consistent with this memo and with applicable laws and rules, commanders and managers will have the authority to develop the specifics of furlough procedures in order to minimize adverse mission effects and also limit the harm to morale and productivity. Further bargaining with unions may also be required. The Under Secretary for Personnel and Readiness has already issued guidance as appropriate regarding personnel and union issues related to furloughs and will issue additional guidance as needed. Overall coordination of sequester and furlough policies will be the responsibility of the Under Secretary of Defense (Comptroller).

Each of the Department's civilian employees makes an important contribution to the readiness of our Department to meet the nation's national security needs. I understand that the decision to impose furloughs imposes financial burdens on our valued employees, harms overall morale, and corrodes the long-term ability of the Department to carry out the national defense mission. I deeply regret this decision. I will continue to urge that our nation's leaders reach an agreement to reduce the deficit and de-trigger sequestration. If no agreement is reached, I will continue to look for ways to limit the adverse effects of sequestration and associated budgetary shortfalls both on the men and women of the Department of Defense, and on our national defense.

Attachment:
As stated.

Department of Defense Furlough Exceptions

This attachment provides Components with final dispositions on categorical exceptions to the Department of Defense (DoD) plan to furlough civilian employees for a maximum of 88 hours or 11 discontinuous workdays because of the current financial crisis caused by a sequestration for Fiscal Year (FY) 2013, increased costs for ongoing Overseas Contingency Operations, and other emerging requirements. In order to minimize adverse effects on mission, employees in the following categories are excepted from furlough for the reasons noted:

- a) In order to avoid harm to war efforts, all employees deployed (in a Temporary Duty status) or temporarily assigned (to include Temporary Change of Station) to a combat zone (as defined in notes below) are excepted from furlough.
- b) In order to avoid harm to mission, those employees necessary to protect safety of life and property are excepted to the extent necessary to protect life and property. This includes selected medical personnel. Later portions of this attachment provide details.
- c) Employees in Navy shipyards will be excepted from furlough because it would be particularly difficult to make up delays in maintenance work on nuclear vessels and these vessels are critical to mission success. All other depot employees, whether mission-funded or working capital fund employees, will be subject to furlough.
- d) Furloughs for employees funded with National Intelligence Program (NIP) funds will be determined by the Director of National Intelligence. Employees funded with Military Intelligence Program (MIP) funds will be subject to furlough.
- e) Because there would be no savings, Foreign Military Sales (FMS) employees whose positions are exclusively funded from FMS Administrative and FMS case funds (case number may be required to validate funding source) and from Foreign Military Financing accounts are excepted from furlough. Furloughing employees in this category would not reduce the expenditure of DoD budgetary resources and so would not assist in meeting sequestration reductions. The FMS case-funded positions funded in whole or part by DoD appropriations (to include "pseudo-FMS" cases) are subject to furlough.
- f) By law, all individuals appointed by the President, with Senate confirmation, who are not covered by the leave system in title 5, U.S. Code, chapter 63, or an equivalent formal leave system, are excepted from furlough.
- g) All employees funded by non-appropriated funds (NAF) ¹ (regardless of source of NAF funding) are excepted from furlough. Furloughing employees in this category would not reduce the DoD budget and so would not assist in meeting sequestration reductions.
- h) All Outside Contiguous United States foreign national employees, many of whom are subject to Status of Forces Agreements, are excepted from furlough because their situation vary greatly by country/region and because, in some cases, they are paid by host governments.

¹ NAF employees are not covered by the requirements and procedures applicable to furloughs of appropriated fund employees under FY13 sequestration. However, NAF employees may be furloughed under DoD NAF and Component policies and procedures for business-based reasons.

- i) Any employees who are not paid directly by accounts included in the Department of Defense-Military (subfunction 051) budget are excepted from furlough. For example, this would include employees funded by the Arlington National Cemetery (705 function) and DoD Civil Works (various non-051 functions) programs. These exceptions have been identified by the Components. Furloughing these employees would not reduce the expenditure of DoD budgetary resources and so would not assist in meeting sequestration reductions.

The following portion of this document provides the definitive list of additional approved exceptions beyond those listed in the preceding paragraph. The exceptions approved for the safety of life and protection of property category are granted with the understanding that these are the minimum exceptions needed to maintain operations and provide security on a 24/7 basis and that furloughing these employees would result in the Department incurring additional costs for premium pay. Similarly, the exceptions for the medical category are approved with the understanding these exceptions preserve the minimum level of personnel needed to maintain quality of care in 24/7 emergency rooms and other critical care areas such as behavioral health, wounded warrior support, and disability evaluation. Furloughing these employees would result in unacceptable care being provided, and the Department would incur increased costs for premium pay or TRICARE. The exception for Child Development Centers is granted with the understanding that this is the minimum level needed to maintain accreditation and maintain quality care for children in military families. Some Department of Defense Education Activity employees, while not excepted from furlough, may only be furloughed when they are in a pay status. Therefore, they will only be subject to furlough for up to five days at the beginning of the 2013 school year.

Recognizing that circumstances can change in this dynamic environment, the Secretaries of the Military Departments, and the Principal Staff Assistants for the Defense Agencies and Field Activities, may approve up to 50 additional individual, mission-based, exceptions as needed to ensure safe and efficient operations of their respective Departments. Any such exception must be reported to the Acting Under Secretary of Defense (USD) for Personnel and Readiness and the USD Comptroller. There are no other approved exceptions provided based on the Components' submissions. Furlough proposal notices should be issued to all impacted employees beginning May 28, 2013.

Relative to the review and decision on individual employee requests for exception, per guidance issued via the Principal Deputy Assistant Secretary of Defense, Readiness and Force Management, memorandum, dated March 13, 2013, activities should designate the Deciding Official. The designated Deciding Official will be no lower than a local Installation Commander, senior civilian or equivalent who would be in the best position to determine the fair and equitable application of the furlough. Deciding Official responsibilities may not be further delegated. Deciding Officials are charged with, and are accountable for, making final decisions on furloughs for individual employees after carefully considering the employee's reply, if any, and the needs of the Department. Deciding Officials must also ensure they make final decisions in cases where an employee does not submit a reply. Deciding Officials will have the authority to execute the full range of options with respect to providing relief in individual employee cases. This authority includes, but is not limited to, reducing the number of days/hours an individual employee is furloughed, or granting the individual employee an exception from the furlough altogether.

- c) A "deployed civilian's" period of deployment includes time spent in attendance at mandatory pre-deployment training as well as in completing mandatory post-deployment requirements.
- d) A civilian employee who was deployed to a combat zone but redeploys mid-way through the furlough period will receive a notice of proposed furlough upon return to their parent organization and prior to any furlough. TO SECTION 251A OF THE BALANCED BUDGET AND
EMERGENCY DEFICIT CONTROL ACT, AS AMENDED

By the authority vested in me as President by the laws of the United States of America, and in accordance with section 251A of the Balanced Budget and Emergency Deficit Control Act, as amended (the "Act"), 2 U.S.C. 901a, I hereby order that budgetary resources in each non-exempt budget account be reduced by the amount calculated by the Office of Management and Budget in its report to the Congress of March 1, 2013.

Pursuant to sections 250(c)(6), 251A, and 255(e) of the Act, budgetary resources subject to sequestration shall be new budget authority, unobligated balances of defense function accounts carried over from prior fiscal years, direct spending authority, and obligation limitations.

MEMORANDUM FOR THE HEADS OF EXECUTIVE DEPARTMENTS AND AGENCIES

FROM: Jeffrey D. Zients 
Deputy Director for Management

SUBJECT: Issuance of the Sequestration Order Pursuant To Section 251A of the Balanced Budget and Emergency Deficit Control Act of 1985, as Amended

This memorandum is to inform executive departments and agencies (agencies) that the President has issued a sequestration order (order) in accordance with section 251A of the Balanced Budget and Emergency Deficit Control Act, as amended (BBEDCA), 2 U.S.C. 901a. The order requires that budgetary resources in each non-exempt budget account be reduced by the amount calculated by the Office of Management and Budget (OMB) in its report to Congress of March 1, 2013, entitled *OMB Report to the Congress on the Joint Committee Sequestration for Fiscal Year 2013* (sequestration report).

Due to the failure of the Joint Select Committee on Deficit Reduction, the President was required by law to issue an order canceling \$85 billion in budgetary resources across the Federal Government for the remainder of Fiscal Year (FY) 2013. OMB has calculated that, over the course of the fiscal year, the order requires a 7.8 percent reduction in non-exempt defense discretionary funding and a 5.0 percent reduction in non-exempt nondefense discretionary funding. The sequestration also requires reductions of 2.0 percent to Medicare, 5.1 percent to other non-exempt nondefense mandatory programs, and 7.9 percent to non-exempt defense mandatory programs. The sequestration report provides calculations of the amounts and percentages by which various budgetary resources are required to be reduced, and a listing of the reductions required for each non-exempt budget account.

Agencies shall apply the same percentage reduction to all programs, projects, and activities within a budget account, as required by section 256(k)(2) of BBEDCA, 2 U.S.C. 906(k)(2). Agencies should operate in a manner that is consistent with guidance provided by OMB in Memorandum 13-03, *Planning for Uncertainty with Respect to Fiscal Year 2013 Budgetary Resources* and Memorandum 13-05, *Agency Responsibilities for Implementation of Potential Joint Committee Sequestration*.

EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET
WASHINGTON, D.C. 20503

March 1, 2013

The Honorable John A. Boehner
Speaker of the House of Representatives
Washington, D.C. 20515

Dear Mr. Speaker:

Enclosed please find the Office of Management and Budget (OMB) Report to the Congress on the sequestration for fiscal year (FY) 2013 required by section 251A of the Balanced Budget and Emergency Deficit Control Act, as amended (the "Joint Committee sequestration"). This report provides calculations of the amounts and percentages by which various budgetary resources are required to be reduced, and a listing of the reductions required for each non-exempt budget account.

In August 2011, as part of the Budget Control Act of 2011 (BCA), bipartisan majorities in both the House of Representatives and Senate voted for sequestration as a mechanism to compel the Congress to act on deficit reduction. The threat of destructive across-the-board cuts under the BCA was intended to drive both sides to compromise. Yet, a year and a half has passed, and the Congress still has failed to enact balanced deficit reduction legislation that avoids sequestration.

As a result of the Congress's failure to act, the law requires the President to issue a sequestration order today canceling \$85 billion in budgetary resources across the Federal Government for FY 2013. Specifically, OMB calculates that, over the course of the fiscal year, the sequestration requires a 7.8 percent reduction in non-exempt defense discretionary funding and a 5.0 percent reduction in non-exempt nondefense discretionary funding. The sequestration also requires reductions of 2.0 percent to Medicare, 5.1 percent to other non-exempt nondefense mandatory programs, and 7.9 percent to non-exempt defense mandatory programs.

Because these cuts must be achieved over only seven months instead of 12, the effective percentage reductions will be approximately 13 percent for non-exempt defense programs and 9 percent for non-exempt nondefense programs.

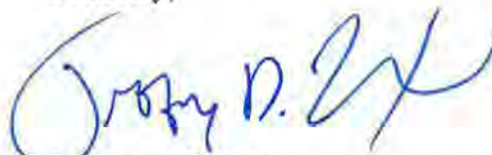

The cuts required by sequestration will be deeply destructive to national security, domestic investments, and core Government functions. While the Department of Defense will shift funds where possible to minimize the impact on war-fighting capabilities and critical military readiness, sequestration will result in a reduction in readiness of many non-deployed units, delays in investments in new equipment, cutbacks in equipment repairs and needed facilities maintenance, disruptions in military research and development efforts, significant reductions in weapons programs, and furloughs of most civilian employees for a significant

amount of time. Sequestration will also undermine nondefense investments vital to economic growth, threaten the safety and security of the American people, and cause severe harm to programs that benefit the middle class, seniors, and children. According to analysis by outside experts, sequestration would reduce real GDP growth for 2013 by 0.5 to 0.7 percentage points were it to continue for the rest of the calendar year.

The Joint Committee sequestration is a blunt and indiscriminate instrument. It was never intended to be implemented and does not represent a responsible way for our Nation to achieve deficit reduction.

On multiple occasions, the President has proposed comprehensive and balanced deficit reduction plans to avoid sequestration. The President and Congress, working together, have already reduced the deficit by \$2.5 trillion. The President has been clear that he is willing to make tough choices to reach an agreement on further deficit reduction. The Administration continues to stand ready to work with the Congress to enact balanced deficit reduction legislation that replaces sequestration and puts the Nation on a sound long-term fiscal path.

Sincerely,

Jeffrey D. Zients
Deputy Director for Management

**OMB REPORT TO THE CONGRESS
ON THE JOINT COMMITTEE SEQUESTRATION
FOR FISCAL YEAR 2013**

March 1, 2013

**OMB REPORT TO THE CONGRESS
ON THE JOINT COMMITTEE SEQUESTRATION
FOR FISCAL YEAR 2013**

The Balanced Budget and Emergency Deficit Control Act, as amended (BBEDCA), 2 U.S.C. § 901a, requires the Office of Management and Budget (OMB) to calculate, and the President to order on March 1, 2013, reductions in budgetary resources triggered by the failure of the Joint Select Committee on Deficit Reduction to propose, and the Congress to enact, legislation to reduce the deficit by \$1.2 trillion (Joint Committee sequestration). This report provides OMB's calculations of the percentage and dollar amount of the reduction for each non-exempt budget account and an explanation of the calculations.

OMB calculates that the Joint Committee sequestration requires a 7.8 percent reduction in non-exempt defense discretionary funding and a 5.0 percent reduction in non-exempt non-defense discretionary funding. The sequestration also imposes reductions of 2.0 percent to Medicare, 5.1 percent to other non-exempt nondefense mandatory programs, and 7.9 percent to non-exempt defense mandatory programs.

Basis for Calculations

Discretionary Appropriations. As of the date of this report, no full-year regular appropriations bills have been enacted for fiscal year (FY) 2013. Instead, all agencies are operating under the Continuing Appropriations Resolution, 2013 (CR), Pub. L. 112-175. In addition, the Disaster Relief Appropriations Act, 2013 (Hurricane Sandy supplemental), Pub. L. 113-2, provided supplemental funding to various agencies for Hurricane Sandy relief and recovery efforts. Accordingly, as required by sections 251A(7)(A) and 253(f)(2) of BBEDCA, OMB's estimates for the level of sequestrable budgetary resources and resulting reductions assume that budget accounts with discretionary appropriations are funded at the annualized level provided by the CR, plus funding provided by the Hurricane Sandy supplemental and any funding enacted as advance appropriations for FY 2013. Unless another amount is specified by the CR, the annualized level equals the FY 2012 enacted appropriations, including changes in mandatory programs, net of any recurring rescissions, and increased by 0.612 percent pursuant to section 101(c) of the CR.¹ Spending authority from offsetting collections is only increased by the 0.612 percent when that spending authority is used to determine the annualized level. Amounts designated in the CR for Overseas Contingency Operations (OCO)/Global War on Terrorism (GWOT), and amounts incorporated in the CR by reference to the Disaster Relief Appropriations Act, 2012, Pub. L. 112-77, do not receive the 0.612 percent increase. As provided by section 101(b) of the CR, whenever an amount designated for OCO/GWOT pursuant to section 251(b)(2)(A) of BBEDCA in either the Department of Defense Appropriations Act, 2012 (division A of Pub. L. 112-74) or in the Military Construction and Veterans Affairs and Related Agencies Appropriations Act, 2012 (division H of Pub. L. 112-74) differs from the amount in the President's FY 2013 Budget request, the annualized level equals the amount in the President's FY 2013 Budget request. The CR levels are also adjusted for any transfers mandated by law.

Unobligated Balances in the Defense Function. Pursuant to section 255(e) of BBEDCA, unobligated balances in the defense function are sequestrable budgetary resources. The majority of estimated unobligated balances in the defense function are in Department of Defense accounts. In general, for multiyear accounts, the Department of Defense estimated unobligated balances as of March 1, 2013, by reducing unobligated balances as of December 31, 2012, by a historically-based estimate of obligations from prior year funds in January and February.

¹ Information about OMB's calculation of the amounts appropriated by the CR can be found in OMB Bulletin 12-02, which is available online at <http://www.whitehouse.gov/sites/default/files/omb/bulletins/fy2012/b12-02.pdf>.

Direct Spending. Estimates of sequestrable budgetary resources and outlays for budget accounts with direct spending are equal to the current law baseline amounts contained in the President’s FY 2013 Budget, adjusted for the effects of legislation enacted since the Budget was transmitted. Two changes with the largest effect on the amount of sequestrable direct spending—providing for a zero percent update for Medicare payments to physicians under the Sustainable Growth Rate formula for calendar year 2013, and extending Emergency Unemployment Compensation (EUC) through the end of 2013—were enacted in the American Taxpayer Relief Act of 2012 (ATRA), Pub. L. 112-240.

Special Sequestration Rules. The Joint Committee sequestration order is not an order under section 254 of BBEDCA.² Accordingly, as set forth in this report, the special rules in section 256 that apply only to a sequestration order issued under section 254 do not apply to the Joint Committee sequestration, except to the extent those rules are otherwise made applicable by another provision of law. Section 251A(7)(A) of BBEDCA does not include any such provision for discretionary spending; as a result, in calculating the reduction in discretionary spending required by the Joint Committee sequestration, this report does not apply the special rules in section 256 that apply only to a sequestration order issued under section 254. The special rules in section 256 do, however, apply to the reduction in direct spending required by the Joint Committee sequestration, pursuant to the explicit direction in section 251A(8) of BBEDCA.

Federal Administrative Expenses. Under section 256(h) of BBEDCA, Federal administrative expenses are subject to sequestration pursuant to an order issued under section 254 “without regard to any exemption, exception, limitation, or special rule which is otherwise applicable.” For the reasons set forth in the preceding paragraph, for the Joint Committee sequestration, this rule applies only to Federal administrative expenses that constitute direct spending. BBEDCA does not define “administrative expenses.” For purposes of this report, “administrative expenses” for typical Government programs are defined as the object classes for personnel compensation, travel, transportation, communication, equipment, supplies, materials, and other services. For Government programs engaging in commercial, business-like activities, administrative expenses constitute overhead costs that are necessary to run a business, and not expenses that are directly tied to the production and delivery of goods or services.

American Taxpayer Relief Act of 2012. In addition to the changes to direct spending mentioned above, this report reflects three changes to the calculation of the Joint Committee sequestration required by ATRA. Section 901(a) reduced the amount of the FY 2013 sequestration by \$24 billion, which was paid for by \$12 billion of revenue increases and \$12 billion in total reductions to the discretionary spending limits for FYs 2013 and 2014. Section 901(c) delayed the date for submission of this report from January 2, 2013 to March 1, 2013. Section 901(e) altered the discretionary spending limits for FY 2013 for purposes of calculating the Joint Committee sequestration.

Calculation of Sequestration Percentages

Under section 251A of BBEDCA, the failure of the Joint Select Committee on Deficit Reduction to propose, and the Congress to enact, legislation to reduce the deficit by \$1.2 trillion triggers automatic reductions in discretionary appropriations and direct spending to achieve the deficit reduction that the Joint Select Committee process was meant to achieve. As shown in Table 1, the total annual amount of deficit reduction required is specified by formula in section 251A(3), starting with the total reduction of \$1.2 trillion required for FY 2013 through

² For further discussion, see the OMB Report Pursuant to the Sequestration Transparency Act of 2012 (STA Report) issued in September.

FY 2021, deducting a specified 18 percent for debt service savings, and then dividing the result by 9 to calculate the annual reduction of \$109 billion for each year from FY 2013 to FY 2021. As discussed previously, ATRA lowered the amount of the reduction required for FY 2013 by \$24 billion, leaving \$85 billion to be achieved through sequestration. The annual reduction is split evenly between budget accounts in function 050 (defense function) and in all other functions (nondefense function), so that each function group will be reduced by \$42.667 billion in FY 2013.

Table 1. CALCULATION OF TOTAL ANNUAL REDUCTION BY FUNCTION

(In billions of dollars)

Deduct debt service savings (18%)	-216.000
Net programmatic reductions	984.000
Divide by 9 to calculate annual reduction	109.333

Net remaining programmatic reduction for FY 2013	85.333
Split 50/50 between defense and nondefense functions	42.667

Base for Allocating Reductions. The annual reduction is further allocated between discretionary and direct spending within each of the function groups in proportion to their share of total spending within the function group. The base for allocating reductions to discretionary appropriations is the discretionary spending limit for FY 2013 listed in section 251(c) (2) as revised by section 251A(2)(A), and as applied pursuant to section 901(e) of ATRA. For purposes of this report, the discretionary spending limits have not been revised to include adjustments pursuant to section 251(b)(2) for certain funding included in the CR and Hurricane Sandy supplemental because these adjustments cannot be made until OMB issues its Discretionary Final Sequestration Report for FY 2013 on March 27th pursuant to section 901(b) of ATRA. Pursuant to paragraphs (5) and (6) of section 251A, and consistent with section 6 of the Statutory Pay-As-You-Go Act of 2010, 2 U.S.C. § 935, the base for allocating reductions to budget accounts with direct spending is the sum of the direct spending outlays in the budget year and the subsequent year that would result from new sequestrable budget authority in FY 2013.

Sequestrable Base. Once the reductions are allocated between discretionary appropriations and direct spending using the bases above, the sequestration percentage for discretionary appropriations is obtained by dividing the discretionary reduction required by the discretionary sequestrable base, which is described above in the “Basis for Calculations” section. By statute, the discretionary sequestrable base differs from the base used to allocate the reductions between discretionary appropriations and direct spending. For discretionary defense programs, the sequestrable base equals total discretionary appropriations (including funding that would trigger cap adjustments), plus unobligated balances and funding financed by fees, minus exemptions. Except for funding for military personnel accounts, most discretionary defense funding is sequestrable.³ For discretionary nondefense programs, the sequestrable base equals total discretionary appropriations (including funding that would

³ Defense sequestrable budgetary resources include non-exempt new budget authority and unobligated balances carried over from prior fiscal years. Budgetary resources for military personnel accounts are exempt pursuant to section 255(f) of BBEDCA and the July 31, 2012 letter from OMB notifying the Congress of the President’s intent to exempt military personnel accounts from sequestration, available at: <http://www.whitehouse.gov/sites/default/files/omb/legislative/letters/military-personnel-letter-biden.pdf>.

trigger cap adjustments) and funding financed by fees, adjusted to exclude funding for the Department of Veterans Affairs, Pell Grants, and other exempt amounts. For mandatory programs, the sequestrable base is the same as the mandatory base for allocating the reduction. Pursuant to sections 251A(8), 255, and 256 of BBEDCA, most mandatory spending is exempt from sequestration or, in the case of the Medicare program and certain health programs, is subject to a 2 percent limit on sequestration.

Defense Function Reduction

Table 2 shows the calculation of the sequestration percentages and dollar reductions required for budget accounts with discretionary appropriations or direct spending within the defense function. The calculation involves the following steps:

- Step 1. Pursuant to section 251A(5), the total reduction of \$42.667 billion is allocated proportionately between discretionary appropriations and direct spending. The total base is the sum of the FY 2013 revised discretionary spending limit for the security category⁴ (\$544 billion) and OMB’s baseline estimates of sequestrable direct spending outlays in the defense function in FY 2013 and FY 2014 from new direct spending budget authority in FY 2013 (\$0.662 billion). Discretionary appropriations comprise more than 99 percent of the total base in the defense function.
- Step 2. Total defense function spending must be reduced by \$42.667 billion. As required by section 251A(5)(A), allocating the reduction based on the ratio of the revised discretionary spending limit to the total base (the sum of the defense discretionary spending limit and sequestrable direct spending) yields a \$42.615 billion reduction required for discretionary appropriations. Under section 251A(5)(B), the remaining \$0.052 billion is the reduction required for budget accounts with direct spending.
- Step 3. As required by section 251A(7)(A), the discretionary percentage reduction for FY 2013 is calculated by dividing the discretionary reduction amount calculated in step 2 (\$42.615 billion) by the sequestrable budgetary resources (\$549.325 billion) for budget accounts with discretionary appropriations in the defense function, which yields a 7.8 percent sequestration rate for budget accounts with non-exempt discretionary appropriations. A similar calculation is required by section 251A(8) for the sequestration of direct spending. Dividing the direct spending reduction amount (\$0.052 billion) by the sequestrable budgetary resources (\$0.662 billion) for budget accounts with direct spending yields a 7.9 percent sequestration rate for budget accounts with non-exempt direct spending.

Table 2. DEFENSE FUNCTION REDUCTION

	Percentage allocation of reductions	99.88%	0.12%	
Step 2.	Allocation of total reduction	42.615	0.052	42.667
	Percentage allocation of reductions	99.88%	0.12%	
Step 3.	Sequestration percentages calculation:			
	Sequestrable base	549.325	0.662	
	Sequestration percentage	7.8%	7.9%	

⁴ For purposes of this report, the “security category” means discretionary appropriations in budget function 050, National Defense, and “nonsecurity category” means discretionary appropriations other than in budget function 050.

Nondefense Function Reduction

Table 3 shows the calculation of the sequestration percentages and dollar reductions required for budget accounts with discretionary appropriations or direct spending within all other functions besides 050 (nondefense function). The calculation is more complicated than the calculation for the defense function due to a two percent limit on sequestration of Medicare non-administrative spending, a two percent limit on sequestration of community and migrant health centers (which applies only to mandatory funding for those programs), and a special rule for applying the sequestration to student loans. The calculation involves the following steps:

Step 1. Total spending in the nondefense function must be reduced by \$42.667 billion. The portion of Medicare subject to the two percent limit is estimated to have combined FY 2013 and FY 2014 outlays of \$567.340 billion⁵ from FY 2013 budgetary resources, so a two percentage point reduction would reduce outlays by \$11.347 billion, leaving a reduction of \$31.320 billion to be taken from discretionary appropriations and other direct spending in the nondefense function.

Step 2. Pursuant to section 251A(6), the remaining reduction of \$31.320 billion is allocated proportionately between discretionary appropriations and other direct spending in the non-defense function. The remaining base (\$605.839 billion) is the sum of the FY 2013 revised discretionary spending limit for the nonsecurity category (\$499.000 billion) and the remaining sequestrable direct spending base (\$106.839 billion).⁶ The latter amount equals OMB's 2013 Budget baseline estimates of total sequestrable direct spending outlays adjusted for legislation enacted since the Budget's transmittal (\$674.179 billion), minus the portion of Medicare subject to the two percent limit (\$567.340 billion) in the nondefense function in FY 2013 and FY 2014 from new direct spending budget authority in FY 2013. The discretionary spending limit accounts for 82.37 percent of the remaining base in the nondefense function, and direct spending accounts for 17.63 percent.

Applying these percentage allocations to the non-Medicare reduction required for programs in the nondefense function yields the reduction for discretionary appropriations (\$25.798 billion) and for remaining direct spending (\$5.522 billion).

Step 3. The sequestration for the mandatory portions of certain health programs is limited to two percentage points pursuant to sections 251A(8) and 256(e)(2). The portion of these two programs subject to the two percent limit is estimated to have combined FY 2013 and FY 2014 outlays of \$1.344 billion from FY 2013 budgetary resources, so a two percentage point reduction would reduce outlays by \$0.027 billion. Deducting these savings from the non-Medicare direct spending reduction leaves \$5.495 billion to be taken by a uniform percentage reduction of the remaining sequestrable direct spending of \$105.495 billion in the nondefense function.

Step 4. As required by section 251A(7)(A), dividing the discretionary reduction amount (\$25.798 billion) calculated in step 2 by the sequestrable budgetary resources for discretionary appropriations (\$511.785 billion) in the nondefense function yields an 5.0 percent sequestration rate for budget accounts with non-exempt discretionary appropriations.⁷

⁵ As stated above, the Medicare base is higher than the amount stated in the STA Report due primarily to provisions in ATRA providing for a zero percent update for Medicare payments to physicians under the Sustainable Growth Rate formula for calendar year 2013.

⁶ As stated above, the non-Medicare direct spending base is higher than the amount stated in the STA Report due primarily to a provision in ATRA extending EUC through the end of 2013.

⁷ As stated above, the nondefense discretionary base is higher than the amount stated in the STA Report due primarily to the Hurricane Sandy supplemental.

The remaining reduction (\$5.495 billion) to direct spending is applied as a uniform percentage reduction to the remaining budget accounts with sequestrable direct spending and by increasing student loan fees by the same uniform percentage, as specified in sections 251A(8) and 256(b). Each percentage point increase in the sequestration rate is estimated to result in \$0.016 billion of savings in the direct student loan program. Solving simultaneously for the percentage that would achieve the remaining reduction when applied to both the remaining sequestrable direct spending (\$105.495 billion) and to student loan fees yields a 5.1 percent reduction. This percentage reduction would yield savings of \$0.082 billion in the direct student loan program and \$5.413 billion from the remaining budget accounts with non-exempt direct spending.

Reductions by Budget Account (Appendix)

The Appendix of this report sets forth the percentage and dollar amount of the reductions required for each budget account with sequestrable funding. Specifically, the Appendix shows the sequestrable budgetary resources in each budget account, the percentage reduction required for each sequestrable budgetary resource, and the resulting reduction. For illustrative purposes only, the Appendix shows the application of the same percentage reduction to each type of budgetary resource within a budget account. There is no requirement that sequestration be applied equally to each type of budgetary resource within a budget account. Section 256(k)(2) of BBEDCA requires that sequestration be applied equally at the program, project, and activity level within each budget account.

DEPUTY SECRETARY OF DEFENSE
1010 DEFENSE PENTAGON
WASHINGTON, DC 20301-1010

MAR 01 2013

The Honorable Jerry Brown
Governor
State of California
Sacramento, CA 95814

Dear Governor Brown:

As you are likely aware, due to the inability of Congress to reach a deal on balanced deficit reduction to avoid sequestration, the President will be required by law to issue a sequestration order later today canceling approximately \$85 billion in budgetary resources across the Federal Government, of which nearly \$41 billion would come from the Department of Defense (DoD). Another sequestration order could be issued later this month, which could result in a combined reduction for DoD of as much as \$46 billion – roughly a 9 percent reduction in our entire budget except for military personnel funding, which current law permitted the President to exempt.

These cuts must be fully accommodated during the remaining seven months of Fiscal Year (FY) 2013. In addition, the current DoD appropriation (the so-called Continuing Resolution) does not allocate adequate funding for current operations, which greatly adds to the Department's FY 2013 budgetary problems. Because your State plays an important part in supporting DoD and our national security, we wanted to provide you with the information we currently have available about how these unfortunate budgetary adjustments impact us, and in turn what it means for our installations and contractors in California.

We do not yet have a complete inventory of the required cutbacks, but I can provide some examples: The Navy could be forced to cancel maintenance on 5 ships in San Diego and aircraft maintenance in North Island. The Army would lose \$54 million in base operations funding across California, including cuts at the Presidio of Monterrey and Fort Irwin. Operations at Sierra Army Depot could experience a reduction of as much as \$167 million. The Air Force would suffer a cut of at least \$26 million to their operations in the State, including reductions in facilities projects at Beale, Edwards, Travis, and Vandenberg Air Force Bases. We are still assessing detailed changes and will be able to provide additional information on cutbacks in California as we compile a more complete list.

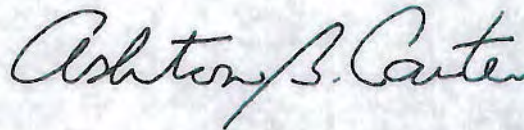

In addition, to accommodate all the cutbacks that would be imposed in the absence of further Congressional action, we will be forced to place most of our DoD civilian employees on unpaid furlough status for up to 22 discontinuous workdays. Almost certainly, this unfortunate action has already had serious adverse effects on the morale and productivity of the approximately 64,000 DoD civilian employees who work in California. If we have to impose these furloughs, it will mean roughly a 20 percent pay cut over a nearly six month period for these dedicated civil servants, who in turn will presumably spend less in your economy. We estimate that a 22-workday furlough could result in a payroll reduction of about \$420 million just in California.

Lastly, it should be noted that sequestration will also affect Defense contractors and, therefore, the industrial base in your State.

While these reductions are unfortunate and will be damaging, the Department is doing everything within our power to minimize adverse effects on our national security mission. In addition, we are prepared to work closely with you to manage these reductions to the extent that we can. Should Congress take subsequent actions that change the level or nature of these reductions, we are committed to working closely with you to manage changes quickly.

Thank you for your continued partnership with the Department of Defense and for your cooperation as we work together to accommodate these unfortunate circumstances.

Dear Governor Bentley:

As you are likely aware, due to the inability of Congress to reach a deal on balanced deficit reduction to avoid sequestration, the President will be required by law to issue a sequestration order later today canceling approximately \$85 billion in budgetary resources across the Federal Government, of which nearly \$41 billion would come from the Department of Defense (DoD). We do not yet have a complete inventory of the required cutbacks, but I can provide some examples: The Army would lose \$91 million in base operations funding across Alabama, including cuts at Fort Rucker and Fort McClellan. Depot operations at Anniston could experience a reduction of as much as \$710 million. The Air Force would suffer a cut of at least \$8 million to their operations in the State, including reductions in facilities projects at Maxwell Air Force Base. We are still assessing detailed changes and will be able to provide additional information on cutbacks in Alabama as we compile a more complete list.

In addition, to accommodate all the cutbacks that would be imposed in the absence of further Congressional action, we will be forced to place most of our DoD civilian employees on unpaid furlough status for up to 22 discontinuous workdays. Almost certainly, this unfortunate action has already had serious adverse effects on the morale and productivity of the approximately 27,000 DoD civilian employees who work in Alabama. If we have to impose these furloughs, it will mean roughly a 20 percent pay cut over a nearly six month period for these dedicated civil servants, who in turn will presumably spend less in your economy. We estimate that a 22-workday furlough could result in a payroll reduction of about \$184 million just in Alabama.

Lastly, it should be noted that sequestration will also affect Defense contractors and, therefore, the industrial base in your State.

We do not yet have a complete inventory of the required cutbacks, but I can provide some examples: The Army would lose \$124 million in base operations funding across Washington, including cuts at Joint Base Lewis-McCord. The Air Force would suffer a cut of at least \$3 million, including reductions in facilities projects at Fairchild Air Force Base. The Navy would face cancellation of aircraft depot maintenance at Whidbey Island and a demolition project in Bremerton. We are still assessing detailed changes and will be able to provide additional information on cutbacks in Washington as we compile a more complete list.

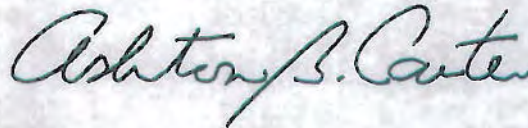

In addition, to accommodate all the cutbacks that would be imposed in the absence of further Congressional action, we will be forced to place most of our DoD civilian employees on unpaid furlough status for up to 22 discontinuous workdays. Richmond, VA 23219

Dear Governor McDonnell:

As you are likely aware, due to the inability of Congress to reach a deal on balanced deficit reduction to avoid sequestration, the President will be required by law to issue a sequestration order later today canceling approximately \$85 billion in budgetary resources across the Federal Government, of which nearly \$41 billion would come from the Department of Defense (DoD). Another sequestration order could be issued later this month, which could result in a combined reduction for DoD of as much as \$46 billion – roughly a 9 percent reduction in our entire budget except for military personnel funding, which current law permitted the President to exempt.

These cuts must be fully accommodated during the remaining seven months of Fiscal Year (FY) 2013. In addition, the current DoD appropriation (the so-called Continuing Resolution) does not allocate adequate funding for current operations, which greatly adds to the Department's FY 2013 budgetary problems. Because your State plays an important part in supporting DoD and our national security, we wanted to provide you with the information we currently have available about how these unfortunate budgetary adjustments impact us, and in turn what it means for our installations and contractors in Virginia.

We do not yet have a complete inventory of the required cutbacks, but I can provide some examples: The Navy will have to cancel maintenance on 11 ships in Norfolk and to defer four projects at Dahlgren, Oceana, and Norfolk. The Army would lose \$146 million in base operations funding across Virginia, including cuts at Fort Lee and Fort Belvoir. The Air Force would suffer a cut of about \$8 million to their facilities projects at Langley Air Force Base. We are still assessing detailed changes and will be able to provide additional information on cutbacks in Virginia as we compile a more complete list.

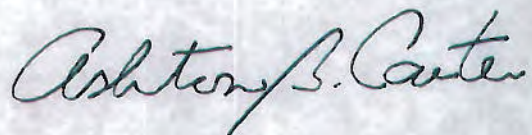

In addition, to accommodate all the cutbacks that would be imposed in the absence of further Congressional action, we will be forced to place most of our DoD civilian employees on unpaid furlough status for up to 22 discontinuous workdays. Almost certainly, this unfortunate action has already had serious adverse effects on the morale and productivity of the approximately 90,000 DoD civilian employees who work in Virginia. If we have to impose these furloughs, it will mean roughly a 20 percent pay cut over a nearly six month period for these dedicated civil servants, who in turn will presumably spend less in your economy. We estimate that a 22-workday furlough could result in a payroll reduction of about \$661 million just in Virginia.

Lastly, it should be noted that sequestration will also affect Defense contractors and, therefore, the industrial base in your State.

While these reductions are unfortunate and will be damaging, the Department is doing everything within our power to minimize adverse effects on our national security mission. In addition, we are prepared to work closely with you to manage these reductions to the extent that we can. Should Congress take subsequent actions that change the level or nature of these reductions, we are committed to working closely with you to manage changes quickly.

Thank you for your continued partnership with the Department of Defense and for your cooperation as we work together to accommodate these unfortunate circumstances.

MEMORANDUM FOR THE HEADS OF EXECUTIVE DEPARTMENTS AND AGENCIES

FROM: Danny Werfel 
Controller

SUBJECT: Agency Responsibilities for Implementation of Potential Joint Committee
Sequestration

Unless Congress acts to amend current law, the President is required to issue a sequestration order on March 1, 2013, canceling \$85 billion in budgetary resources across the Federal Government. Because these cuts must be achieved over the remaining seven months of the fiscal year, the Office of Management and Budget (OMB) estimates that the effective percentage reductions are approximately 9 percent for nondefense programs and 13 percent for defense programs. These reductions will result in significant and harmful impacts to national security and domestic priorities.

The President has been clear that sequestration is bad policy that was never intended to be implemented, and the Administration remains hopeful that Congress will act to avoid it through an agreement on balanced deficit reduction. However, because legislation may not be enacted to avoid sequestration before the current deadline of March 1, 2013, executive departments and agencies (agencies) with sequestrable accounts have been engaged in planning activities to operate at the lower, post-sequestration funding levels should it be necessary.

This guidance builds on prior communications with agencies about the implementation of sequestration, and addresses questions that have been raised as to certain categories of planning activities.

Agency Planning Activities

OMB Memorandum 13-03, *Planning for Uncertainty with Respect to Fiscal Year 2013 Budgetary Resources*, directed agencies to begin planning activities to operate with reduced budgetary resources in the event that sequestration occurs. Agencies' planning efforts must be guided by the principle of protecting the agency's mission to serve the public to the greatest extent practicable. Planning efforts should be done with sufficient detail and clarity to determine the specific actions that will be taken to operate under the lower level of budgetary resources

required by sequestration. For example, agencies should identify any major contracts that they plan to cancel, re-scope or delay as well as any grants that they plan to cancel, delay, or for which they plan to change the payment amount. Similarly, agencies should identify the number of employees who will be furloughed, the length of expected furloughs, the timing of when furlough notices will be issued, and the manner in which furloughs will be administered. In some cases, agencies may not be able to ascertain all of this information prior to March 1. However, agencies should continue to engage in intense and thorough planning activities to determine all specific actions that will be taken as soon as practicable.

Communications

To the extent permitted by law, agencies should inform their various partners and stakeholders in a timely and complete manner of the impact of sequestration so that third parties are able to adjust their operations and plans as appropriate. Accordingly, at this time, agencies should be actively and continuously communicating with affected stakeholders—including States, localities, tribal governments, Federal contractors, Federal grant recipients, and Federal employees—regarding elements of the agency’s planning that have a direct impact on these groups. These communications will vary greatly by agency and by stakeholder, but agencies should be as specific as possible in order to provide sufficient detail to be helpful to these stakeholders in understanding the implications of the reduced budget authority resulting from sequestration.

With regard to any planned personnel actions to reduce Federal civilian workforce costs, consistent with Section 3(a)(ii) of Executive Order 13522, agencies must allow employees’ exclusive representatives to have pre-decisional involvement in these matters to the fullest extent practicable and permitted under the law. In particular, in instances where agencies are considering potential furloughs, agencies have a duty to notify their exclusive representatives and, upon request, bargain over any negotiable impact and implementation proposals the union may submit, unless the matter of furloughs is already covered by a collective bargaining agreement. Agencies should ensure that they are fully aware of and in compliance with any and all collective bargaining requirements, and should consult with their General Counsel or appropriate labor relations office for questions regarding these requirements and appropriate interaction with employees and unions on these matters.

Acquisition

Due to the Government’s large acquisition footprint, sequestration will inevitably affect agency contracting activities and require agencies to reduce contracting costs where appropriate. As with all actions taken as a result of sequestration, agencies should ensure that any contract actions are both cost-effective and minimize negative impact on the agency’s mission to the extent practicable.

Program, acquisition, financial/budget management, information technology, and legal personnel should work together to make determinations regarding contracts in light of sequestration. As a general matter, agencies should only enter into new contracts or exercise options when they support high-priority initiatives or where failure to do so would expose the

government to significantly greater costs in the future. Agencies may also consider de-scoping or terminating for convenience contracts that are no longer affordable within the funds available for Fiscal Year 2013, should no other options exist to reduce contracting costs in these instances. Should such steps be necessary, agencies must evaluate the associated costs and benefits of such actions, and appropriately inform and negotiate with contractors. Finally, agencies should take all appropriate steps to minimize to the extent practicable the impact on small businesses of reduced contracting activities.

Financial Assistance

Given the widespread use of grants, loans and other Federal financial assistance to non-federal entities (e.g., State, local and tribal governments, non-profit organizations, and companies), sequestration will impact the funding of these activities.

As a general matter, agencies should ensure that any new financial assistance obligations or funding increases under existing agreements are consistent with the need to protect the agency's mission at the post-sequestration level. In light of sequestration, agencies may also consider delaying awarding of new financial assistance obligations, reducing levels of continued funding, and renegotiating or reducing the current scope of assistance. Agencies may be forced to reduce the level of assistance provided through formula funds or block grants. Should any such steps be necessary, agencies should evaluate the associated costs and benefits of such actions and appropriately engage and inform recipient(s) as early as possible.

Increased Scrutiny of Certain Activities

In determining the appropriate manner to achieve funding reductions, agency heads must also ensure that their agencies have risk management strategies and internal controls in place that provide heightened scrutiny of certain types of activities funded from sequestered accounts. To the extent these accounts remain at the post-sequestration funding level, increased scrutiny should apply to:

- hiring new personnel;¹
- issuing discretionary monetary awards to employees, which should occur only if legally required until further notice; and
- incurring obligations for new training, conferences, and travel (including agency-paid travel for non-agency personnel).

In light of the reduced budgetary resources available due to sequestration, expending funds on these activities at this time would in many circumstances not be the most effective way to protect agency mission to the extent practicable. Therefore, agency leadership should review processes and controls around these activities, and ensure that these activities are conducted only

¹ Agencies must also ensure that appropriate controls are in place to prevent the increased use of contractors to perform work due to any restrictions on hiring. Agencies should bear in mind the statutory restrictions contained in 10 U.S.C. 2461 and 41 U.S.C. 1710 on the conversion of functions from performance by Federal employees to performance by contractors.

to the extent they are the most cost-effective way to maintain critical agency mission operations under sequestration.

Please contact your OMB Resource Management Office (RMO) if you have any questions about or need assistance with this guidance.

FEB 21 2013

MEMORANDUM FOR: SEE DISTRIBUTION

SUBJECT: Total Force Management and Budgetary Uncertainty

- Reference: (a) Deputy Secretary of Defense Memorandum, "Handling Budget Uncertainty in Fiscal Year 2013", dated 10 January 2013
(b) Under Secretary of Defense of Personnel & Readiness Memorandum, "Prohibition on Converting Certain Functions to Contract Performance", dated 1 December 2011
(c) Deputy Secretary of Defense Memorandum, "Guidance for Limitation on Aggregate Annual Amount Available for Contracted Services", dated 3 June 2012
(d) Under Secretary of Defense of Personnel & Readiness Memorandum, "Guidance Related to the Utilization of Military Manpower to Perform Certain Functions", dated 2 March 2012
(e) DoD Instruction 1100.22, "Guidance for Determining Workforce Mix", dated 12 April 2010

This memorandum provides guidance for the management of the Total Force (active and reserve military, government civilians, and contracted support) during this time of continued budget uncertainty. The Department must maintain the viability of the All-Volunteer Force and sustain its operational readiness in the most cost-conscious manner. To do so, the Department must also maintain a properly sized, highly capable civilian workforce that is aligned to mission and workload; complements and delivers support to the military; supports the well-being of the warfighters and their families; and recognizes evolving critical demands while guarding against an erosion of organic skills and an overreliance on contracted services. Finally, the use of contracted services must continue to be reviewed to ensure the most appropriate, cost effective, and efficient support aligned to mission.

As DoD Components begin to take actions consistent with reference (a) – including the implementation of civilian hiring freezes, the release of term or temporary civilian employees, and other personnel related actions – they must be mindful of the Department's obligations to manage the Total Force consistent with Title 10 statutory requirements and references (b) through (e). These considerations are required in planning for the potential reduction or unavailability of fiscal year 2013 funds (with the exception of funds for military personnel) associated with sequester or the continuing resolution.

Consistent with section 2461 of title 10, United States Code, and reference (b), the conversion of functions or work performed by, or designated for performance by, civilian employees to contract performance without a public-private competition is expressly prohibited. Currently such competitions are prohibited under section 325 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84). Workload currently performed by, or designated for performance by, civilian employees may not be transferred or assumed by contractors performing against prior year obligations. Most importantly, contractors may not perform inherently governmental work, and section 2464 of title 10, United States Code expressly prohibits contracting of certain functions (enclosure 1). DoD

Component heads, as well as field commanders and line managers, are urged to be particularly vigilant to prevent the inappropriate conversion of work to contract performance.

Additionally, limits on contracted support spending enacted in section 808 of the National Defense Authorization Act for Fiscal Year 2012, Public Law 112-81, and implemented via reference (c) still apply. The statutory obligations in section 2330a of title 10, United States Code, to minimize reliance on contract performance of work closely associated with inherently governmental functions (see illustrative examples at enclosure 2) remain in force. Moreover, the guidance in reference (c) to achieve reductions of such reliance, as well as in staff augmentation contract support, remains in effect. Planning for budgetary uncertainty does not relieve DoD Components from compliance with these mandates.

As we continue planning during this period of budgetary uncertainty, the Department must also ensure military personnel are not inappropriately utilized, particularly in a manner that may degrade readiness or result in unnecessary costs to the Department. Consistent with references (d) and (e), except in extraordinary, and typically temporary, circumstances, individual military personnel or units should not perform functions or work that is not military essential (see illustrative examples in enclosure 3). The use of "borrowed" or "repurposed" military can harm readiness and operational capabilities by diverting service members from training or performance of military essential functions, particularly when military members are required to work outside of their occupational specialties. In addition to the risk of hollowing the force, this practice could adversely impact the All-Volunteer Force and have negative effects on the recruitment, retention, and career progression of individual members. During this period of budgetary uncertainty, military units may perform work previously performed by civilian employees or contracted support as part of a rotation base for an operational capability (if this has been reflected in Operational Orders), provided this is done on a limited and temporary basis. In the event of sequestration, where military personnel accounts are exempted, there may be instances where military personnel can be used on a short-term, emergency basis to satisfy a demand that is of mission critical importance.

Please ensure maximum distribution of this memorandum throughout your organization, particularly to your manpower, personnel, and resourcing communities. Questions regarding application and implementation of this memorandum should be addressed to the following points of contact within the Office of Total Force Planning & Requirements: Mr. Thomas Hessel (thomas.hessel@osd.mil or 703-697-3402), and Ms. Amy Parker (amy.parker@osd.mil or 703-697-1735). Thank you for your support in the mitigating risks from budgetary uncertainty that could adversely affect the sustainability and readiness of the All Volunteer Force.

MEMORANDUM FOR DISTRIBUTION

SUBJECT: Planning Guidance for Potential Civilian Furloughs

- References:**
- (a) Letter from Secretary of Defense Leon Panetta to the Honorable Joseph R. Biden, Jr., President of the Senate, dated 20 February 2013
 - (b) DoD Fact Sheet: Year-Long Sequestration and Continuing Resolution
 - (c) Secretary of Defense Memorandum for Department of Defense Civilian Employees, subject: Preparations for Potential Sequestration on 1 March 2013 and Furlough Notifications, dated 20 February 2013
 - (d) DoD Fact Sheet: Furlough Planning

1. On 20 February 2013, as required by statute, Secretary of Defense Leon Panetta notified the President of the Senate, Speaker of House, and other Congressional leaders of the possibility that the Department of Defense may be forced to furlough members of its civilian workforce (see reference (a)). These furloughs could result from the budgetary impacts of a year-long Continuing Resolution coupled with the across-the-board Federal spending cuts required by the Budget Control Act of 2011, commonly referred to as "sequestration" (see reference (b)).

2. As outlined in reference (c), the Administration is working closely with Congress to reach an agreement on a balanced deficit reduction plan that would avoid sequestration. In the event these efforts fail, then civilian furloughs could result. To prepare our people for this possibility, DoD published some general facts about the mechanics of implementing furloughs (see reference (d)). This memorandum provides commanders and budget submitting officers with further Department of the Navy (DON) guidance to plan for furloughs if they become necessary.

3. The impact of furloughs on our civilian workforce is not lost on DON leadership, and we hope to avert them if possible. However, simple prudence dictates that we plan for the worst and prepare our people for the possibility that furloughs may indeed occur. The following guidance reflects a consistent DoD-wide approach that will impact the entire Department in a similar manner.

SUBJECT: Planning for Potential Civilian Furloughs

4. If sequestration triggers, all appropriated fund employees, regardless of the funding source, would be subject to administrative furlough. Few, if any, exceptions will be granted, and any exception must come from one of the following six categories:

a. Civilians deployed in a combat zone or civilian mariners deployed onboard ships at sea (Military Sealift Command ships in a maintenance status overseas are subject to furlough of civilian mariners);

b. Civilians directly responsible for safety of life or property – only to the extent needed to prevent unacceptable risk or catastrophic gaps in the safety and protection of life or property;

c. Civilian employees paid with non-appropriated funds;

d. Employees exempt by law (i.e., employees appointed by the President with the advice and consent of the Senate – (PAS));

e. Foreign nationals;

f. All medical service civilian employees are subject to furlough except those that provide 24-hour inpatient care or emergency service, and personnel providing ancillary services directly supporting the 24-hour inpatient care and emergency services.

5. To prepare for the administrative furlough, all employees will initially be defaulted to furlough status. Absent approval from the Assistant Secretary of the Navy (Manpower and Reserve Affairs) (ASN (M&RA)) and the Secretary of the Navy, BSO Commanders are limited to identifying those civilian employees who meet the stringent exception requirements outlined subparagraphs (a) through (f) above. Exceptions previously identified during shutdown or emergency (unplanned) events do not apply to administrative furlough exceptions — mission critical employees, while still identified as such, are not excepted during an administrative (planned) furlough. Any additional DON requests for exceptions will be submitted for consideration to the Office of the Secretary of Defense (Personnel & Readiness).

6. Any requests for exceptions must be submitted to the ASN (M&RA) by 27 February 2013 for consideration and approval by the Secretary of the Navy. Requests for exceptions should be submitted via the Director, Office of Civilian Human Resources in the format found in enclosure (1). This form will provide us with details on requested furlough exemptions as well as an estimate of lost furlough labor savings accompanying the requested exemptions.

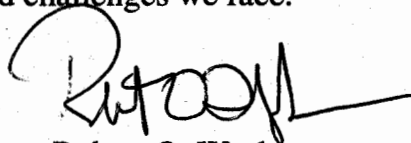

SUBJECT: Planning for Potential Civilian Furloughs

7. All administrative furloughs will be limited to 176 hours, approximately 22 workdays. For general planning, furloughs typically will be executed in increments of approximately 16 hours per pay period to mitigate the impact on the mission and employees. The hours/time for the administrative furloughs will be determined by Budget Submitting Office (BSO) Commanders and shall be dependent upon mission requirements. Plans to deviate from the general planning guidelines will be coordinated with ASN (M&RA) as there are potential ramifications to the employees and commands if modified plans are adopted. BSO Commanders may delegate the coordination and scheduling of the furloughs as appropriate for carrying out the mission requirements. (Note: Scheduling of furlough days for employees is subject to local bargaining requirements.)

8. During the furlough, DON leaders and managers must control leave and absences for the military and civilian workforce in order to mitigate the impact of the furlough on mission and readiness. Major Commands and the United States Marine Corps may not use contract funding or premium pay (e.g., compensatory time or overtime) to offset lost time under the furlough. Further, where employees are excepted from the administrative furlough, managers may deny paid personal leave if mission requirements are jeopardized.

9. We recognize that over the course of the furlough, DON's civilian workforce capability will be reduced by approximately 20 percent. Our Sailors and Marines will not be expected to replace that capacity and services will be negatively impacted. Additionally, the DON cannot transfer inherently governmental work to the contractor workforce. Finally, our furloughed civilians are prohibited by law from working from home or on-site (officially or unofficially) during their furlough days — employees and their supervisors will be subject to Anti-Deficiency Act violations and may be subject to disciplinary action.

10. We will continue to work with DoD to mitigate the impacts of the fiscal uncertainty on our workforce and our mission. I appreciate your dedication and ongoing service against the backdrop of the unprecedented challenges we face.

MEMORANDUM FOR DEPARTMENT OF DEFENSE CIVILIAN EMPLOYEES

SUBJECT: Preparations for Potential Sequestration on March 1 and Furlough Notifications

For more than a year and a half, the President, the Joint Chiefs of Staff, and I have repeatedly voiced our deep concerns over the half a trillion dollars in automatic across-the-board cuts that would be imposed under sequestration and the severe damage that it would do to both this Department and our national defense.

The Administration continues to work with Congress to reach agreement on a balanced deficit reduction plan to avoid these cuts. Meanwhile, because another trigger for sequestration is approaching on March 1st, the Department's leadership has begun extensive planning on how to implement the required spending reductions. These cuts will be magnified because the Department has been forced to operate under a six-month continuing resolution that has already compelled us to take steps to reduce spending.

In the event of sequestration, we will do everything we can to continue to perform our core mission of providing for the security of the United States, but there is no mistaking that the rigid nature and scale of the cuts forced upon this Department will result in a serious erosion of readiness across the force.

I have also been deeply concerned about the potential direct impact of sequestration on you and your families. We are doing everything possible to limit the worst effects on DoD personnel – but I regret that our flexibility within the law is extremely limited. The President has used his legal authority to exempt military personnel funding from sequestration, but we have no legal authority to exempt civilian personnel funding from reductions. As a result, should sequestration occur and continue for a substantial period, DoD will be forced to place the vast majority of its civilian workforce on administrative furlough.

Today, I notified Congress that furloughs could occur under sequestration. I can assure you that, if we have to implement furloughs, all affected employees will be provided at least 30 days' notice prior to executing a furlough and your benefits will be protected to the maximum extent possible. We will work to ensure that furloughs are executed in a consistent and appropriate manner, and we will also continue to engage in discussions with employee unions as appropriate. More information and answers to frequently asked questions regarding furloughs can be found at www.opm.gov/furlough, under the "administrative furlough" section.

OSD001644-13

Working with your component heads and supervisors, the Department's leaders will continue to keep you informed. As we deal with these difficult issues, I want to thank you for your patience, hard work, and continued dedication to our mission of protecting the country.

Our most important asset in the Department is our world-class personnel. You are fighting every day to keep our country strong and secure, and rest assured that the leaders of this Department will continue to fight with you and for you.

SECRETARY OF DEFENSE
1000 DEFENSE PENTAGON
WASHINGTON, DC 20301-1000

FEB 20 2013

The Honorable Joseph R. Biden, Jr.
President of the Senate
United States Senate
S-212 Capitol Building
Washington, DC 20510

Dear Mr. President:

In accordance with statute, I am providing a report on potential civilian furloughs within the Department of Defense. Specifically, title 10, U.S.C., section 1597(e), provides that the Secretary of Defense “may not implement any involuntary reduction or furlough of civilian positions ... until the expiration of the 45-day period beginning on the date on which the Secretary submits to Congress a report setting forth the reasons why such reduction or furloughs are required and a description of any change in workload or positions requirements that will result from such reductions or furloughs.” This letter provides the report and information required by this section.

We remain hopeful that the Administration and Congress will reach an agreement to avoid the across-the-board reductions in Federal spending required by the Budget Control Act of 2011, commonly known as “sequestration.” The Department must, however, continue to plan for such reductions should Congress not take action prior to sequestration taking effect on March 1, 2013. If sequestration is not avoided, the magnitude of the potential reductions will damage force readiness, slow major acquisition programs, and necessitate civilian furlough actions that will negatively affect our Federal civilian workforce. Overall, sequestration will put us on a path toward a hollow force and inflict serious damage on our national security.

If faced with sequestration, the Defense Department will be forced to forego critical objectives. As we make the difficult decisions about how to maintain our national security to the greatest extent we can in light of these destructive cuts, the Department will have to consider furloughs across the entire defense civilian workforce in order to meet the fiscal target mandated by sequestration. Because there will be no change in the requirements for work to be performed by the Department’s workforce to maintain our national security, the workload on each employee and the requirements for each position that will result from such furloughs will be increased beyond what can reasonably be achieved. The furloughs contemplated by this notice will do real harm to our national security. Moreover, we understand that furloughs would have serious adverse effects on the livelihood, morale, and productivity of our workforce, and where possible we will take steps to minimize those effects.

Nevertheless, if required, it is my goal to apply furlough actions in a consistent and equitable manner across the Department, though variations may occur because of the mission and budgetary requirements of each military department and agency. Each military department and agency within the Department will prepare detailed sequestration plans, and the Department will submit an updated plan for operations under a sequestration to Congress, as required by section 116(b) of the Continuing Appropriations Resolution, 2013, Public. Law 112-175.

Finally, if furlough actions prove to be necessary, every affected employee would be subject to furlough for up to 22 discontinuous work days (176 total hours), the maximum number of furlough days allowed without triggering additional notification requirements that follow reduction-in-force procedures (though such an extended furlough action would still constitute a temporary placement on non-pay/non-duty status, rather than a permanent separation from service). We will provide affected employees the requisite advance notice before a furlough occurs. The Department is also engaged in the necessary and appropriate discussions with employee unions, and will discharge any applicable collective bargaining obligations that may arise. In the event an agreement is reached that averts sequestration and restores needed funding, we will immediately cancel any furloughs that have resulted and cease furlough planning.

While furloughs would be disruptive and damaging to our ability to carry out the defense mission, there are no viable alternatives for the Department if sequestration actually occurs. We will continue to work with Congress in an effort to avoid sequestration and furloughs. A similar letter is being sent to the Speaker of the House and the defense oversight committees.

Sincerely,

The furloughs contemplated by this notice will do real harm to our national security. Moreover, we understand that furloughs would have serious adverse effects on the livelihood, morale, and productivity of our workforce, and where possible we will take steps to minimize those effects.

Nevertheless, if required, it is my goal to apply furlough actions in a consistent and equitable manner across the Department, though variations may occur because of the mission and budgetary requirements of each military department and agency. Each military department and agency within the Department will prepare detailed sequestration plans, and the Department will submit an updated plan for operations under a sequestration to Congress, as required by section 116(b) of the Continuing Appropriations Resolution, 2013, Public. Law 112-175.

Finally, if furlough actions prove to be necessary, every affected employee would be subject to furlough for up to 22 discontinuous work days (176 total hours), the maximum number of furlough days allowed without triggering additional notification requirements that follow reduction-in-force procedures (though such an extended furlough action would still constitute a temporary placement on non-pay/non-duty status, rather than a permanent separation from service). We will provide affected employees the requisite advance notice before a furlough occurs. The Department is also engaged in the necessary and appropriate discussions with employee unions, and will discharge any applicable collective bargaining obligations that may arise. In the event an agreement is reached that averts sequestration and restores needed funding, we will immediately cancel any furloughs that have resulted and cease furlough planning.

While furloughs would be disruptive and damaging to our ability to carry out the defense mission, there are no viable alternatives for the Department if sequestration actually occurs. We will continue to work with Congress in an effort to avoid sequestration and furloughs. A similar letter is being sent to the President of the Senate, the Speaker of the House, and the other defense oversight committees.

Sincerely,

cc:
The Honorable Peter J. Visclosky
Ranking Member

DoD Fact Sheet: Year-long Sequestration and Continuing Resolution

- **Sequestration: what gets cut in DoD:**
 - Except for military personnel funding, all parts of budget are cut (e.g., OCO funds).
 - Total FY13 reduction: \$46 billion or ~9% of total budget excluding military personnel
 - Beyond FY13, budgets reduced by \$50-55 billion a year through FY21.
 - Timing: largest cut takes place on March 1 (\$40 billion) with a smaller, second sequestration (\$6 billion) on March 27.
 - How applied:
 - For operating portion of budget, cuts must be equal in percentage terms for each budget account (e.g., Army active ops same as Navy reserve ops and Guard ops).
 - For investment portion of budget, cuts must be equal in percentage terms for each budget line item.
 - Very limited authority to move money around to correct imbalances and problems.
- **Continuing Resolution (CR): mechanics and problems:**
 - Will last at least six months (current expiration is March 27).
 - **This CR poses serious problems for DoD, especially if it is extended for an entire year.**
 - CR requires that we spend at same level as FY12, but in FY13 we are under a new strategy and needs are much different – **too many investment dollars, not enough operating dollars.**
 - CR does not permit DoD to start any new investment programs or increase production rates; must also buy exact same number/type of ships as last year.
 - **We are spending more on Afghan war than we planned two years ago, when we put together FY13 budget, and CR does not take this into account.**
 - Some of the CR problems may be solved as both appropriations Committees want to pass an appropriations bill which would offset some of the harmful effects of the CR.
 - Even if the CR is extended all year, we are working closely with Committees and hope that they will fix the worst of the problems (e.g., get money into the right appropriations and move money to fix OCO shortfalls).
- **However, a year-long sequestration and year-long CR in its current form, will require DoD to take much more drastic and irreversible actions.**
 - Result will be a readiness crisis and disruption of most investment programs.
 - Examples of actions and their effects:
 - **All Components will have to take the steps necessary to furlough civilians for up to 22 discontinuous work days (pay cuts of up to 20% for almost 6 months).**
 - Army will reduce training and maintenance for later deploying units to the point that about two-thirds of active brigade combat teams and most reserve teams (other than those teams in Afghanistan) will be at reduced readiness levels by the year's end.
 - Navy and Marine Corps will reduce readiness forcing cut backs on operations in critical areas such as the Pacific (up to one-third less naval presence in the Pacific).
 - Air Force will be forced to cut flying hours and weapon system maintenance leaving most flying units below acceptable readiness standards by the end of FY13.
 - TRICARE could be short up to \$3 billion in needed funds, which could lead to denials of elective services for active-duty dependents and retirees.
 - DoD will make cuts of roughly 9% in each of more than 2,500 investment line items – actions that will lead to delays in weapon programs and increases in unit costs.

DoD Fact Sheet: Furlough Planning

- **Overall approach**
 - Take other actions first while minimizing adverse effects on mission/readiness.
 - Consistency – all services/agencies take similar actions.
 - Most furloughed with limited exceptions:
 - Civilians deployed in combat zone;
 - Safety of life or property (only to extent needed to protect);
 - Employees paid with non-appropriated funds;
 - Employees exempt by law (Presidentially appointed, Senate confirmed);
 - Foreign nationals.
 - Exceptions must be approved by Component head.

- **Mechanics of furloughs**
 - Length: legal maximum for administrative furlough (w/o using RIF procedures) is 22 discontinuous work days (not to exceed 176 hours).
 - Maximum may be lower depending on schedule.
 - Timing: furloughs generally spread over maximum months; no more than 16 hours per pay period.
 - Local commanders determine exact days/hours (subject to local bargaining).

- **Consultation and notification**
 - Engage with unions as required.
 - Notify employees of proposal to furlough (permit response).
 - Notify employees of decision to furlough (appeal permitted).

- **Schedule**
 - February 20: Congressional notification and begin union bargaining.
 - Late March: Provide furlough proposal to employees.
 - Early April: Provide furlough decision to employees.
 - Late April: Furloughs begin.

- **Cancel or reduce furloughs if Congress acts to reduce or eliminate budgetary uncertainty**

MEMORANDUM FOR THE HEADS OF EXECUTIVE DEPARTMENTS AND AGENCIES

FROM: Jeffrey D. Zients 
Deputy Director for Management

SUBJECT: Planning for Uncertainty with Respect to Fiscal Year 2013 Budgetary Resources

In the coming months, executive departments and agencies (agencies) will confront significant uncertainty regarding the amount of budgetary resources available for the remainder of the fiscal year. In particular, unless Congress acts to amend current law, the President is required to issue a sequestration order on March 1, 2013, canceling approximately \$85 billion in budgetary resources across the Federal Government. Further uncertainty is created by the expiration of the Continuing Appropriations Resolution, 2013 (CR) on March 27, 2013. This memorandum directs agencies to take certain steps to plan for and manage this budgetary uncertainty.

The Administration continues to urge Congress to take prompt action to address the current budgetary uncertainty, including through the enactment of balanced deficit reduction to avoid sequestration. Should Congress fail to act to avoid sequestration, there will be significant and harmful impacts on a wide variety of Government services and operations. For example, should sequestration remain in place for an extended period of time, hundreds of thousands of families will lose critical education and wellness services through Head Start and nutrition assistance programs. The Department of Defense will face deep cuts that will reduce readiness of non-deployed units, delay needed investments in equipment and facilities, and cut services for military families. And Federal agencies will likely need to furlough hundreds of thousands of employees and reduce essential services such as food inspections, air travel safety, prison security, border patrols, and other mission-critical activities.

At this time, agencies do not have clarity regarding the manner in which Congress will address these issues or the amount of budgetary resources that will be available through the remainder of the fiscal year. Until Congress acts, agencies must continue to prepare for the possibility that they will need to operate with reduced budgetary resources.

Prior to passage of the American Taxpayer Relief Act of 2012 (ATRA), the President was required to issue a sequestration order on January 2, 2013. Although the ATRA postponed this date by two months, agencies had already engaged in extensive planning for operations under post-sequestration funding levels before this postponement was effected. In light of persistent budgetary uncertainty, all agencies should continue these planning activities, in coordination with the Office of Management and Budget (OMB), and should intensify efforts to identify actions that may be required should sequestration occur.

Agencies should generally adhere to the following guiding principles, to the extent practicable and appropriate, in preparing plans to operate with reduced budgetary resources in the event that sequestration occurs:

- use any available flexibility to reduce operational risks and minimize impacts on the agency's core mission in service of the American people;
- identify and address operational challenges that could potentially have a significant deleterious effect on the agency's mission or otherwise raise life, safety, or health concerns;
- identify the most appropriate means to reduce civilian workforce costs where necessary – this may include imposing hiring freezes, releasing temporary employees or not renewing term or contract hires, authorizing voluntary separation incentives and voluntary early retirements, or implementing administrative furloughs (appropriate guidance for administrative furloughs can be found on the OPM website [\[here\]](#)); consistent with Section 3(a)(ii) of Executive Order 13522, allow employees' exclusive representatives to have pre-decisional involvement in these matters to the fullest extent practicable;
- review grants and contracts to determine where cost savings may be achieved in a manner that is consistent with the applicable terms and conditions, remaining mindful of the manner in which individual contracts or grants advance the core mission of the agency;
- take into account funding flexibilities, including the availability of reprogramming and transfer authority; and,
- be cognizant of the requirements of the Worker Adjustment and Retraining Notification (WARN) Act, 29 U.S.C. §§ 2101-2109.

While agency plans should reflect intensified efforts to prepare for operations under a potential sequestration, actions that would implement reductions specifically designed as a response to sequestration should generally not be taken at this time. In some cases, however, the overall budgetary uncertainty and operational constraints may require that certain actions be taken in the immediate- or near-term. Agencies presented with these circumstances should continue to act in a prudent manner to ensure that operational risks are avoided and adequate funding is available for the remainder of the fiscal year to meet the agency's core requirements and mission. Should circumstances require an agency to take actions that would constitute a change from normal practice and result in a reduction of normal spending and operations in the

immediate- or near-term, the agency must coordinate closely with its OMB Resource Management Office (RMO) before taking any such actions.

All agencies should work with their OMB RMO on the appropriate timing to submit draft contingency plans for operating under sequestration for review. Furthermore, should Congress take action that affects the current budgetary uncertainty, OMB will provide agencies with additional guidance as appropriate.

SUBJECT: Handling Budgetary Uncertainty in Fiscal Year 2013

Two sources of uncertainty are creating budgetary challenges for the Department of Defense (DoD) in 2013. The first is the fact that the Department is operating under a Continuing Resolution (CR) through at least March 27, 2013. Because most operating funding was planned to increase from Fiscal Year (FY) 2012 to FY 2013, but is instead being held at FY 2012 levels under the CR, funds will run short at current rates of expenditure if the CR continues through the end of the fiscal year in its current form. The Secretary will continue to urge the Congress to enact appropriations bills for FY 2013. But if the CR were to be extended through the end of the fiscal year, it would hinder our ability to maintain a ready force.

The second source of uncertainty is the potential sequestration recently deferred from January 2, 2013 to March 1, 2013 by the American Taxpayer Relief Act of 2012. The possibility of sequestration occurring as late as the beginning of the sixth month of the fiscal year creates significant additional uncertainty for the management of the Department.

Either of these problems, in isolation, would present serious budget execution challenges to the Department, negatively impacting readiness and resulting in other undesirable outcomes. This situation would be made even more challenging by the need to protect funds for wartime operations.

Near-Term Actions

Given the overall budgetary uncertainty faced by the Department, and in particular the immediate operational issues presented by the CR, it is prudent to take certain steps now in order to help avoid serious future problems. I therefore authorize all Defense Components to begin implementing measures that will help mitigate our budget execution risks. For now, and to the extent possible, any actions taken must be reversible at a later date in the event that Congress acts to remove the risks I have described. The actions should be structured to minimize harmful effects on our people and on operations and unit readiness.

Categories of approved actions are identified in Table 1. The authority to implement these actions shall remain in effect until they are revoked in a subsequent memorandum from my office. If Components believe they must take actions that go beyond the categories listed in Table 1, they should present the options for my review and approval prior to their implementation.

Intensified Planning for Longer-Term Budgetary Uncertainty

Given the added challenge of a potential sequestration in March, we must also intensify efforts to plan future actions that might be required should that happen. This planning does not assume these unfortunate events will occur, only that we must be ready.

As they formulate draft plans, Components should follow the guidance that directs the Department to take all possible steps to mitigate harmful effects associated with this budgetary uncertainty and to maintain a strong defense. The details of the guidance are summarized below:

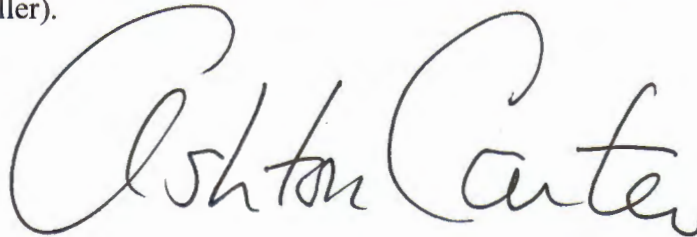

- For the operating portions of the DoD budget:
 - Exempt all military personnel funding from sequestration reductions, in accordance with the decision made by the President in July 2012.
 - Fully protect funding for wartime operations.
 - Fully protect Wounded Warrior programs.
 - To the extent feasible, protect programs most closely associated with the new defense strategy.
 - Reduce civilian workforce costs using the following actions (all subject to mission-critical exemptions, and appropriate consultation with union representatives consistent with Executive Order 13522):
 - Release temporary employees and do not renew term hires.
 - Impose hiring freezes.
 - Authorize voluntary separation incentives and voluntary early retirements to the extent feasible.
 - Consider the possibility of furloughs of up to 30 calendar days or 22 discontinuous workdays.
 - To the extent feasible, protect family programs.

- To the extent feasible, protect funding most directly associated with readiness; focus the necessary cuts on later deploying units.
- For the investment portions of the DoD budget (procurement, RDT&E, construction):
 - Protect investments funded in Overseas Contingency Operations if associated with urgent operational needs.
 - To the extent feasible, protect programs mostly closely associated with the new defense strategy.
 - Take prudent steps to minimize disruption and added costs (e.g., avoid penalties associated with potential contract cancellations where feasible; prudently manage construction projects funded with prior-year monies).

While we are hopeful of avoiding budgetary problems, draft Component plans should reflect the possibility that we may have to operate under a year-long CR and that sequestration takes place. Table 2 shows the types of information that should be included in the plans. Components should submit these draft plans to the Under Secretary of Defense (Comptroller) by February 1, 2013. The Under Secretary of Defense (Comptroller) will work with the Components to adjust this schedule if changes are required due to the deadlines for the preparation of the FY 2014 President's Budget submission.

I appreciate your patience as we work through these difficult budgetary times. The Department will continue to do its best to resolve these budgetary uncertainties in a manner that permits us to support our current defense strategy and maintain a strong defense.

If addressees have questions about this memorandum, they should direct them to the Under Secretary of Defense (Comptroller).

As stated

Table 1. Categories of Approved Near-Term Actions

- Freeze civilian hiring (with exceptions for mission-critical activities*).
- Provide authority to terminate employment of temporary hires and to notify term employees that their contracts will not be renewed (with exceptions for mission-critical activities and when appropriate in terms of personnel timing*).
- Reduce base operating funding.
- Curtail travel, training, and conferences (all with exceptions for mission-critical activities* including those required to maintain professional licensure or equivalent certifications).
- Curtail facilities maintenance or Facilities Sustainment, Restoration, and Modernization (FSRM) (with exceptions for mission-critical activities*).
 - If necessary, services/agencies are authorized to fund FSRM at levels below current guidance.
- Curtail administrative expenses such as supply purchases, business IT, ceremonies, etc. (with exceptions for mission-critical activities*).
- Review contracts and studies for possible cost-savings.
- Cancel 3rd and 4th quarter ship maintenance availabilities and aviation and ground depot-level maintenance activities. Take this action no earlier than February 15, 2013.
- Clear all R&D and production contracts and contract modifications that obligate more than \$500 million with the USD(AT&L) prior to award.
- For Science and Technology accounts, provide the USD(AT&L) and the Assistant Secretary of Defense (Research & Engineering) with an assessment of the impact that budgetary uncertainty may have on meeting Departmental research priorities.

*Approvals will be granted by Component heads or by senior officials designated by the Component head.

Components with personnel serving Combatant Commanders (COCOMs) must consult with the COCOMs before implementing actions that affect them. Disputes will be brought to the attention of the Chairman of the Joint Chiefs of Staff for further resolution.

Components receiving reimbursements should coordinate with customer before taking actions that would affect the customer's mission.

Table 2. Information to Be Included in Draft Implementation Plans

The following information should be provided at the Component level. Information by commands and bases/installations is not required.

- For operating accounts, identify major actions to include, at a minimum:
 - Extent of civilian hiring freezes; expected number of temps/terms released; expected number, duration, and nature of furloughs.
 - Reductions in flying hours, steaming days, vehicle miles, and other operations/training/support activities that affect force readiness.
 - Areas of budgets experiencing disproportionate cuts.
- For investment accounts:
 - Plans for large programs (ACAT 1D and 1C, and MAIS programs).
 - Include major changes in unit buys, delays, etc.
 - Significant changes in all joint programs.
- Identify and prioritize any essential reprogramming actions with offsets.

SEC. 101. ENFORCING DISCRETIONARY SPENDING LIMITS.

Section 251 of the Balanced Budget and Emergency Deficit Control Act of 1985 is amended to read as follows:

2 USC 901.

“SEC. 251. ENFORCING DISCRETIONARY SPENDING LIMITS.

“(a) ENFORCEMENT.—

“(1) SEQUESTRATION.—Within 15 calendar days after Congress adjourns to end a session there shall be a sequestration to eliminate a budget-year breach, if any, within any category.

Deadline.

“(2) ELIMINATING A BREACH.—Each non-exempt account within a category shall be reduced by a dollar amount calculated by multiplying the enacted level of sequestrable budgetary resources in that account at that time by the uniform percentage necessary to eliminate a breach within that category.

“(3) MILITARY PERSONNEL.—If the President uses the authority to exempt any personnel account from sequestration under section 255(f), each account within subfunctional category 051 (other than those military personnel accounts for which the authority provided under section 255(f) has been exercised) shall be further reduced by a dollar amount calculated by multiplying the enacted level of non-exempt budgetary resources in that account at that time by the uniform percentage necessary to offset the total dollar amount by which outlays are not reduced in military personnel accounts by reason of the use of such authority.

“(4) PART-YEAR APPROPRIATIONS.—If, on the date specified in paragraph (1), there is in effect an Act making or continuing appropriations for part of a fiscal year for any budget account, then the dollar sequestration calculated for that account under paragraphs (2) and (3) shall be subtracted from—

“(A) the annualized amount otherwise available by law in that account under that or a subsequent part-year appropriation; and

“(B) when a full-year appropriation for that account is enacted, from the amount otherwise provided by the full-year appropriation for that account.

“(5) LOOK-BACK.—If, after June 30, an appropriation for the fiscal year in progress is enacted that causes a breach within a category for that year (after taking into account any sequestration of amounts within that category), the discretionary spending limits for that category for the next fiscal year shall be reduced by the amount or amounts of that breach.

“(6) WITHIN-SESSION SEQUESTRATION.—If an appropriation for a fiscal year in progress is enacted (after Congress adjourns to end the session for that budget year and before July 1 of that fiscal year) that causes a breach within a category for that year (after taking into account any prior sequestration of amounts within that category), 15 days later there shall be a sequestration to eliminate that breach within that category following the procedures set forth in paragraphs (2) through (4).

Deadline.

“(7) ESTIMATES.—

“(A) CBO ESTIMATES.—As soon as practicable after Congress completes action on any discretionary appropriation, CBO, after consultation with the Committees on the Budget of the House of Representatives and the Senate, shall provide OMB with an estimate of the amount of discretionary new budget authority and outlays for the current year, if any, and the budget year provided by that legislation.

Deadline.
Reports.

“(B) OMB ESTIMATES AND EXPLANATION OF DIFFERENCES.—Not later than 7 calendar days (excluding Saturdays, Sundays, and legal holidays) after the date of enactment of any discretionary appropriation, OMB shall transmit a report to the House of Representatives and to the Senate containing the CBO estimate of that legislation, an OMB estimate of the amount of discretionary new budget authority and outlays for the current year, if any, and the budget year provided by that legislation, and an explanation of any difference between the 2 estimates. If during the preparation of the report OMB determines that there is a significant difference between OMB and CBO, OMB shall consult with the Committees on the Budget of the House of Representatives and the Senate regarding that difference and that consultation shall include, to the extent practicable, written communication to those committees that affords such committees the opportunity to comment before the issuance of the report.

Consultation.

“(C) ASSUMPTIONS AND GUIDELINES.—OMB estimates under this paragraph shall be made using current economic and technical assumptions. OMB shall use the OMB estimates transmitted to the Congress under this paragraph. OMB and CBO shall prepare estimates under this paragraph in conformance with scorekeeping guidelines determined after consultation among the Committees on the Budget of the House of Representatives and the Senate, CBO, and OMB.

“(D) ANNUAL APPROPRIATIONS.—For purposes of this paragraph, amounts provided by annual appropriations shall include any discretionary appropriations for the current year, if any, and the budget year in accounts for which funding is provided in that legislation that result from previously enacted legislation.

“(b) ADJUSTMENTS TO DISCRETIONARY SPENDING LIMITS.—

“(1) CONCEPTS AND DEFINITIONS.—When the President submits the budget under section 1105 of title 31, United States Code, OMB shall calculate and the budget shall include adjustments to discretionary spending limits (and those limits as cumulatively adjusted) for the budget year and each outyear to reflect changes in concepts and definitions. Such changes shall equal the baseline levels of new budget authority and outlays using up-to-date concepts and definitions, minus those levels using the concepts and definitions in effect before such changes. Such changes may only be made after consultation with the Committees on Appropriations and the Budget of the House of Representatives and the Senate, and that consultation shall include written communication to such committees that affords such committees the opportunity to comment before official action is taken with respect to such changes.

“(2) SEQUESTRATION REPORTS.—When OMB submits a sequestration report under section 254(e), (f), or (g) for a fiscal year, OMB shall calculate, and the sequestration report and subsequent budgets submitted by the President under section 1105(a) of title 31, United States Code, shall include adjustments to discretionary spending limits (and those limits as adjusted) for the fiscal year and each succeeding year, as follows:

“(A) EMERGENCY APPROPRIATIONS; OVERSEAS CONTINGENCY OPERATIONS/GLOBAL WAR ON TERRORISM.—If, for any fiscal year, appropriations for discretionary accounts are enacted that—

“(i) the Congress designates as emergency requirements in statute on an account by account basis and the President subsequently so designates, or

“(ii) the Congress designates for Overseas Contingency Operations/Global War on Terrorism in statute on an account by account basis and the President subsequently so designates,

the adjustment shall be the total of such appropriations in discretionary accounts designated as emergency requirements or for Overseas Contingency Operations/Global War on Terrorism, as applicable.

“(B) CONTINUING DISABILITY REVIEWS AND REDETERMINATIONS.—(i) If a bill or joint resolution making appropriations for a fiscal year is enacted that specifies an amount for continuing disability reviews under titles II and XVI of the Social Security Act and for the cost associated with conducting redeterminations of eligibility under title XVI of the Social Security Act, then the adjustments for that fiscal year shall be the additional new budget authority provided in that Act for such expenses for that fiscal year, but shall not exceed—

“(I) for fiscal year 2012, \$623,000,000 in additional new budget authority;

“(II) for fiscal year 2013, \$751,000,000 in additional new budget authority;

“(III) for fiscal year 2014, \$924,000,000 in additional new budget authority;

“(IV) for fiscal year 2015, \$1,123,000,000 in additional new budget authority;

“(V) for fiscal year 2016, \$1,166,000,000 in additional new budget authority;

“(VI) for fiscal year 2017, \$1,309,000,000 in additional new budget authority;

“(VII) for fiscal year 2018, \$1,309,000,000 in additional new budget authority;

“(VIII) for fiscal year 2019, \$1,309,000,000 in additional new budget authority;

“(IX) for fiscal year 2020, \$1,309,000,000 in additional new budget authority; and

“(X) for fiscal year 2021, \$1,309,000,000 in additional new budget authority.

“(ii) As used in this subparagraph—

“(I) the term ‘continuing disability reviews’ means continuing disability reviews under sections 221(i) and 1614(a)(4) of the Social Security Act;

Definitions.

“(II) the term ‘redetermination’ means redetermination of eligibility under sections 1611(c)(1) and 1614(a)(3)(H) of the Social Security Act; and

“(III) the term ‘additional new budget authority’ means the amount provided for a fiscal year, in excess of \$273,000,000, in an appropriation Act and specified to pay for the costs of continuing disability reviews and redeterminations under the heading ‘Limitation on Administrative Expenses’ for the Social Security Administration.

“(C) HEALTH CARE FRAUD AND ABUSE CONTROL.—(i) If a bill or joint resolution making appropriations for a fiscal year is enacted that specifies an amount for the health care fraud abuse control program at the Department of Health and Human Services (75-8393-0-7-571), then the adjustments for that fiscal year shall be the amount of additional new budget authority provided in that Act for such program for that fiscal year, but shall not exceed—

“(I) for fiscal year 2012, \$270,000,000 in additional new budget authority;

“(II) for fiscal year 2013, \$299,000,000 in additional new budget authority;

“(III) for fiscal year 2014, \$329,000,000 in additional new budget authority;

“(V) for fiscal year 2016, \$395,000,000 in additional new budget authority;

“(VI) for fiscal year 2017, \$414,000,000 in additional new budget authority;

“(VII) for fiscal year 2018, \$434,000,000 in additional new budget authority;

“(VIII) for fiscal year 2019, \$454,000,000 in additional new budget authority;

“(IX) for fiscal year 2020, \$475,000,000 in additional new budget authority; and

“(X) for fiscal year 2021, \$496,000,000 in additional new budget authority.

Definition.

“(ii) As used in this subparagraph, the term ‘additional new budget authority’ means the amount provided for a fiscal year, in excess of \$311,000,000, in an appropriation Act and specified to pay for the costs of the health care fraud and abuse control program.

“(D) DISASTER FUNDING.—

“(i) If, for fiscal years 2012 through 2021, appropriations for discretionary accounts are enacted that Congress designates as being for disaster relief in statute, the adjustment for a fiscal year shall be the total of such appropriations for the fiscal year in discretionary accounts designated as being for disaster relief, but not to exceed the total of—

“(I) the average funding provided for disaster relief over the previous 10 years, excluding the highest and lowest years; and

“(II) the amount, for years when the enacted new discretionary budget authority designated as being for disaster relief for the preceding fiscal

year was less than the average as calculated in subclause (I) for that fiscal year, that is the difference between the enacted amount and the allowable adjustment as calculated in such subclause for that fiscal year.
