UNITED STATES ARMY

CAREER PROGRAM-29 CAREER INTERN PROGRAM

Welcome to the Army's Career Program for Installation Management, which is known as CP -29.

This program is home to more than 25,000 civilian employees in 23 commands and organizations. Our employees are an integral part of the Army's readiness team. They sustain installations that enable strong Soldiers and resilient Families for a mission-ready Army.

Army installations are communities that provide many of the same types of services expected from any small city such as department of public works, directorate of emergency services, and social service programs.

Timothy Weathersbee

CP-29 Career Program
Proponent

ABOUT THE PROGRAM

The Army Civilian Training, Education and Development System Career Intern Program targets recent graduates of trade and vocational schools, community colleges, universities, and other qualifying educational institutions or programs. To be eligible, applicants must apply within two years of degree or certificate completion.

Veterans who, due to military service, were unable to apply for positions, will have up to two years from their release or discharge from active duty, not to exceed six years after degree and/or certificate completion.

Selected applicants will be placed in a two-year career development program starting at a GS-7 target GS-11.

For more information, visit <http://www.imcom.army.mil/CP29.aspx>
