
Allison F. Stiller

Principal Civilian Deputy Assistant Secretary of the Navy Research, Development and Acquisition

Ms. Allison F. Stiller currently serves as the Principal Civilian Deputy, Assistant Secretary of the Navy for Research Development & Acquisition (ASN(RDA)). She assumed the position in June 2015 where her responsibilities include oversight and policy for Navy and Marine Corps research, development, and acquisition programs for shipbuilding, aviation, space, weapon systems, and communication systems. This portfolio includes management of more than 100,000 employees and an annual budget in excess of \$50 billion, as well as overseeing hundreds of technical developments and procurement programs for the Department of the Navy. Ms. Stiller also leads the Department's Senior Executive Acquisition Corps.

Ms. Stiller entered the Senior Executive Service in January 2004 and has spent over 25 years in the Department of Defense's acquisition community. Ms. Stiller has served in a number of shipbuilding acquisition positions throughout her career where she led in the development and procurement of complex ship programs in multiple phases of the acquisition life cycle. Prior to her current position, Ms. Stiller served as the Deputy Assistant Secretary of the Navy for Ship Programs. In this capacity, she was responsible for executive oversight of all naval shipbuilding and associated weapon systems programs, major ship conversions, and nuclear ship refueling, as well as the maintenance, modernization and disposal of in-service ships.

She has also served for four years as the Deputy Program Manager in the Amphibious Warfare Program Office, responsible for design, development, acquisition, and fleet introduction of amphibious ships and landing craft. She supervised over 40 individuals and managed four acquisition programs with a total value of \$16B. Ms. Stiller also served as Director for Naval and Commercial Construction in the Office of the Assistant Secretary of the Navy for Ship Programs where her responsibilities included oversight of amphibious and auxiliary ship construction and conversion programs, as well as shipbuilding industrial base matters. During her tenure, Ms. Stiller helped develop and promote initiatives that focused the nation's shipbuilding industry towards commercial viability. Ms. Stiller also served as Acquisition Manager in the early phases of the Virginia Class Submarine Program, as well as division director in the SEAWOLF Submarine program during the design and early construction phases of that program.

Ms. Stiller holds a BS in Systems Engineering from the University of Virginia and a MS in Engineering Management from Virginia Tech. She is also a graduate of the JFK School of Government's Senior Executive Fellows Program at Harvard University and the Defense Systems Management College.

Throughout her career, Ms. Stiller's leadership and performance has been recognized by numerous awards including the Presidential Rank Award (Distinguished and Meritorious) and the Department of the Navy's Superior and Meritorious Civilian Service awards.
